

Supplementary Figure S1 : Heatmap for fatty acids showing only group averages at inclusion regarding the status

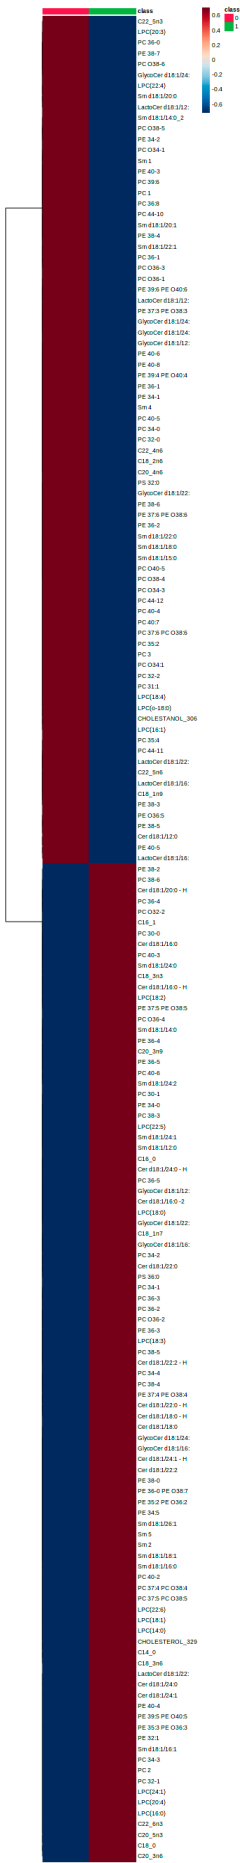

Supplementary Figure S2 : Heatmap for phospholipids showing only group averages at inclusion regarding the status

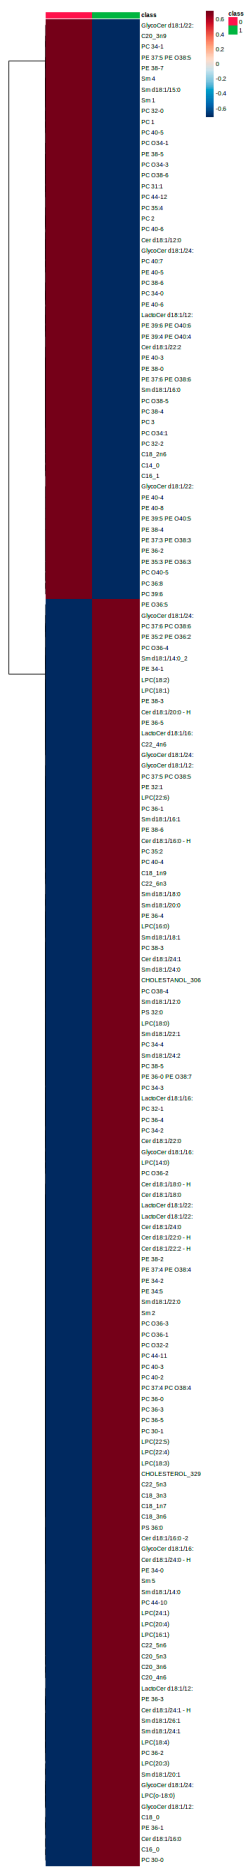

Supplementary Figure S3 : Heatmap for fatty acids showing only group averages at inclusion regarding the cluster of Linoleic acid (LA) level

Supplementary Figure S4 : Heatmap for membrane lipids showing only group averages for all subjects regarding time. Class 0: inclusion. Class 1: final time

Supplementary Figure S5 : Heatmap for membrane lipids showing only group averages for converters regarding time. Class 0: inclusion. Class 1: final time

Supplementary Figure S6 : Heatmap for membrane lipids showing only group averages for non converters regarding time. Class 0: inclusion. Class 1: final time
