There was an error in the original publication [1]. We misunderstood how PROSPERO registration numbers worked then, so we thought that any number available on the website could work. We have removed the PROSPERO number (CRD42020210948) from the article.

A correction has been made to Methods, Paragraph 1 on the first line:

"The study was systematically reviewed following the Preferred Reporting Items for Systematic Reviews and Meta-analyses (PRISMA) guidelines [26]."

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
