

enzyme activator activity

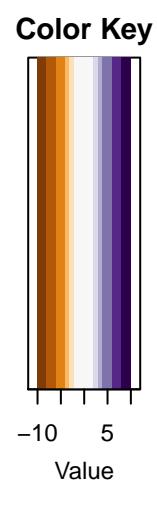

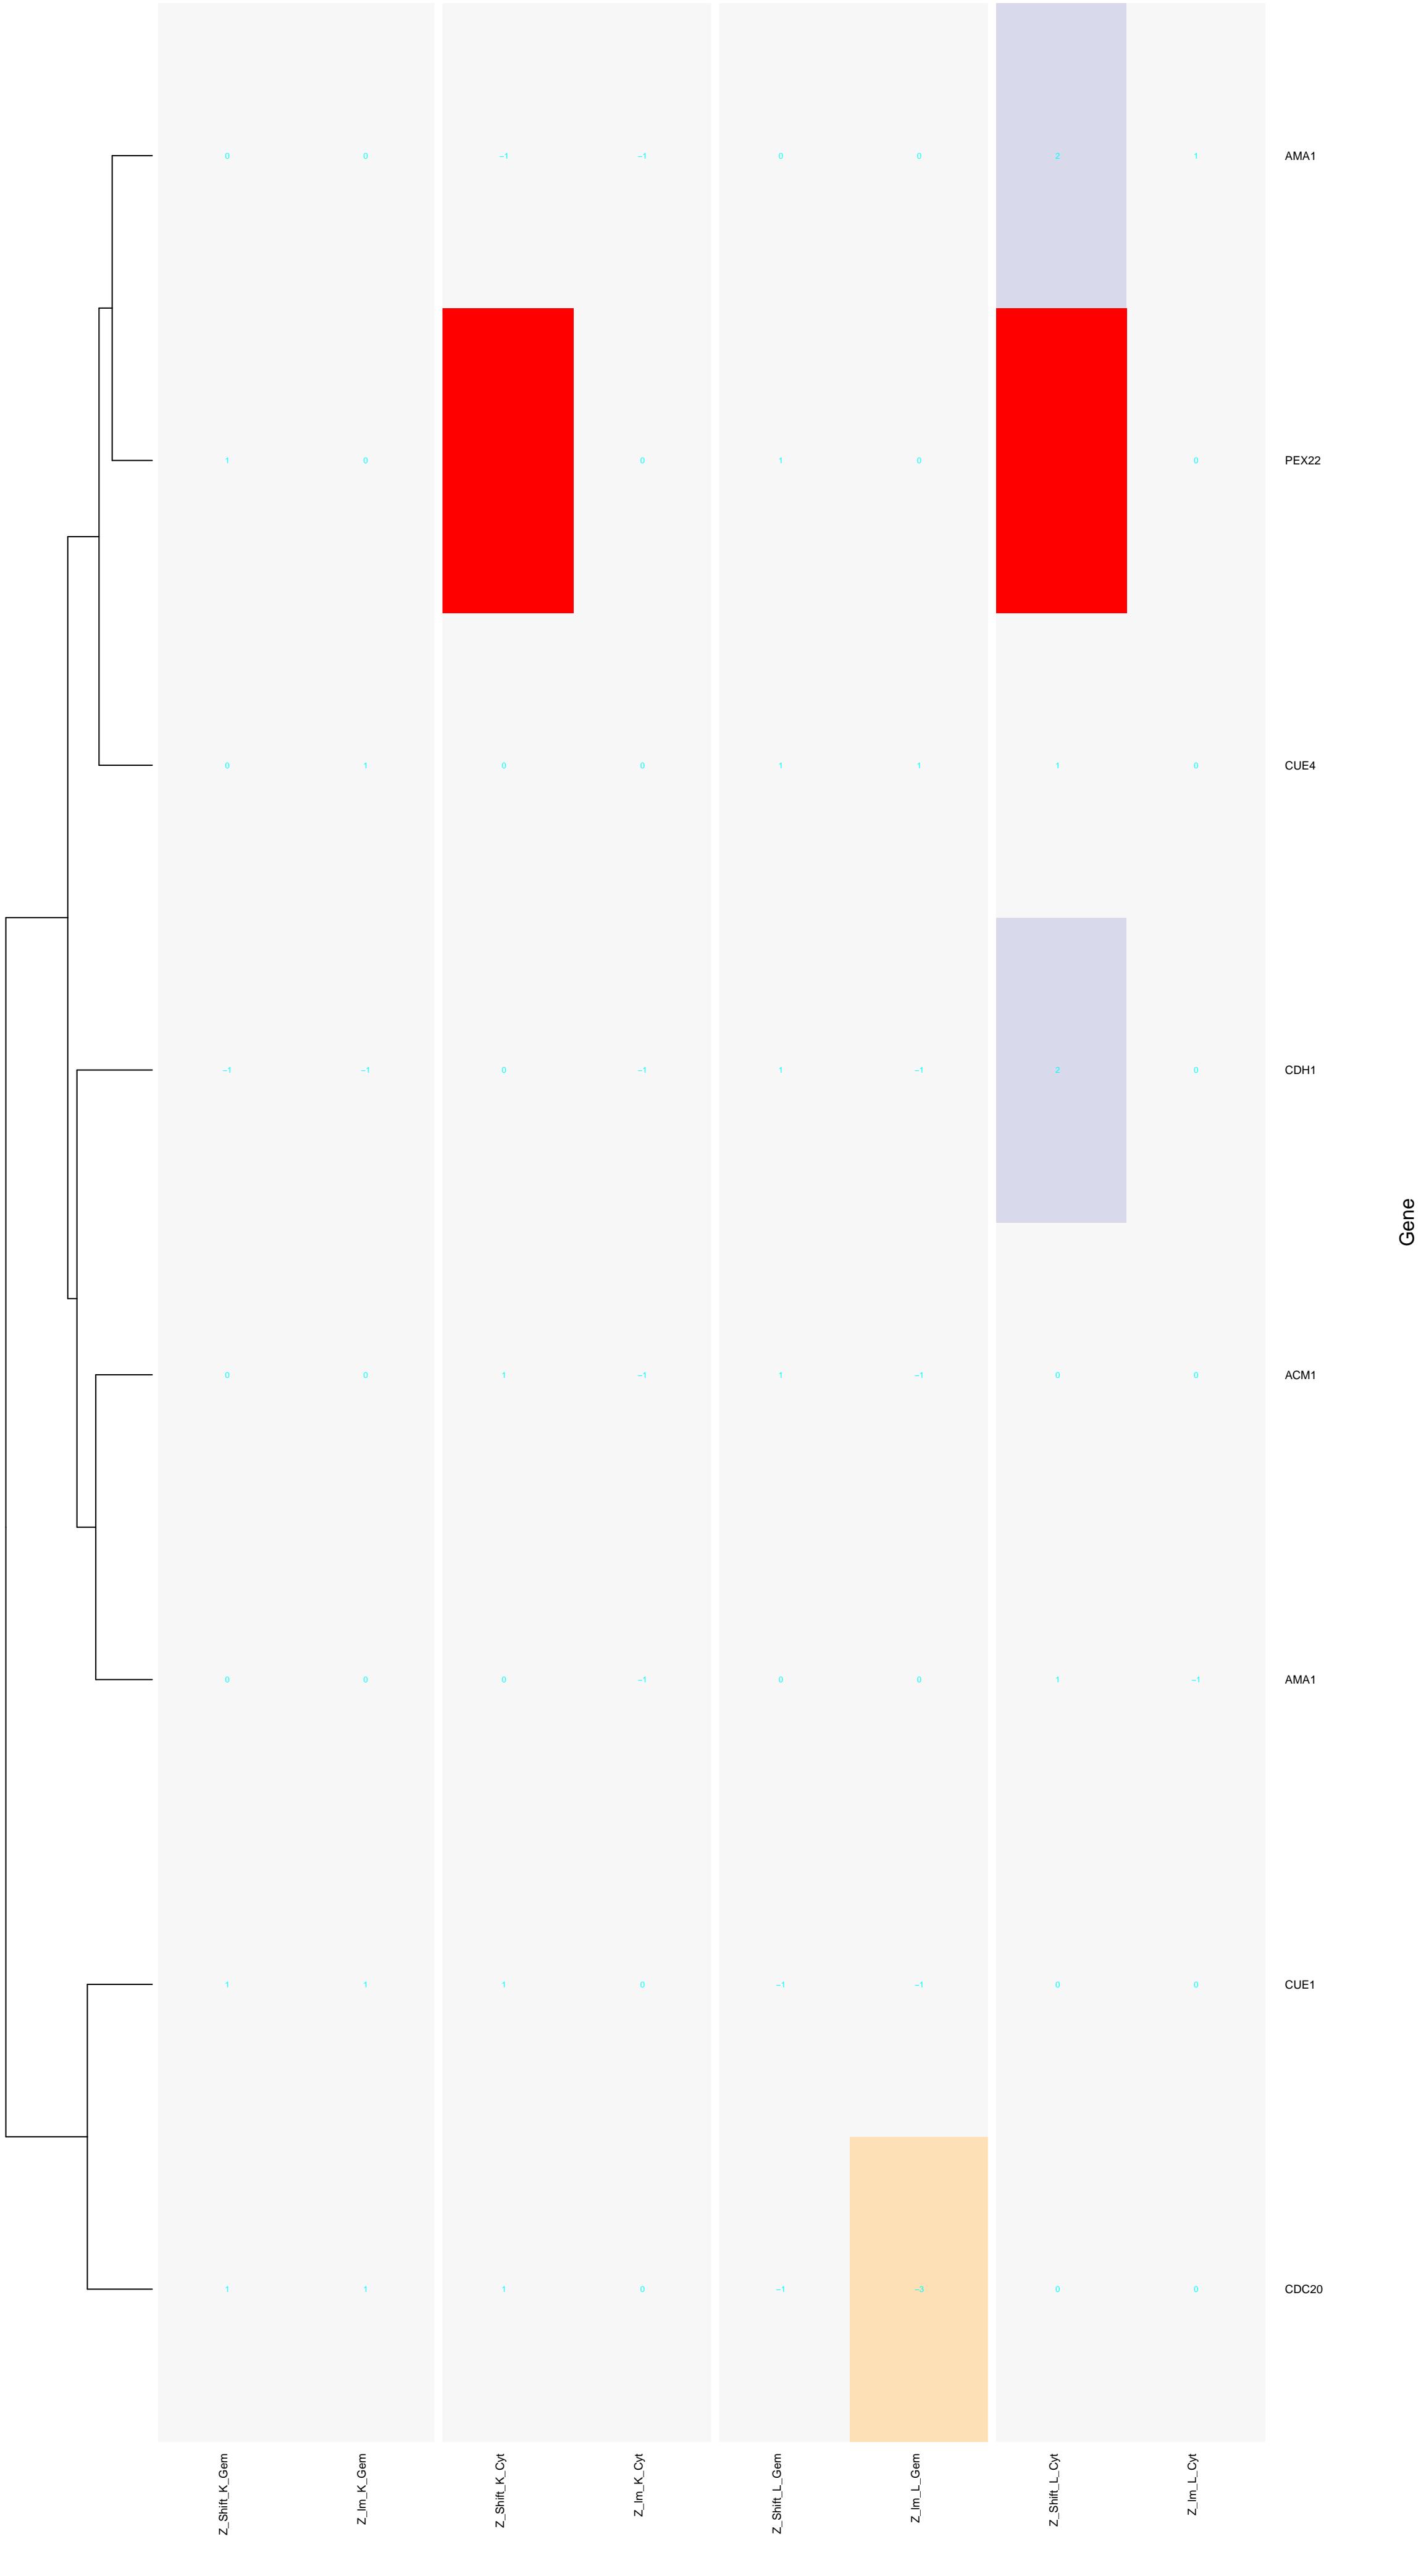

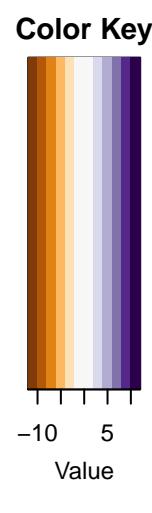

phosphatase regulator activity

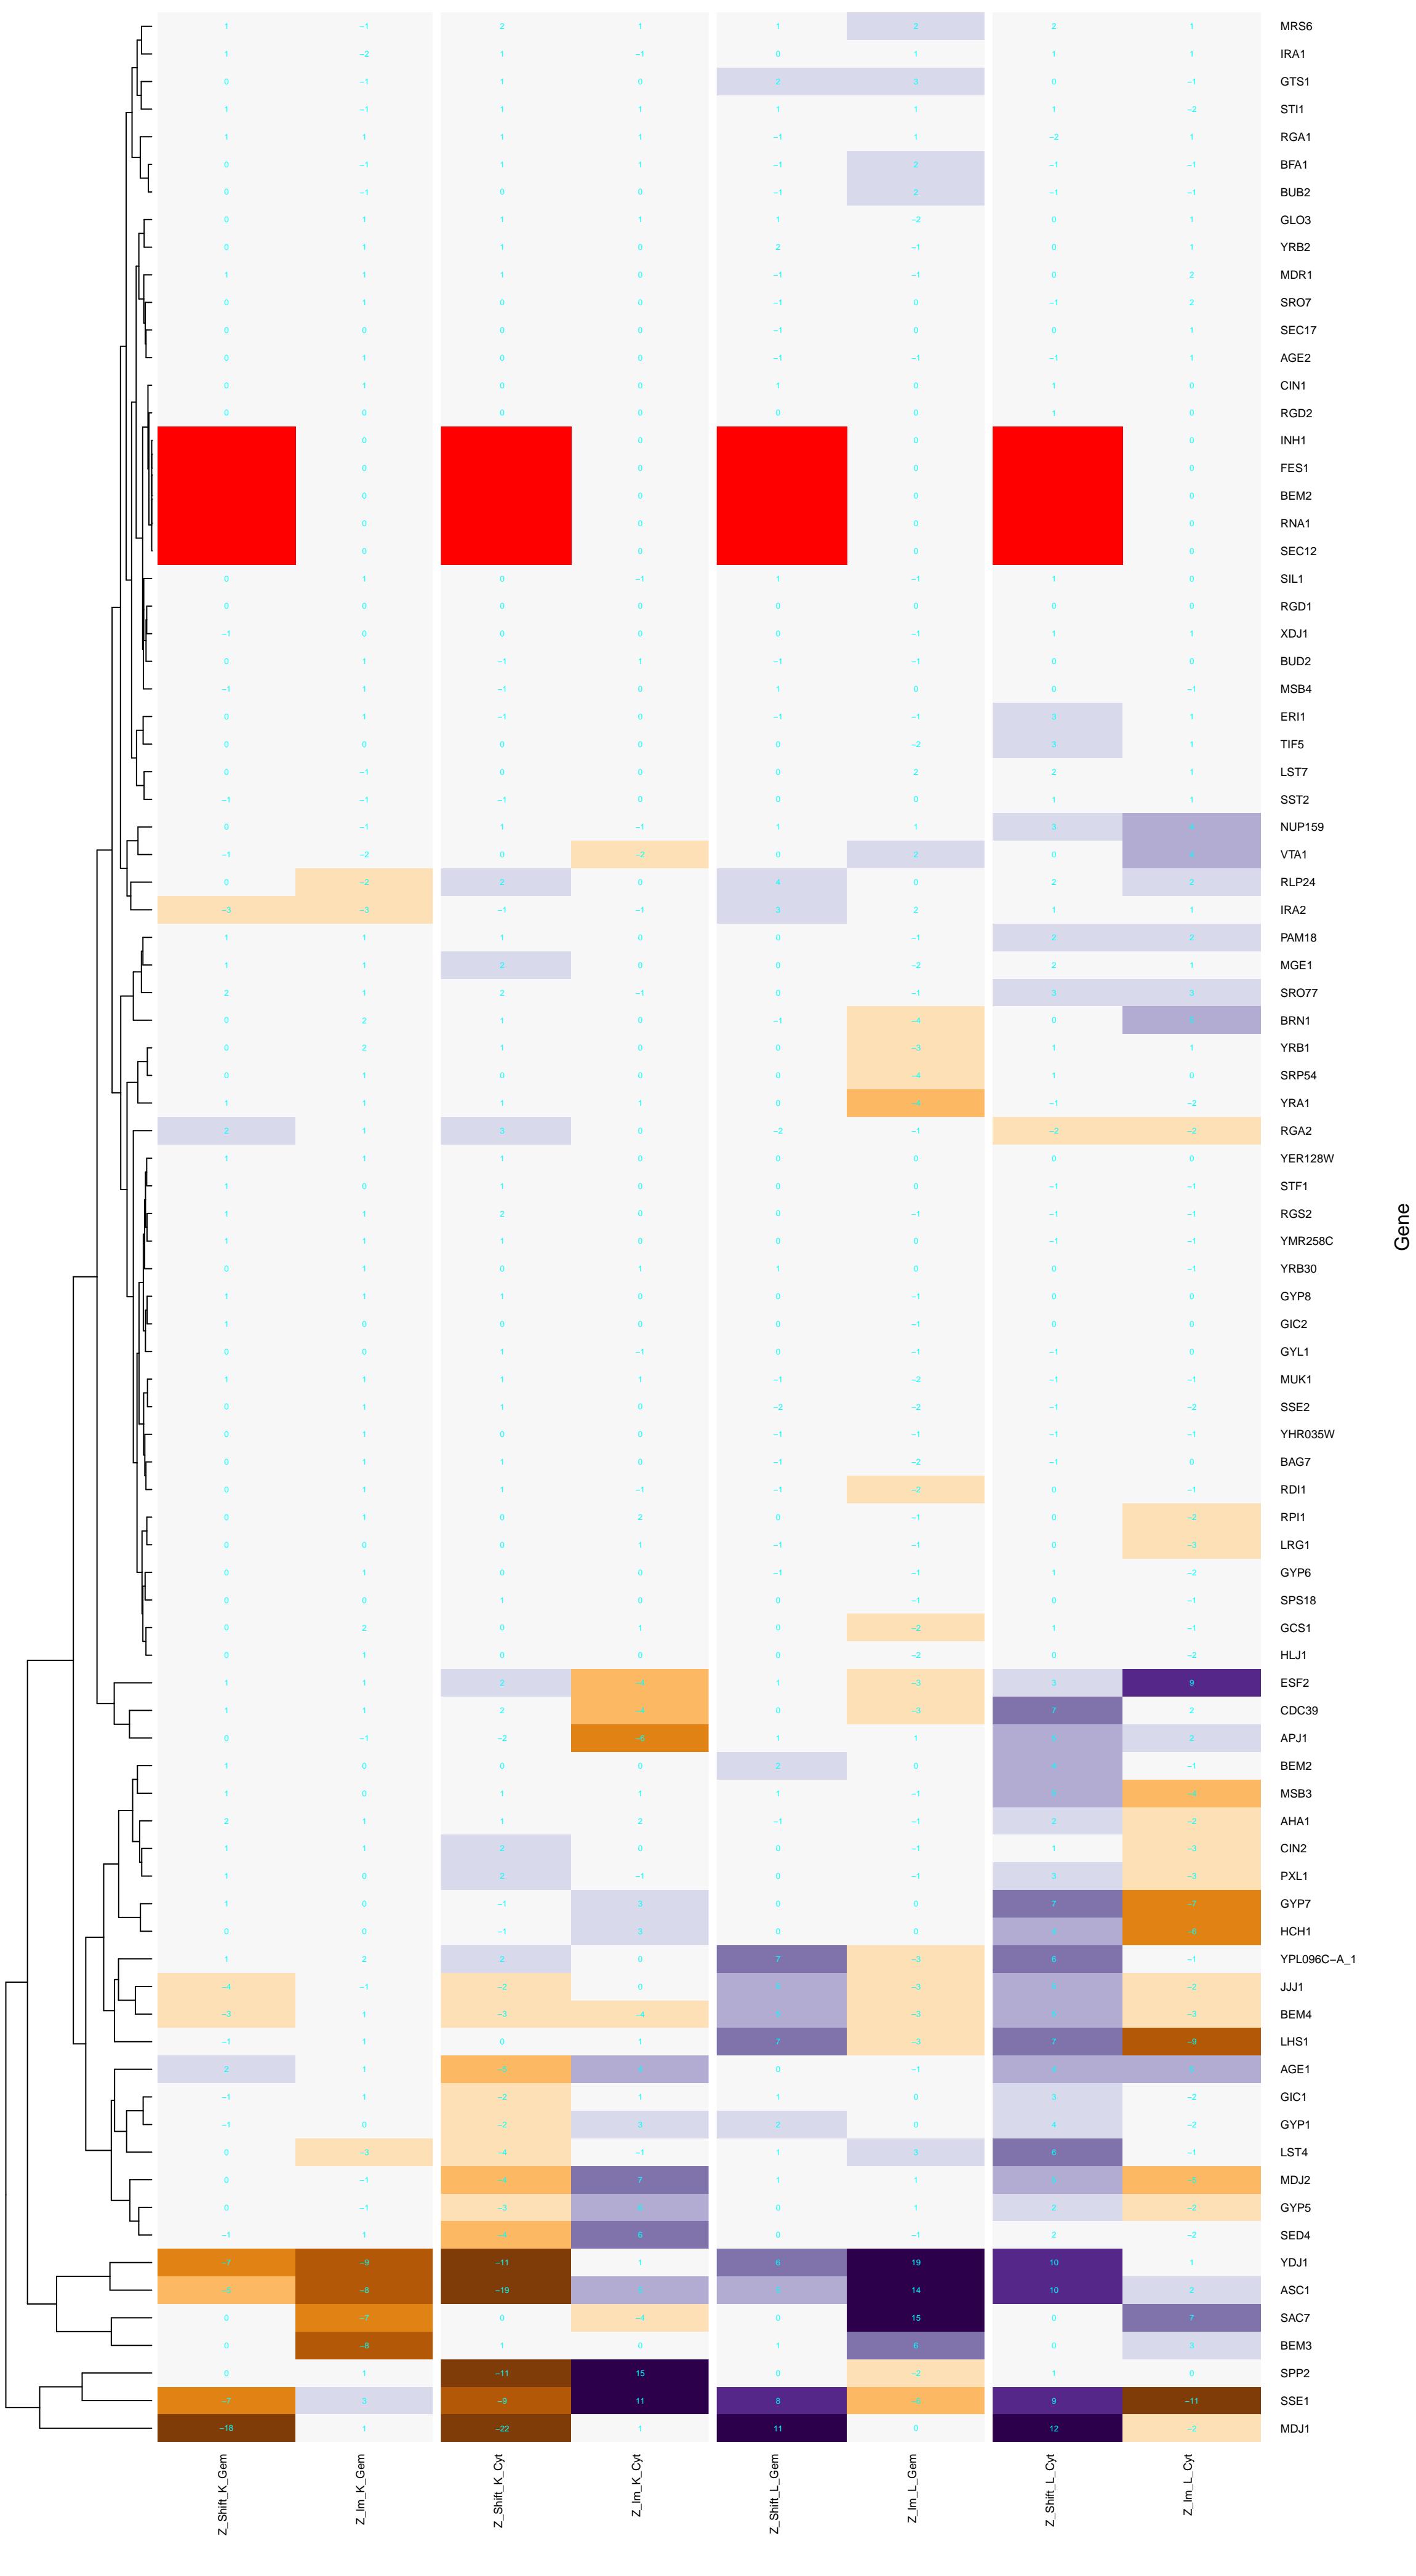

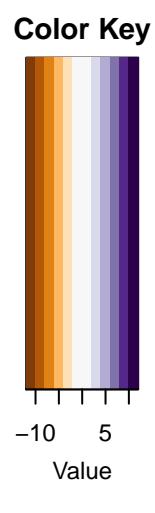

ubiquitin–protein transferase regulator activity

