2. Total- Attitude towards walkability::

<i>majority within</i>	<i>1-5 minutes</i>	<i>6-10 minutes</i>	<i>10-20 minutes</i>	<i>more than 20</i>	<i>Don' t Know</i>
<i>Q1: About how long would it take to get from your home to the nearest businesses or facilities listed below if you walked to them? Please put only one check mark (✓) for each business or facility.</i>	83	118	106	70	33

	1: <i>strongl y disagre e</i>	2: <i>partiall y disagre e</i>	3: <i>partiall y agree</i>	4: <i>strongl y agree</i>	
<i>a. Access to services:</i>					
<i>2. Neighborhood Stores are within easy walking distance of my home</i>	61	99	161	115	
<i>3. There are many places worth walking to from my home.</i>	61	91	146	110	
<i>b. Walking and cycling lanes</i>					
<i>4. My neighborhood sidewalks are well maintained (paved, even, and not a lot of cracks).</i>	153	100	85	72	
<i>5. There are bicycle or pedestrian lanes within my neighborhood that are easy to get to.</i>	154	126	86	41	
<i>6. It is safe to ride a bike within my neighborhood.</i>	134	108	119	46	
<i>c. Neighborhood surroundings</i>					
<i>7. There are shady trees along the streets in my neighborhood.</i>	97	109	147	58	
<i>8. There are many interesting things to look at while walking.</i>	56	86	151	119	

<i>d. Traffic Hazards</i>					
9. <i>There is too much traffic to make walking easy and pleasant in my neighborhood.</i>	53	85	185	89	
10. <i>Most drivers exceed the posted speed limits while driving in my neighborhood.</i>	140	110	113	44	
<i>e. Neighborhood safety</i>					
11. <i>The crime rate in my neighborhood makes it unsafe to walk day and night.</i>	110	76	122	103	
<i>f. Lack of Parking:</i>					
12. <i>Parking is difficult in local shopping areas</i>	78	91	151	94	
<i>g. Physical Barriers:</i>					
13. <i>There are major barriers to walking in my neighborhood that make it hard to get from one place to another</i>	120	126	125	54	
<i>h. Social Interaction While Walking</i>					
14. <i>My neighborhood recreation places (parks and sports facilities) make it easy for residents to meet one another.</i>	128	76	129	81	

Q1: WALKING TO AMENITIES WITHIN NEIGHBORHOODS

■ 1-5 minutes ■ 6-10 minutes ■ 10-20 minutes ■ more than 20 ■ Don't Know

Q2 NEIGHBORHOOD STORES ARE WITHIN EASY WALKING DISTANCE OF MY HOME

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q3 THERE ARE MANY PLACES WORTH WALKING TO FROM MY HOME

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q4 MY NEIGHBORHOOD SIDEWALKS ARE WELL MAINTAINED (PAVED, EVEN, AND NOT A LOT OF CRACKS)

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q5 THERE ARE BICYCLE OR PEDESTRIAN LANES WITHIN MY NEIGHBORHOOD THAT ARE EASY TO GET TO.

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

**Q6 IT IS SAFE TO RIDE A BIKE WITHIN MY
NEIGHBORHOOD**

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

**Q7 THERE ARE SHADY TREES ALONG THE STREETS IN
MY NEIGHBORHOOD**

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q8 THERE ARE MANY INTERESTING THINGS TO LOOK AT WHILE WALKING

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q9 THERE IS TOO MUCH TRAFFIC TO MAKE WALKING EASY AND PLEASANT IN MY NEIGHBORHOOD

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

10. MOST DRIVERS EXCEED THE POSTED SPEED LIMITS WHILE DRIVING IN MY NEIGHBORHOOD

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

11. THE CRIME RATE IN MY NEIGHBORHOOD MAKES IT UNSAFE TO WALK DAY AND NIGHT

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q14 MY NEIGHBORHOOD RECREATION PLACES (PARKS AND SPORTS FACILITIES) MAKE IT EASY FOR RESIDENTS TO MEET ONE ANOTHER.

