Table S1. Percent change in low birth weight per 1 μg/m^3 change in $PM_{2.5}$ stratified by median race/ethnicity in California census tracts.

Race/Ethnicity	≤ Median (n = 3893) *β (95% CI)*	> Median (n=3892) *β (95% CI)*
Hispanic	0.04 (0.02, 0.06)	0.02 (0.00, 0.04)
White	0.01 (-0.01, 0.03)	0.04 (0.02, 0.06)
African American	0.03 (0.02, 0.05)	0.01 (-0.01, 0.03)
Asian American	0.02 (0.00, 0.03)	0.03 (0.01, 0.06)

All models adjusted for the other race/ethnicity groups, poverty and toxic releases from facilities. Median % Hispanic: 31.4%, Median % White: 37.1%, Median % African American: 2.6%, Median % Asian American: 8.2%.
