Dear Editor,

Thank you very much for giving us the review reports of our manuscript (NO.68914). According to your advice on my paper, the following modifications have been made:

The CN group ($\delta$ 115.11) of compound $3n$ is shown in the $^{13}$C NMR spectra taken in DMSO is as follows:

And the NH group ($\delta$ 12.88) of compounds are shown in the $^1$H NMR spectra taken in DMSO is as follows:

Additional compound of 3b was made by the camera IR spectrum in 4.3.2 in our revised manuscript.