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q12 PARKING IS DIFFICULT IN LOCAL SHOPPING AREAS

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

Q13 THERE ARE MAJOR BARRIERS TO WALKING IN MY NEIGHBORHOOD THAT MAKE IT HARD TO GET FROM ONE PLACE TO ANOTHER

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

3. Total- Attitude towards Smart:

	1: strongly disagree	2: partially disagree	3: partially agree	4: strongly agree
E-health				

<i>1- Would you agree on Hamad General Hospitals using remote patient-monitoring devices in case of people with chronic diseases?</i>	28	32	138	204
<i>2- Would You agree on receiving advice from doctors via telecommunications services?</i>	26	72	184	118
<i>E-learning & E-working</i>				
<i>1- Would you agree that the quality of education through E-learning methods is trusted?</i>	36	88	205	80
<i>2- Would you agree that It is desirable to live, learn and work in the same neighborhood?</i>	50	102	152	107
<i>3- Would you agree that E-learning and E-working will isolate community members?</i>	48	93	171	96
<i>4- Would you agree that E-working is more favorable than E-learning?</i>	32	109	211	59
<i>c. Safety and Security</i>				
<i>1- Data collection on traffic and road users is not breaching privacy</i>	36	66	145	155
<i>3. So long as surveillance cameras are installed in public places with the feature of distinguishing private information from public one is not a reason for concern.</i>	17	47	172	167
<i>e. Self-driving cars and car-sharing schemes</i>				
<i>Do you agree that you would feel comfortable using an automated vehicle?</i>	65	99	149	95
<i>Do you agree that you do not need a private car if a car-sharing scheme becomes successful because it can save money and time?</i>	76	111	146	77

1- WOULD YOU AGREE ON HAMAD GENERAL HOSPITALS USING REMOTE PATIENT-MONITORING DEVICES IN CASE OF PEOPLE WITH CHRONIC DISEASES

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

2. WOULD YOU AGREE THAT IT IS DESIRABLE TO LIVE, LEARN AND WORK IN THE SAME NEIGHBORHOOD?

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

3. DATA COLLECTION ON TRAFFIC AND ROAD USERS IS NOT BREACHING PRIVACY

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

4. DO YOU AGREE THAT YOU DO NOT NEED A PRIVATE CAR IF A CAR-SHARING SCHEME BECOMES SUCCESSFUL BECAUSE IT CAN SAVE MONEY AND TIME?

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

5. WOULD YOU AGREE ON RECEIVING ADVICE FROM DOCTORS VIA TELECOMMUNICATIONS SERVICES?

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

6. WOULD YOU AGREE THAT E-LEARNING AND E-WORKING WILL ISOLATE COMMUNITY MEMBERS?

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

7. SO LONG AS SURVEILLANCE CAMERAS ARE INSTALLED IN PUBLIC PLACES WITH THE FEATURE OF DISTINGUISHING PRIVATE INFORMATION FROM PUBLIC ONE IS NOT A REASON FOR CONCERN.

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

8. WOULD YOU AGREE THAT THE QUALITY OF EDUCATION THROUGH E-LEARNING METHODS IS TRUSTED?

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

9. WOULD YOU AGREE THAT E-WORKING IS MORE FAVORABLE THAN E-LEARNING?

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

10. DO YOU AGREE THAT YOU WOULD FEEL COMFORTABLE USING AN AUTOMATED VEHICLE?

■ 1: strongly disagree ■ 2: partially disagree ■ 3: partially agree ■ 4: strongly agree

4. *Questionnaire sample:*

Neighborhood Design and Sustainability Survey

I would like to thank you for your participation and assure you that the questionnaire data is confidential and private.

**This questionnaire is intended to be filled by parents of primary school students in
Qatar**

General Summary:

The aim of this questionnaire is to gather the opinion of Qatari neighborhood residents on two topics: first, walking in the neighborhood and its obstacles. Second, the extent to which Qatari society accepts the idea of using smart technology to facilitate and save time and effort.

This questionnaire is divided into two parts:

Part 1: Measuring the population's acceptance of walkability.

Part 2: Measuring the population's acceptance of smart technology.

