

Figure S1. Correlations between plasma FL-Gal9 and N-cleaved-Gal9 levels in healthy controls, CV, CP, and ID (A-D). Scatter plots show Spearman's rank correlations between FL-Gal9 and N-cleaved-Gal9 levels in A) healthy controls, B) CV, C) CP, and D) ID. r : correlation coefficient, (): 95% confidence interval. *** $p < 0.001$.
