† All papers published in this volume are presented at the 9th Mechanical Engineering, Science and Technology International Conference (MEST 2025), Samarinda, Indonesia, 11–12 December 2025.

The 9th Mechanical Engineering, Science and Technology International Conference (MEST 2025), organized by the Department of Mechanical Engineering, Universitas Muhammadiyah Kalimantan Timur, was successfully conducted on 11–12 December 2025 in Samarinda, Indonesia. The conference was held in conjunction with the 11th International Summit on Science, Technology, and Humanity (ISETH 2025), hosted by Universitas Muhammadiyah Surakarta. MEST 2025 served as an international platform for researchers, academicians, engineers, scientists, industry practitioners, and students to exchange knowledge, present recent scientific findings, and discuss emerging challenges and opportunities in the broad fields of mechanical engineering, materials science, manufacturing, energy systems, computational engineering, and advanced technologies. The conference aimed to strengthen interdisciplinary collaboration and promote innovative solutions addressing global technological and sustainability challenges.