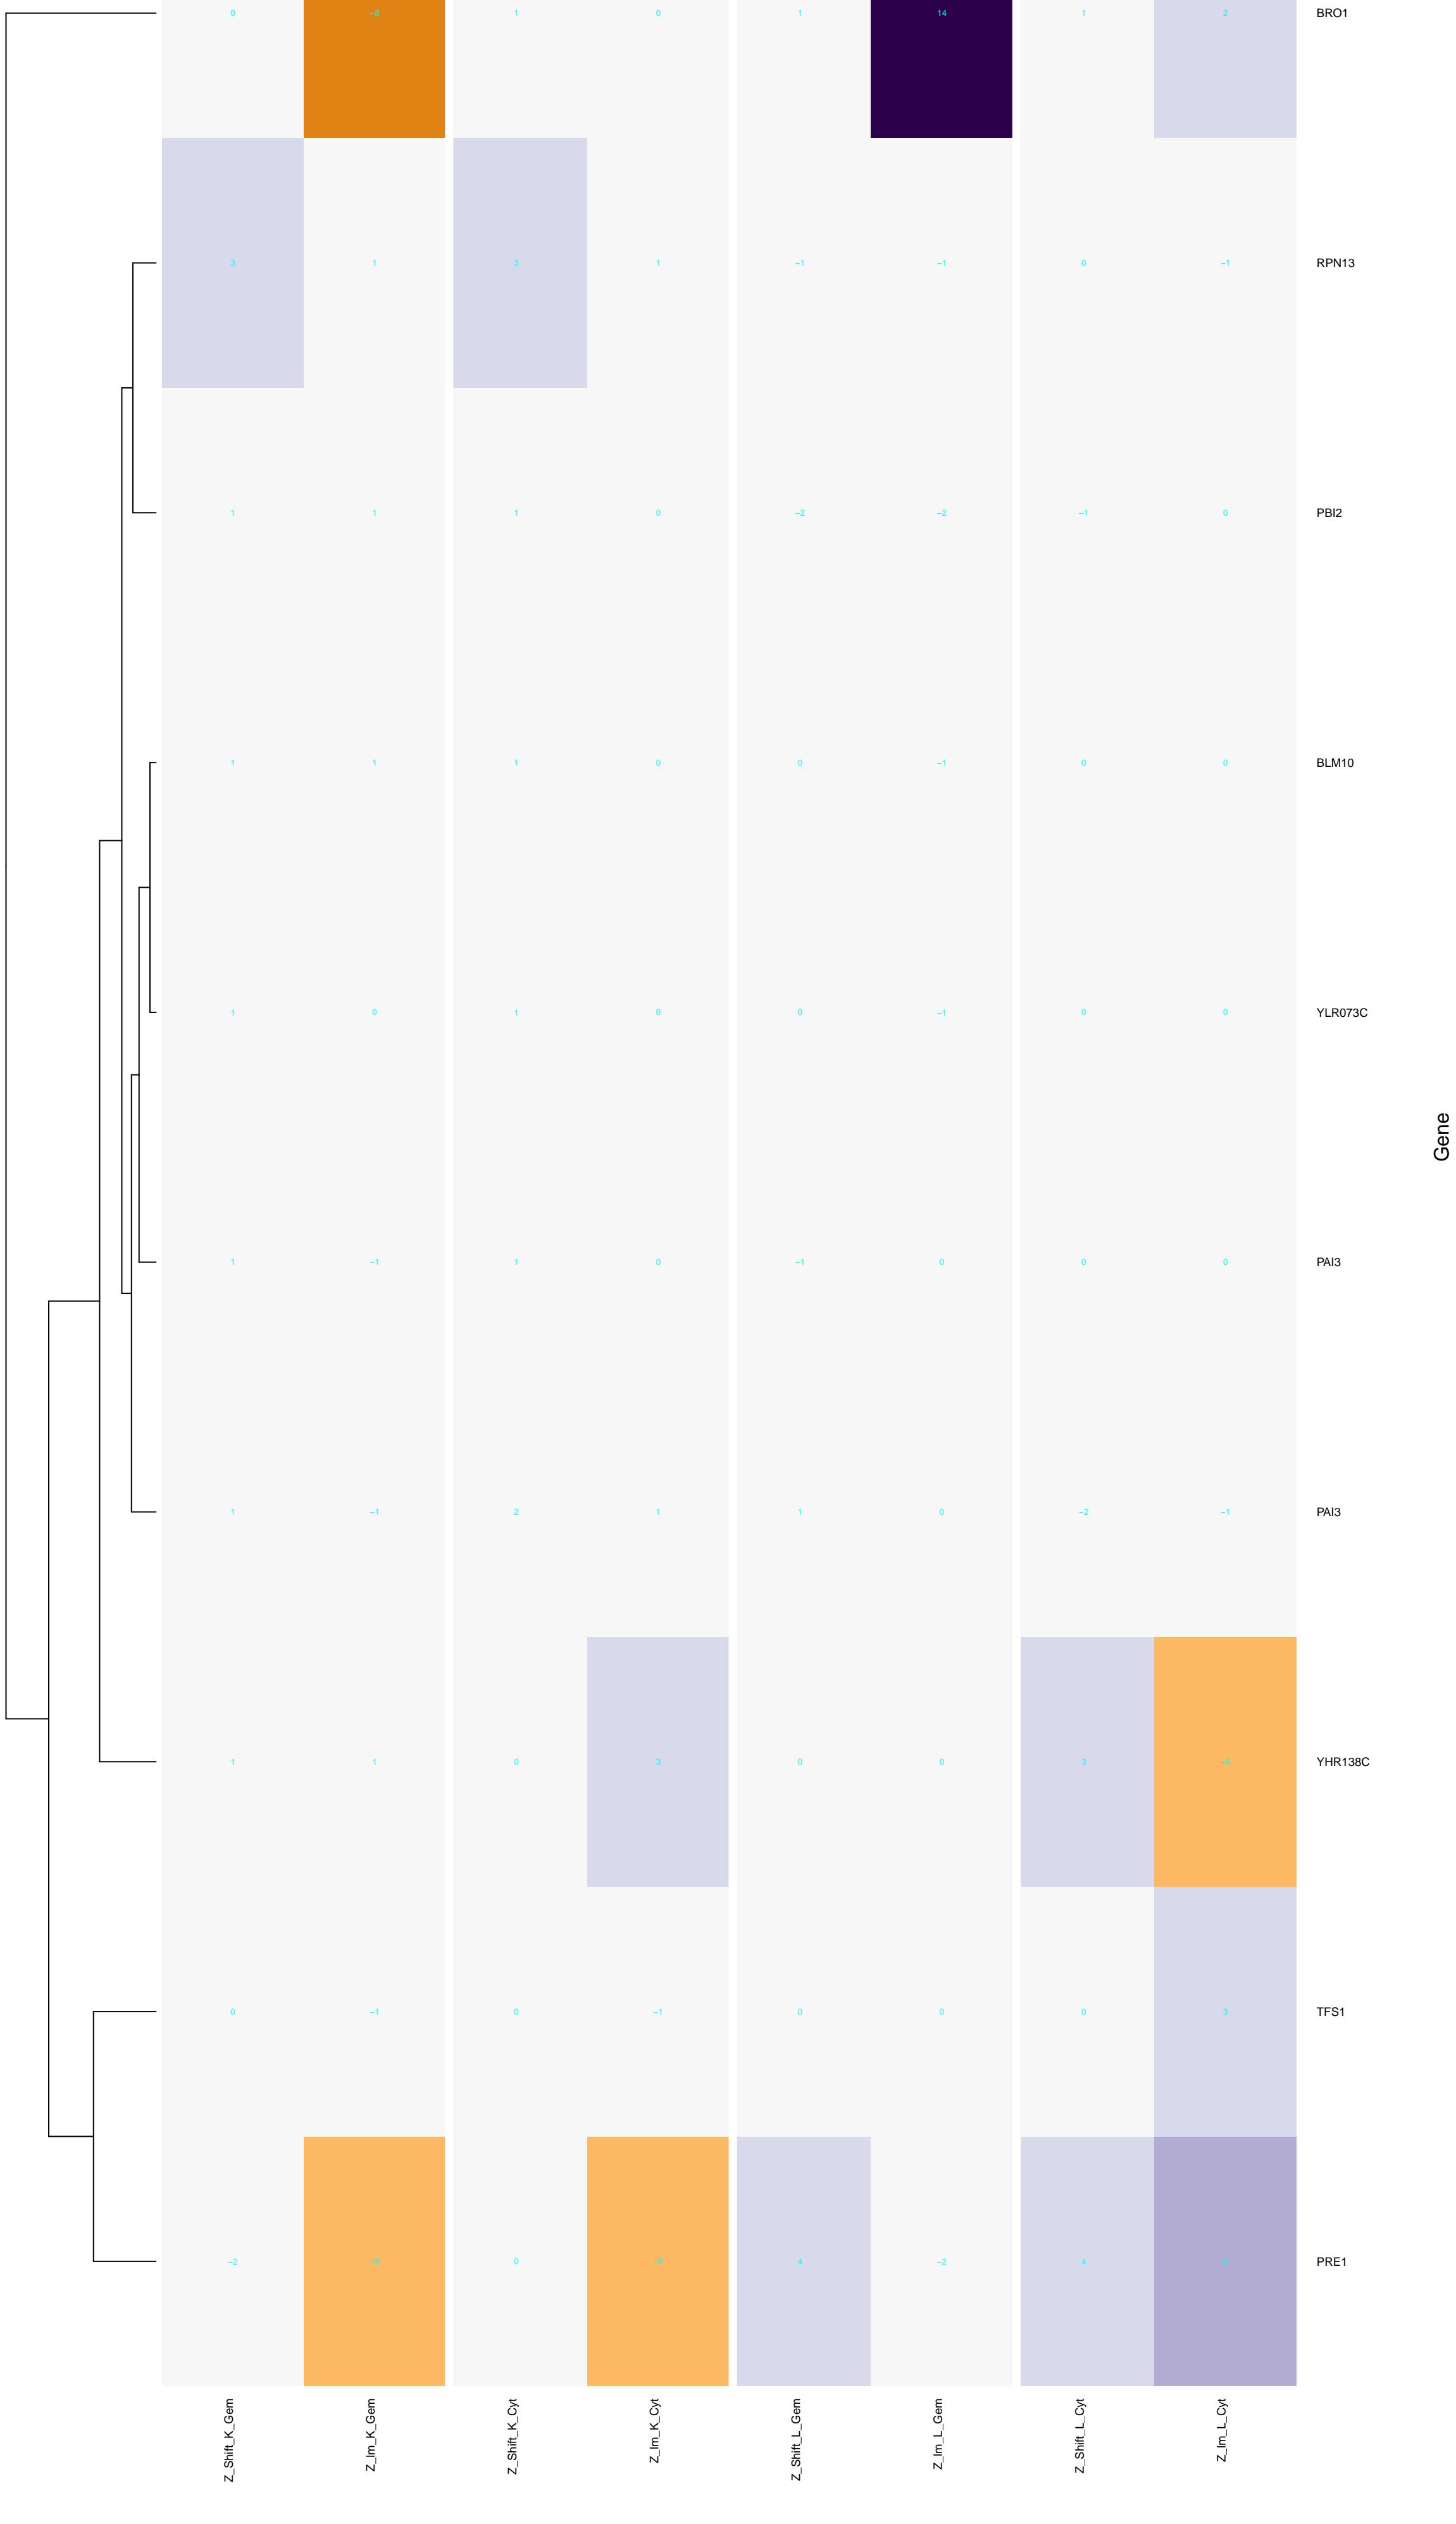

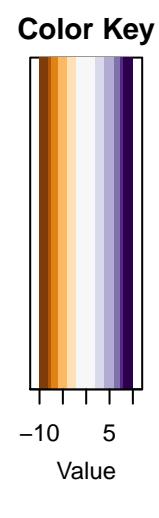

nucleoside-triphosphatase regulator activity

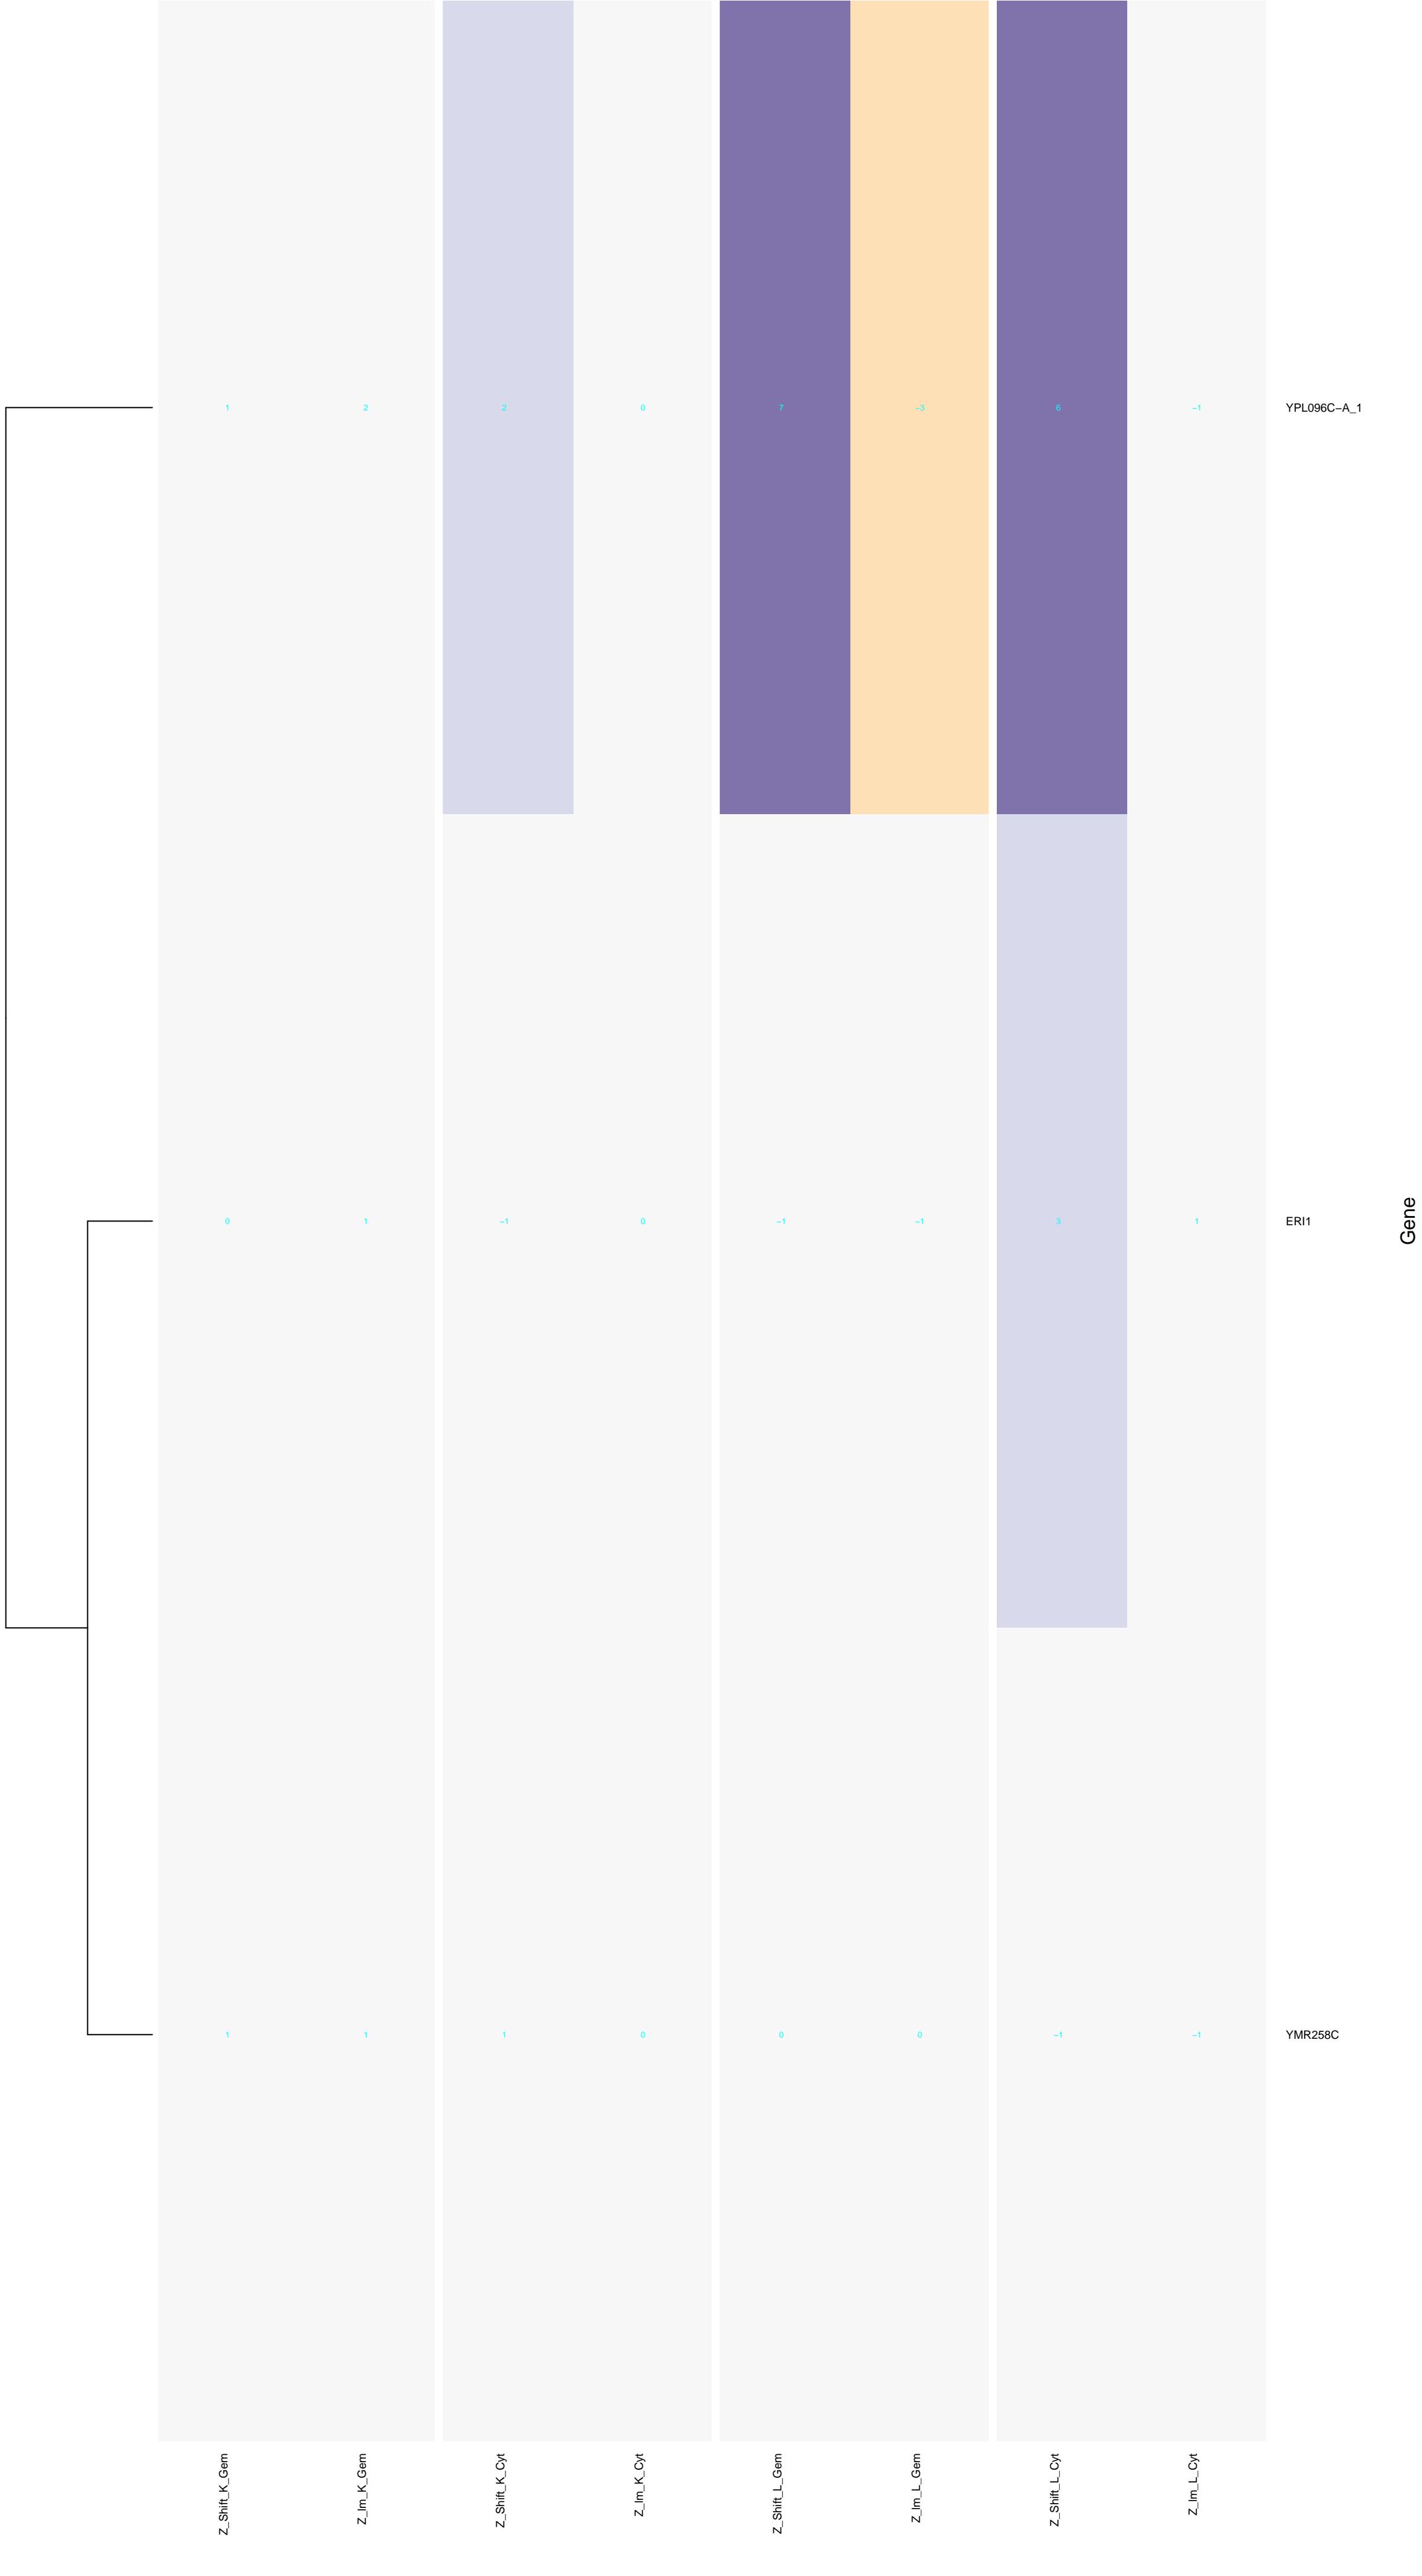

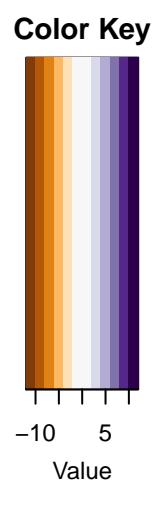

peptidase regulator activity

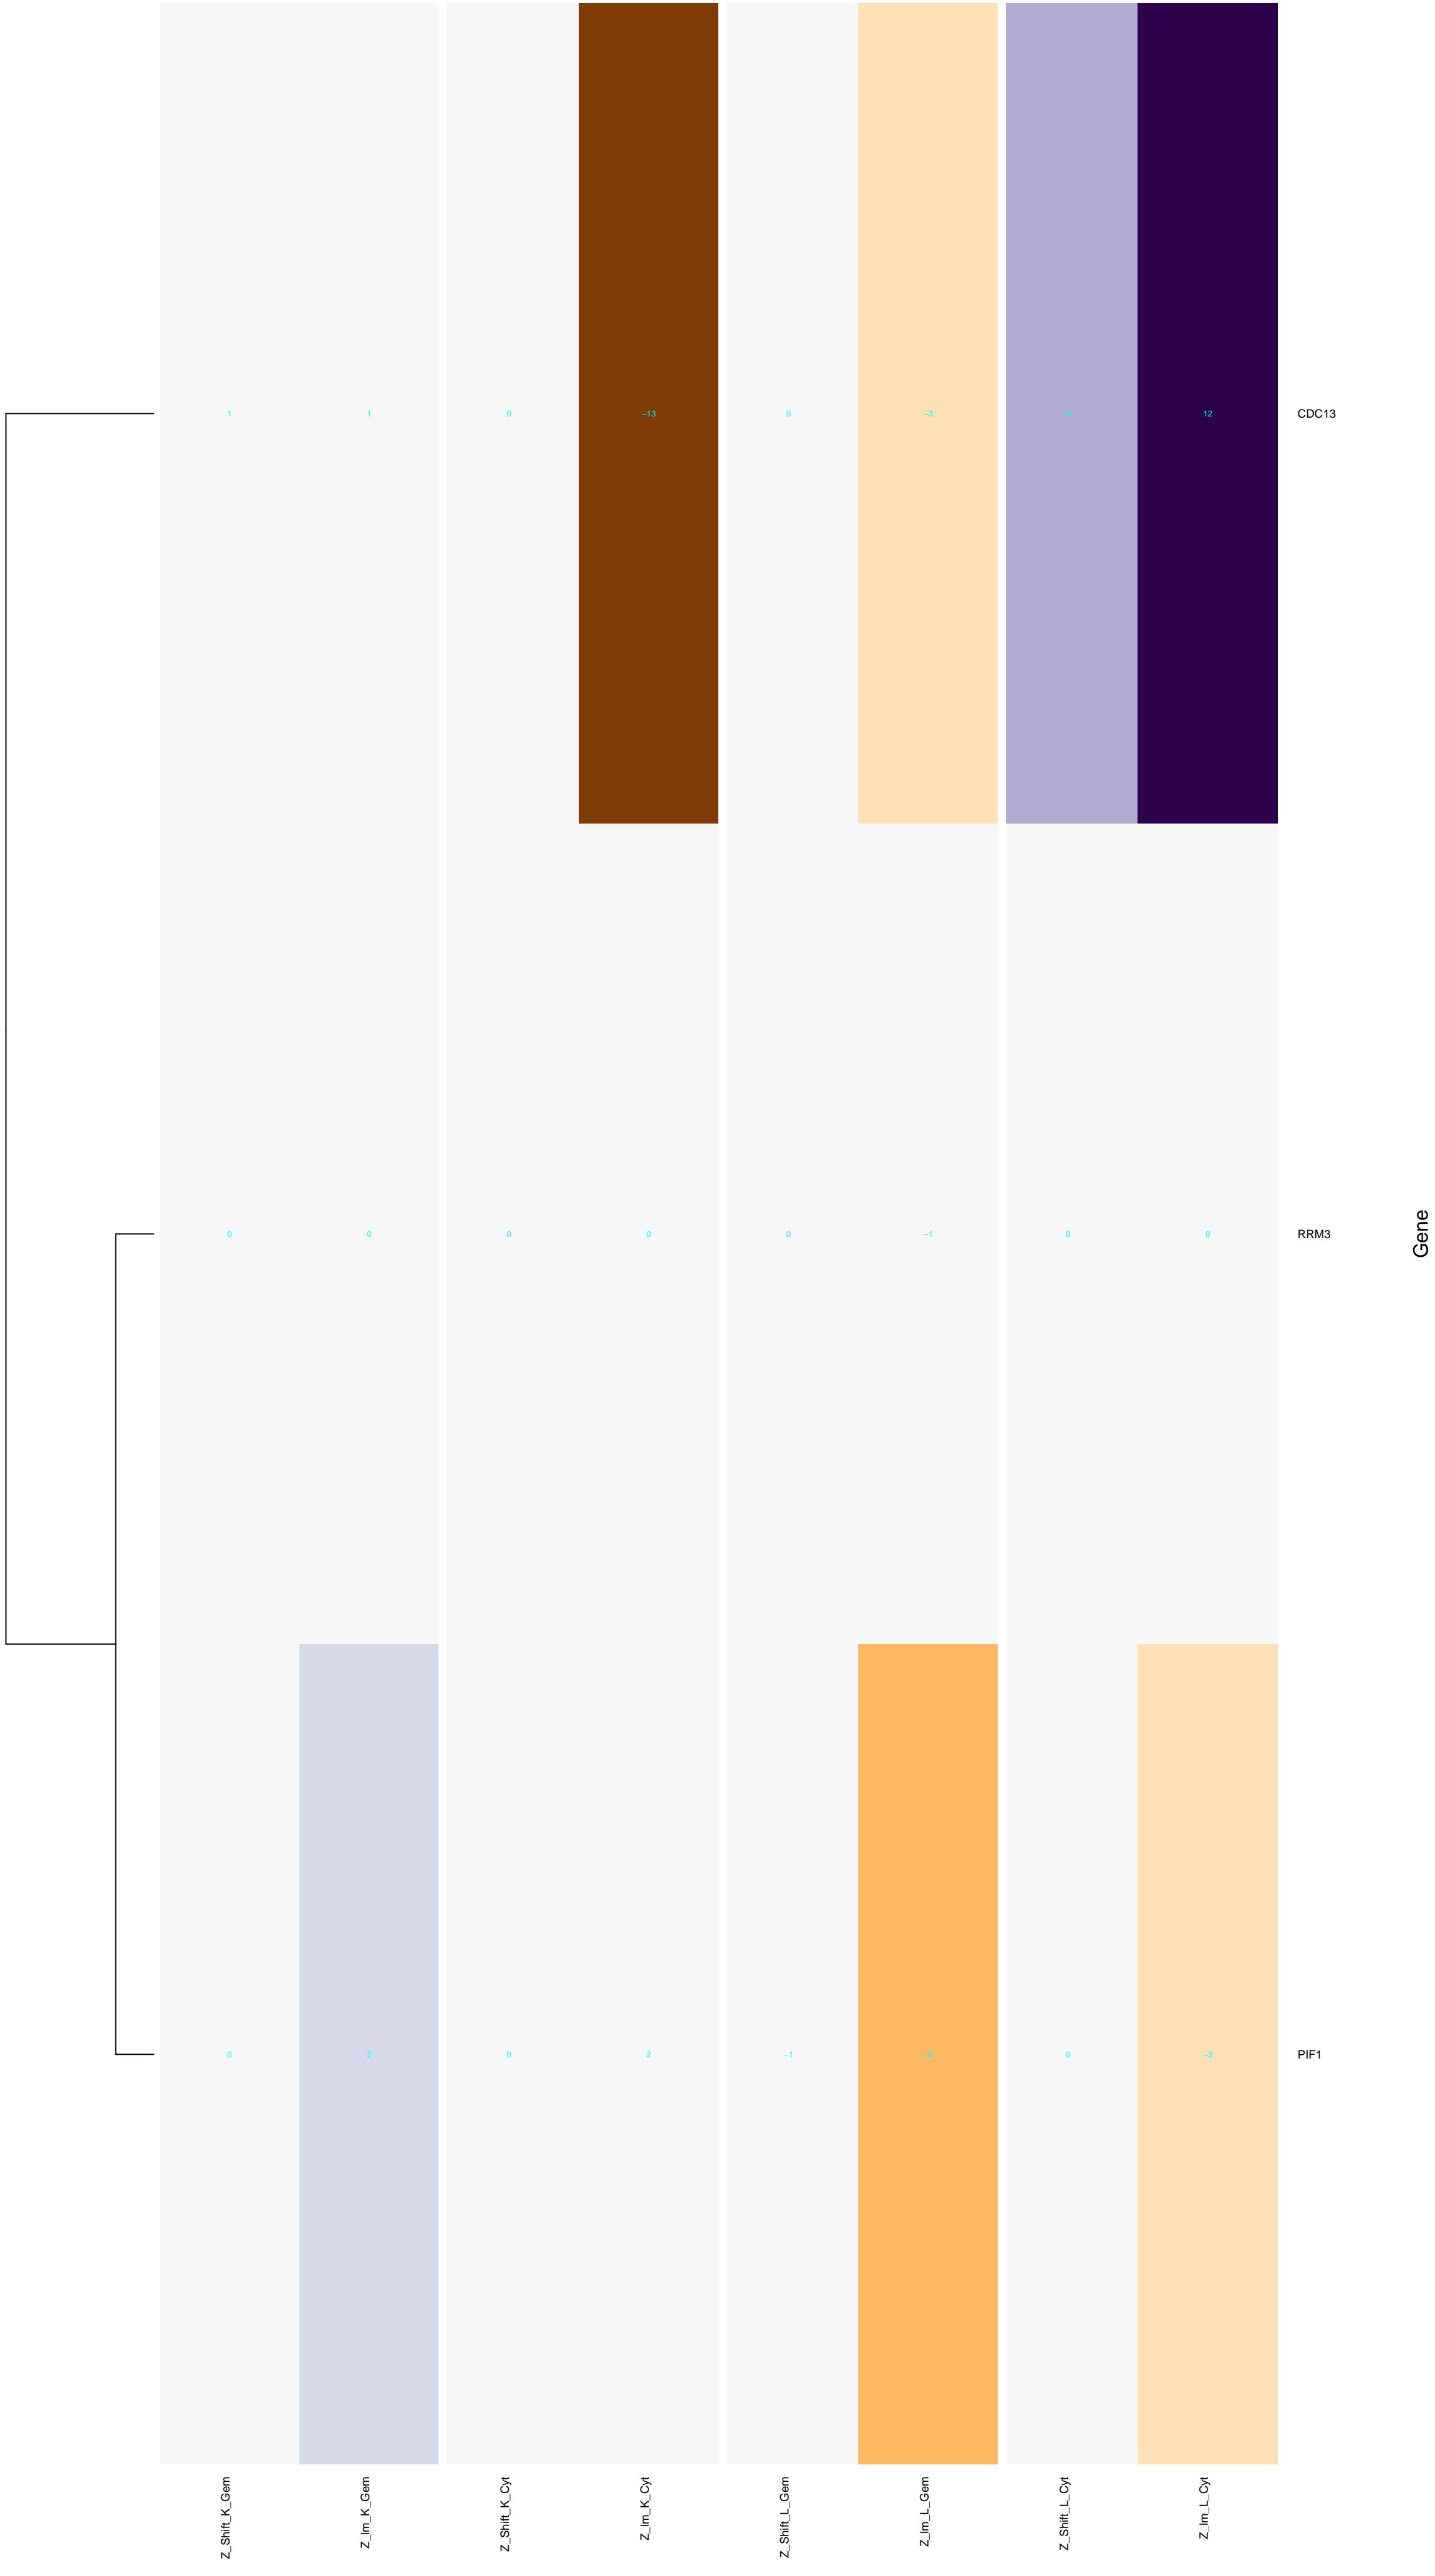

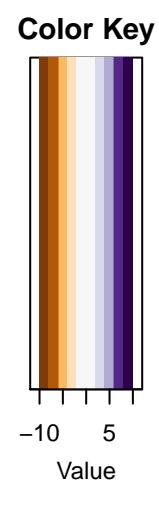

