

## Supplementary material

Figure S1. Study design.

Figure S1. Number of patients with BEC < 150 cells/ $\mu$  at least twice and FeNO < 25 ppb during baseline, and the overlap of these criteria for the formation of the T2 low<sub>150</sub> group (A). Number of patients with BEC < 300 cells/ $\mu$  at least twice and FeNO < 25 ppb during baseline, and the overlap of these criteria for the formation of the T2 low<sub>300</sub> group (B). Patients in the T2 low<sub>150</sub> were included in the T2 low<sub>300</sub> group.
