Deadline for manuscript
submissions:
closed (10 March 2024)

Message from the Guest Editors

The goal of this Special Issue is to collect papers (original research articles and review papers) to give insights into the governance of ecosystem sustainability in a multifunctional landscape involving the maintenance of ecosystem services, addressing trade-offs and promoting sustainable outcomes through landscape design and plural values in value chains. These approaches can contribute to the effective management and conservation of multifunctional landscapes.

This Special Issue will welcome manuscripts that link the following themes:

- The governance of ecosystem sustainability;
- Monitoring ecosystem services in a multifunctional landscape;
- Creating sustainable landscape designs;
- The multifunctionality of landscapes.

We look forward to receiving your original research articles and reviews.

Dr. Yu Feng

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend *Land* for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.

Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
