# Message from the Editor-in-Chief

*Fishes* is a multidisciplinary open access journal focusing on reports of original research and critical reviews and synthesis from the broad area of fishes and aquatic animals. The ultimate objective of *Fishes* is to facilitate the discovery of connections between research areas, advancing science and filling knowledge gaps, and providing solutions for all present and future issues encountered in the sector of fisheries and aquaculture. As Editor-in-Chief, I encourage you to consider *Fishes* for your scientific papers and would be pleased to welcome you as one of our authors.

---

## Editor-in-Chief

Prof. Dr. Maria Angeles Esteban

---

## Section Editors-in-Chief

Prof. Dr. Eric Hallerman  
Prof. Dr. Bror Jonsson  
Prof. Dr. Marina Paolucci  
Prof. Dr. Joseph Quattro  
Prof. Dr. Wagner C. Valenti  
Prof. Dr. Rodolphe Elie Gozlan

---

## Aims

*Fishes* provides a forum for scholars to publish original ideas and their latest achievements. Research articles, reviews, communications, short notes, book reviews, comments, opinion papers and case reports are all welcome in our journal. *Fishes* focuses on the following areas:

---

## Scope

Biology and Ecology of Aquatic Animals:

- Aquatic animal behavior;
- Aquatic toxicology and pollution;
- Biology and biochemistry;
- Conservation and exploitation;
- Diseases, parasitology and immunology;
- Distribution, ecology and migration;
- Ecological and evolutionary issues;
- Genetics and population genetics;
- Physiology and molecular biology
- Population studies and reproduction;
- Taxonomy, anatomy, histology and morphology.

Fisheries and Aquaculture:

- Aquatic biotechnologies;
- Disease prevention and treatment;
- Environment interactions;
- Farming and fishing technologies and economics;
- Fisheries management;
- Genetic breeding and development;
- Healthy and ecological farming technology;
- Human uses of aquatic resources;
- Nutrition and aquaculture feed;
- Physiology and biochemistries;
- Policies, legislations, public perceptions and ethical issues;
- Reproduction and health;
- Resource assessment and protection;
- Stock assessment and modeling;
- Sustainability;
- Seafood chemistry, nutrition and safety;
- Seafood sustainability, certification and traceability.

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

### Journal Rank

Q2: Marine & Freshwater Biology,  
Q2: Fisheries

### Coverage by Leading Indexing Services

Scopus, SCIE (Web of Science), PubAg, FSTA, and other databases

### Rapid Publication

A first decision is provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2023)

MDPI is a member of

CASPA