GTPase inhibitor activity

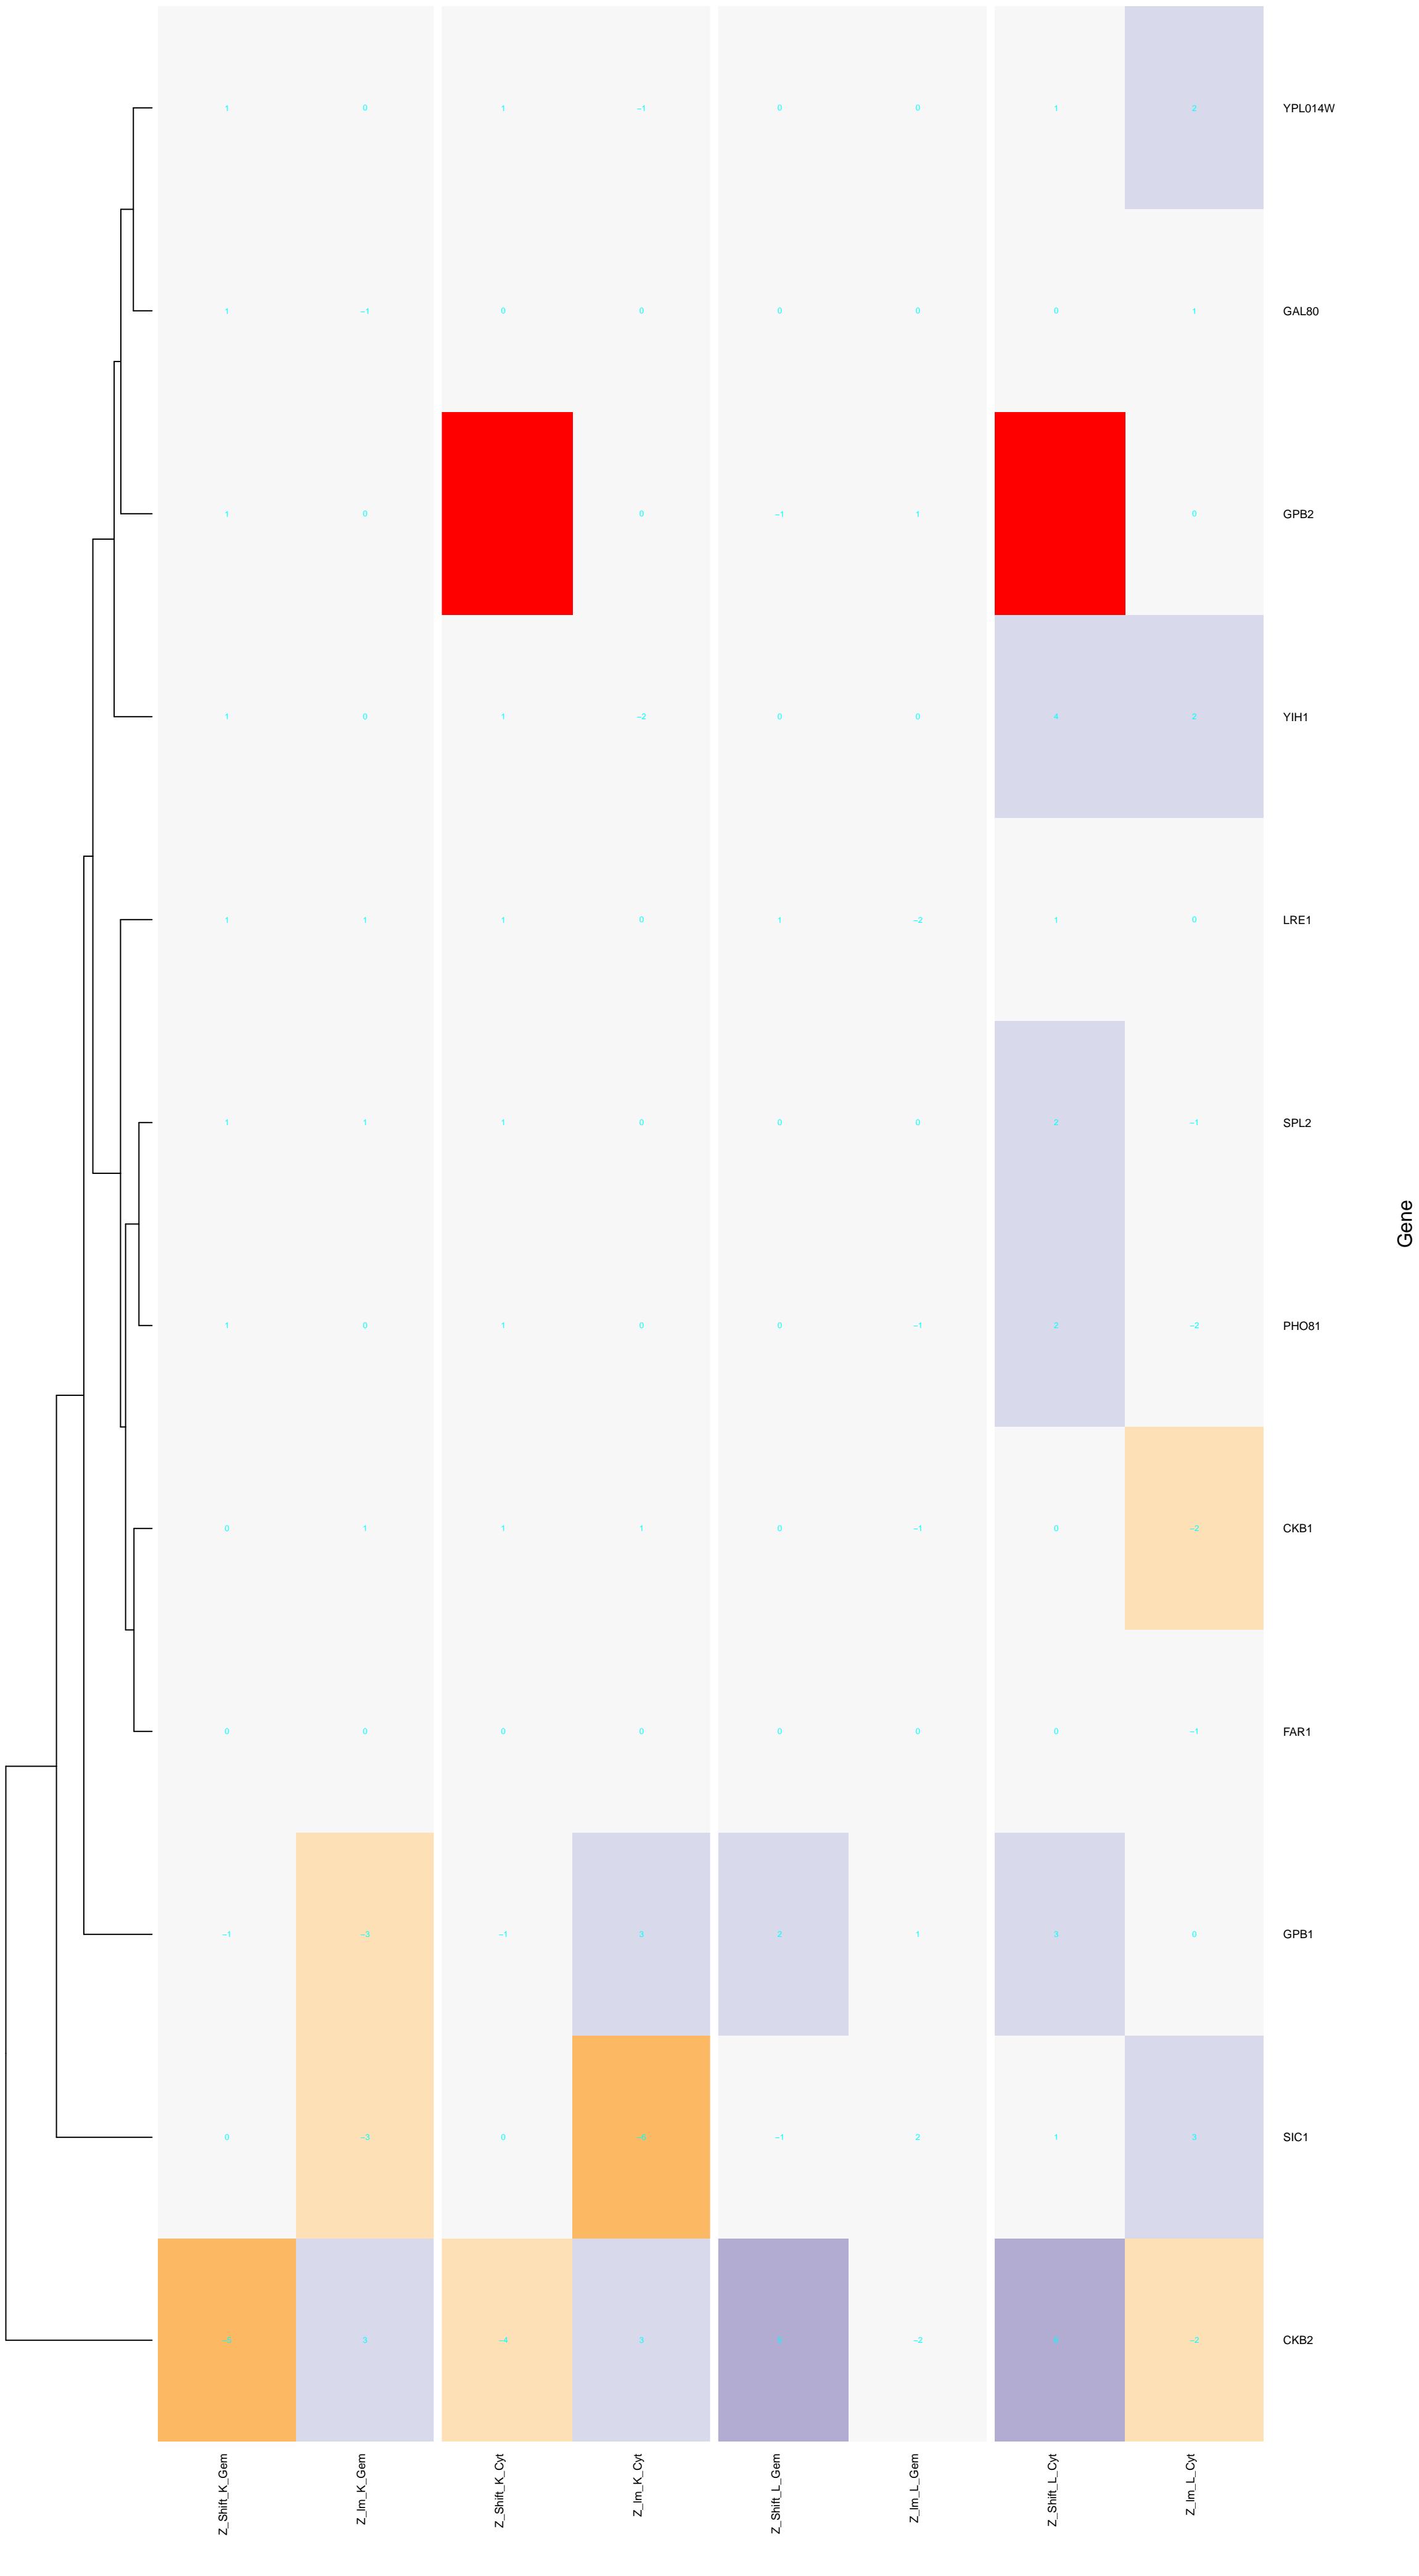

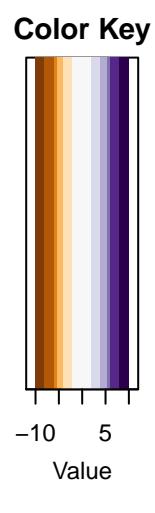

telomerase inhibitor activity

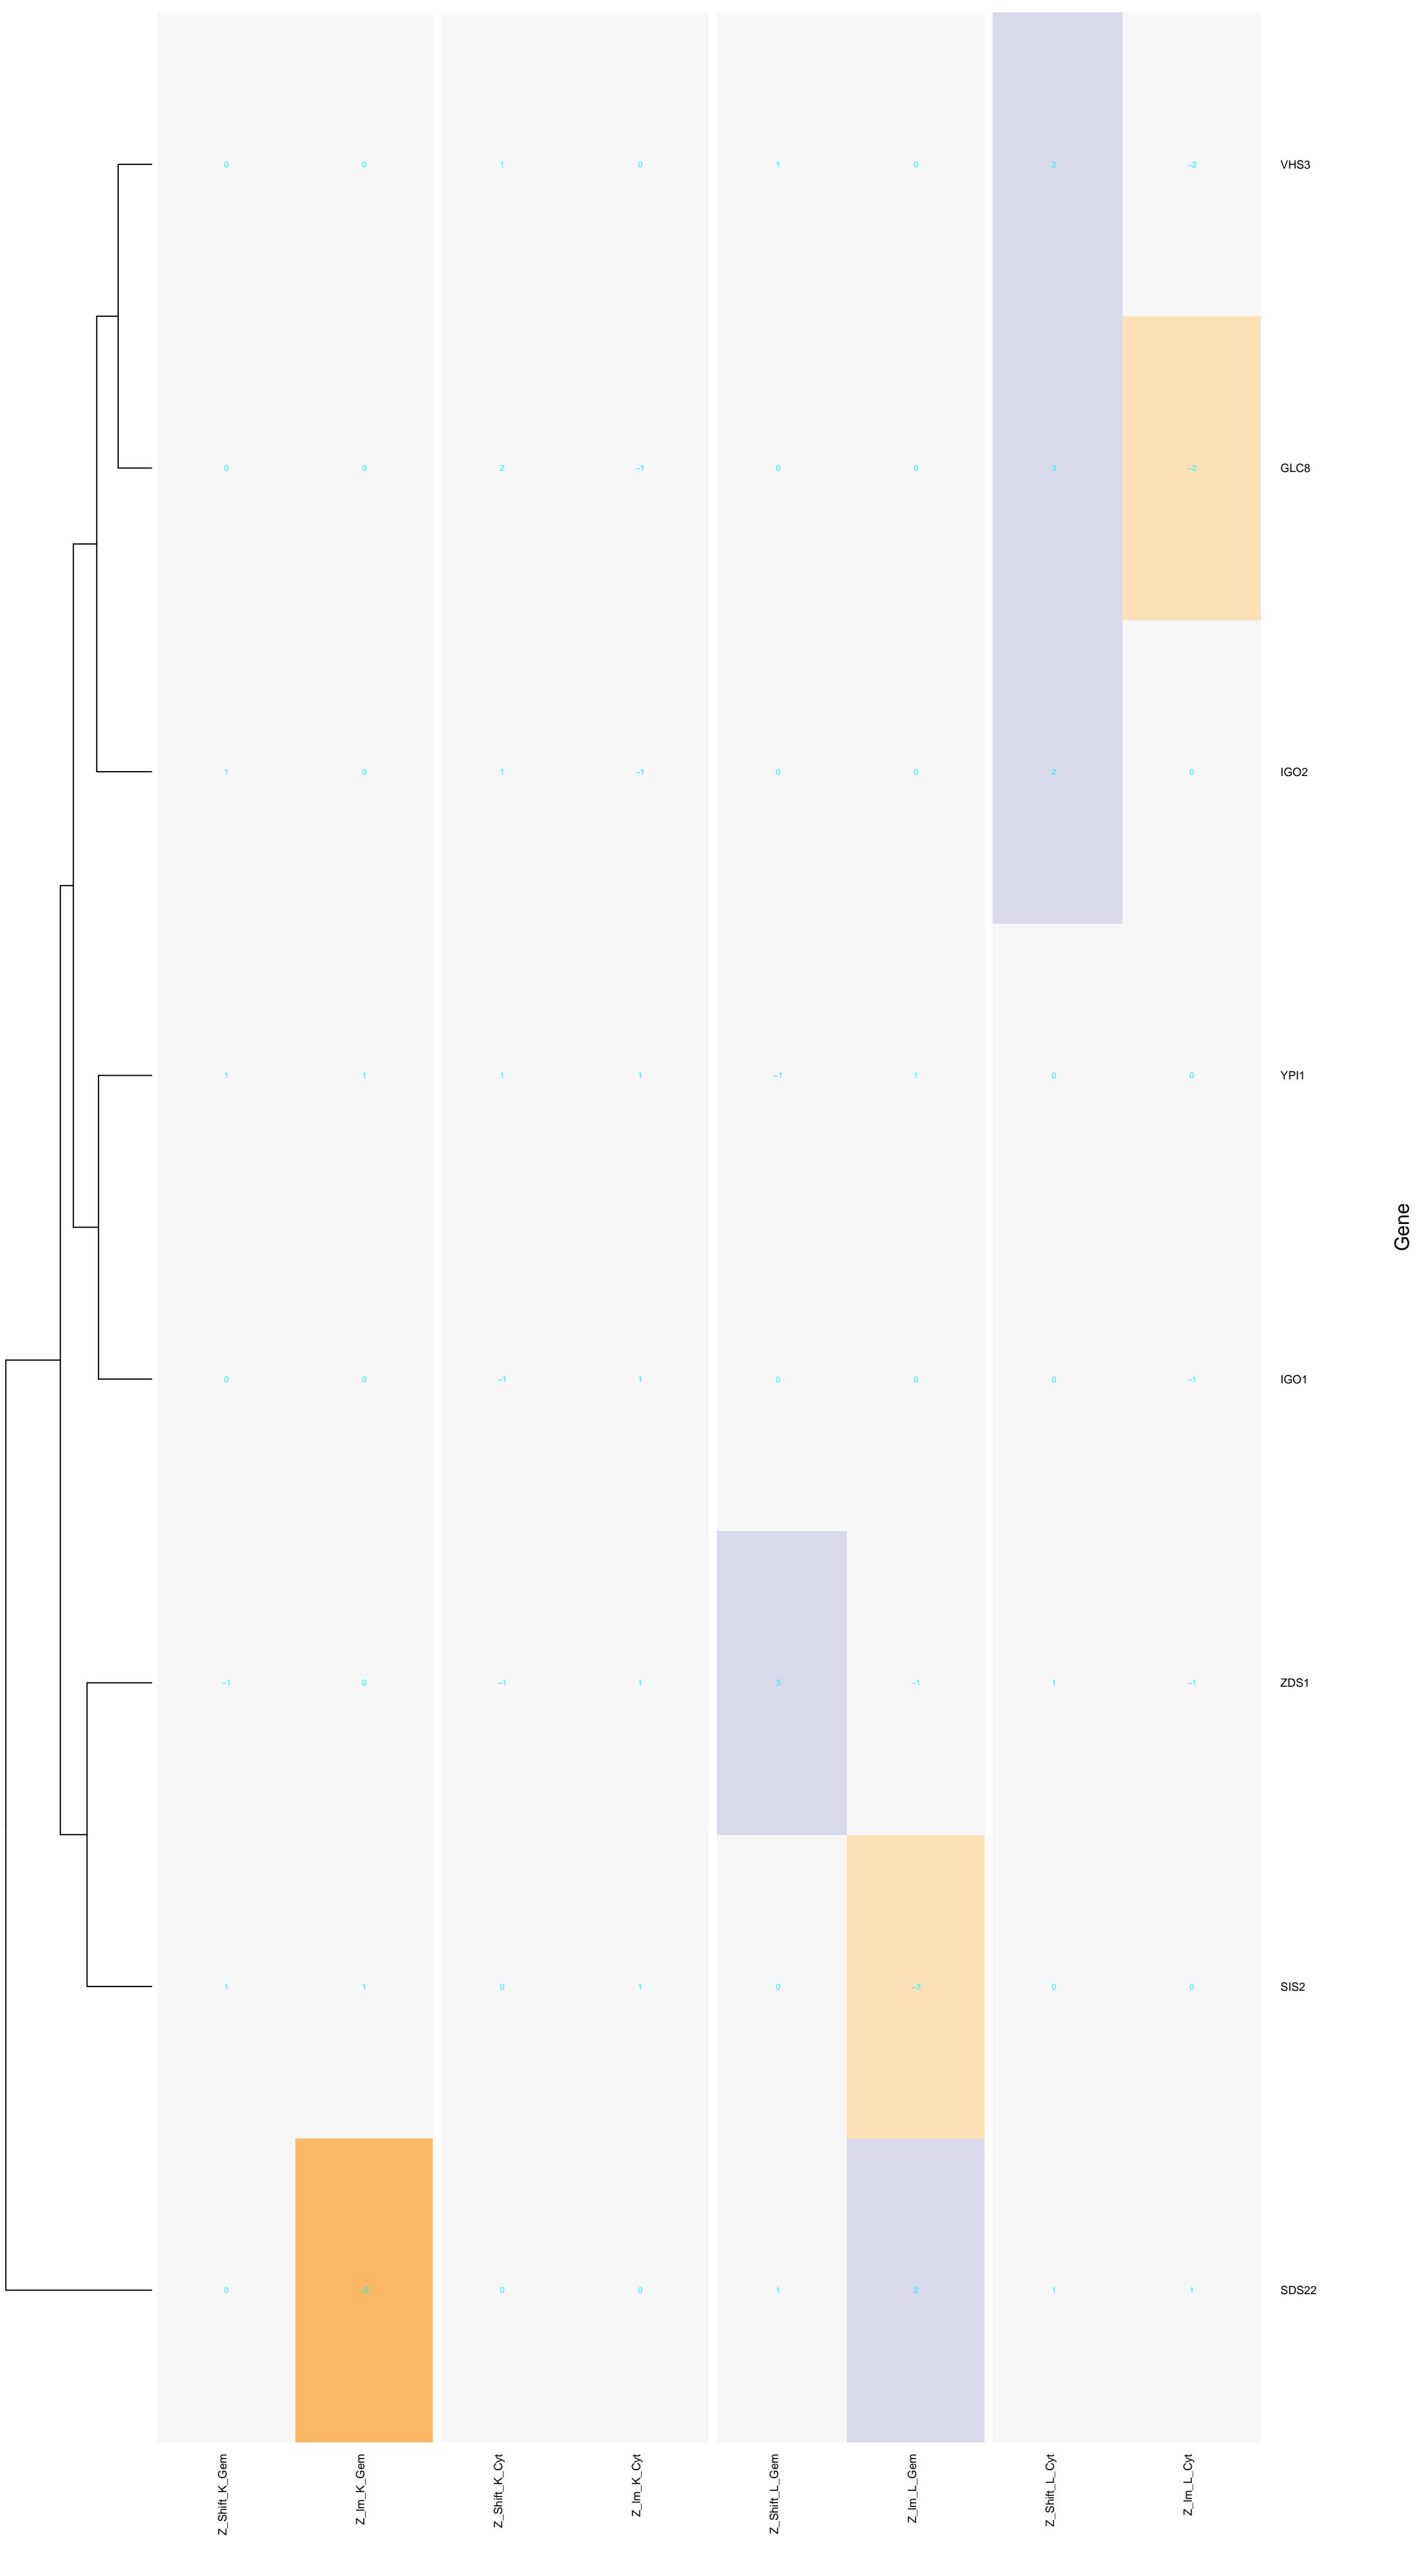

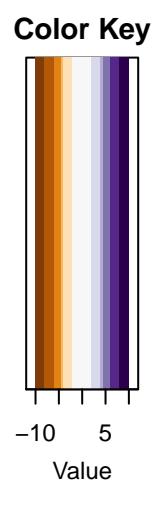

kinase inhibitor activity

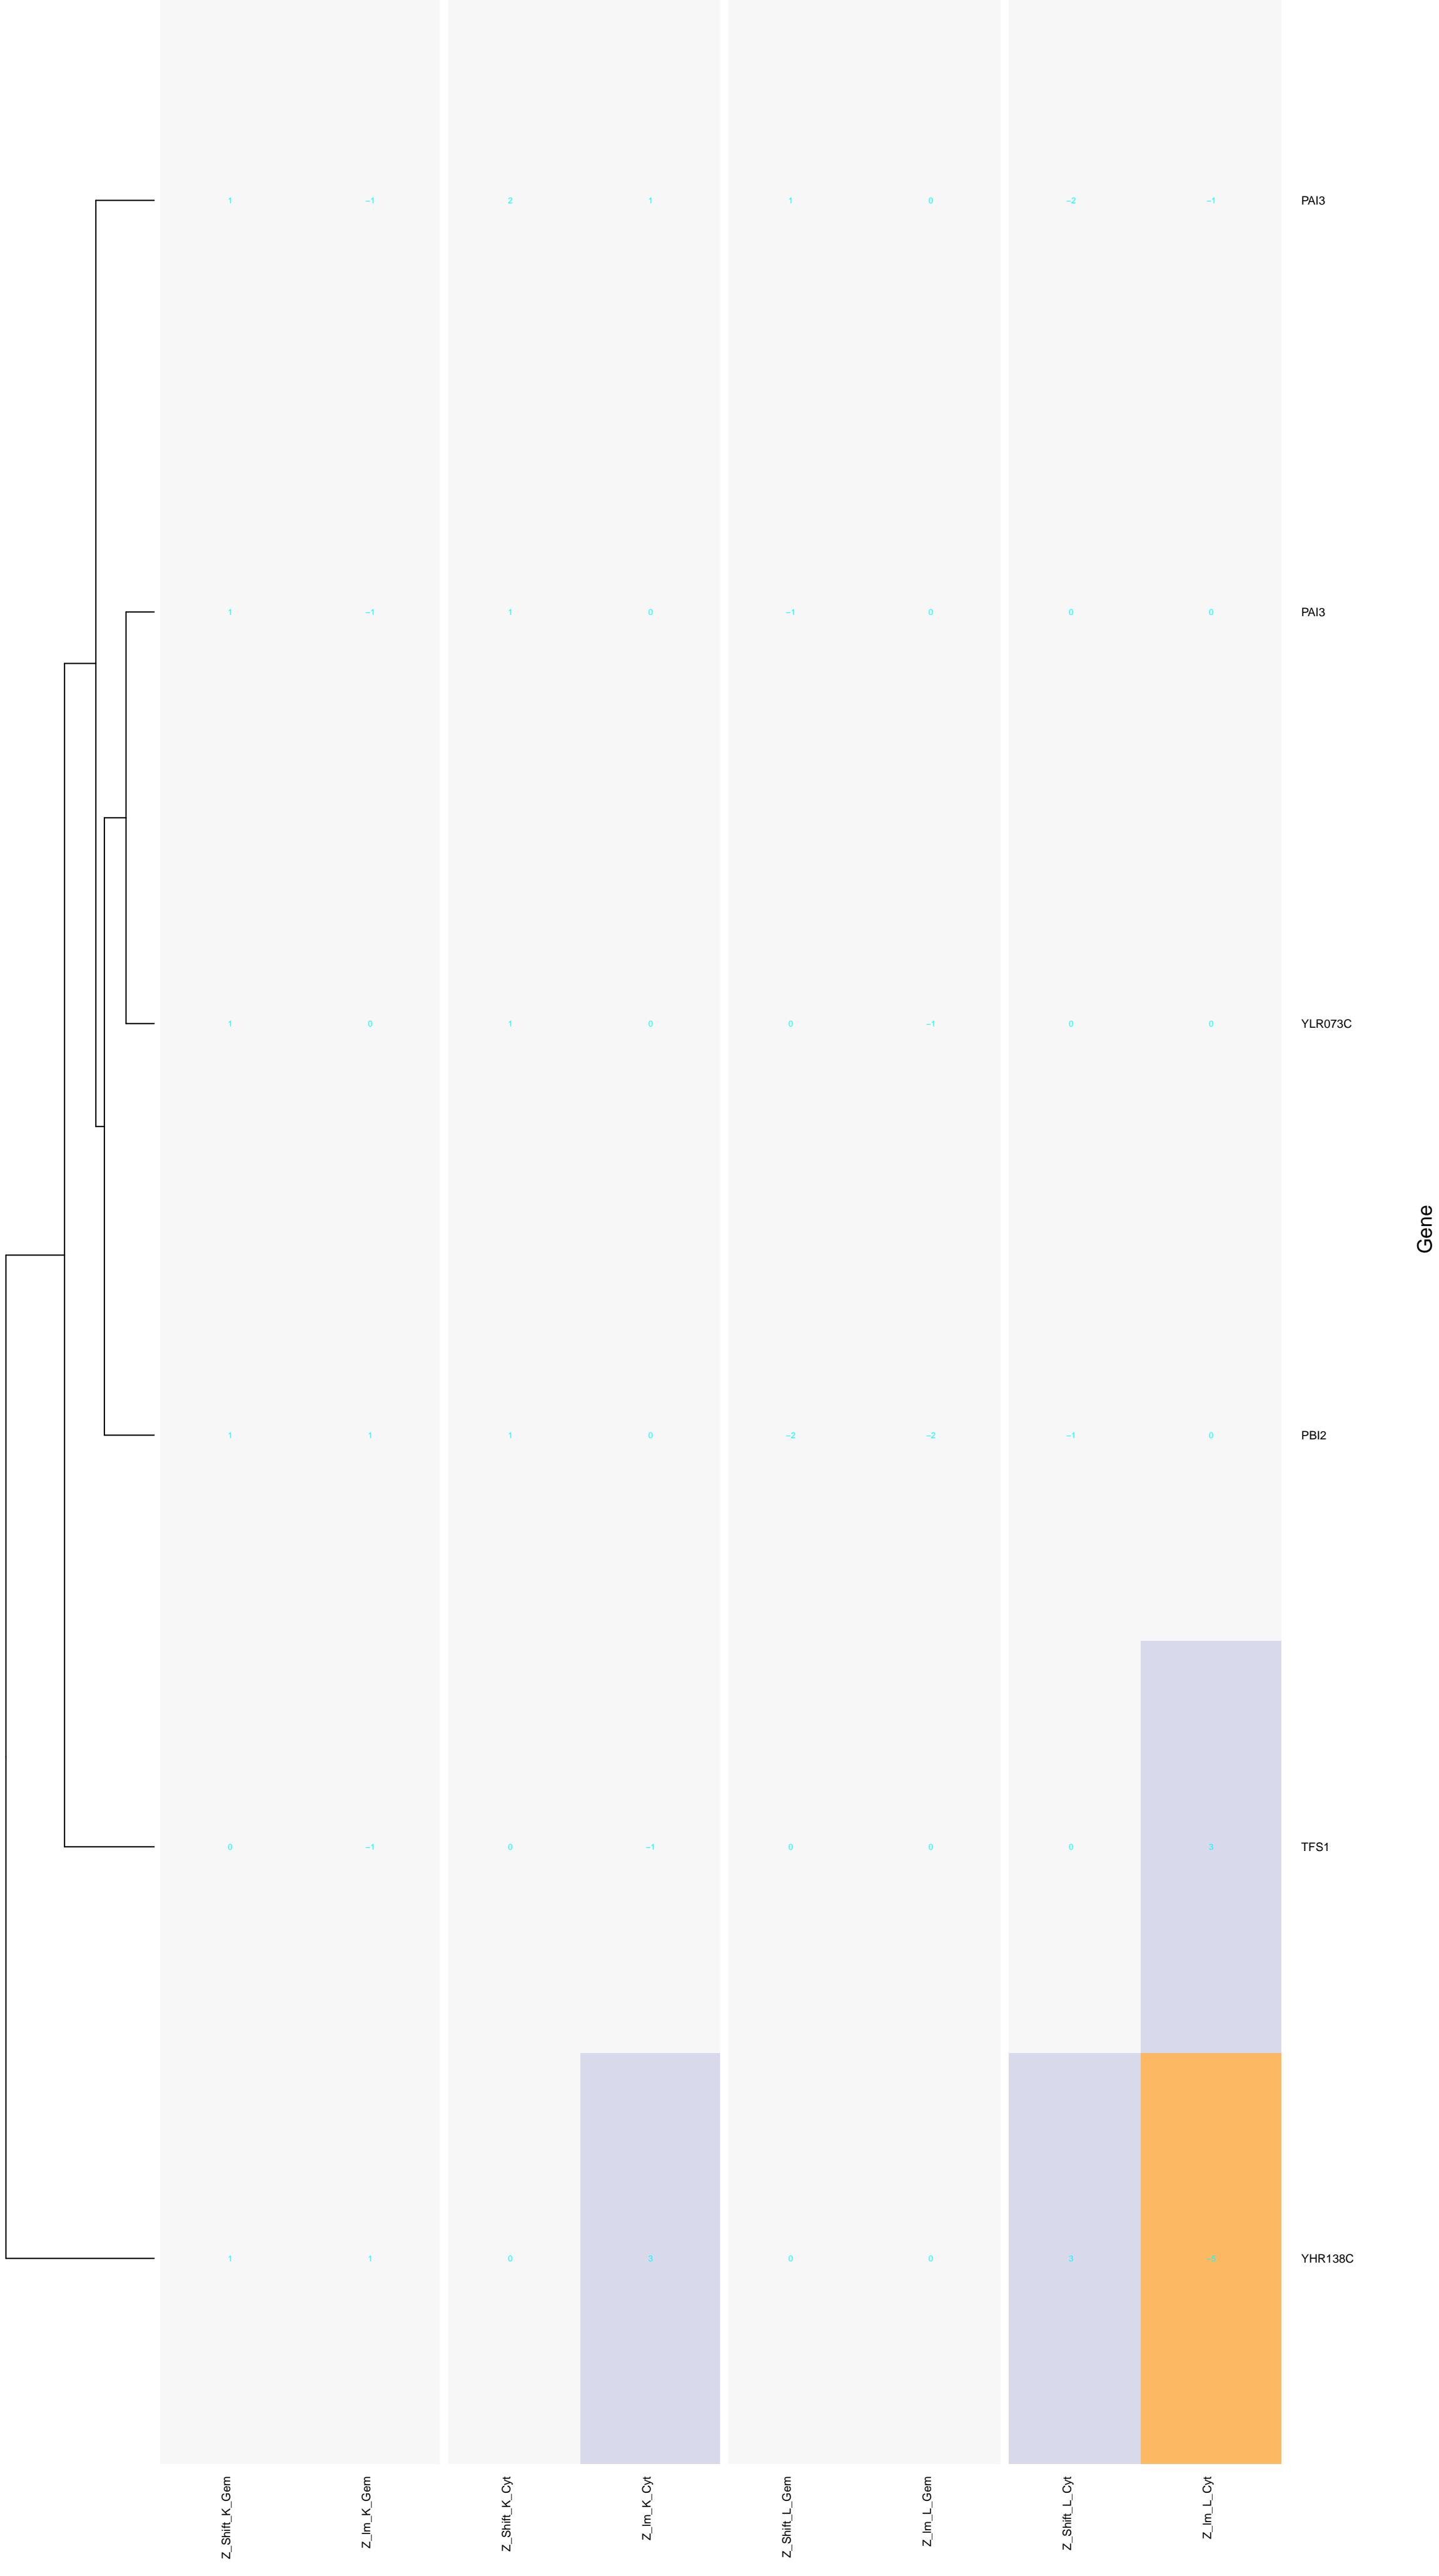

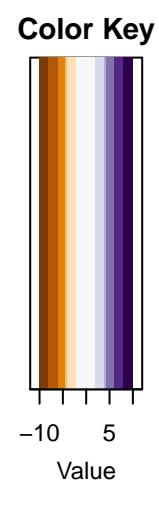

