Crossroads-World. DESIRED OBJECTIVES

TEAM	

DESIRED OBJECTIVES FOR 2050-2080

Each team will agree on the objectives for the period 2050-2080 before performing the simulations. However, the team is free to modify the desired objectives throughout the game.

O1: Stabilization of the average temperature increase compared to pre-industrial levels below _____ºC.

O2: Well-being: Goal for the entire world population for 2050-2080 (final energy consumption per capita as approximation): _____GJ per capita.
