	Copy number	Fraction
T^+ copies	42	52%
Conventional T^+ copies	17	21%
T^- copies	22	27%
Total	81	

Figure S12. Random Dip_a copies present in the *A. bullata* genome but absent in homologous loci of the *J. juculus* genome. Nucleotide sequences are highlighted as follows: PASs, strong pol III terminators, medium terminators, rudimentary terminators, and oligo(A). Conventional T^+ copies do not contain either a terminator or an oligo(A).
