cellular process 1041
metabolic process 943
response to stimulus 285
biological regulation 280
regulation of biological process 243
cellular component organization or biogenesis 228
localization 117
signaling 86
positive regulation of biological process 44
multicellular organismal process 39
developmental process 38
multi−organism process 35
reproduction 31
reproductive process 31
negative regulation of biological process 30
immune system process 8
cell proliferation 6
biological adhesion 5
detoxification 5
locomotion 3
nitrogen utilization 2
carbon utilization 1
growth 1
rhythmic process 1
cell 1155
cell part 1155
organelle 853
membrane 598
membrane part 535
organelle part 433
protein−containing complex 432
extracellular region 57
membrane−enclosed lumen 50
cell junction 27
symplast 27
other organism 9
other organism part 9
supramolecular complex 9
extracellular region part 4
binding 1110
catalytic activity 845
structural molecule activity 252
transporter activity 105
transcription regulator activity 98
molecular function regulator 69
antioxidant activity 26
molecular transducer activity 11
nutrient reservoir activity 9
molecular carrier activity 2
protein tag 2
500
