Error in Institutional Review Board Statement and Informed Consent Statement

In the published publication [1], the Institutional Review Board Statement and Informed Consent Statement were missing. The updated version added "Institutional Review Board Statement: The animal study protocol was conducted in accordance with Declaration of Helsinki, and approved by the Research Ethics Committee of the Lagos State University (approval number: LASU/24/REC/096, approval date: 6 January 2025)" and "Informed Consent Statement: Informed consent for participation was obtained from all subjects involved in the study."

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