phosphatase inhibitor activity

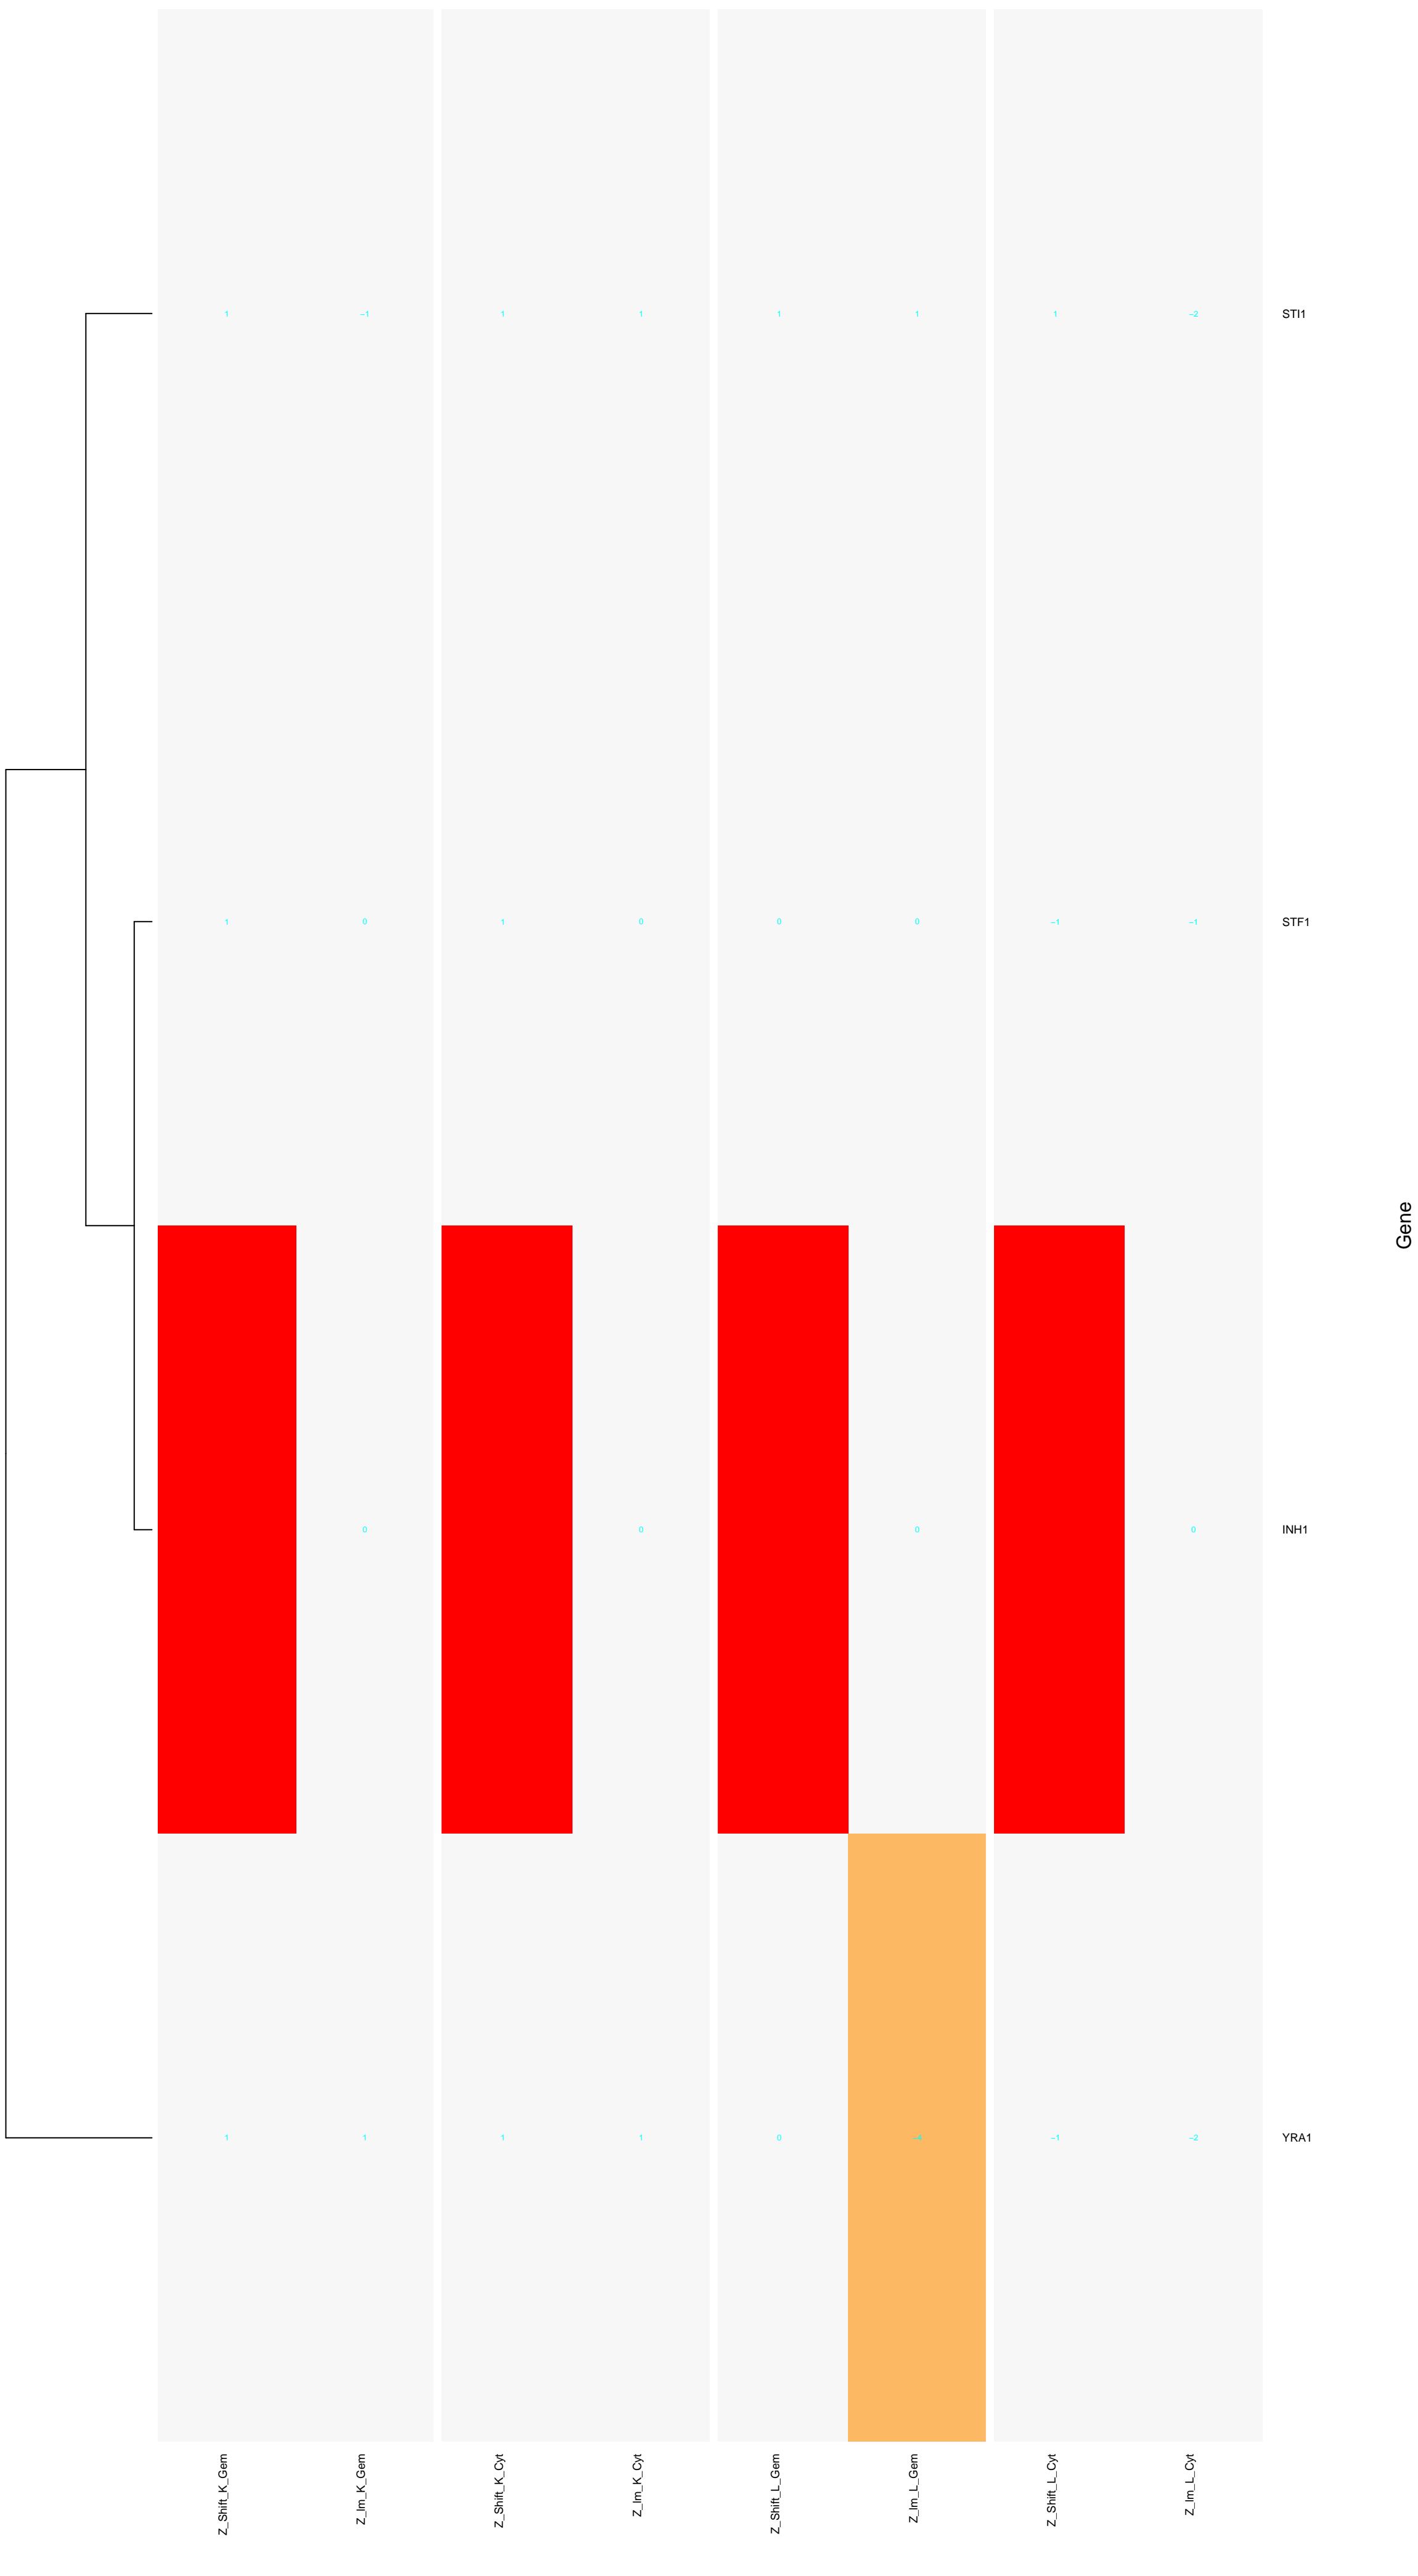

peptidase inhibitor activity

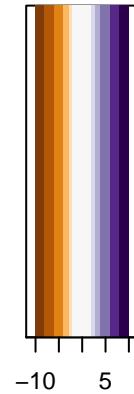

ATPase inhibitor activity

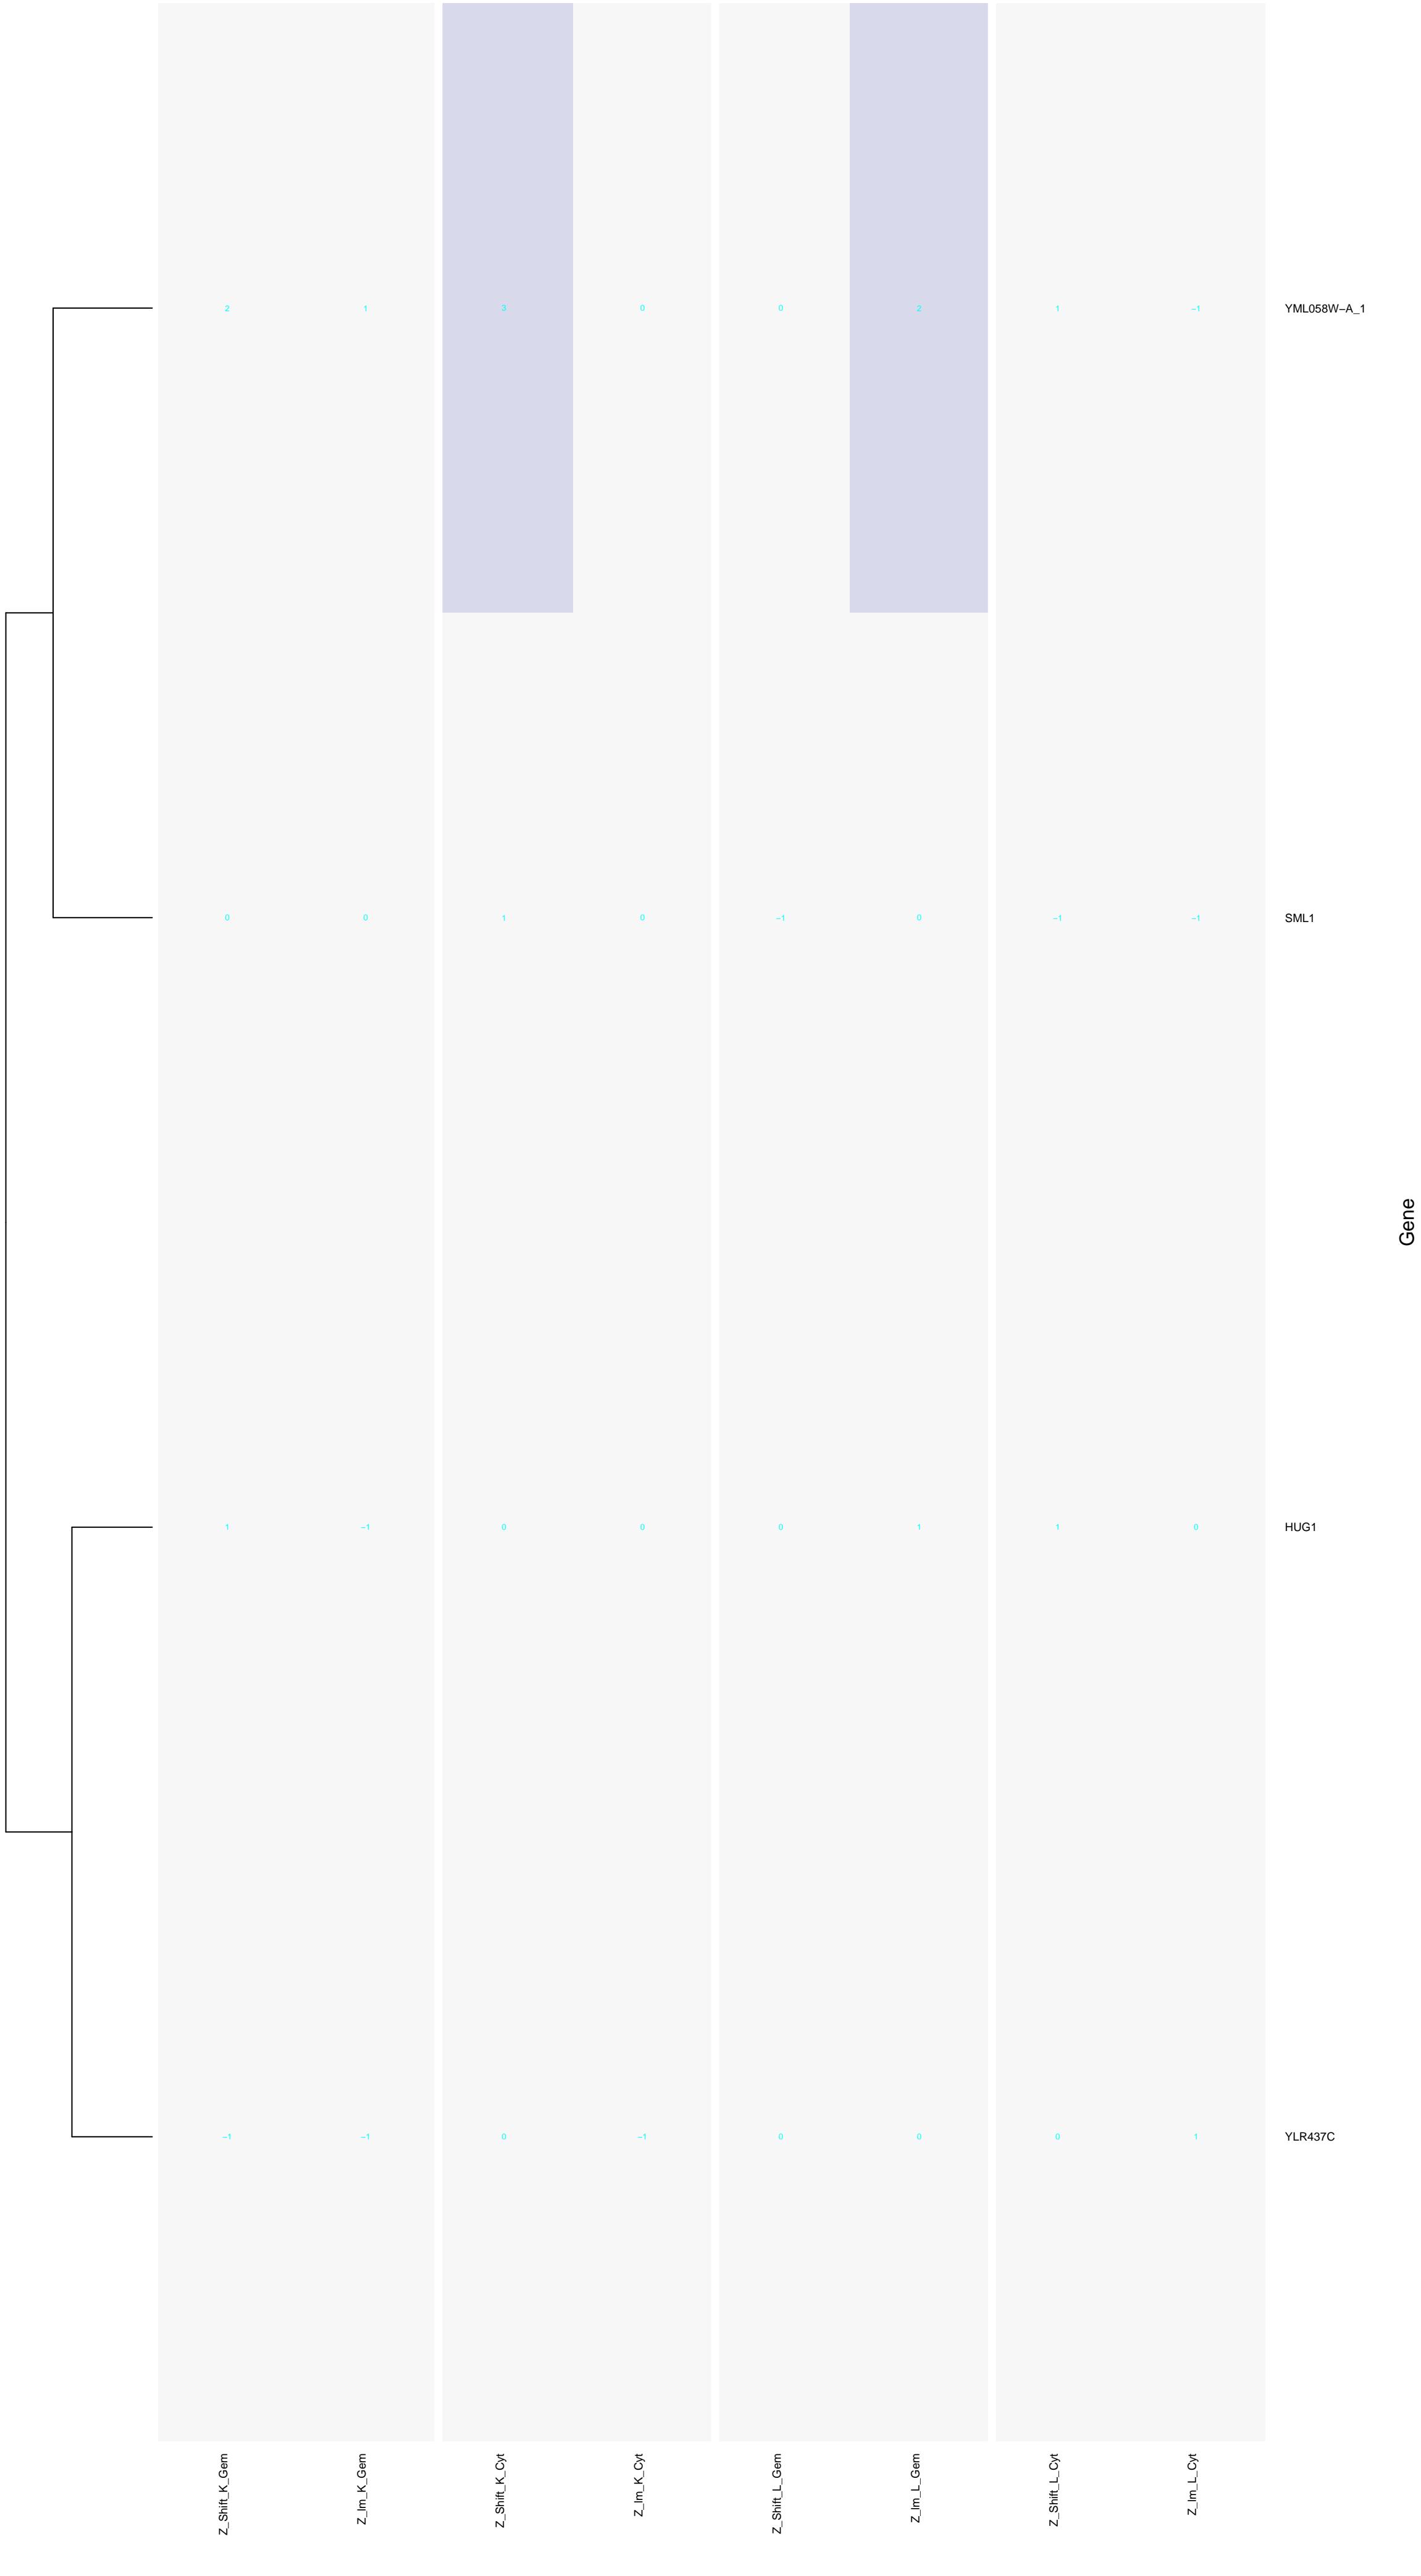

Color Key

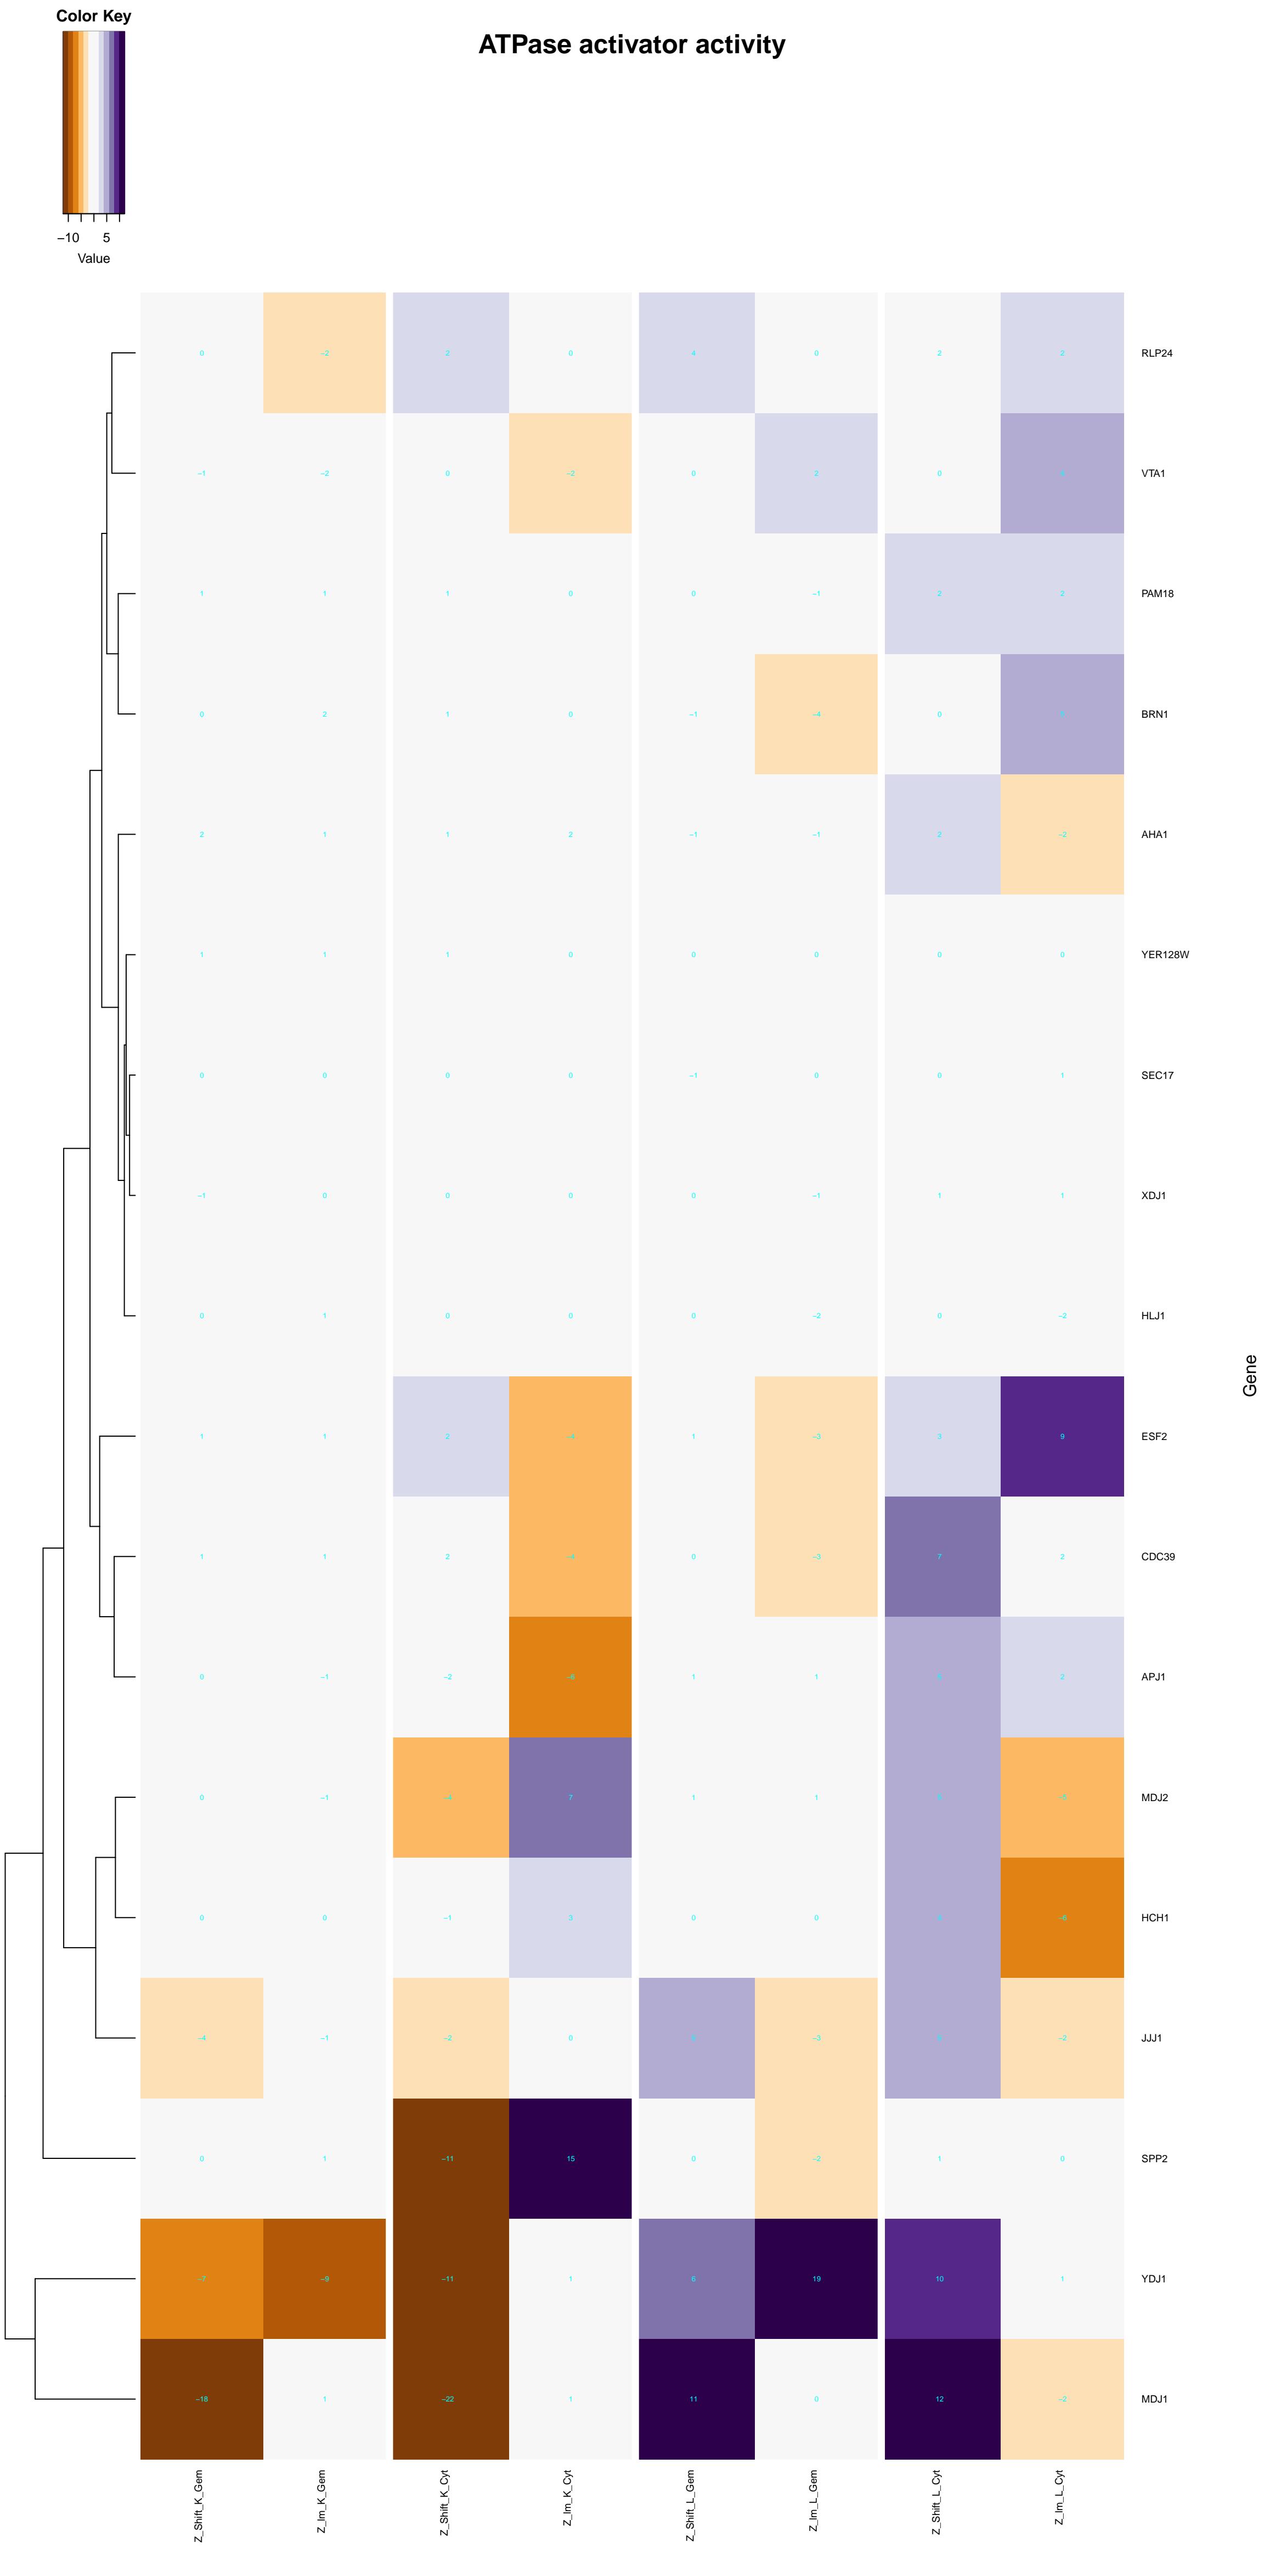

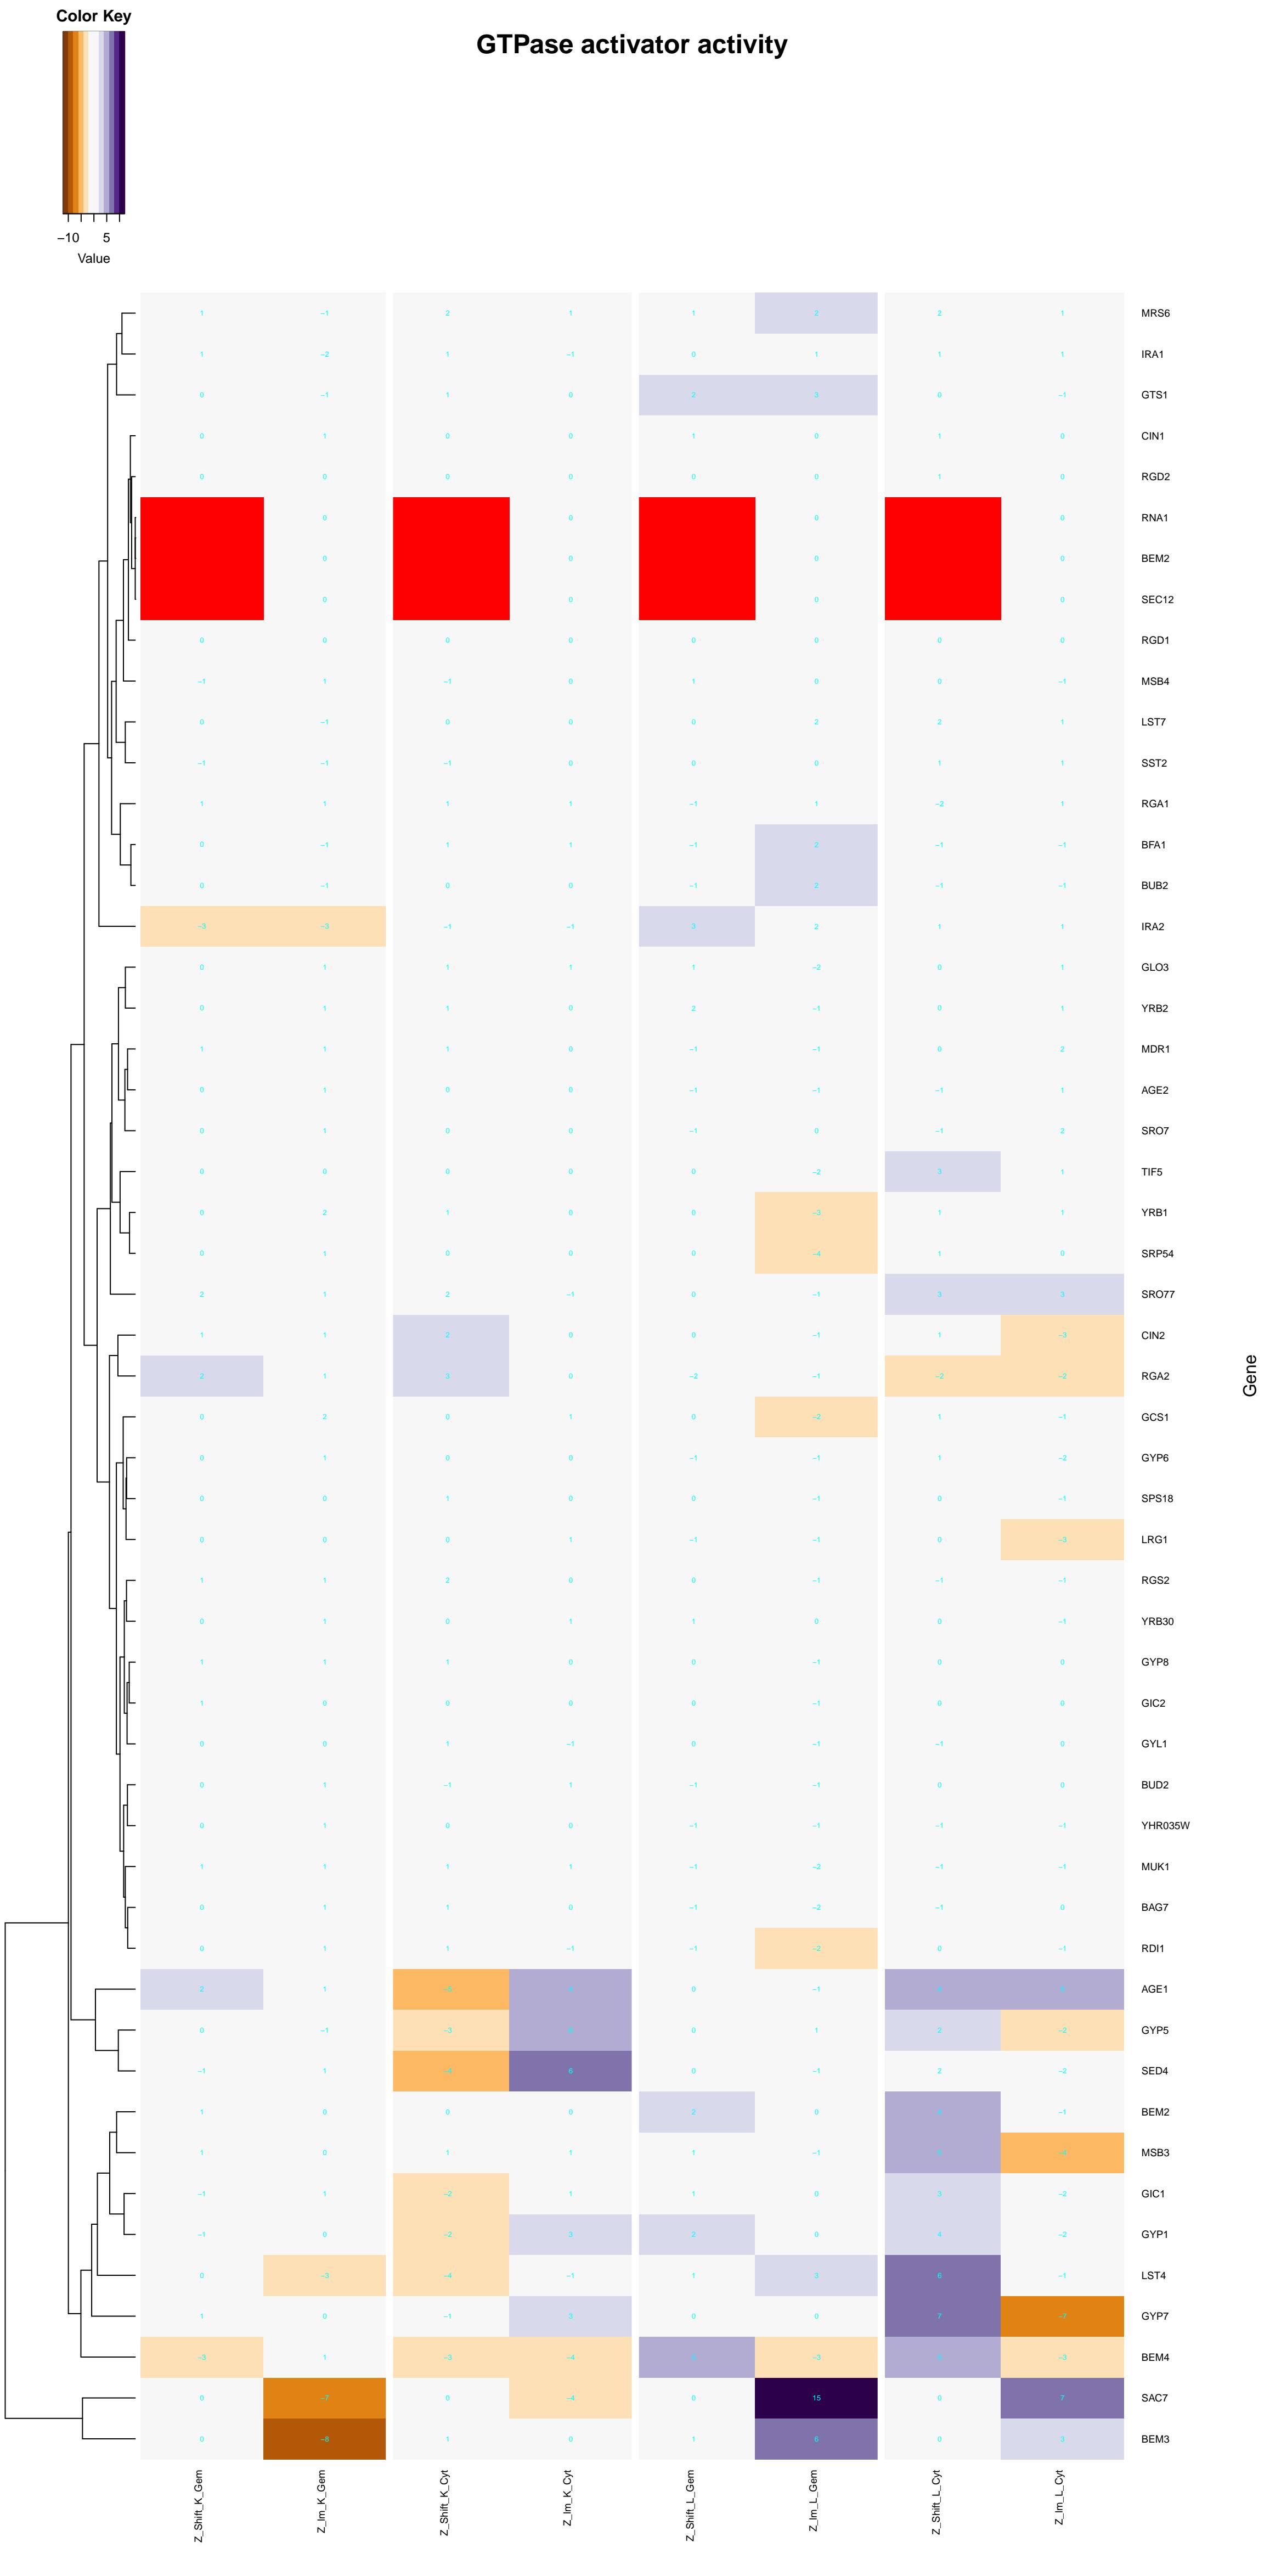

Value

