There was an error in the original publication [1]. In Abstract section, Paragraph 1, the unit is incorrect. The correct value should be "500 Da" (Dalton), not "500 kDa" (kilodalton).

The correct sentence should be "Regarding biostimulators, high-molecular-weight peptides (exceeding 500 Da) exhibit limited cutaneous bioavailability, underscoring the need for low-molecular-weight geroprotective compounds."

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
