

Figure S1. Effect of ABT-263 on colony-forming ability of non-irradiated cancer cells: The colony-forming ability of A549 and Ca9-22 cells in the presence of 5 or 10 μ M ABT-263 was examined. The results of relative colony number compared with dimethyl sulfoxide (DMSO) is shown. Data are presented as the mean \pm standard deviation of independent experiments. ** $p < 0.01$.