1.1. Research topic:

If you would like to know more about the "Research Topic", please read the following paragraph:

The questionnaire is linked to a research topic entitled "The impact of Smart transportation systems on the development of low density residential neighborhoods in Doha". A large number of researchers believe that the low population density in cities and neighborhoods is a challenge to their sustainability due to the lack of efficiency in the mobility and transportation systems.

This research challenges this view and offers an alternative one. Low-density neighborhoods have many characteristics that encourage people to live in them, such as being safer places for raising children and have better quality of life.

Transportation and mobility can be addressed by looking at three axes: The first one is the distribution scheme for the uses and services in the residential neighborhood, the second is the rehabilitation of the outdoors environment in the neighborhood for walking and other activities, the provision of public places such as parks and finally the use of smart technology in providing many services such as Civic, Education and work; and contributing to raising the neighborhood's level of security and comfort.

1.2. *Personal Data:*

Please put (✓) on the answer that represents you:

Age group:

☐ 20 – 30

☒ 31 – 40

4 ☐ 55

56 and ☒ higher

Gender:

☐ Male

☒ Female

Educational level:

☐ High School

☒ Bachelor

☒ Higher Education

Job:

☐ Private
or outdoors

☒ Governmental – office job

Governmental - Technical ☒

☐ Doctor or Engineer

1.3. Part I: Neighborhood's Walkability:

Introductory paragraph:

Definition of Residential Neighborhood:

Residential neighborhoods have a number of basic characteristics, and they are as follows:

1. Social cohesion and a sense of belonging.
2. Clear geographical boundaries, distinguish it from neighboring areas.
3. Provide places for accommodation, work and entertainment.
4. Provide basic services such as shopping, dining, and worship.
5. Public places such as park and Sports clubs.

Social cohesion and a sense of belonging are the most important characteristics of the neighborhood. A residential area may lose some of its characteristics, except for social cohesion and the sense of community. Without this characteristic residential area is not identified as a neighborhood. Walking and public places contribute positively to cultivating a spirit of social cohesion among members of the neighborhood.

Neighborhood walkability questionnaire:

Q1: About how long would it take to get from your home to the nearest businesses or facilities listed below if you walked to them? Please put only one check mark (✓) for each business or facility.

	<u>1-5 min</u>	<u>6-10 min</u>	<u>11-20 min</u>	<u>20+ min</u>	<u>don't know</u>
1. grocery store					
2. supermarket					
3. laundry/dry cleaners					
4. elementary school					
5. other schools					
6. fast food restaurant					
7. coffee place					
8. ATM					
9. salon/barber shop					
10 your job or school					
11. public transport					
12. park					
13. gym or fitness facility					

If there are other facilities not mentioned please specify:

Please circle the answer that best applies to you and your neighborhood:

a. Access to services:

1. Neighborhood Stores are within easy walking distance of my home.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

2. There are many places worth walking to from my home.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

b. Walking and cycling lanes

3. My neighborhood sidewalks are well maintained (paved, even, and not a lot of cracks).

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

4. There are bicycle or pedestrian lanes within my neighborhood that are easy to get to.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

5. It is safe to ride a bike within my neighborhood.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

c. Beautiful and comfortable streets:

6. There are shady trees along the streets in my neighborhood.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

7. There are many interesting things to look at while walking.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

d. Traffic Hazards

8. There is too much traffic to make walking easy and pleasant in my neighborhood.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

9. Most drivers exceed the posted speed limits while driving in my neighborhood.

1: strongly disagree 2: partially disagree 3: partially agree 4: strongly agree

e. Neighborhood safety

10. The crime rate in my neighborhood makes it unsafe to walk at day time.

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

11. The crime rate in my neighborhood makes it unsafe to walk at night time.

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

f. Lack of Parking:

12. Parking is difficult in local shopping areas

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

g. Walkability Barriers:

13. There are major barriers to walking in my neighborhood that make it hard to get from one place to another

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

h. Social Interaction While Walking

14. My neighborhood recreation places (parks and sports facilities) make it easy for residents to meet one another.

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

Do you think residential neighborhoods are important? Do you like the neighborhood you live in?

