

## Advances in the Application of Spaceborne and UAS-Borne Radar Remote Sensing

Guest Editors:

**Dr. Neda Rojhani**

**Dr. George Shaker**

**Prof. Dr. Massimiliano  
Pieraccini**

**Dr. Amir Hosein Oveis**

Deadline for manuscript  
submissions:

**31 July 2024**

### Message from the Guest Editors

Key Scientific Themes:

Within the scope of Earth and space sciences, this Special Issue invites contributors to delve deeply into the intricate scientific facets of spaceborne radar remote sensing. We enthusiastically encourage submissions that:

- Present the newest developments in radar technology designed for spaceborne missions.
- Highlight the critical role of radar in precise environmental and climate studies.
- Investigate the diverse applications of radar in planetary exploration, providing novel viewpoints on remote sensing.
- Demonstrate how spaceborne radar has transformed disaster management and mitigation techniques.
- Present innovative radar signal processing techniques and data analysis methodologies.
- Push the boundaries of scientific research and investigate how radar systems can use artificial intelligence and machine learning.
- Consider the difficulties and fascinating possibilities that autonomous radar systems present for future scientific research.

## Message from the Editor-in-Chief

*Remote Sensing* is now a prominent international journal of repute in the world of remote sensing and spatial sciences, as a pioneer and pathfinder in open access format. It has highly accomplished global remote sensing scientists on the editorial board and a dedicated team of associate editors. The journal emphasizes quality and novelty and has a rigorous peer-review process. It is now one of the top remote sensing journals with a significant Impact Factor, and a goal to become the best journal in remote sensing in the coming years. I strongly recommend *Remote Sensing* for your best research publications for a fast dissemination of your research.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), Ei Compendex, PubAg, GeoRef, Astrophysics Data System, Inspec, dblp, and other databases.

**Journal Rank:** JCR - Q1 (*Geosciences, Multidisciplinary*) / CiteScore - Q1 (*General Earth and Planetary Sciences*)
