Dr. Patricia María Rodríguez González
Forest Research Centre, School of Agriculture, University of Lisbon, 1649-004 Lisboa, Portugal

Deadline for manuscript submissions:
closed (29 May 2024)

Message from the Guest Editors

Land is issuing a CALL FOR PAPERS concerning the preparation of a Special Issue under the theme "**Advances in Landscape Visual Quality Assessment in the Decade of Ecosystem Restoration**".

Following the guidelines established by the European Green Deal, it is important to protect, conserve, restore and enhance the EU (as well as the rest of the world)'s natural capital, while ensuring that people perceive these aims to be just and inclusive. Thus, the planning, implementation and assessment of restoration projects must include the dimension of public perception, and the theoretical, methodological and applied contributions to advance knowledge on how to articulate the two approaches are, in our opinion, further needed.

We welcome and encourage the submission of full-length articles related to these matters, including interdisciplinary approaches and innovative methodological proposals. Shorter commentaries are also admissible, providing they contribute to the advancement of theories through research and novel methodological proposals and enhance the education and training of landscape scientists and managers, as well as other stakeholders.

Special Issue

Editor-in-Chief

Prof. Dr. Christine Fürst
Institute for Geosciences and Geography, Department Sustainable Landscape Development, University of Halle, Von-Seckendorff-Platz 4, 06120 Halle, Germany

Message from the Editor-in-Chief

Land is the only open access journal covering all aspects of land science, and it is a pioneering platform for publishing on land system science. Our editorial board is comprised of eminent scholars. We publish high quality research on societally relevant, emerging and innovative topics and results in land system research. It is now one of the top land journals with a significant impact factor, and has a goal to become the best journal in land in the coming years. I strongly recommend Land for your best research publications for a fast dissemination of your research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.
High Visibility: indexed within Scopus, SSCI (Web of Science), PubAg, AGRIS, GeoRef, RePEc, and other databases.
Journal Rank: JCR - Q2 (*Environmental Studies*) / CiteScore - Q2 (*Nature and Landscape Conservation*)
