Special Issue

Innovations in Autonomous Driving and Vehicle Intelligence

Message from the Guest Editor

I am pleased to invite you to submit a paper to this Special Issue, entitled “Innovations in Autonomous Driving and Vehicle Intelligence”. In recent years, a considerable amount of research has been conducted in the field of autonomous vehicle navigation and vehicle intelligence. Some of the areas of interest include how to improve public perception and address the safety and privacy concerns of connected and autonomous vehicles (CAVs). We welcome original research articles and reviews that improve vehicle intelligence, reduce cybersecurity threats, and address privacy, public perception, and safety concerns in connected and autonomous vehicles. We welcome the submission of manuscripts that deal with the application of novel AI and ML techniques in the context of CAVs. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

As the world of science becomes ever more specialized, researchers may lose themselves in the deep forest of the ever increasing number of subfields being created. This open access journal *Applied Sciences* has been started to link these subfields, so researchers can cut through the forest and see the surrounding, or quite distant fields and subfields to help develop his/her own research even further with the aid of this multi-dimensional network.

Editor-in-Chief

Prof. Dr. Giulio Nicola Cerullo
Dipartimento di Fisica, Politecnico di Milano, Piazza L. da Vinci 32, 20133 Milano, Italy

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Engineering, Multidisciplinary) / CiteScore - Q1 (General Engineering)
