In the published paper [1], the plot sizes of Figures 4, 6 and 9 were incorrect. The correct Figures are as follows:

**Figure 4.** Scatter plot of the GOSAT TANSO-FTS XH₂O and coincident TCCON soundings (criteria of ±30 min and ±1° in latitude/longitude). For these criteria, there are no coincident TANSO-FTS ocean scans. The caption and color-coding are identical to those of Figure 3.

**Figure 6.** Scatter plot of the GOSAT TANSO-FTS XH₂O and coincident TCCON soundings (criteria of ±30 min and ±1° in latitude/longitude) at the Lamont (left) and Lauder (right) TCCON sites. All coincidences were found for TANSO-FTS land scans.
Figure 9. Relative differences (GOSAT-TCCON)/TCCON as a function of the difference, in meters, between the retrieved altitude of the GOSAT footprints and the altitude of the TCCON sites, for GOSAT land scans only. The caption and color-coding are identical to those of Figure 3.

We apologize for any inconvenience caused to the readers by these changes. The manuscript will be updated and the original will remain available on the article webpage.
