

We certify that the following article

Design, Synthesis, and Evaluation of Hesperetin Derivatives as Potential Multifunctional anti-Alzheimer Agents

Jun Li

has undergone English language editing by MDPI. The text has been checked for correct use of grammar and common technical terms, and edited to a level suitable for reporting research in a scholarly journal.

MDPI uses experienced, native English speaking editors. Full details of the editing service can be found at

► www.mdpi.com/authors/english.