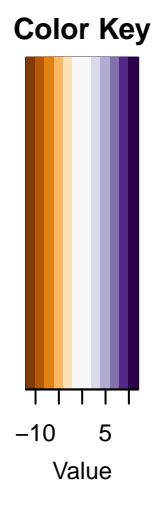

ribonucleoside-diphosphate reductase inhibitor activity

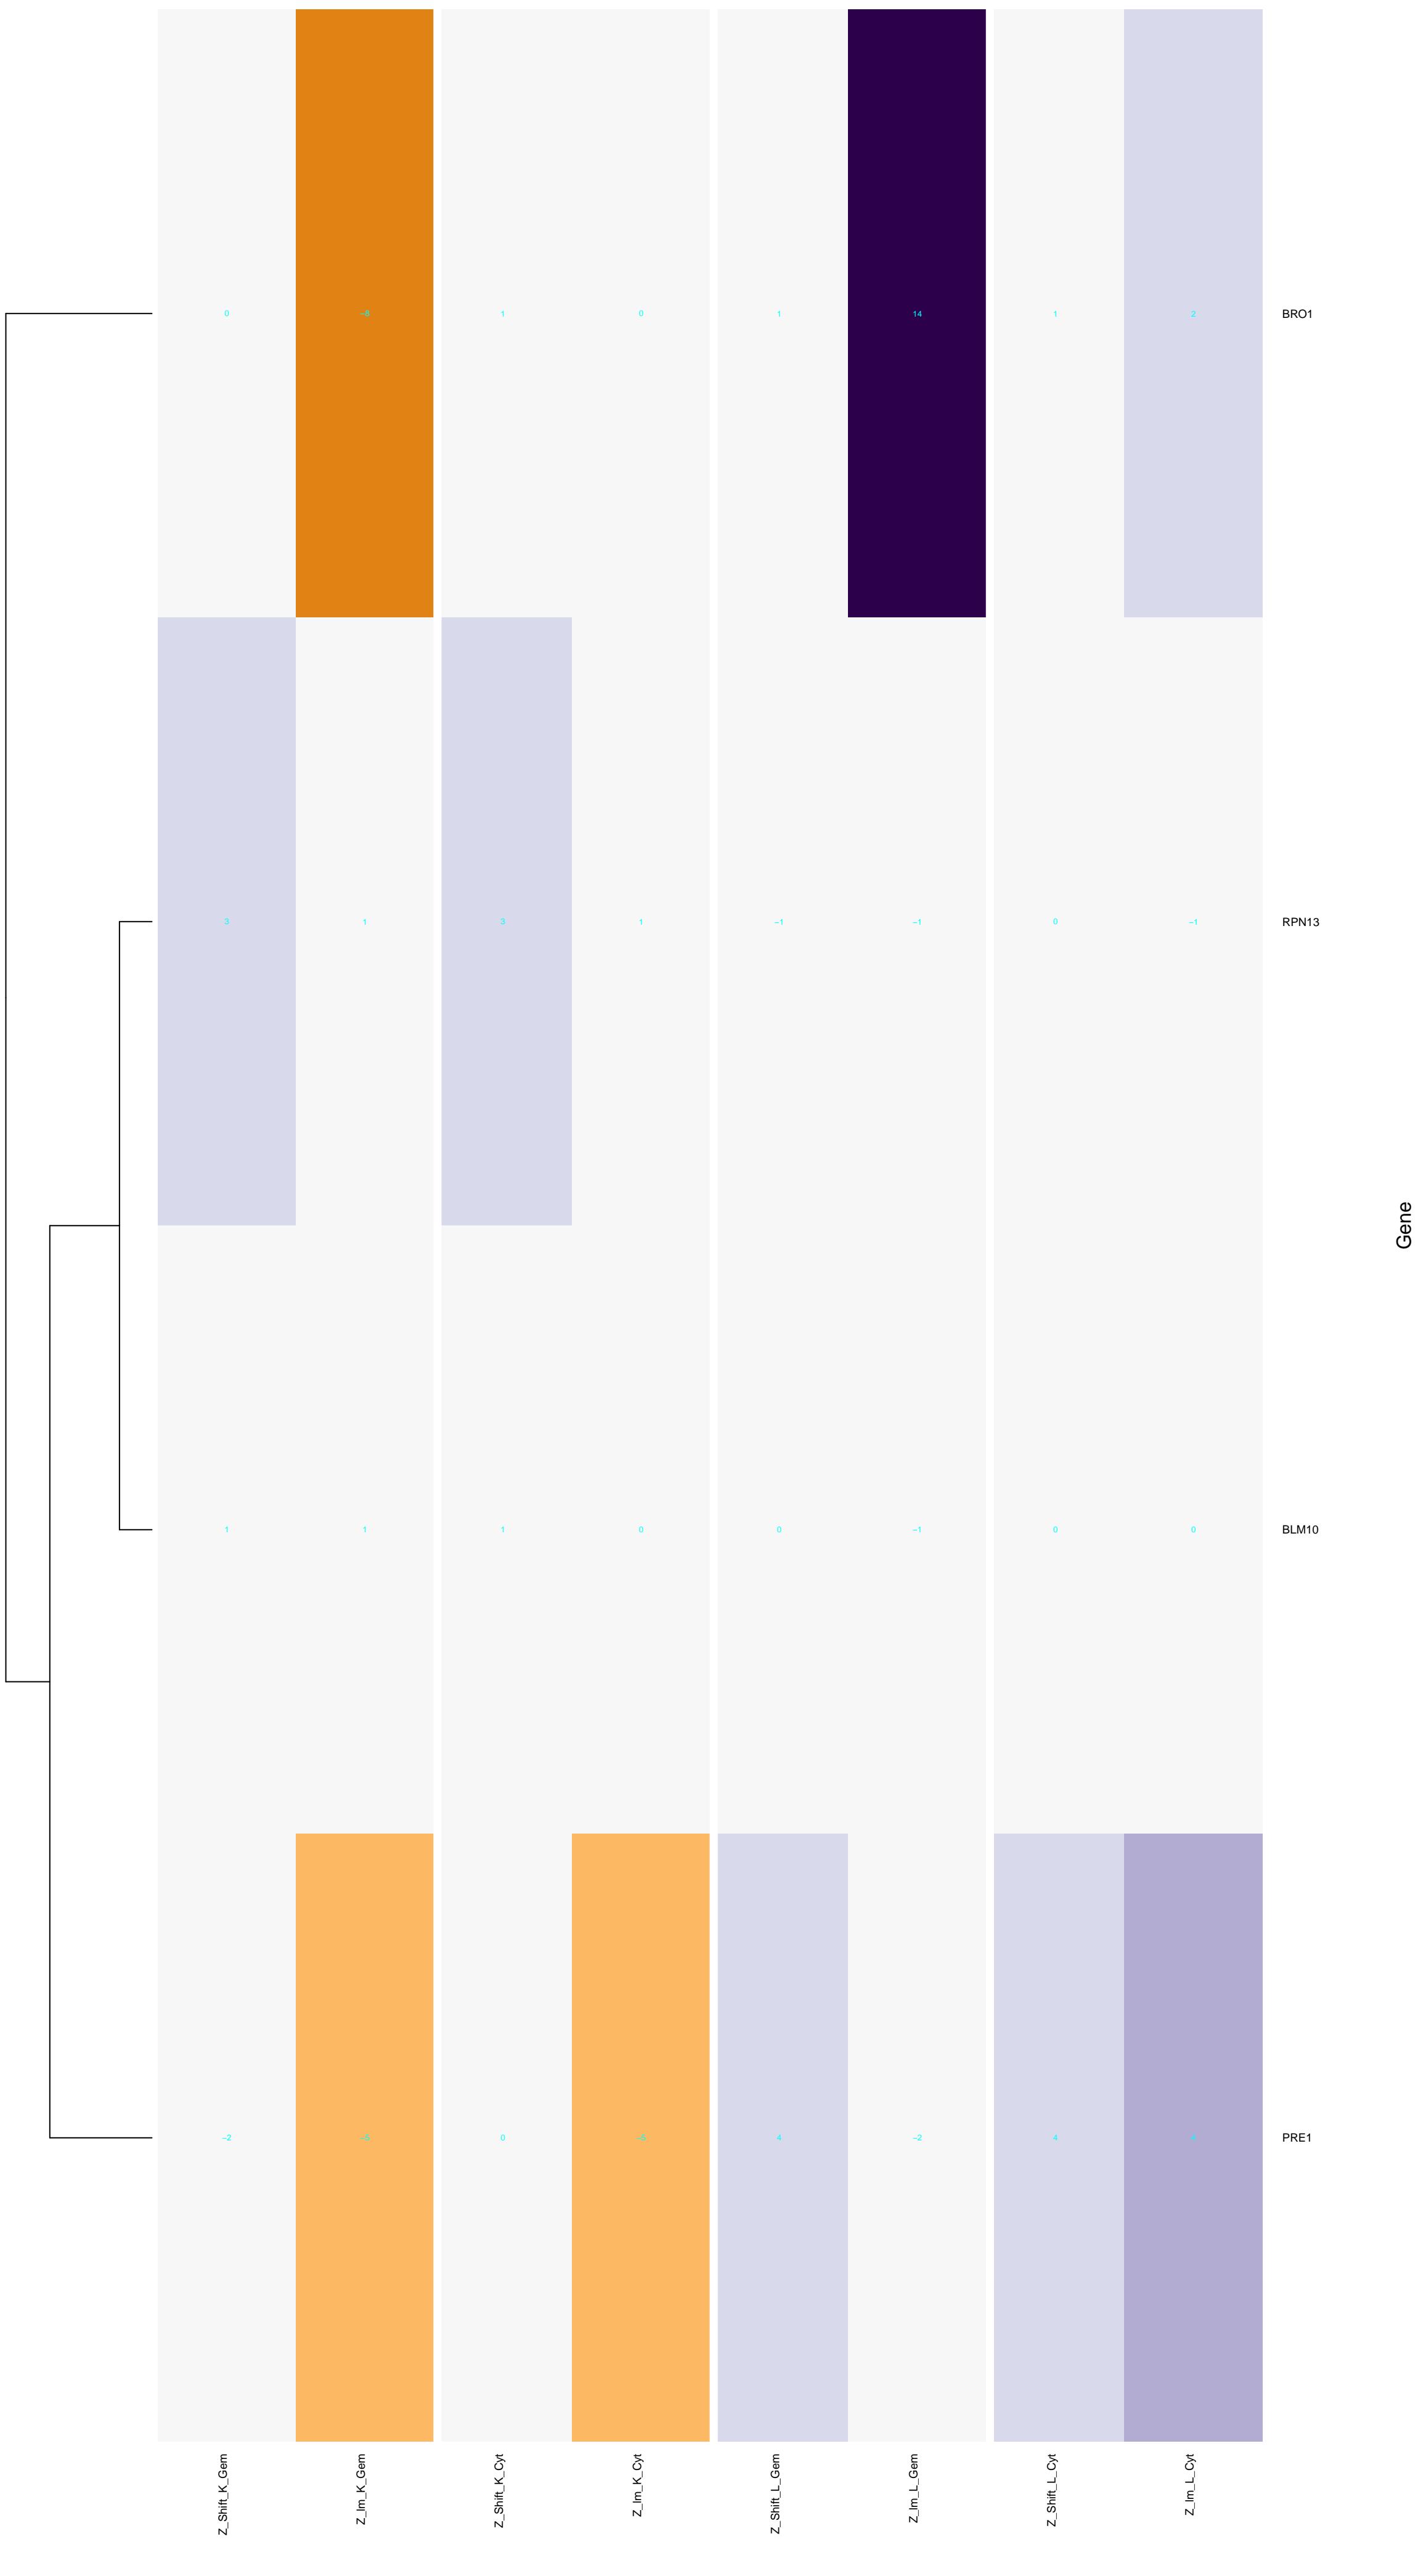

Gene

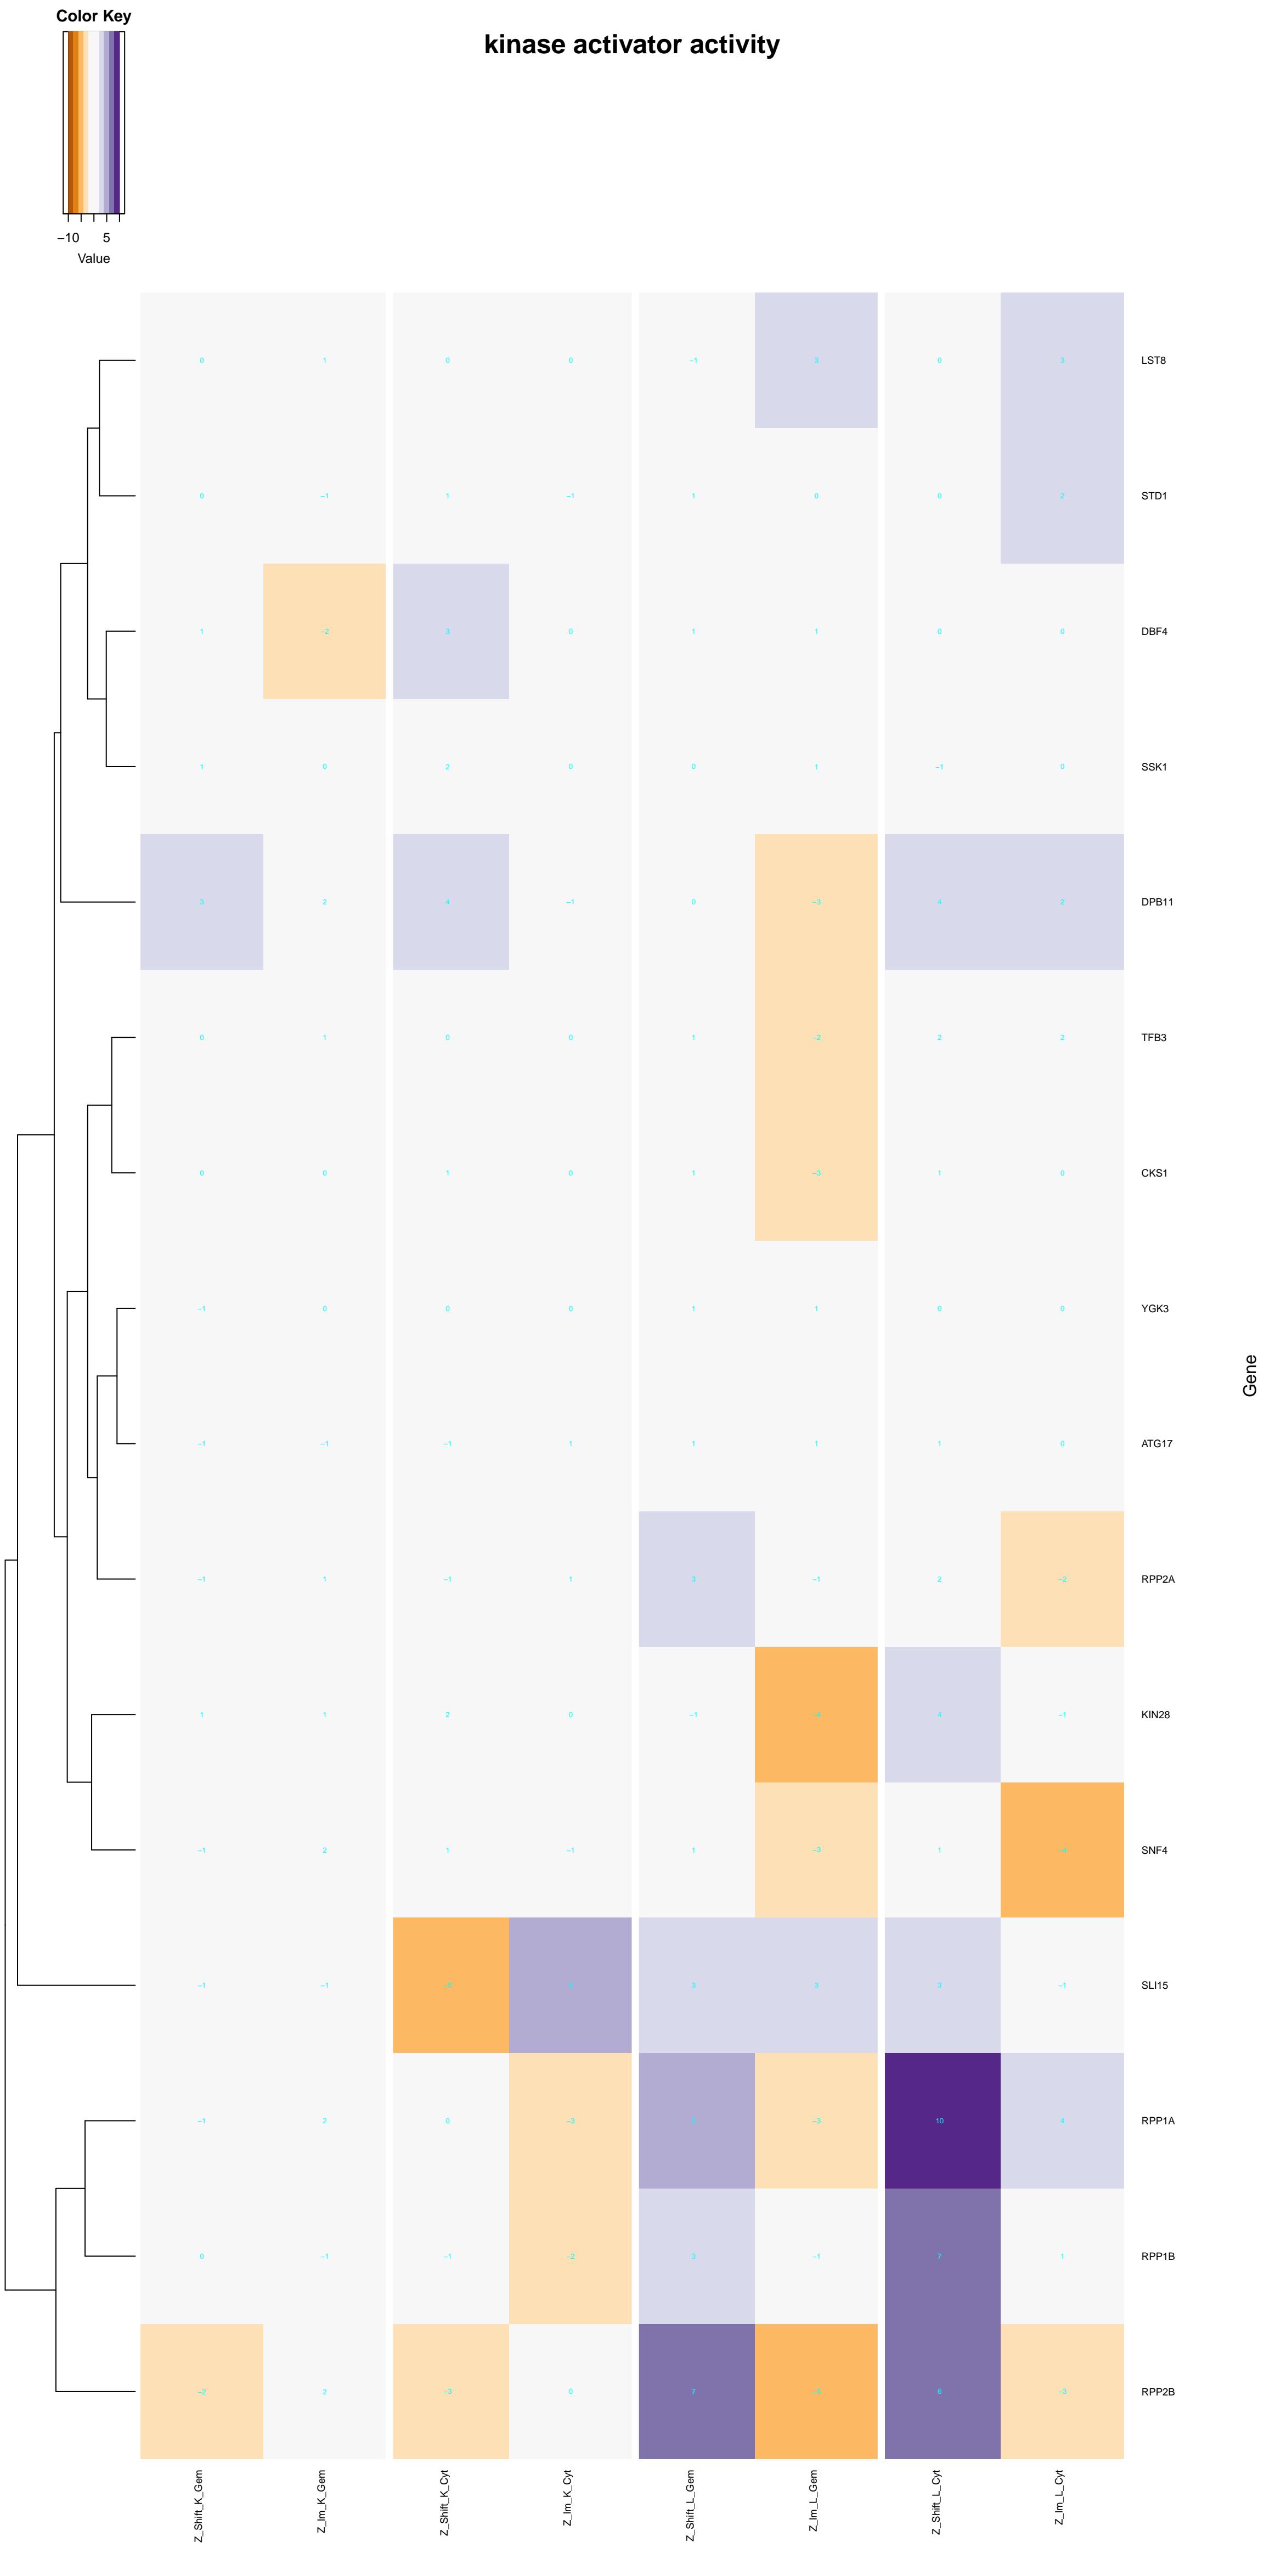

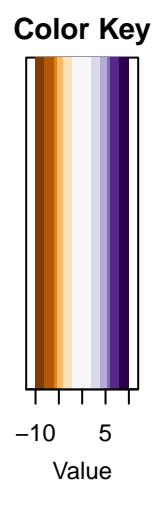

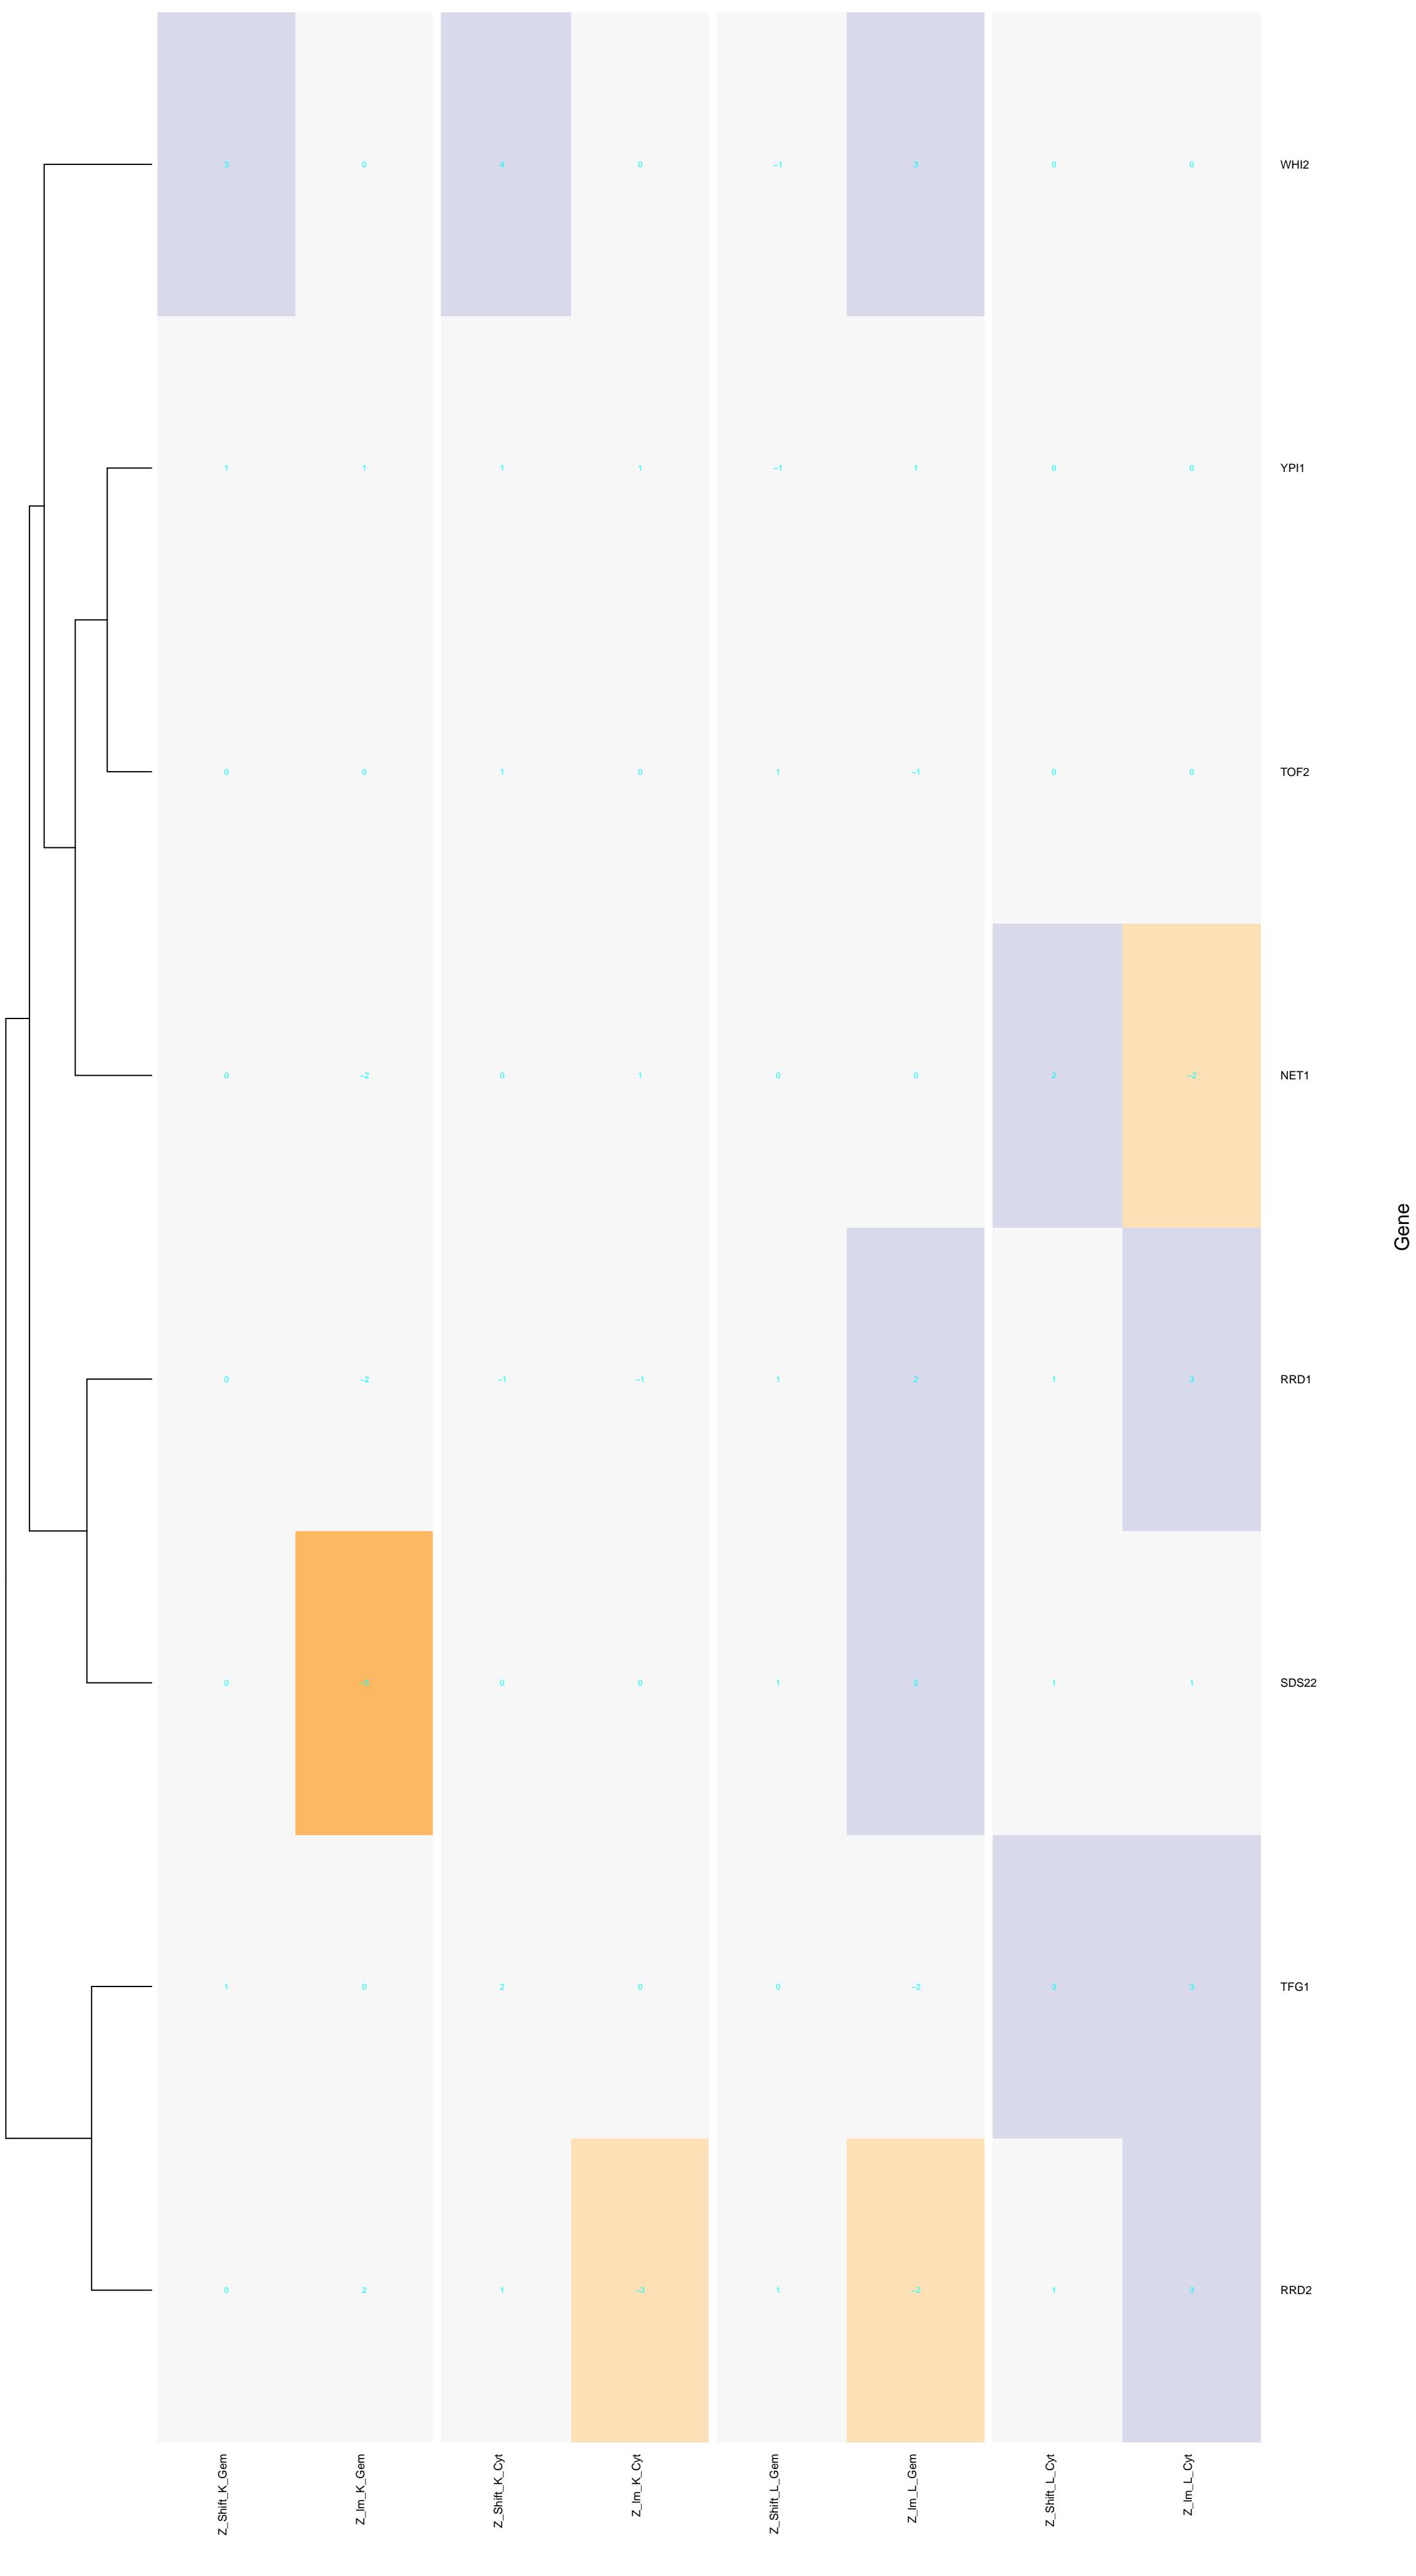

peptidase activator activity

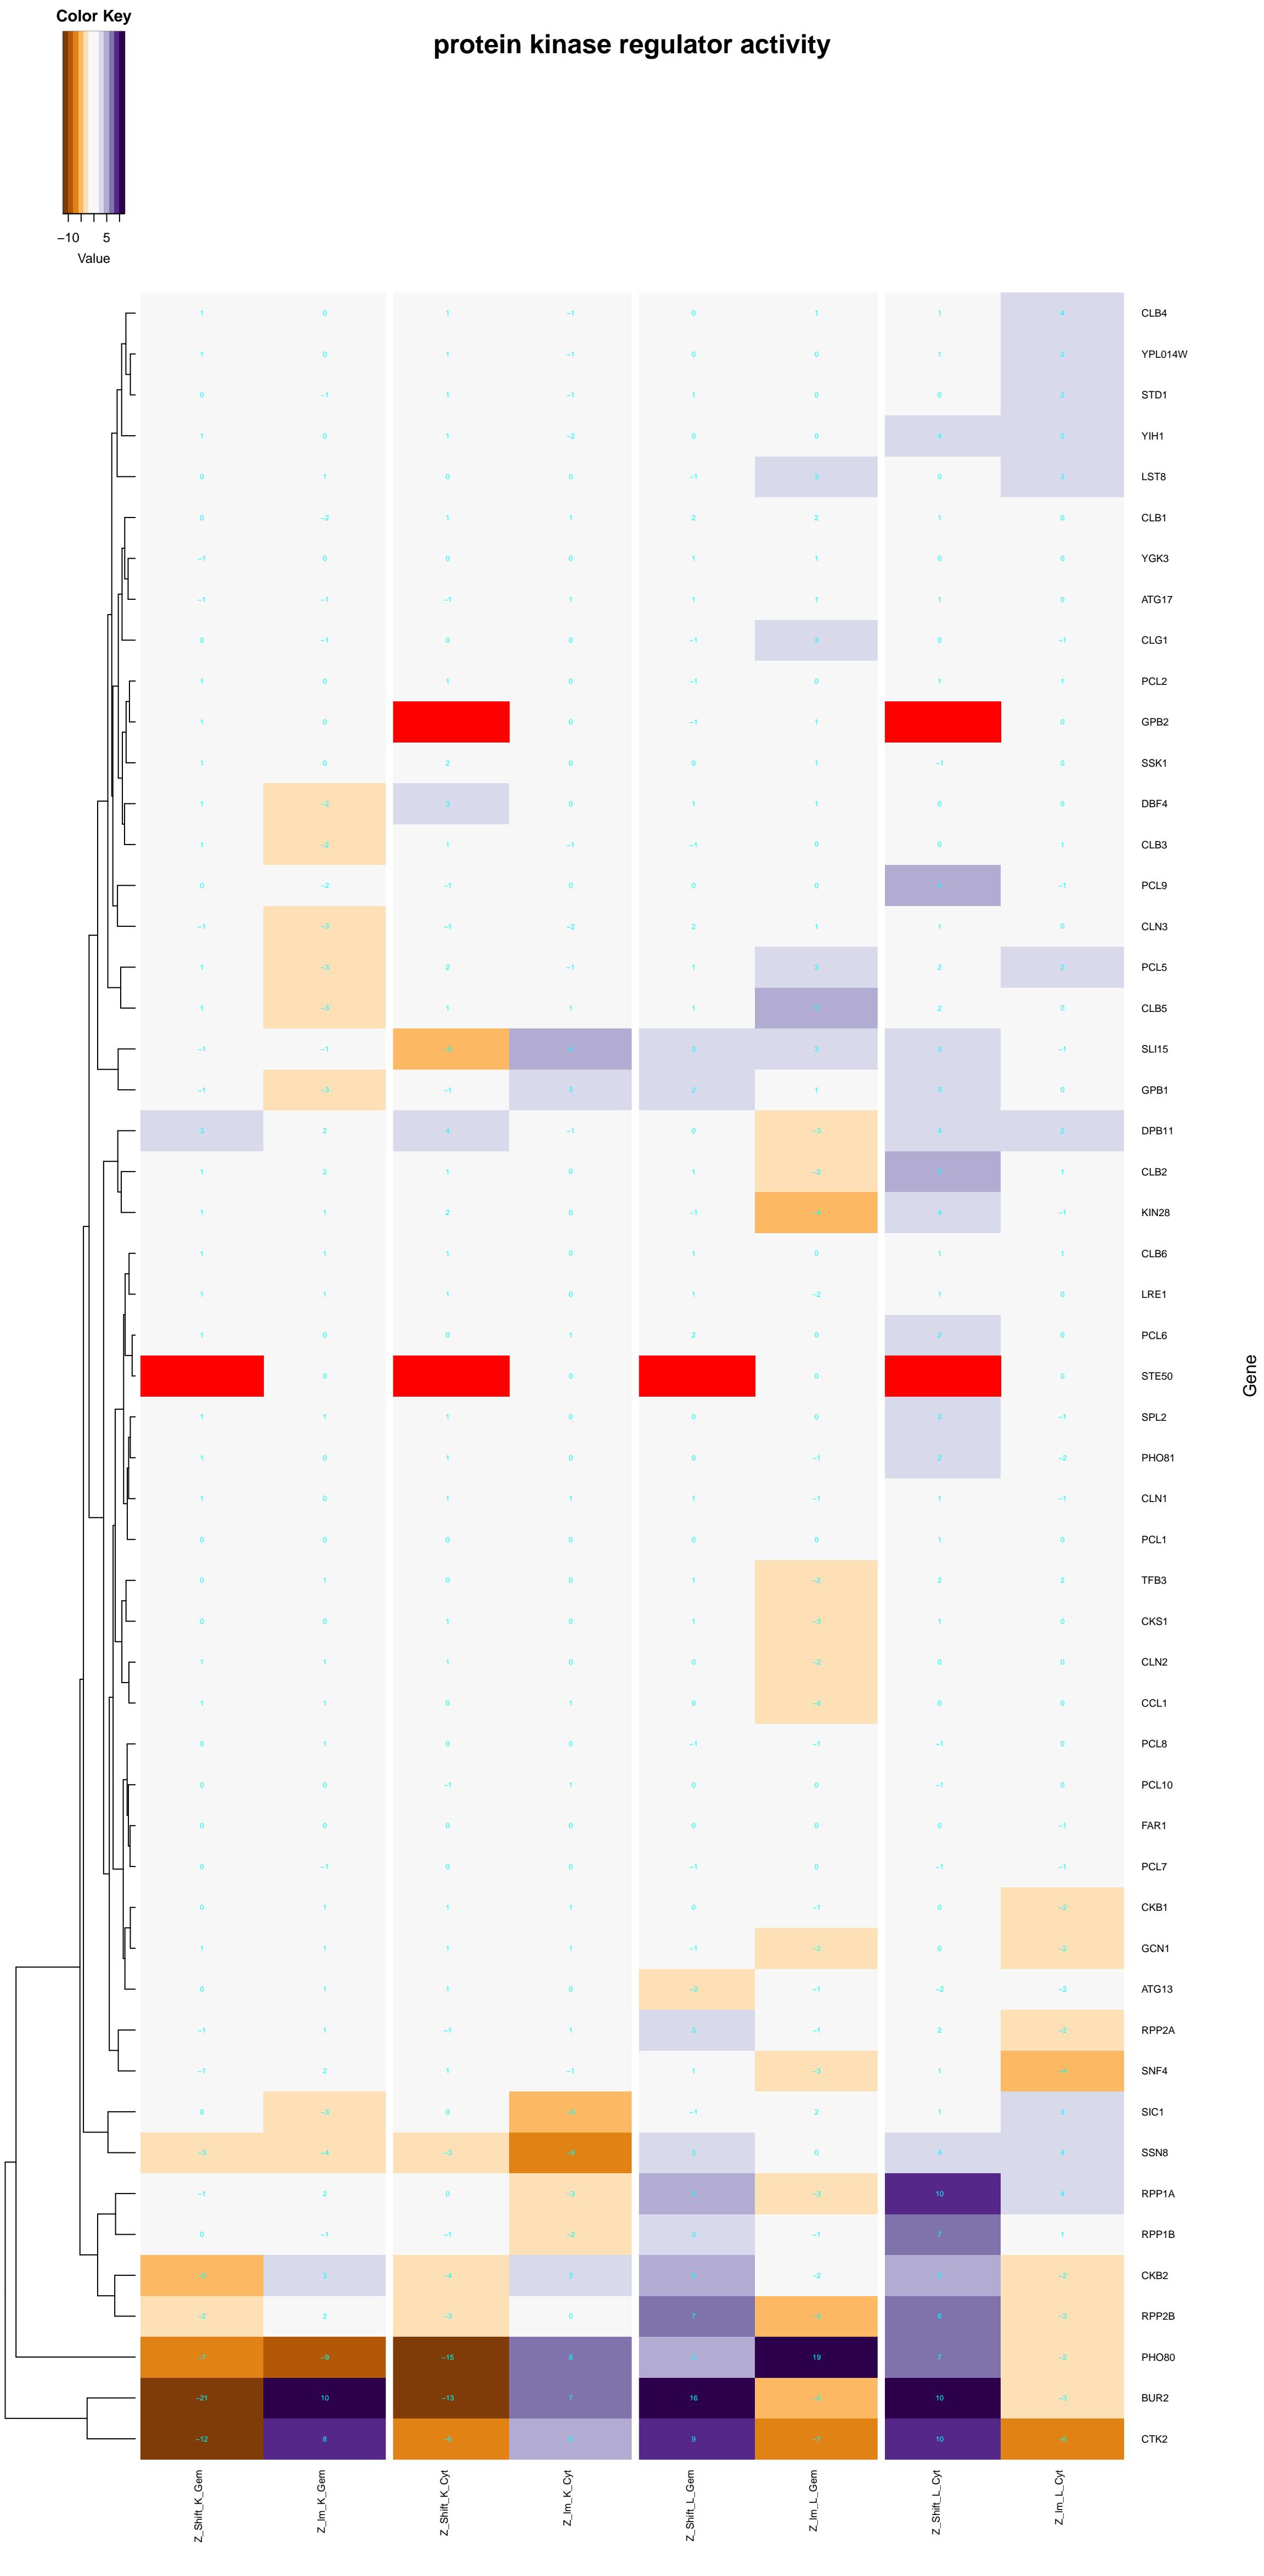

