

response to wounding	response to oxidative stress	response to fungus	response to biotic stimulus	secondary metabolic process	sulfur compound metabolic process	small molecule metabolic process
cold acclimation	response to endogenous stimulus	response to external stimulus	response to abiotic stimulus	catabolic process	cellular metabolic process	S-glycoside metabolic process
response to carbohydrate	response to jasmonic acid	response to stress	response to salt stress	secondary metabolic process		
response to hexose	response to temperature stimulus	response to osmotic stress	response to light stimulus	cellular amine metabolic process	carbohydrate catabolic process	cellular ketone metabolic process
				cellular carbohydrate metabolic process	cellular catabolic process	small molecule catabolic process
response to chemical	response to cold	response to radiation	response to organic substance			carboxylic acid metabolic process
			response to water deprivation	cellular process	regulation of biological quality	response to stimulus
