Precision Nutrition for LMIC
Virtual Workshop
30 November 2022 | 1:00 – 3:00 pm CET

Figure S1. Precision Nutrition for LMIC Virtual Workshop agenda. The workshop event took place on November 30, 2022 from 1-3:00 pm CET. The introductory session consisted of a welcome, introduction to the SFNV impact pot 4 group mission, as well as the precision nutrition (PN) for LMIC project learnings. Three-minute presentations were conducted by expert participants and a fireside question and answer (Q&A) was led by the SFNV working group. A brainstorming session was facilitated in breakout rooms on two topics 1) precision nutrition – collection and analysis of dietary intake and nutritional status data and 2) precision nutrition – nutritional products, supplements and treatments. The closing session consisted of the brainstorming session feedback and Q&A, next steps toward proof-of-concept, and final remarks by the SFNV working group.
