Supplementary material

Article title: Distribution ecology and habitat preferences of endemic montane Orthoptera: The Parnassiana and Oropodisma complexes. Authors: Stefanidis A., Kougioumoutzis K., Zografou K., Fotiadis G., Willemse L., Tzortzakaki O., and Kati V.

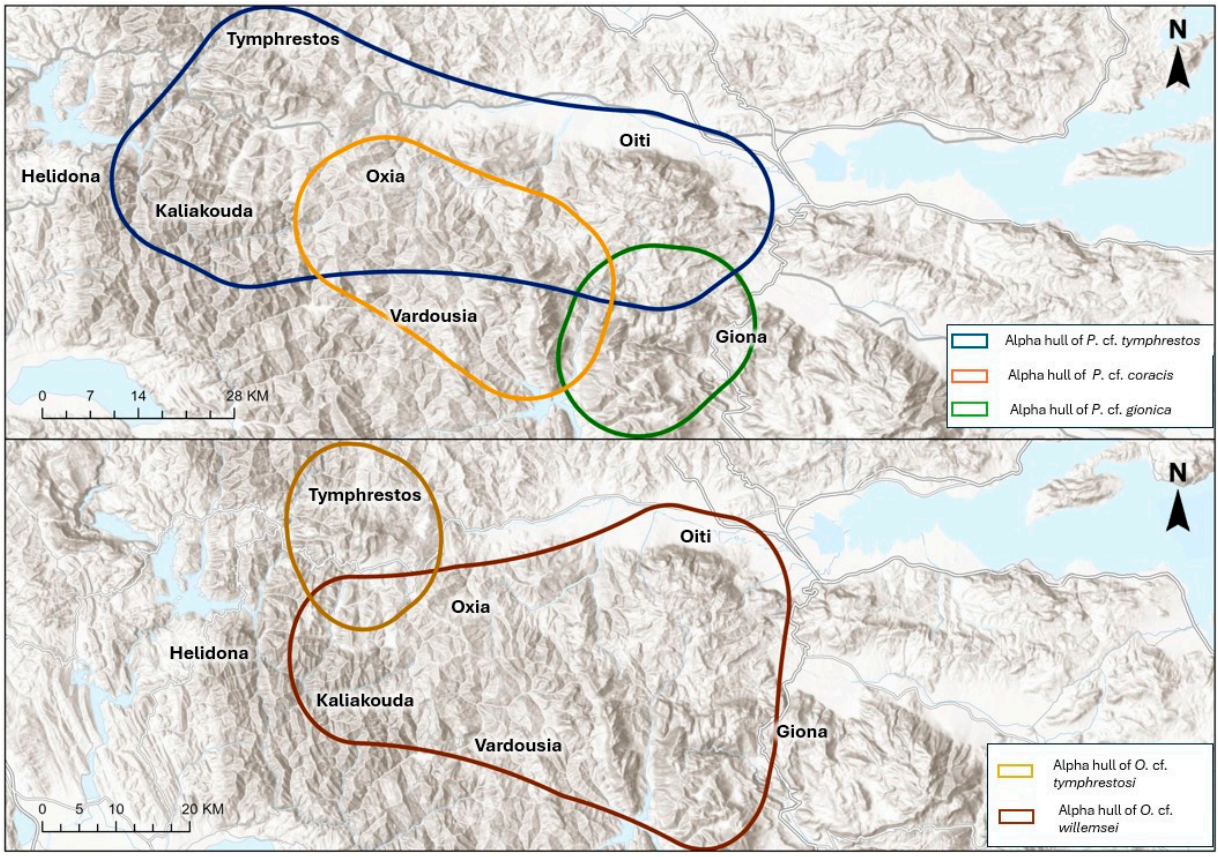

Figure S1. Alpha hull distributions of *Parnassiana* and *Oropodisma* species across central Greece. The top map illustrates the alpha hulls for *Parnassiana* species, with *P. cf. tymphrestos* (blue), *P. cf. coracis* (orange), and *P. cf. gionica* (green). The bottom map shows the alpha hulls for *Oropodisma* species, with *O. cf. tymphrestosi* (yellow) and *O. cf. willemsei* (brown). Key mountain ranges are highlighted to indicate species' spatial distributions.
