cellular process 968
metabolic process 826
response to stimulus 278
biological regulation 266
regulation of biological process 227
cellular component organization or biogenesis 198
localization 121
signaling 63
positive regulation of biological process 41
multicellular organismal process 31
developmental process 29
multi−organism process 29
reproduction 29
reproductive process 29
negative regulation of biological process 25
biological adhesion 9
detoxification 9
immune system process 7
cell proliferation 4
locomotion 2
nitrogen utilization 2
carbon utilization 1
rhythmic process 1
cell 1072
cell part 1072
organelle 765
membrane 586
membrane part 522
protein−containing complex 340
organelle part 334
extracellular region 42
membrane−enclosed lumen 40
cell junction 21
symplast 21
other organism 14
other organism part 14
extracellular region part 5
supramolecular complex 1
binding 1119
catalytic activity 824
structural molecule activity 159
transporter activity 98
transcription regulator activity 92
molecular function regulator 61
antioxidant activity 26
nutrient reservoir activity 9
molecular carrier activity 6
protein tag 4
molecular transducer activity 2
