Table S4. QS/THE prestige-union participation in GreenMetric, 2019–2025.

Year	Prestige union (N)	Identified in GreenMetric	Not identified	Identified (%)
2019	134	13	121	9.70
2020	133	13	120	9.77
2021	130	10	120	7.69
2022	134	7	127	5.22
2023	133	6	127	4.51
2024	131	8	123	6.11
2025	133	7	126	5.26

Source: Elaborated by the authors (2026). Note: The prestige union is the de-duplicated same-year union of institutions appearing in the QS WUR Top100 and THE WUR Top100. Identification in GreenMetric was based on the conservative name-harmonisation protocol and should therefore be interpreted as a minimum estimate.
