Supplementary Materials: Aberrant JAK/STAT Signaling Suppresses TFF1 and TFF2 through Epigenetic Silencing of GATA6 in Gastric Cancer

Figure S1. High resolution heatmap image of Figure 1A.
Figure S2. Treatment with AG490 restored the expression of GATA6 and trefoil factors (TFF) 1 and 2 in AGS cells. Cells were treated with 20 μm of AG490 for 24 h and then harvested for RNA isolation and qRT-PCR analysis. **p < 0.01, *p > 0.05. GAPDH: glyceraldehyde 3-phosphate dehydrogenase; DMSO: dimethyl sulfoxide.
