Table S1. Medication Possession Ratios (Alternative approach)

GP and MSHC patients	Years	Mean	Standard deviation	Median	IQR
	2018	0·92	0·24	0·99	0·82 – 0·99
	2019	0·94	0·23	0·99	0·82 – 0·99
	2020	0·92	0·25	0·99	0·82 – 0·99

GP = general practice; IQR = Interquartile range; MSHC = Melbourne Sexual Health Centre

Alternative approach = MPR calculated by the total number of days covered by every ART script in a year divided by 365
