GFP
Brightfield
ActD + EGFP
SePTP2
SePTP2mut
AcPTP

Figure S1. Transient expression of SePTP2 induced apoptosis in Sf21 cells. EGFP expression in Sf21 cells at 48 hours post transfection with pIB-EGFP + ActD (ActD + EGFP), pIB-SePTP2 (SePTP2), pIB-SePTP2mut (SePTP2mut), pIB-AcPTP (AcPTP), pIB-EGFP (EGFP), pIB-DESTmod (DESTmod) and mock. Apoptotic bodies are indicated by white circles and arrows.
