Table S1. Changes in TSS/TA ratio of mandarin fruits (Kinnow and Feutrell's Early) at different harvesting dates during 2018-2019 and 2019-2020. Different lower-case letters indicate significant differences (P<0.05) among or between tested samples at different stages, as determined by the least significant difference test. Different upper-case letters indicate significant differences (P<0.05) among or between the mean values.
