Message from the Collection Editors

Dear Colleagues,

The pandemic of COVID-19 is considered to be a global public health emergency. Due to its route of transmission via contact with droplets and aerosols, dentists are at high risk of acquiring an infection while treating patients. The impact of coronavirus on the dental community is eminent, and the big challenge is how we can offer dental treatment despite the outbreak. Dental education programs in both under- and postgraduate forms will also suffer from the ramifications of the pandemic. The aim of this Topical Collection is to act as a scientific meeting point for all kinds of research that deal with the management of the COVID-19 crisis within the dental community.

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPus / SciFinder, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) / CiteScore - Q1 (*General Medicine*)