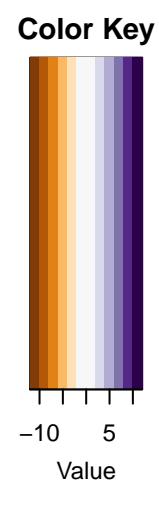

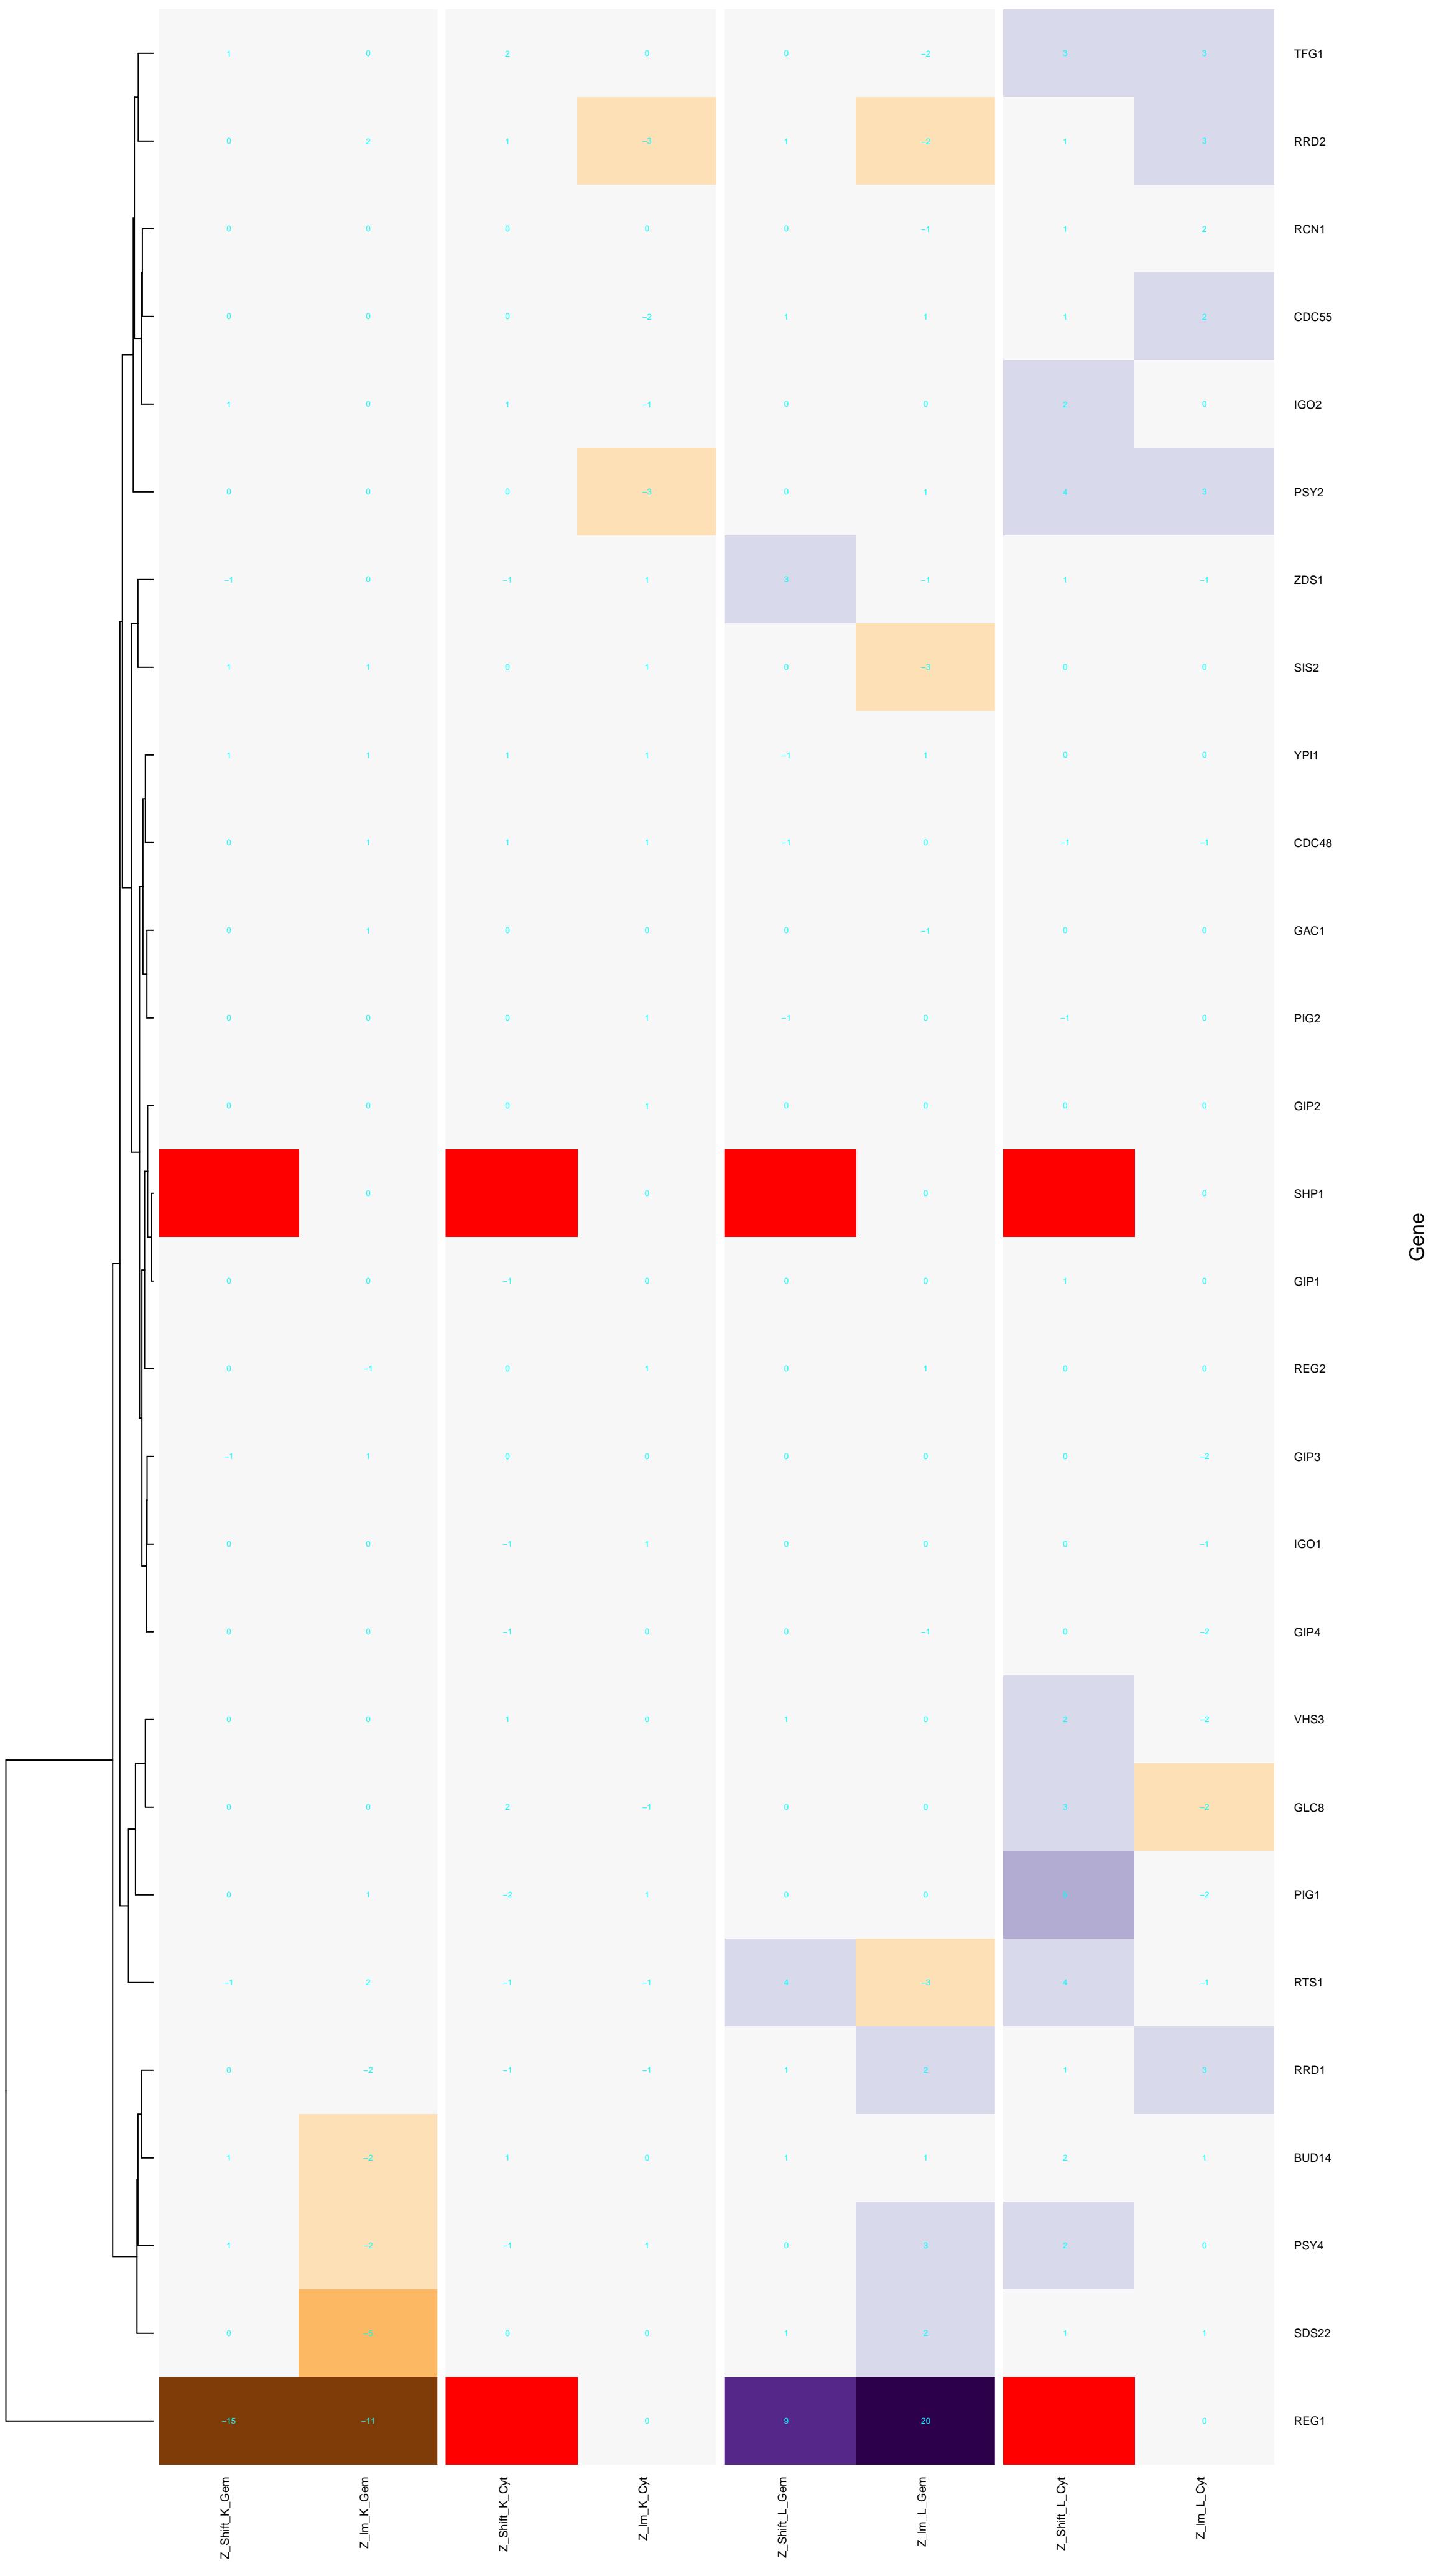

phosphatase activator activity

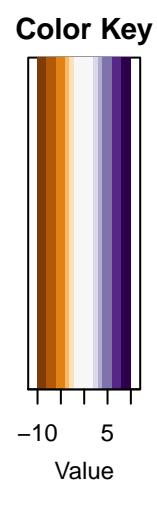

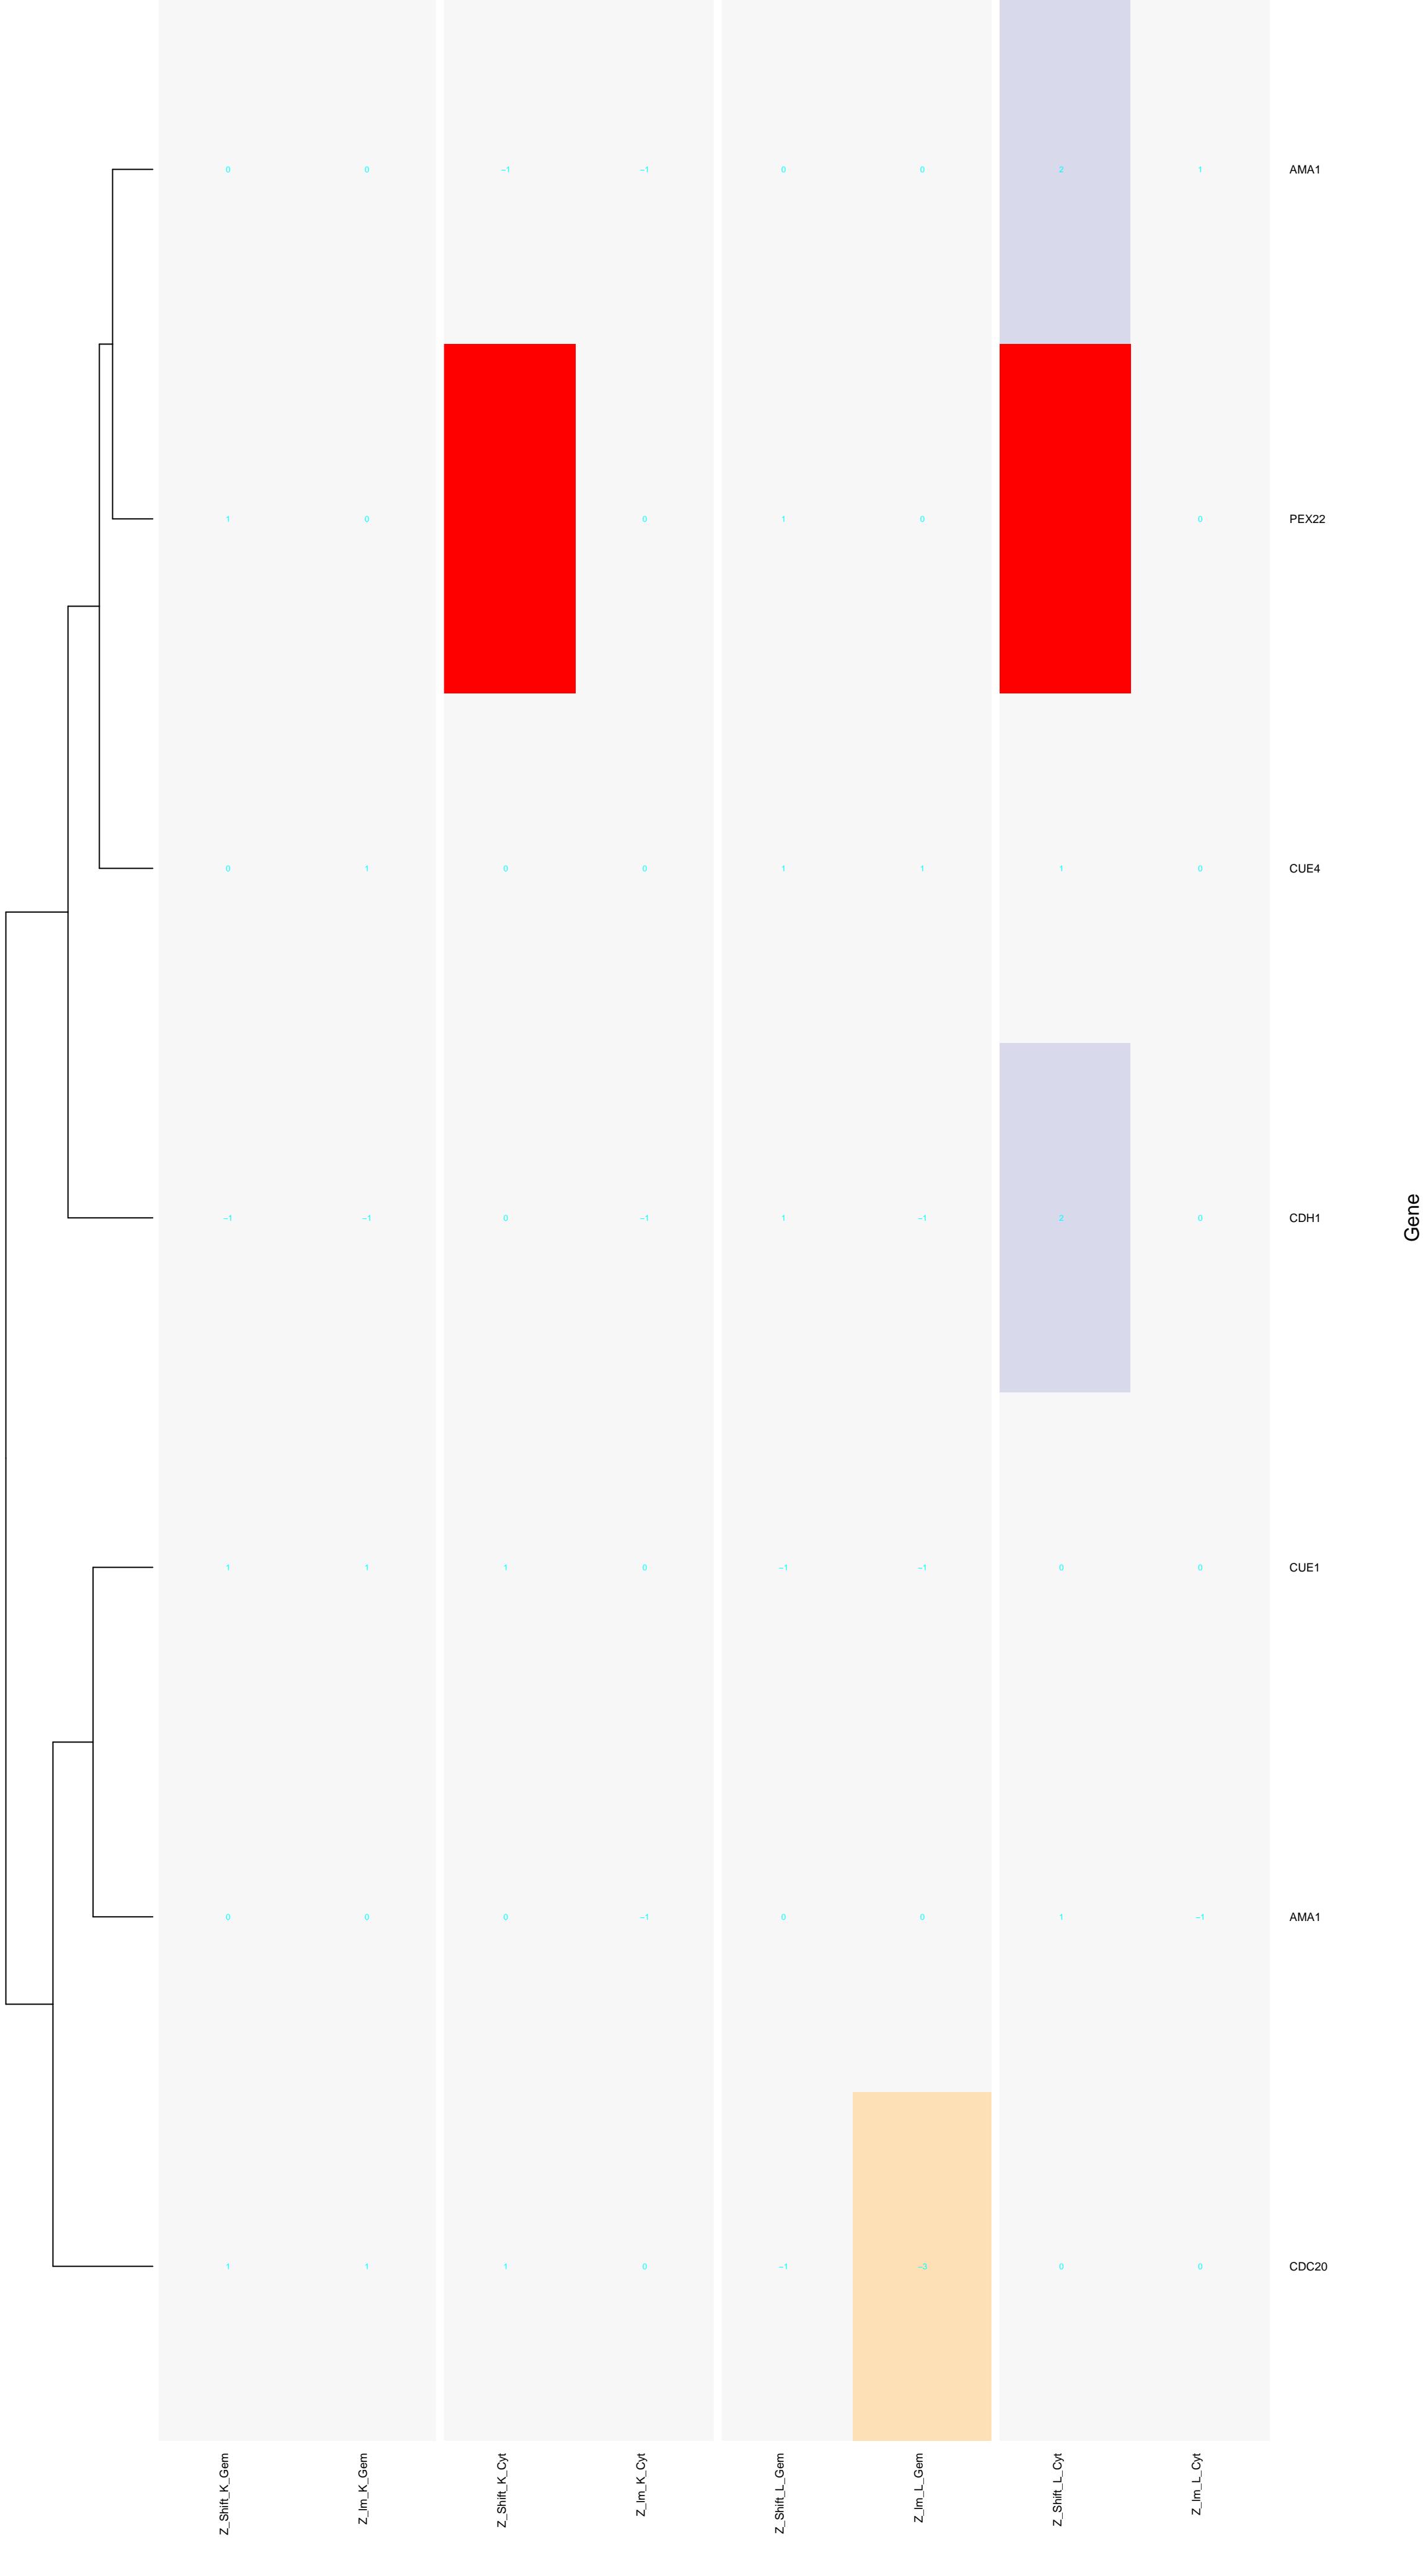

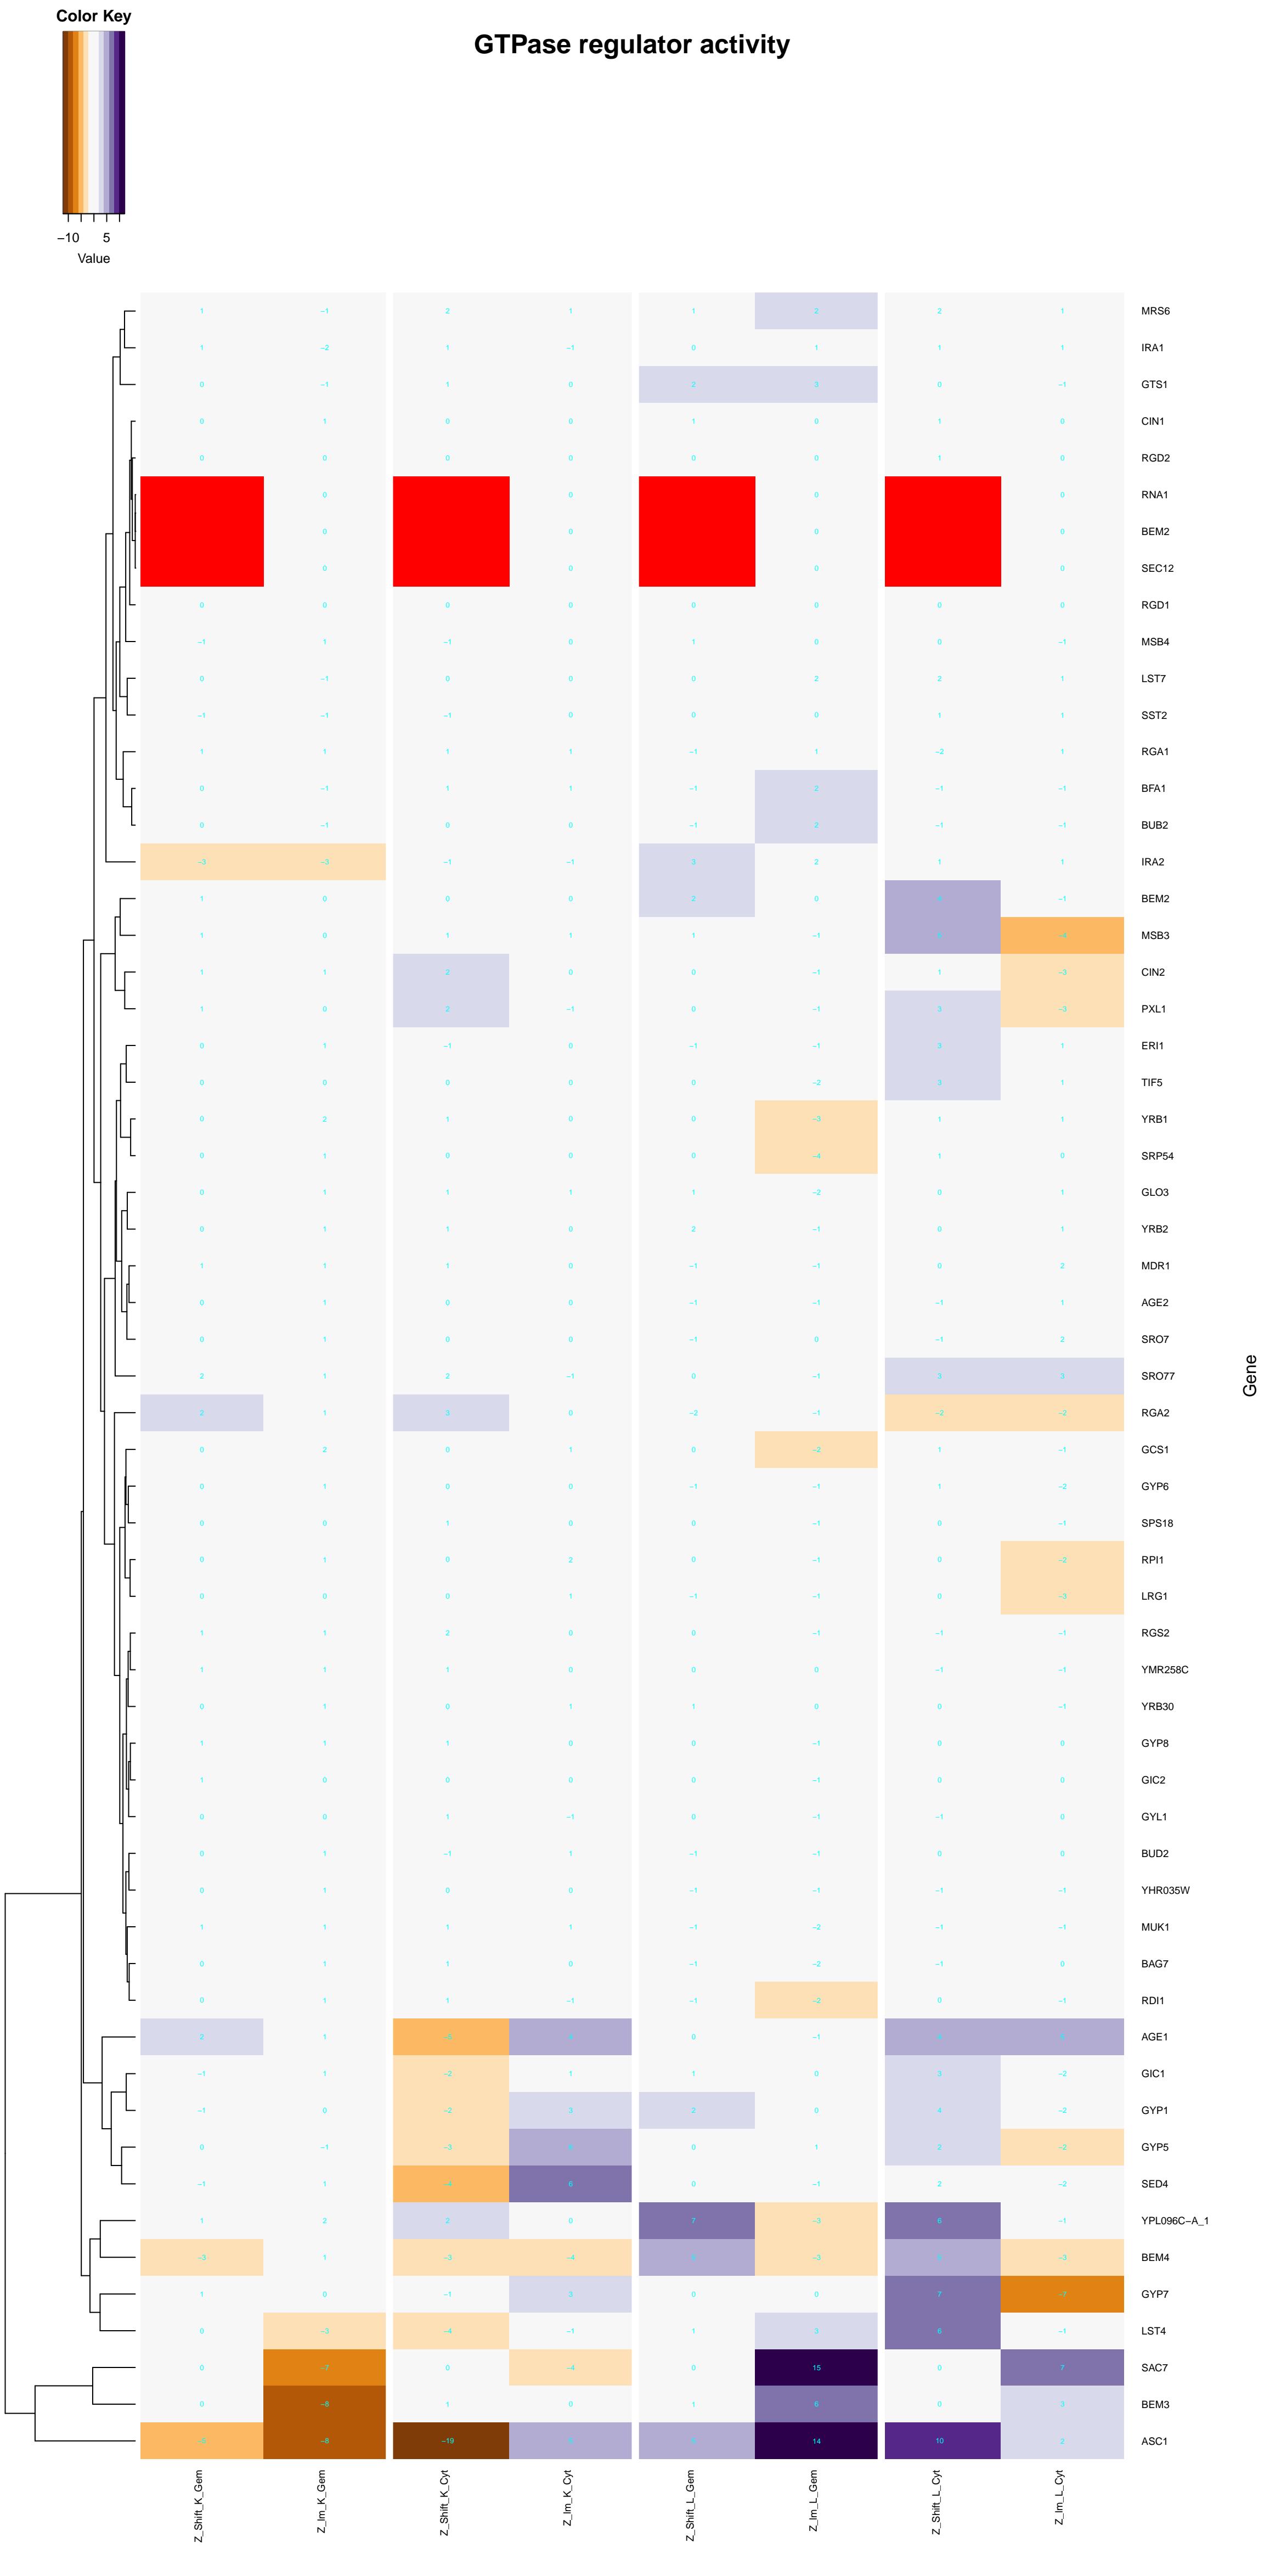

protein phosphatase regulator activity

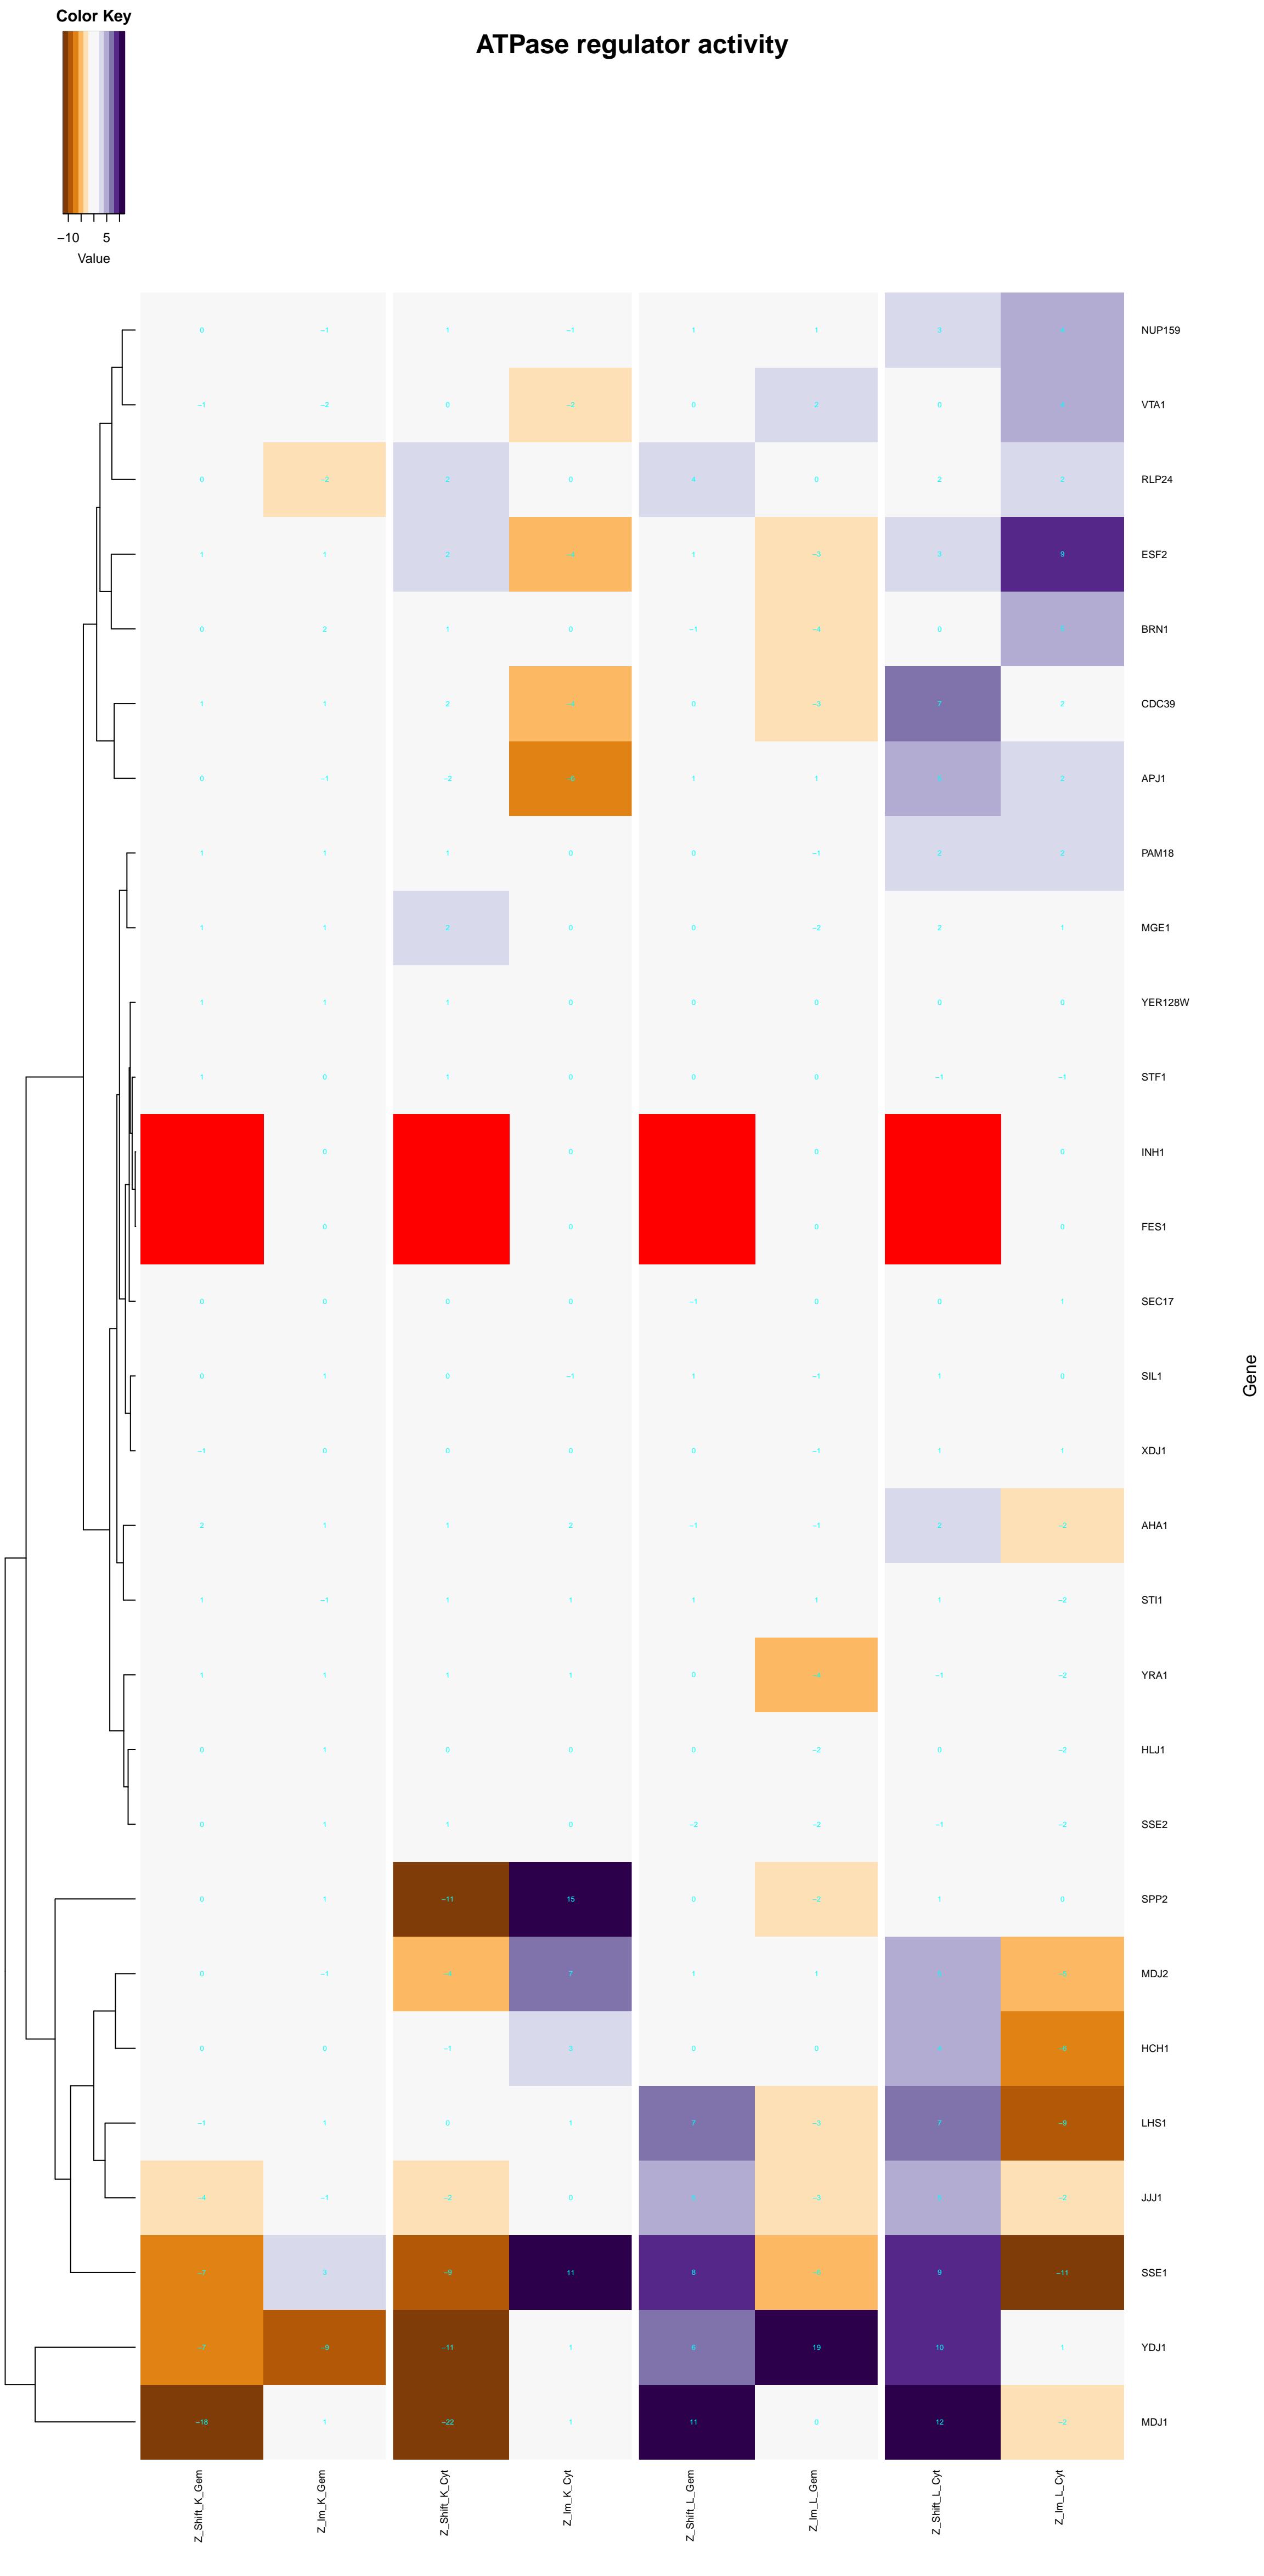

