CY1 VS AY1

Aminoacyl-tRNA biosynthesis
Glucosinolate biosynthesis
Valine, leucine and isoleucine degradation
Linoleic acid metabolism
Biosynthesis of amino acids
alpha-Linolenic acid metabolism
Propanoate metabolism
Monobactam biosynthesis
2-Oxocarboxylic acid metabolism
Biosynthesis of various secondary metabolites - part 2
D-Arginine and D-ornithine metabolism
Photosynthesis
Phenylalanine, tyrosine and tryptophan biosynthesis
Valine, leucine and isoleucine biosynthesis
Cyanoamino acid metabolism
ABC transporters
Ubiquinone and other terpenoid-quinone biosynthesis
Sulfur metabolism
Lysine biosynthesis
Tryptophan metabolism
