Supplemental Materials

Current Versions of R libraries:

```
library("bookdown")
library("MASS")
library("cfa")        # "Configural Frequencies Analysis"
library("gplots")
library("lattice")
library("FactoMineR") # "Multivariate Exploratory Data Analysis
              # and Data Mining"
library("factoextra") # Extract and Visualize the Results of
              # Multivariate Data Analyses
library("Gifi")       # Multivariate Analysis with Optimal
              # Scaling
library("Factoshiny") # "Perform factorial analysis with a menu
              # and draw graphs interactively thanks to
              #'FactoMineR' and a Shiny application."
library("CAinterprTools") # Precisely does what the name
                # suggests ;-)
library("vcd")        # "Visualisation of Categorical Data"
library("xtable")
```