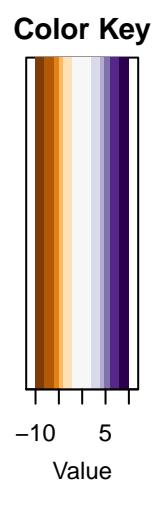

ubiquitin–protein transferase activator activity

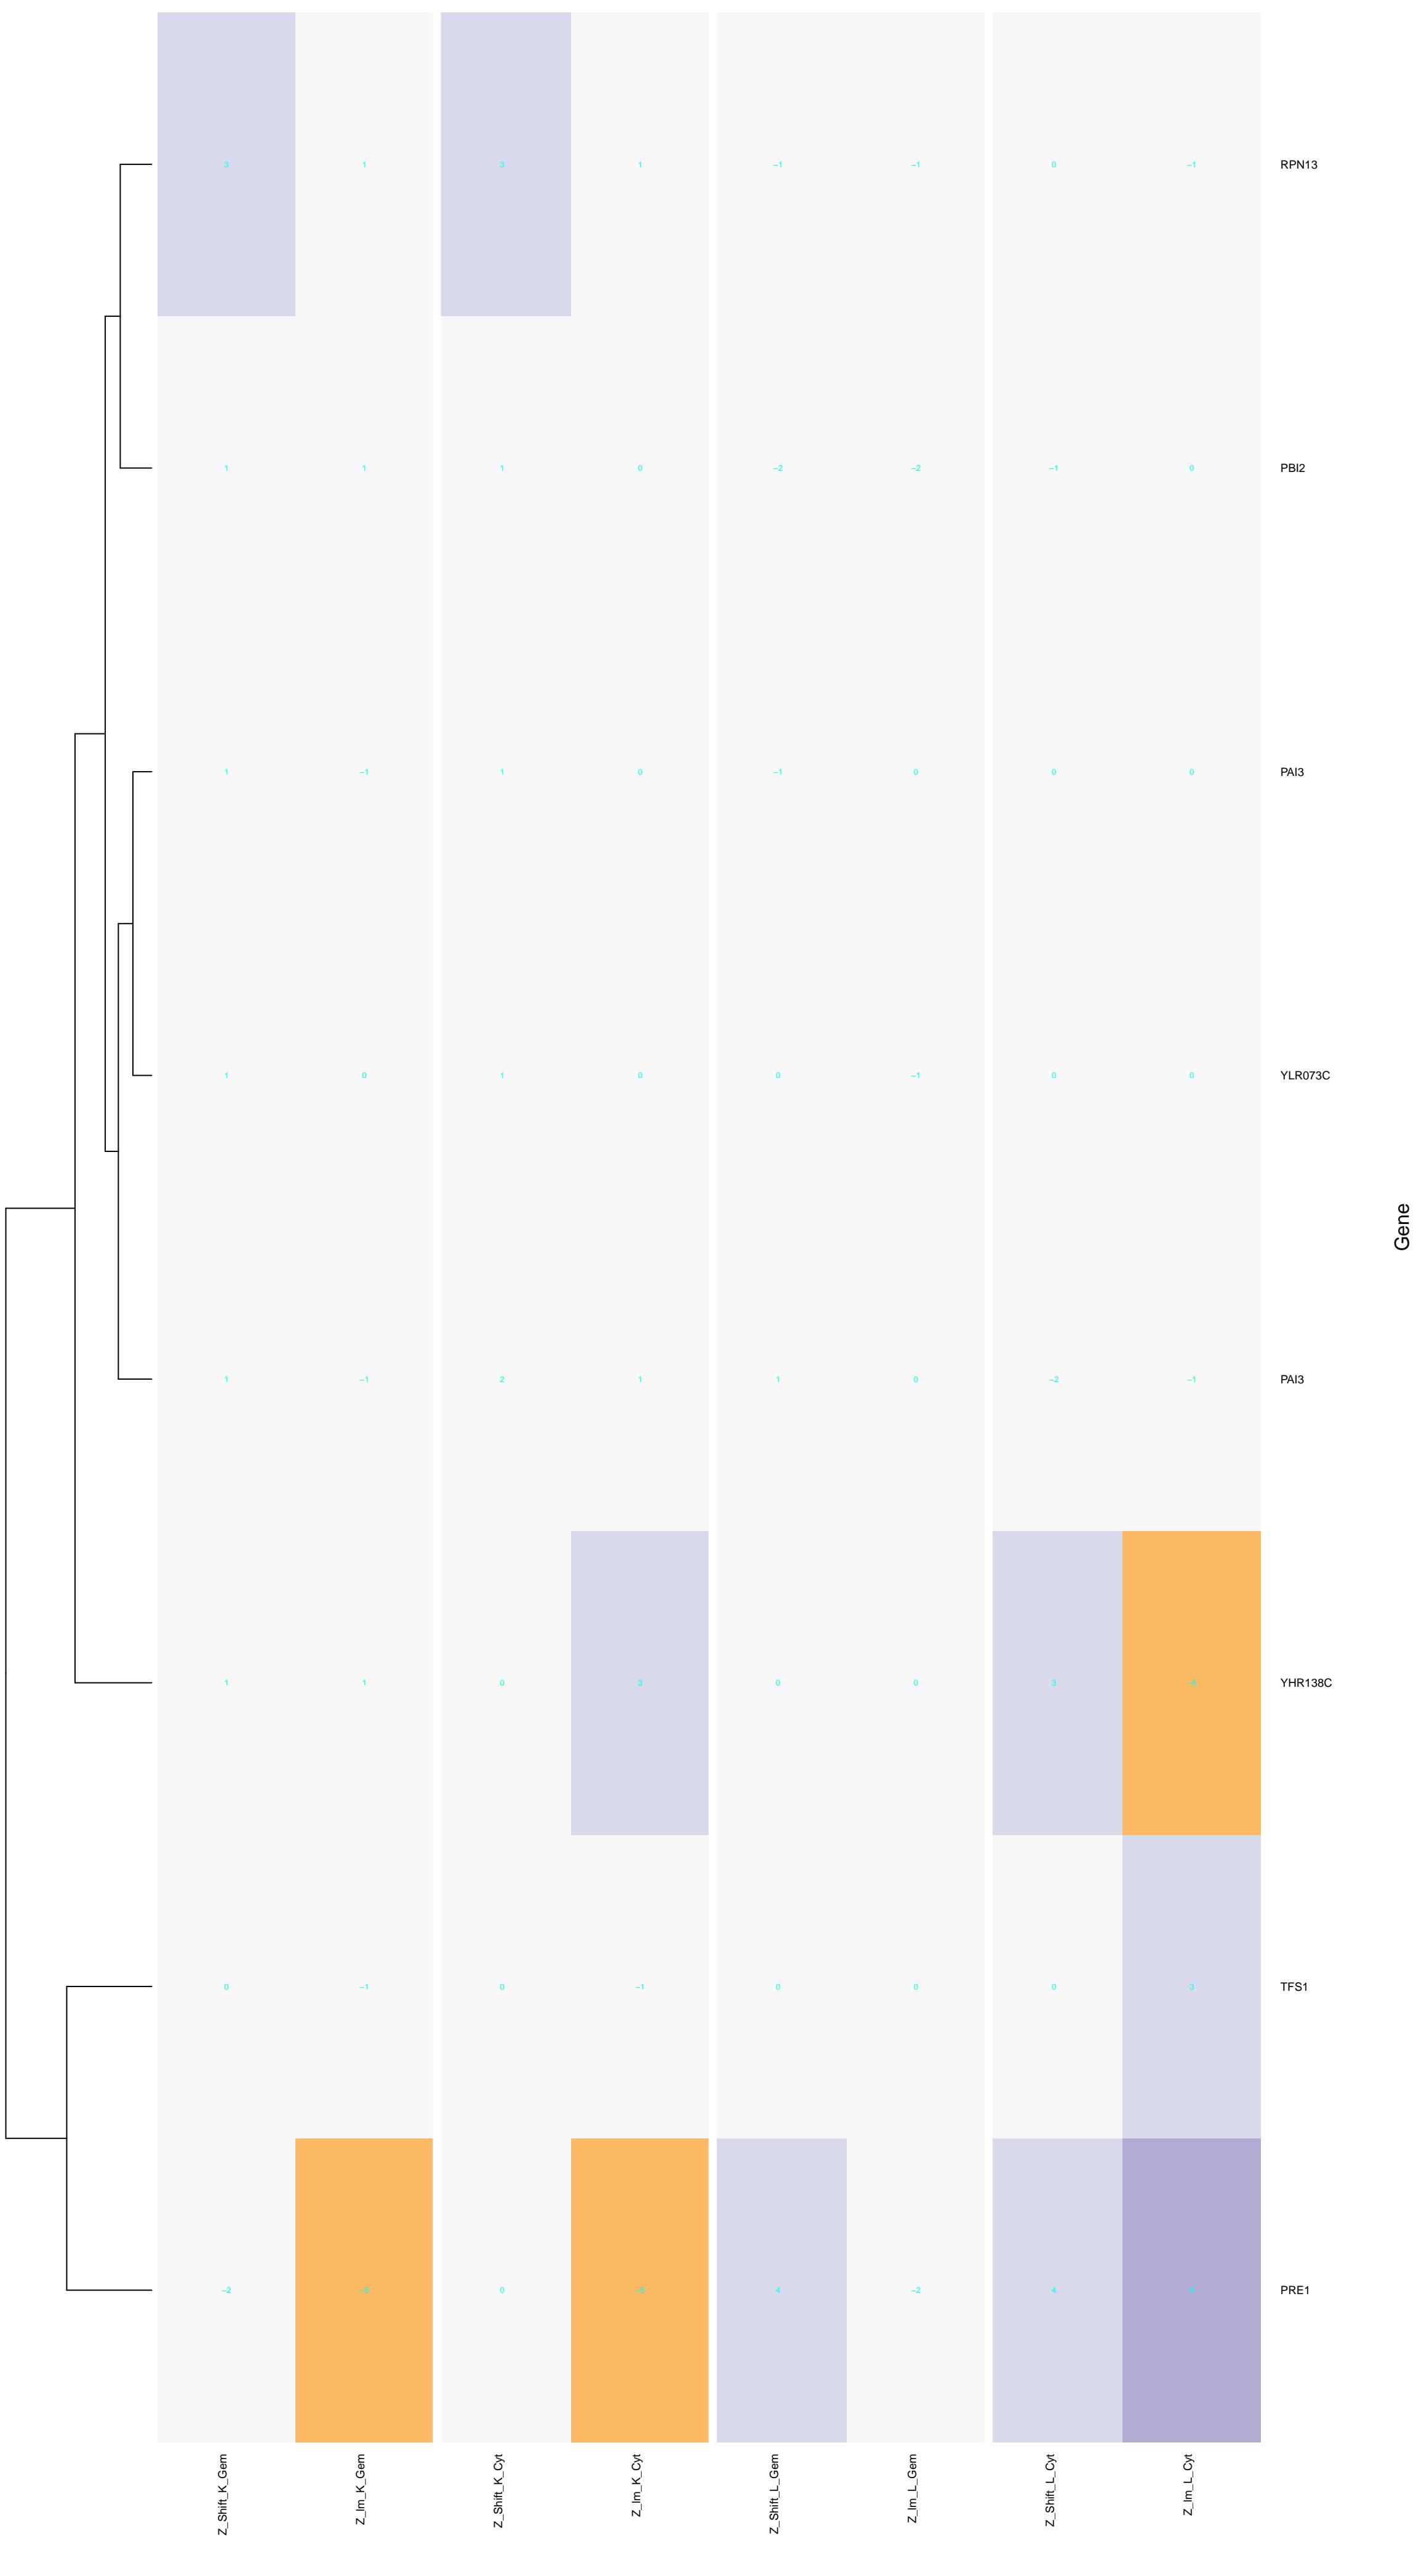

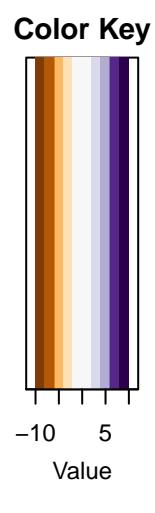

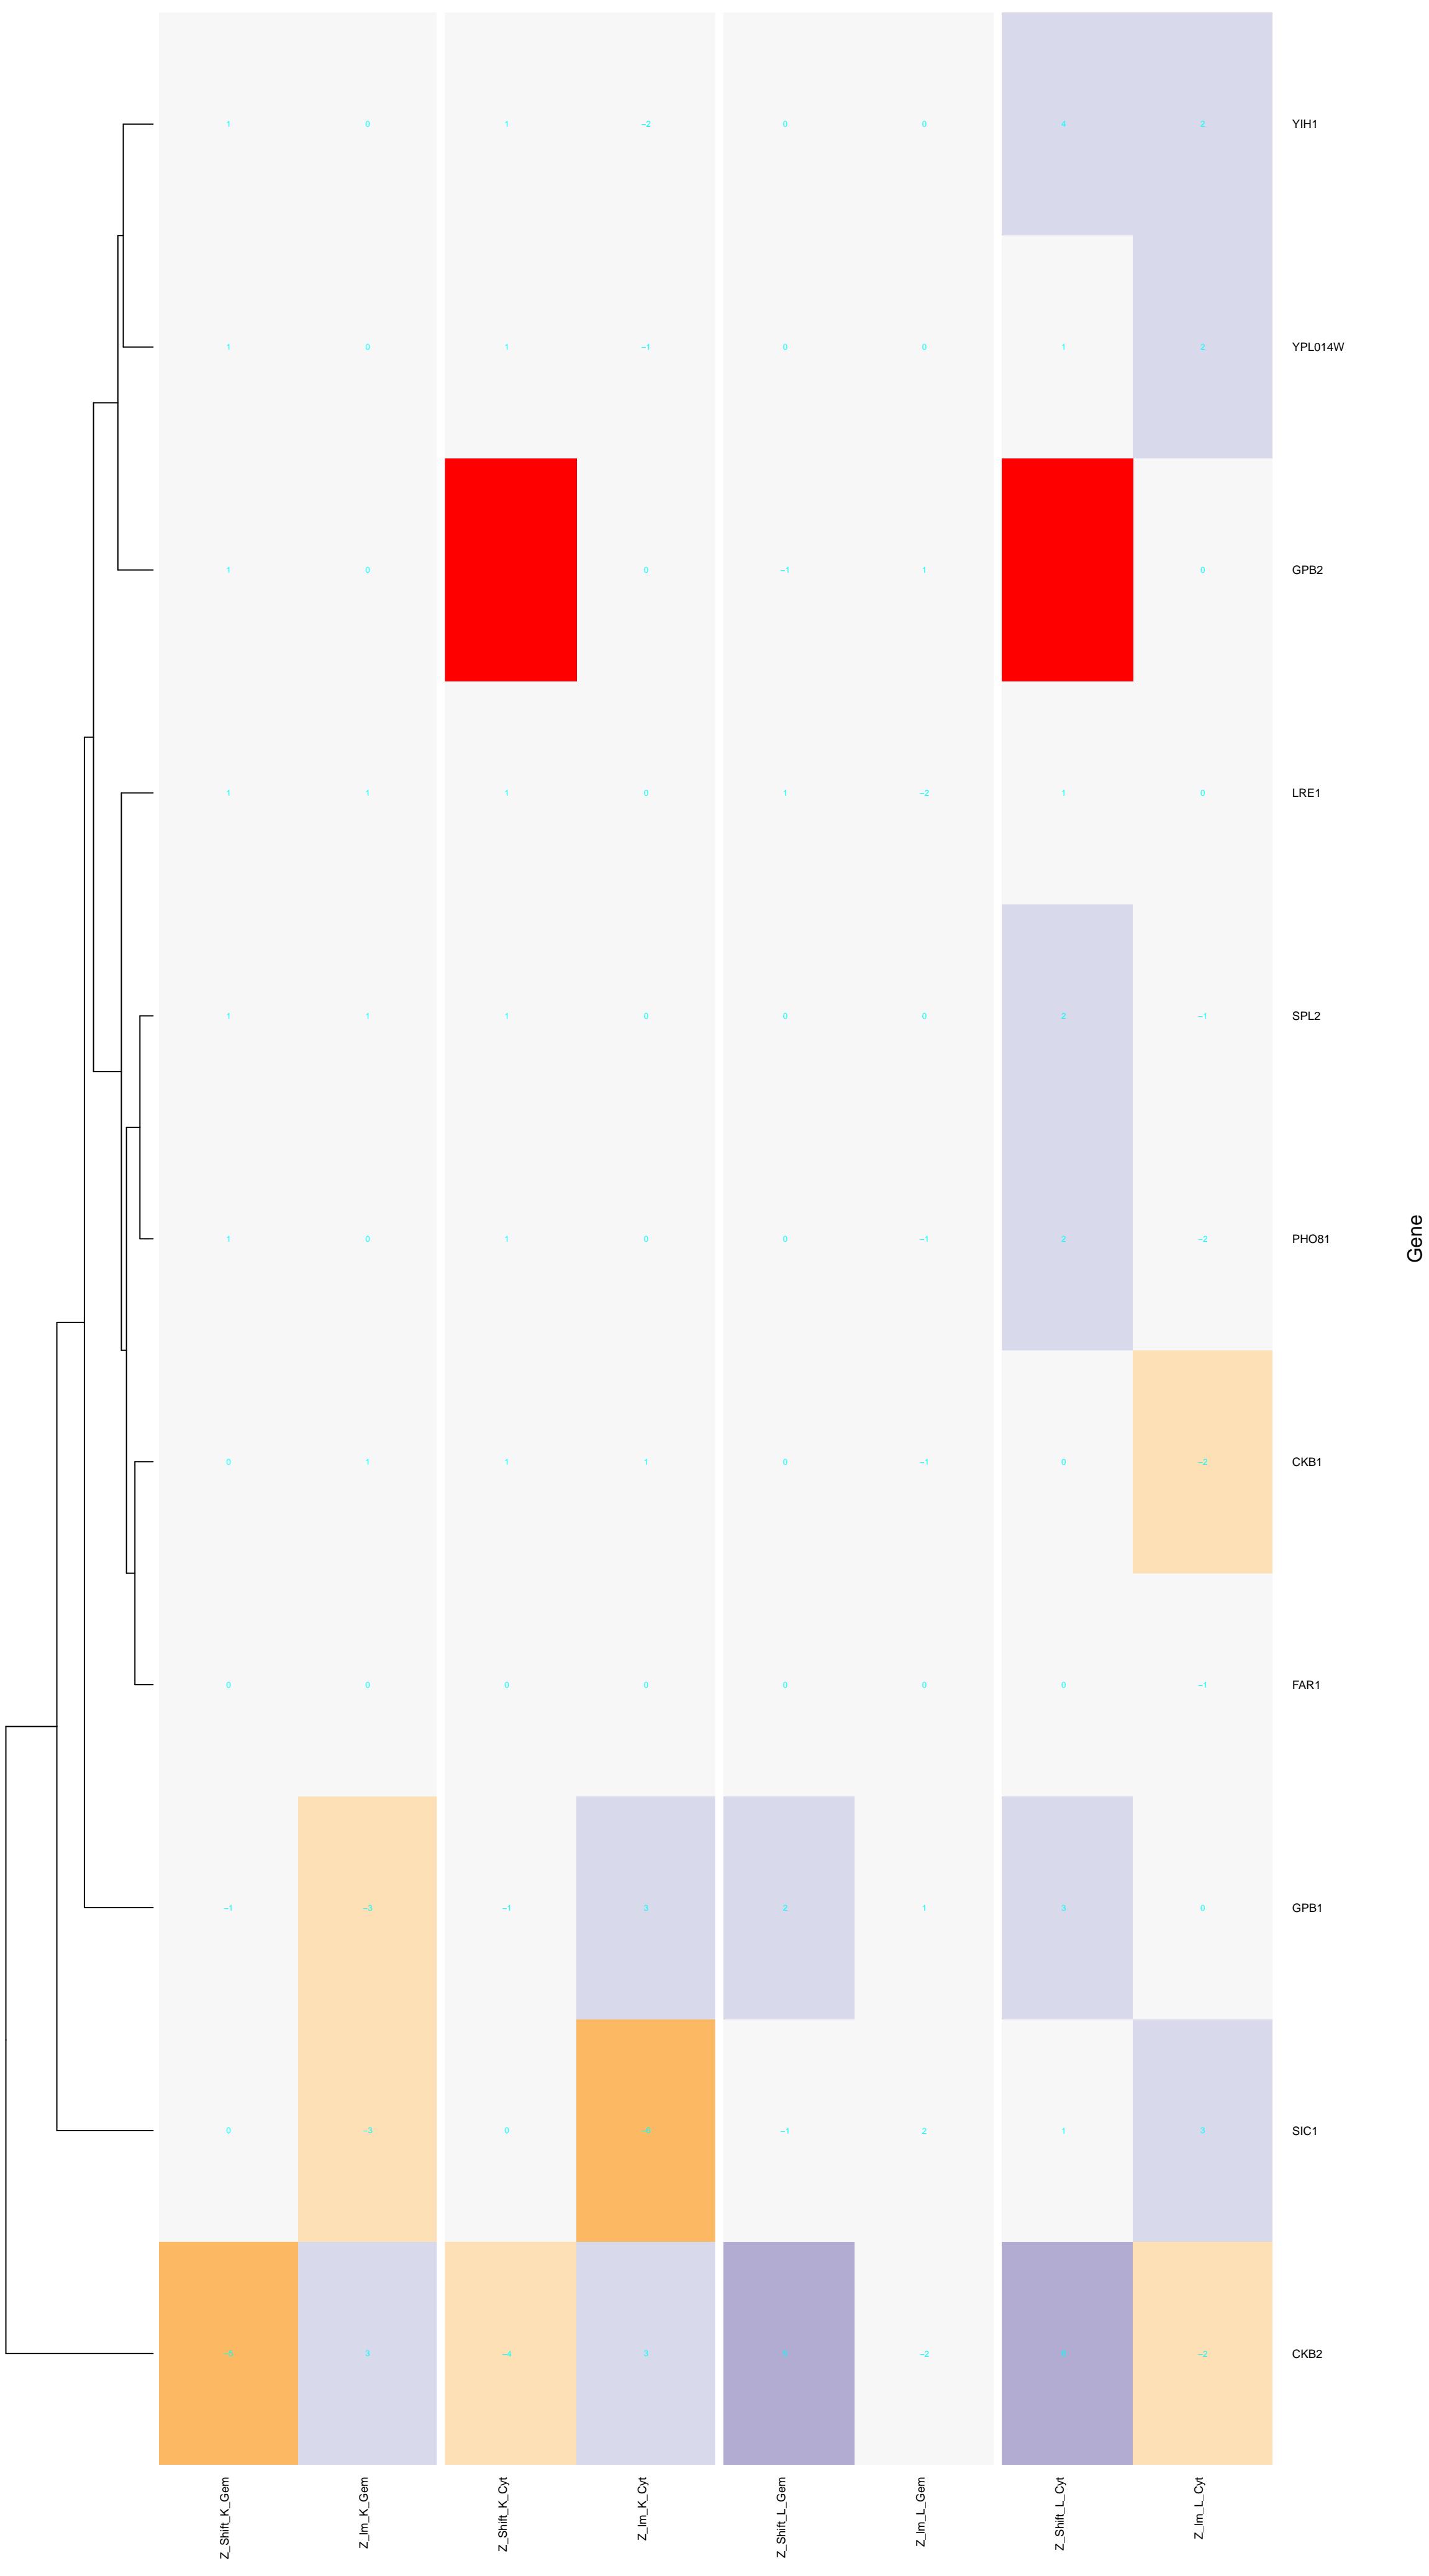

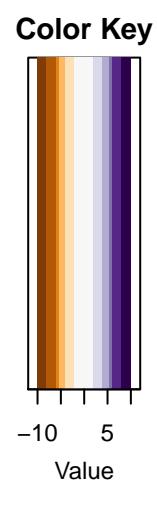

endopeptidase regulator activity

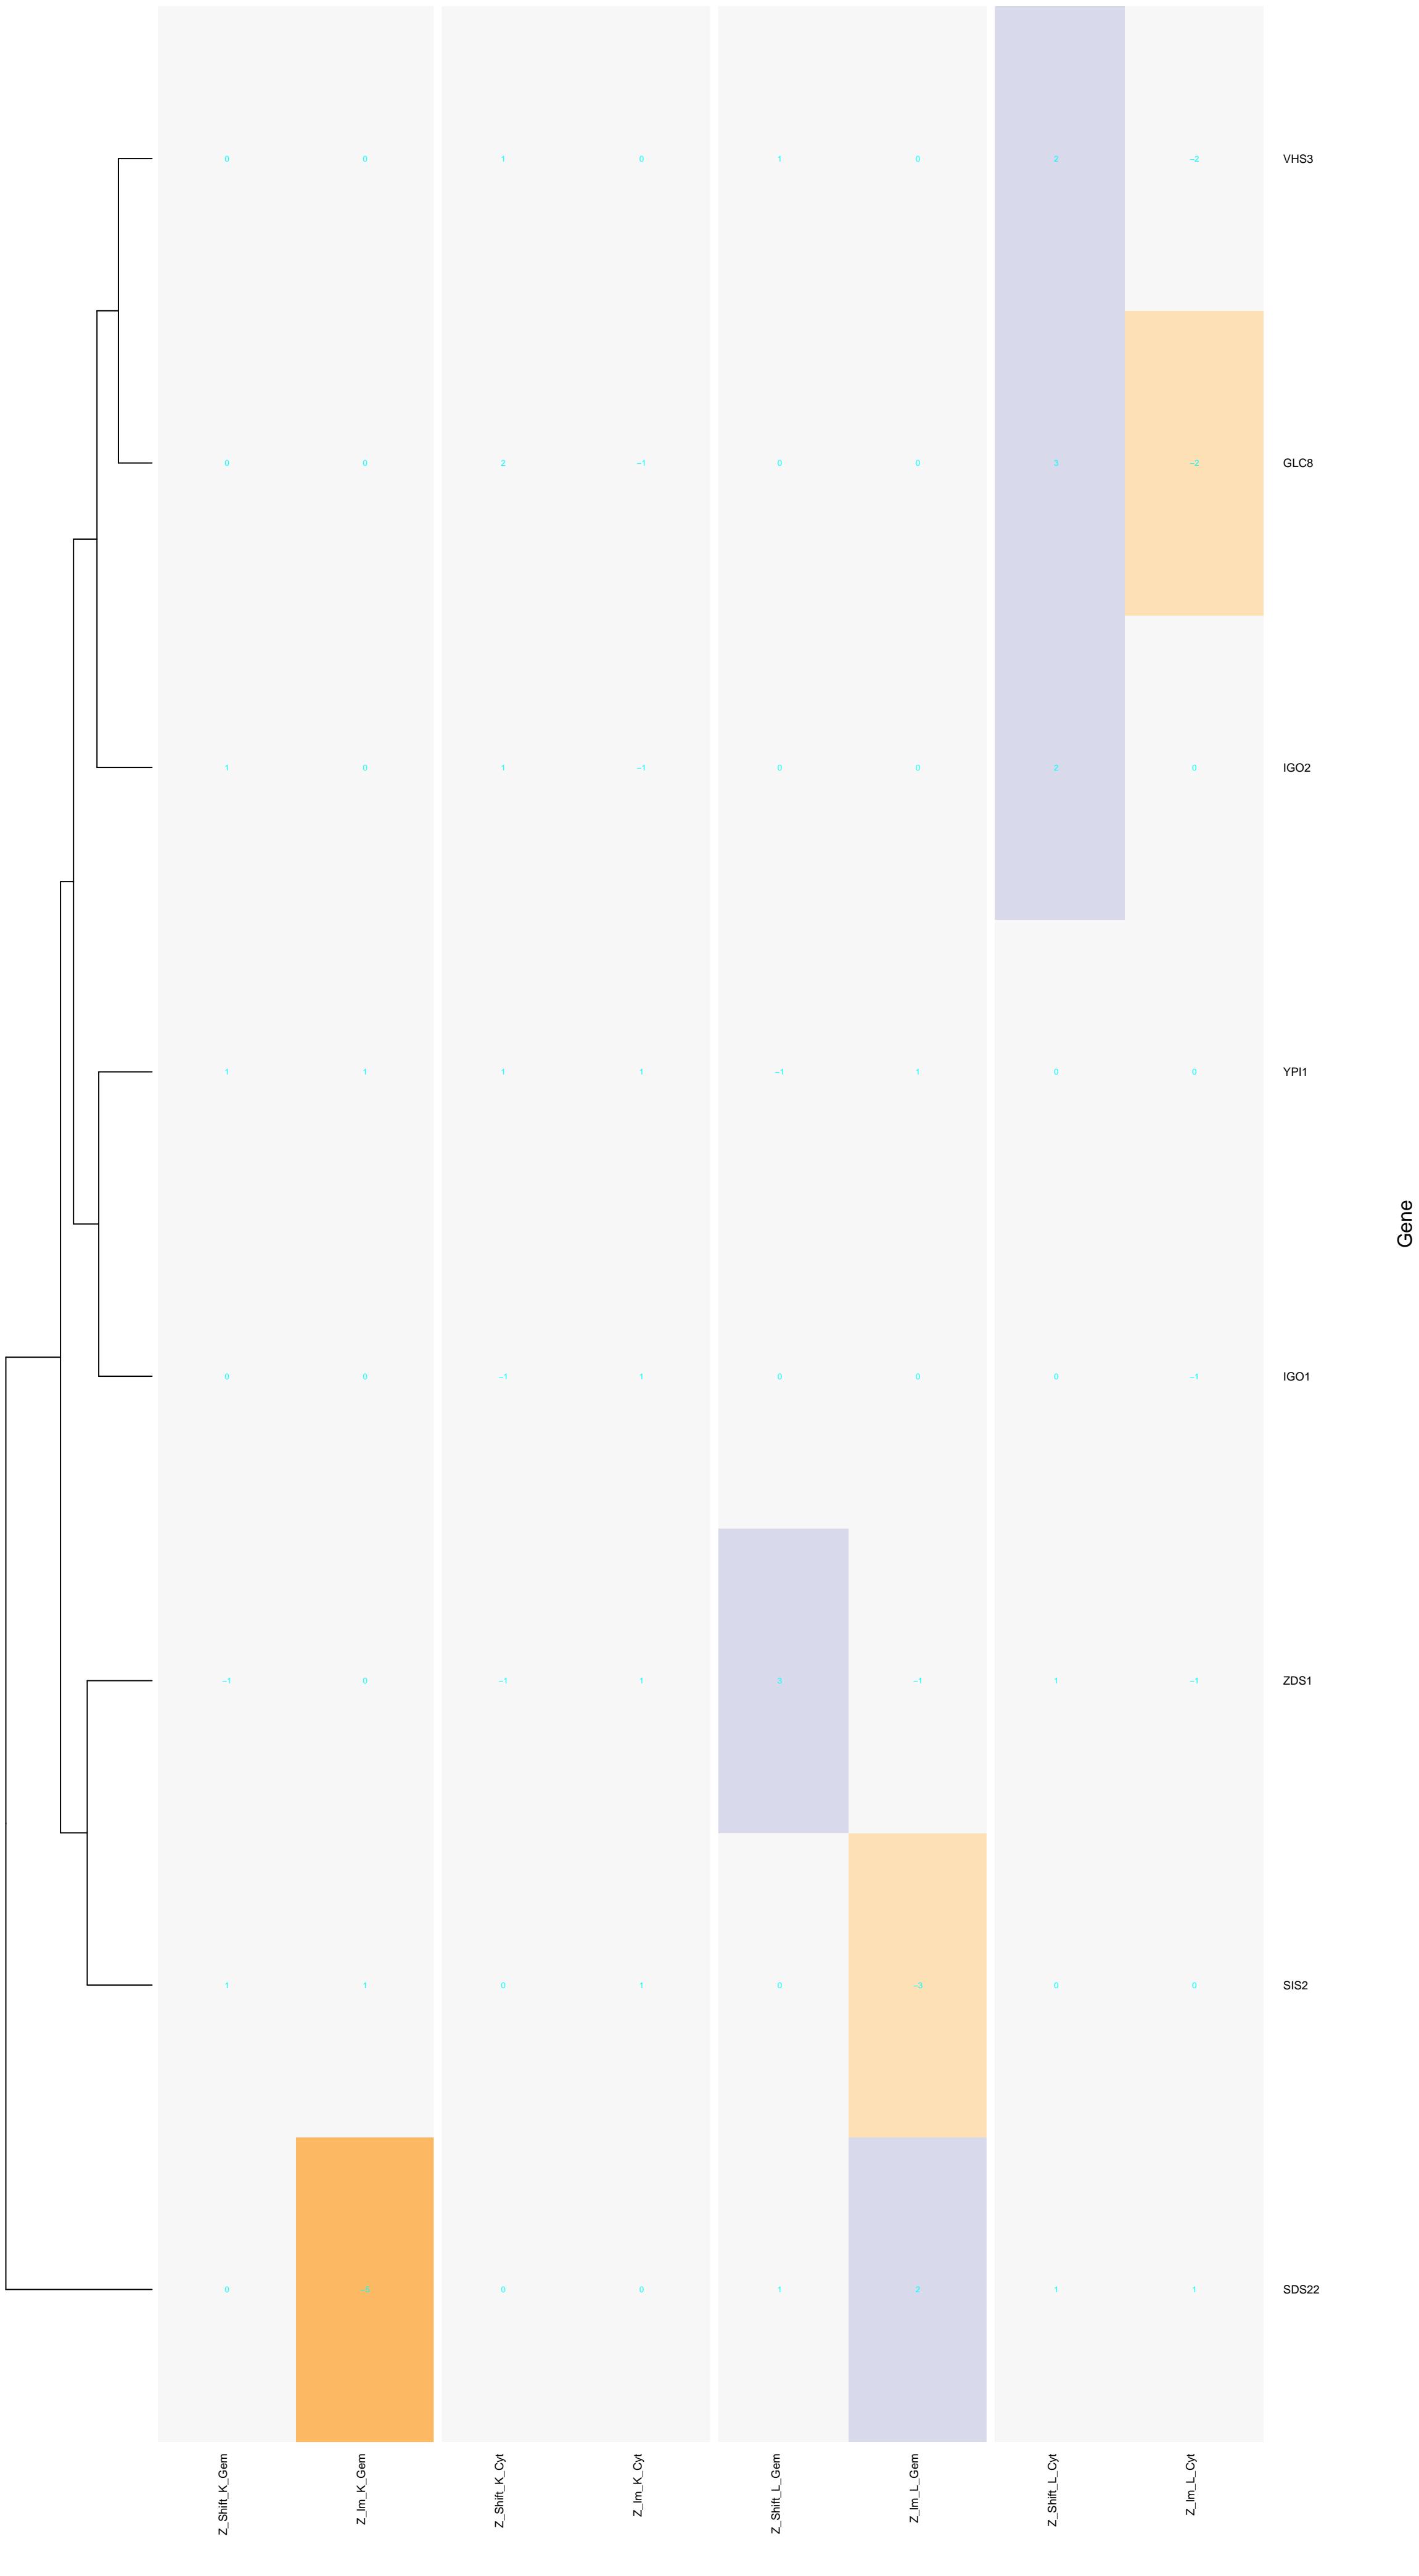

