Table S5. Comparison of Diabetes prevalence determined by self-reports and HbA1c level

		Self-reported Diabetes diagnosis		
		No	**Yes**	Total
HbA1c ≥ 6.50%	**No**	3712	15	3727
	Yes	246	27	273
	Total	3958	42	4000

1. Self-reports of previous diagnosis by doctors or nurses (yes/no) were used for comparison.
2. HbA1c cut-off of 6.50% (yes/no) was used for comparison.