Please explain your answer in the box below:

1.4. Part 2: Smart Technology:

In this section people shall be made familiar with the concept of smart technology, so each part of the questionnaire starts with a short description paragraph.

- a. **E-health**: might tackle many aspects of the health profession such as; **Remote patient monitoring** (RPM) is a technology to enable monitoring of patients outside of conventional clinical settings. In addition to long distance patient/clinician contact and care, advice, reminders, education, intervention, monitoring and remote admissions.

1- Would you agree on Hamad General Hospitals using remote patient-monitoring devices in case of people with chronic diseases?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

2- Would You agree on receiving advice from doctors via telecommunications services?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

b. E-working and E-learning:

E-working or E-learning is to work or learn at home or a remote location from work and learning places through telecommunications services. For example a neighborhood can provide an E-center for work, learning and Civic services where people can access within a walking distance.

1- Would you agree that the quality of education through E-learning methods is trusted?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

2- Would you agree that It is desirable to live, learn and work in the same neighborhood?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

3- Would you agree that E-learning and E-working will isolate community members?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

4- Would you agree that E-working is more favorable than E-learning?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

c. Safety and Security

Road surveillance cameras are so advanced that they can recognize people faces and identities. It is easy to recognize some people's activities like usage of cell phones while driving.

1. Data collection on traffic and road users is not breaching privacy

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

2. So long as surveillance cameras are installed in public places with the feature of distinguishing private information from public one is not a reason for concern.

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

d. Self-driving cars and car-sharing schemes:

Dubai has recently tested automated buses in Dubai Downtown. These automated buses will be providing public services in the upcoming years for 2020 Expo visitors. Dubai has also introduced a car-sharing scheme, which means that payment of charges is easily done.

1. Do you agree that you would feel comfortable using an automated vehicle?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

2. Do you agree that you do not need a private car if a car-sharing scheme becomes successful because it can save money and time?

1: strongly disagree 2: somewhat disagree 3: somewhat agree 4: strongly agree

**Thank you for your patience and cooperation in answering the questionnaire.
If you have any comment on the above subject, please do not hesitate to include
it in the box below:**

A large, empty rectangular box with a thick black border, intended for the respondent to provide any additional comments or feedback.

Qatar Biomedical Research Institute Institutional Review Board

September 17, 2018

Shk Soud Al-Thani

PhD Student

College of Science Engineering

Hamad Bin Khalifa University

Doha, Qatar

Ref.: Approval for QBRI-IRB

Review Type: Exempt Review

IRB Approval Date: September 17, 2018

IRB Expiration Date: September 17, 2019

IRB Project Number: 2018-027

Project Title: The impact of "smart" transportation systems on the refurbishment of Doha's existing low-density neighborhoods.

Dear Shk Al-Thani,

The QBRI Institutional Review Board (IRB) has reviewed your research proposal that was submitted for the above referenced protocol (2018-027). **It has been determined that your research proposal is eligible for exempt status and requires no further review.** This falls under the category two in MOPH guidelines, regulations and policies for research involving de-identified human subjects stating *that research the use of educational tests (cognitive, diagnostic, aptitude, achievement), survey procedures, interview procedures or observation of public behavior, unless: (i) information obtained is recorded in such a manner that human subjects can be identified; and (ii) any disclosure of the human subjects' responses outside the research could reasonably place the subjects at risk of criminal or civil liability or be damaging to the subjects' financial standing, employability, or reputation.*

Although your research proposal falls under the exempt status, the research must be conducted according to the submitted research protocol outlined in the approved proposal. Please note that any changes/modifications to the original submitted protocol should be reported to the IRB committee for guidance and review. **Please consider that any modifications to the referenced research proposal may subject the proposal from qualifying for exempt review and require submission of a new IRB application.**

Request for a renewal, if required, should be submitted to IRB at least one month prior to the expiry date to allow the IRB sufficient time to review and approve the request. It is the sole responsibility of the investigator to ensure the timely renewal of the IRB.

Wishing you all the success in conducting your research.

Sincerely,

Dr. Khalid Al-Ali

Chairperson
