Supplementary figures

Figure S1. TMEM211 expression and migration in normal colon FHC cells and different colorectal cancer cells.

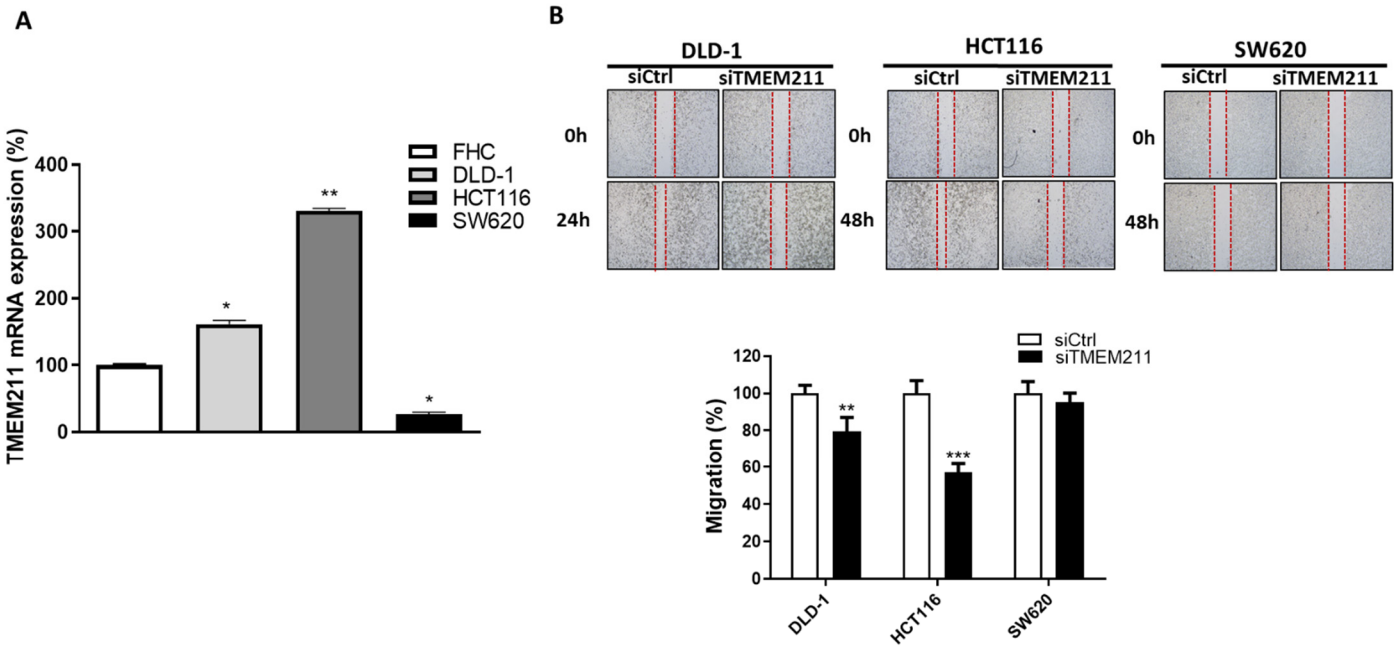

Figure S2. The protein levels of E-cad, N-cad and Snail in TMEM211-silenced DLD-1 cells were analyzed by Western blotting.

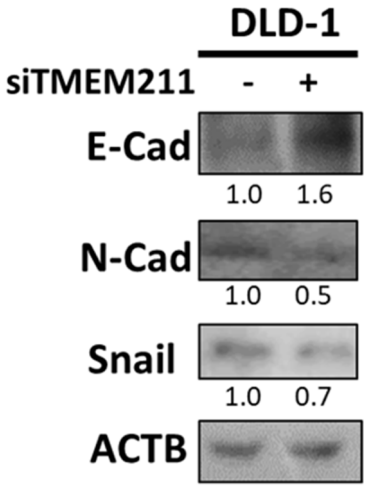

Figure S3. The gene expression levels of RelA and Akt2 in TMEM211-silenced DLD-1 cells were analyzed by RT-PCR.

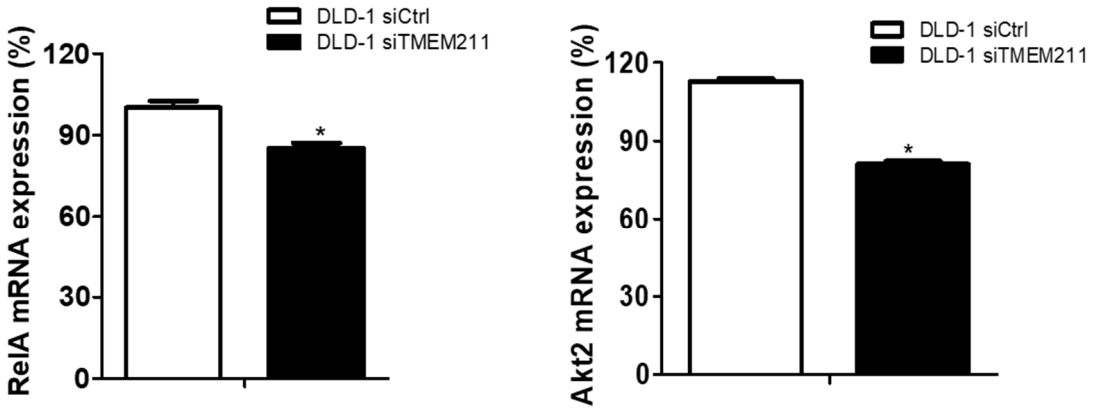

Figure S4. The MMP9 activity of TMEM211-silenced DLD-1 cells was analyzed by zymography.