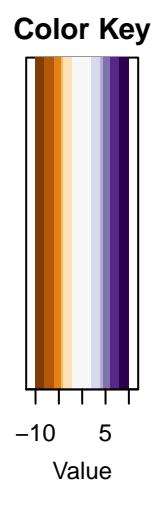

protein kinase inhibitor activity

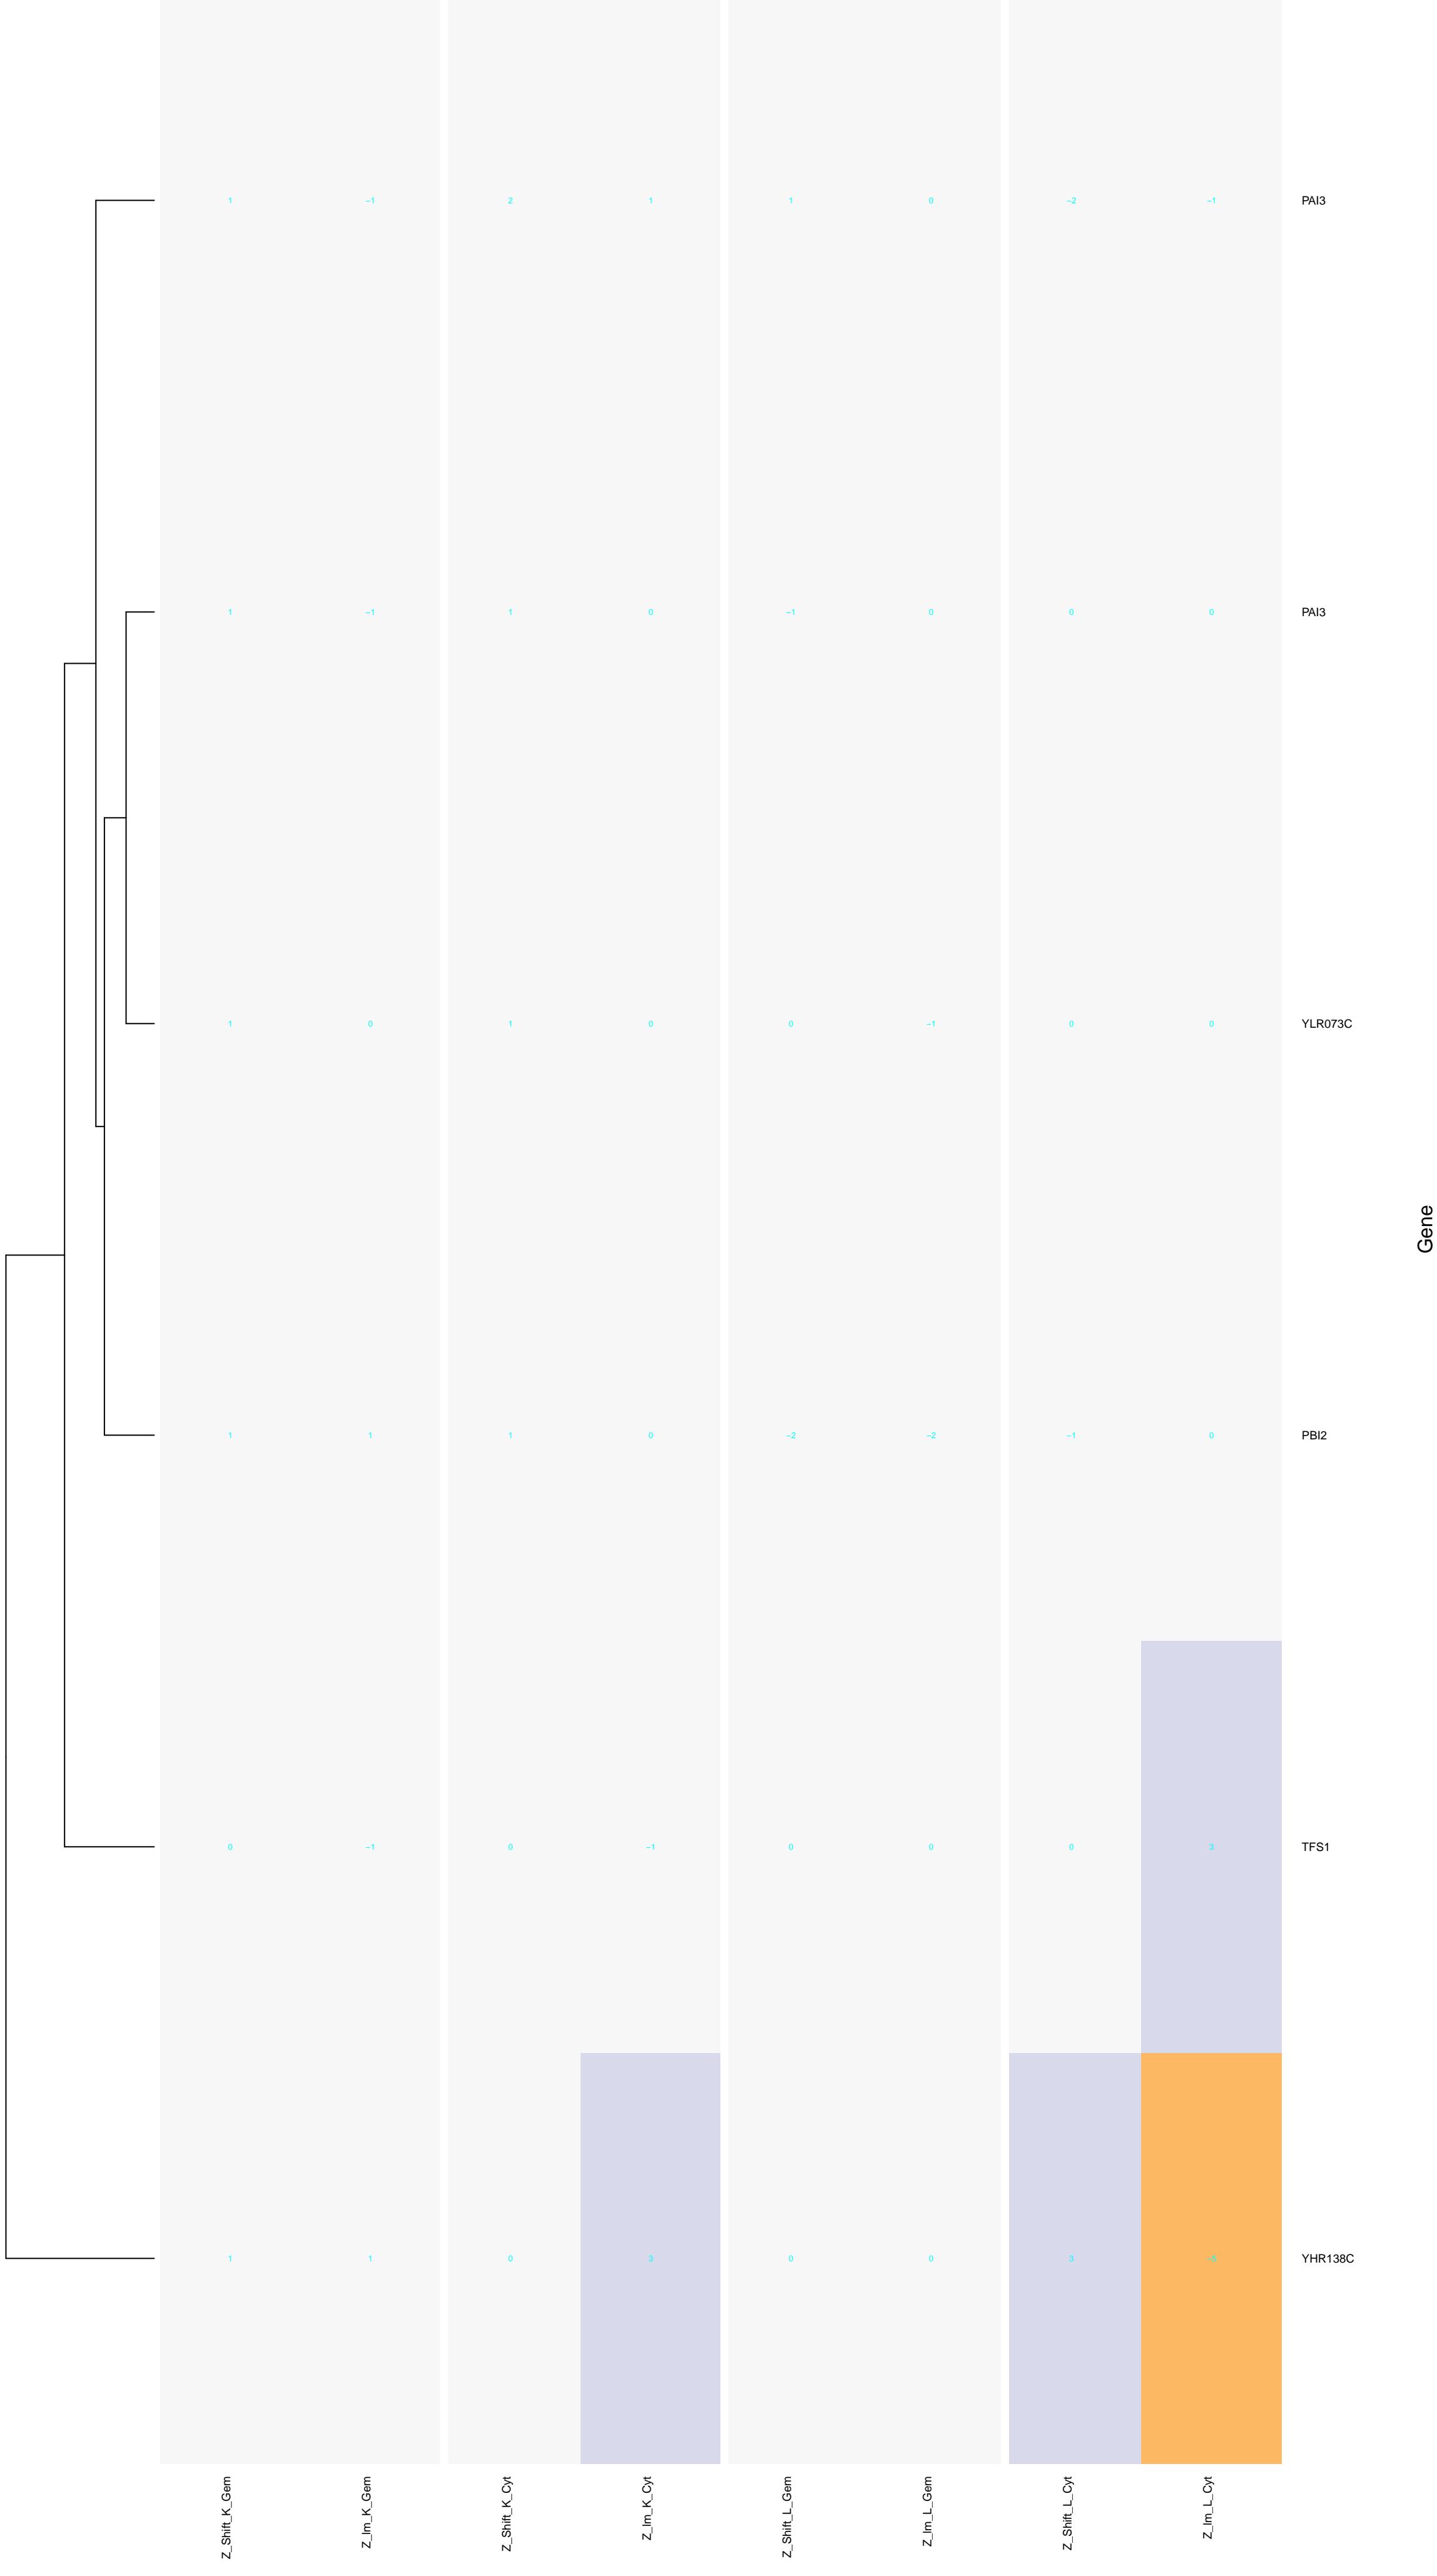

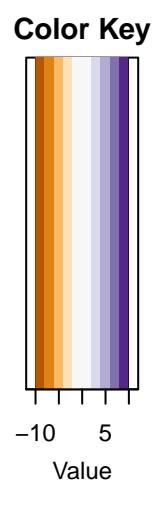

protein phosphatase inhibitor activity

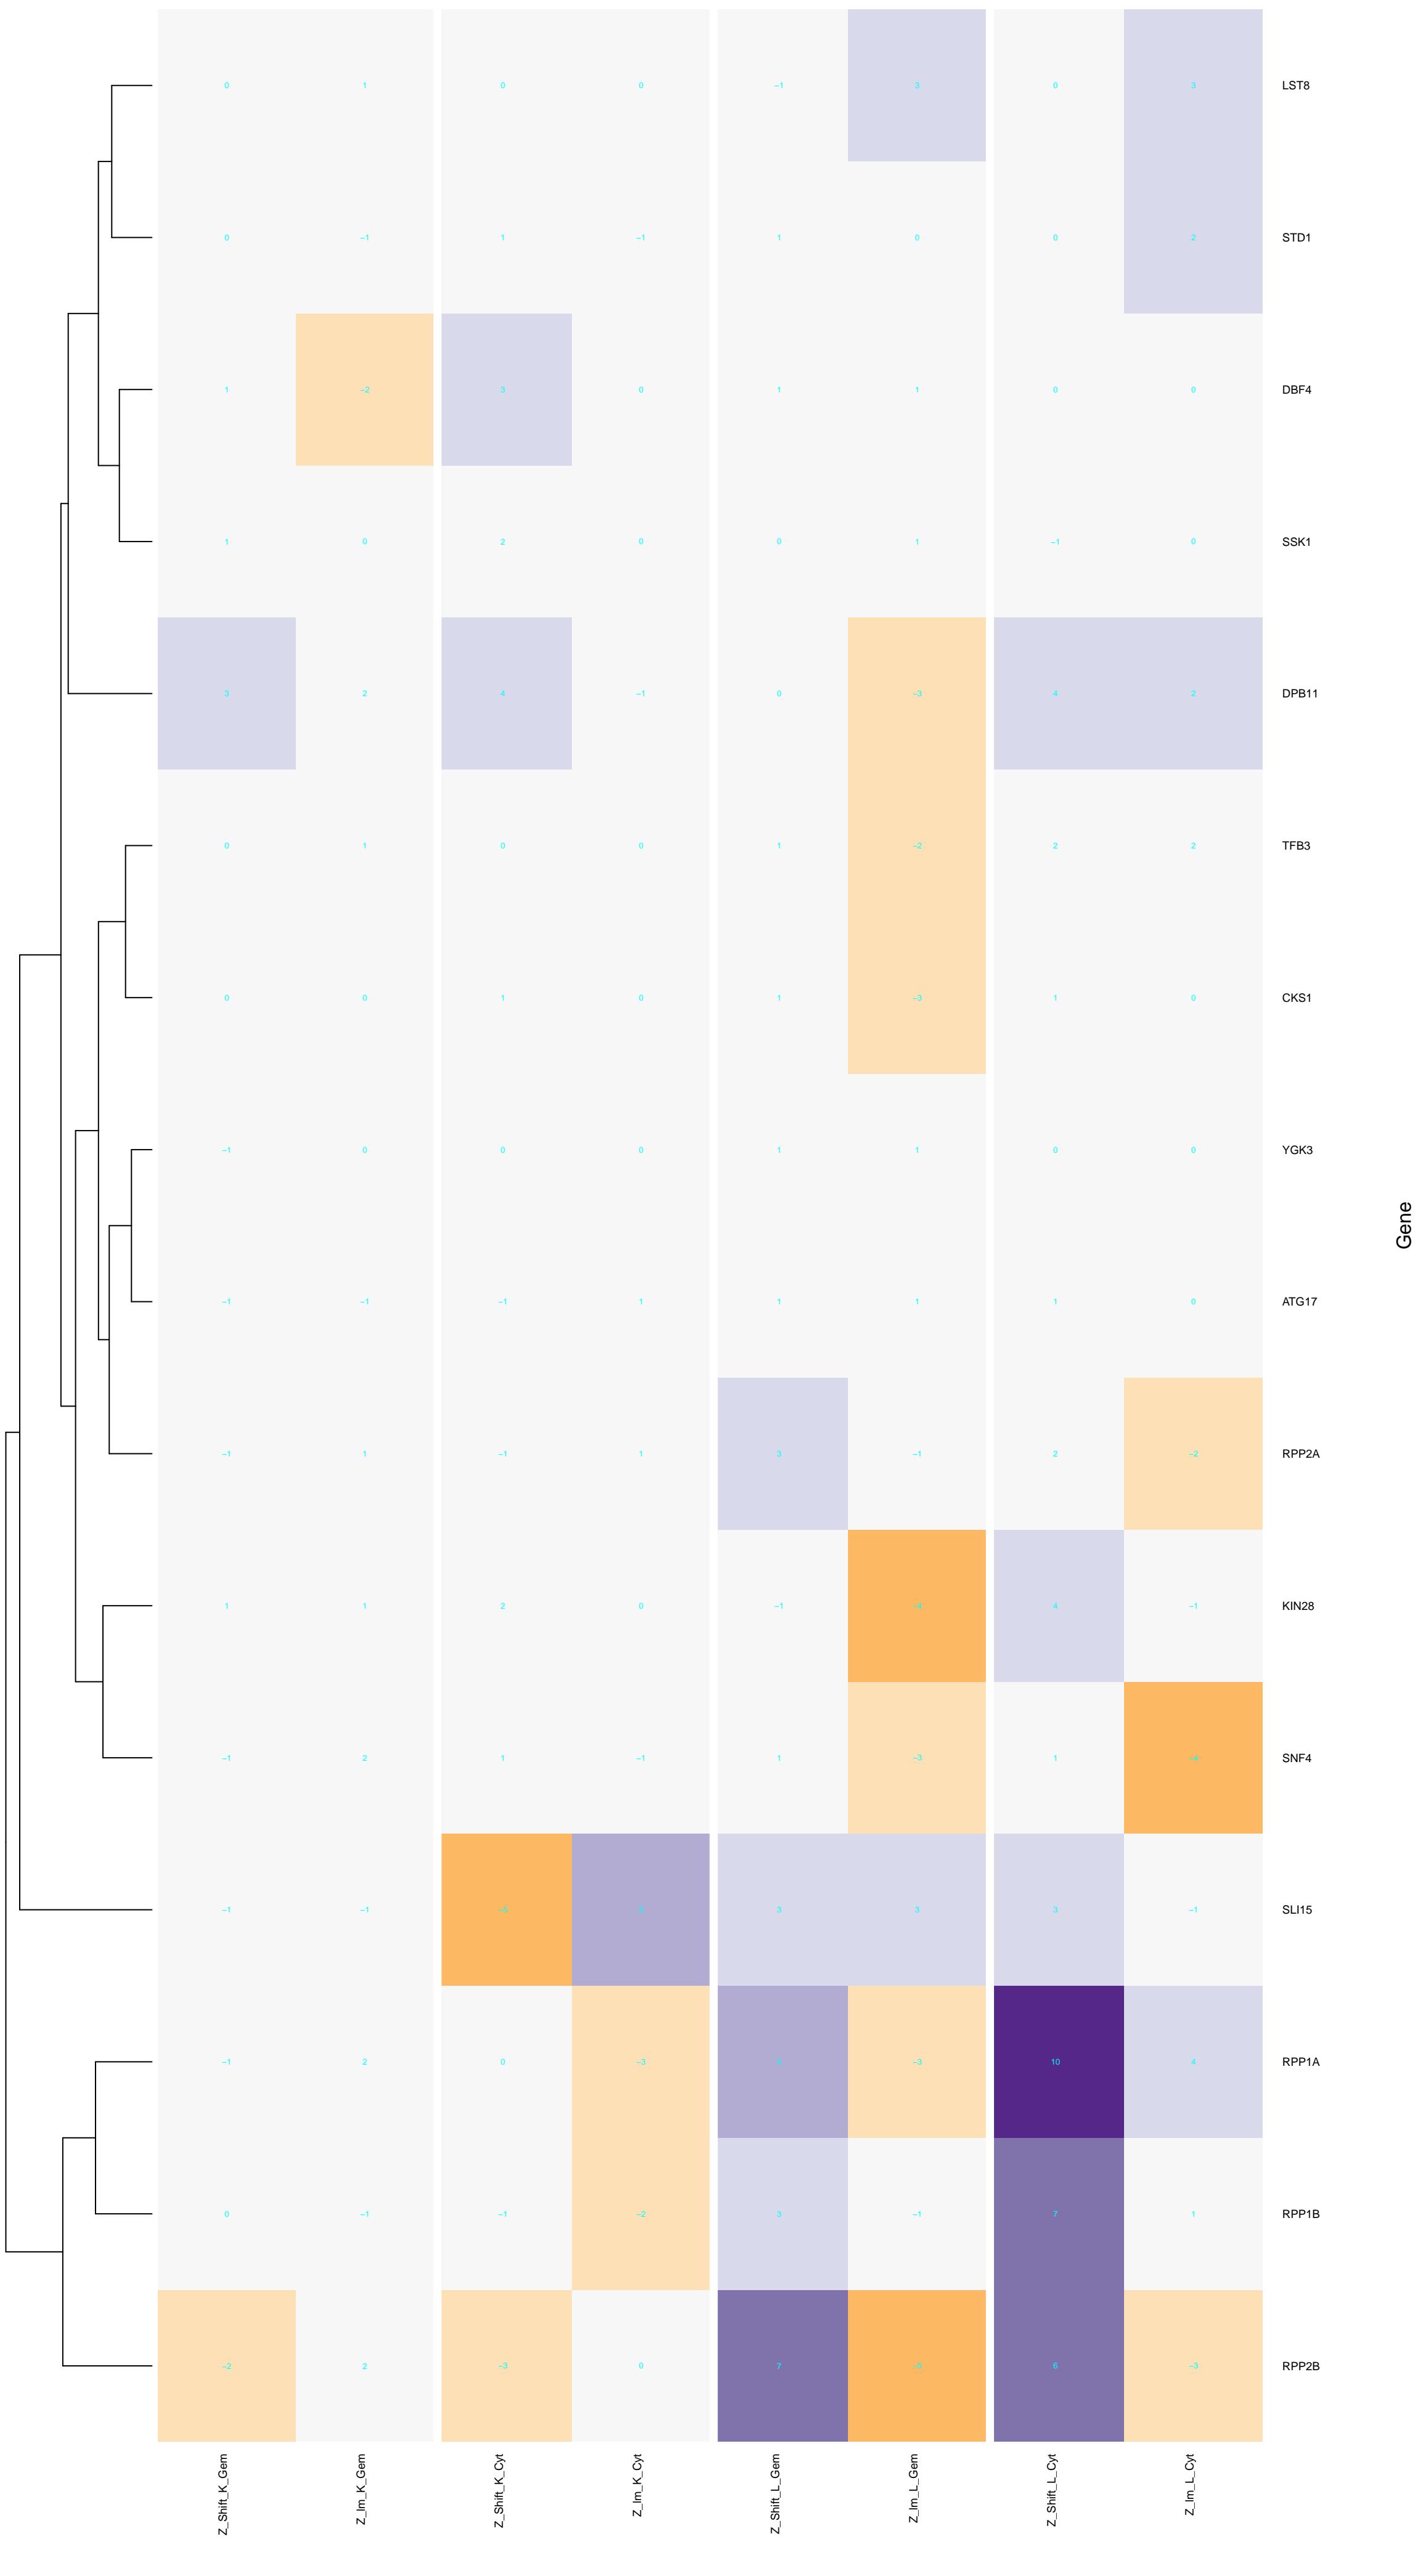

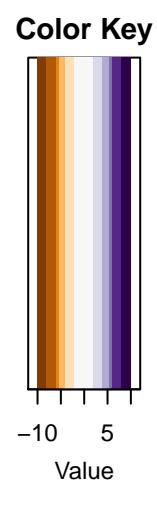

endopeptidase inhibitor activity

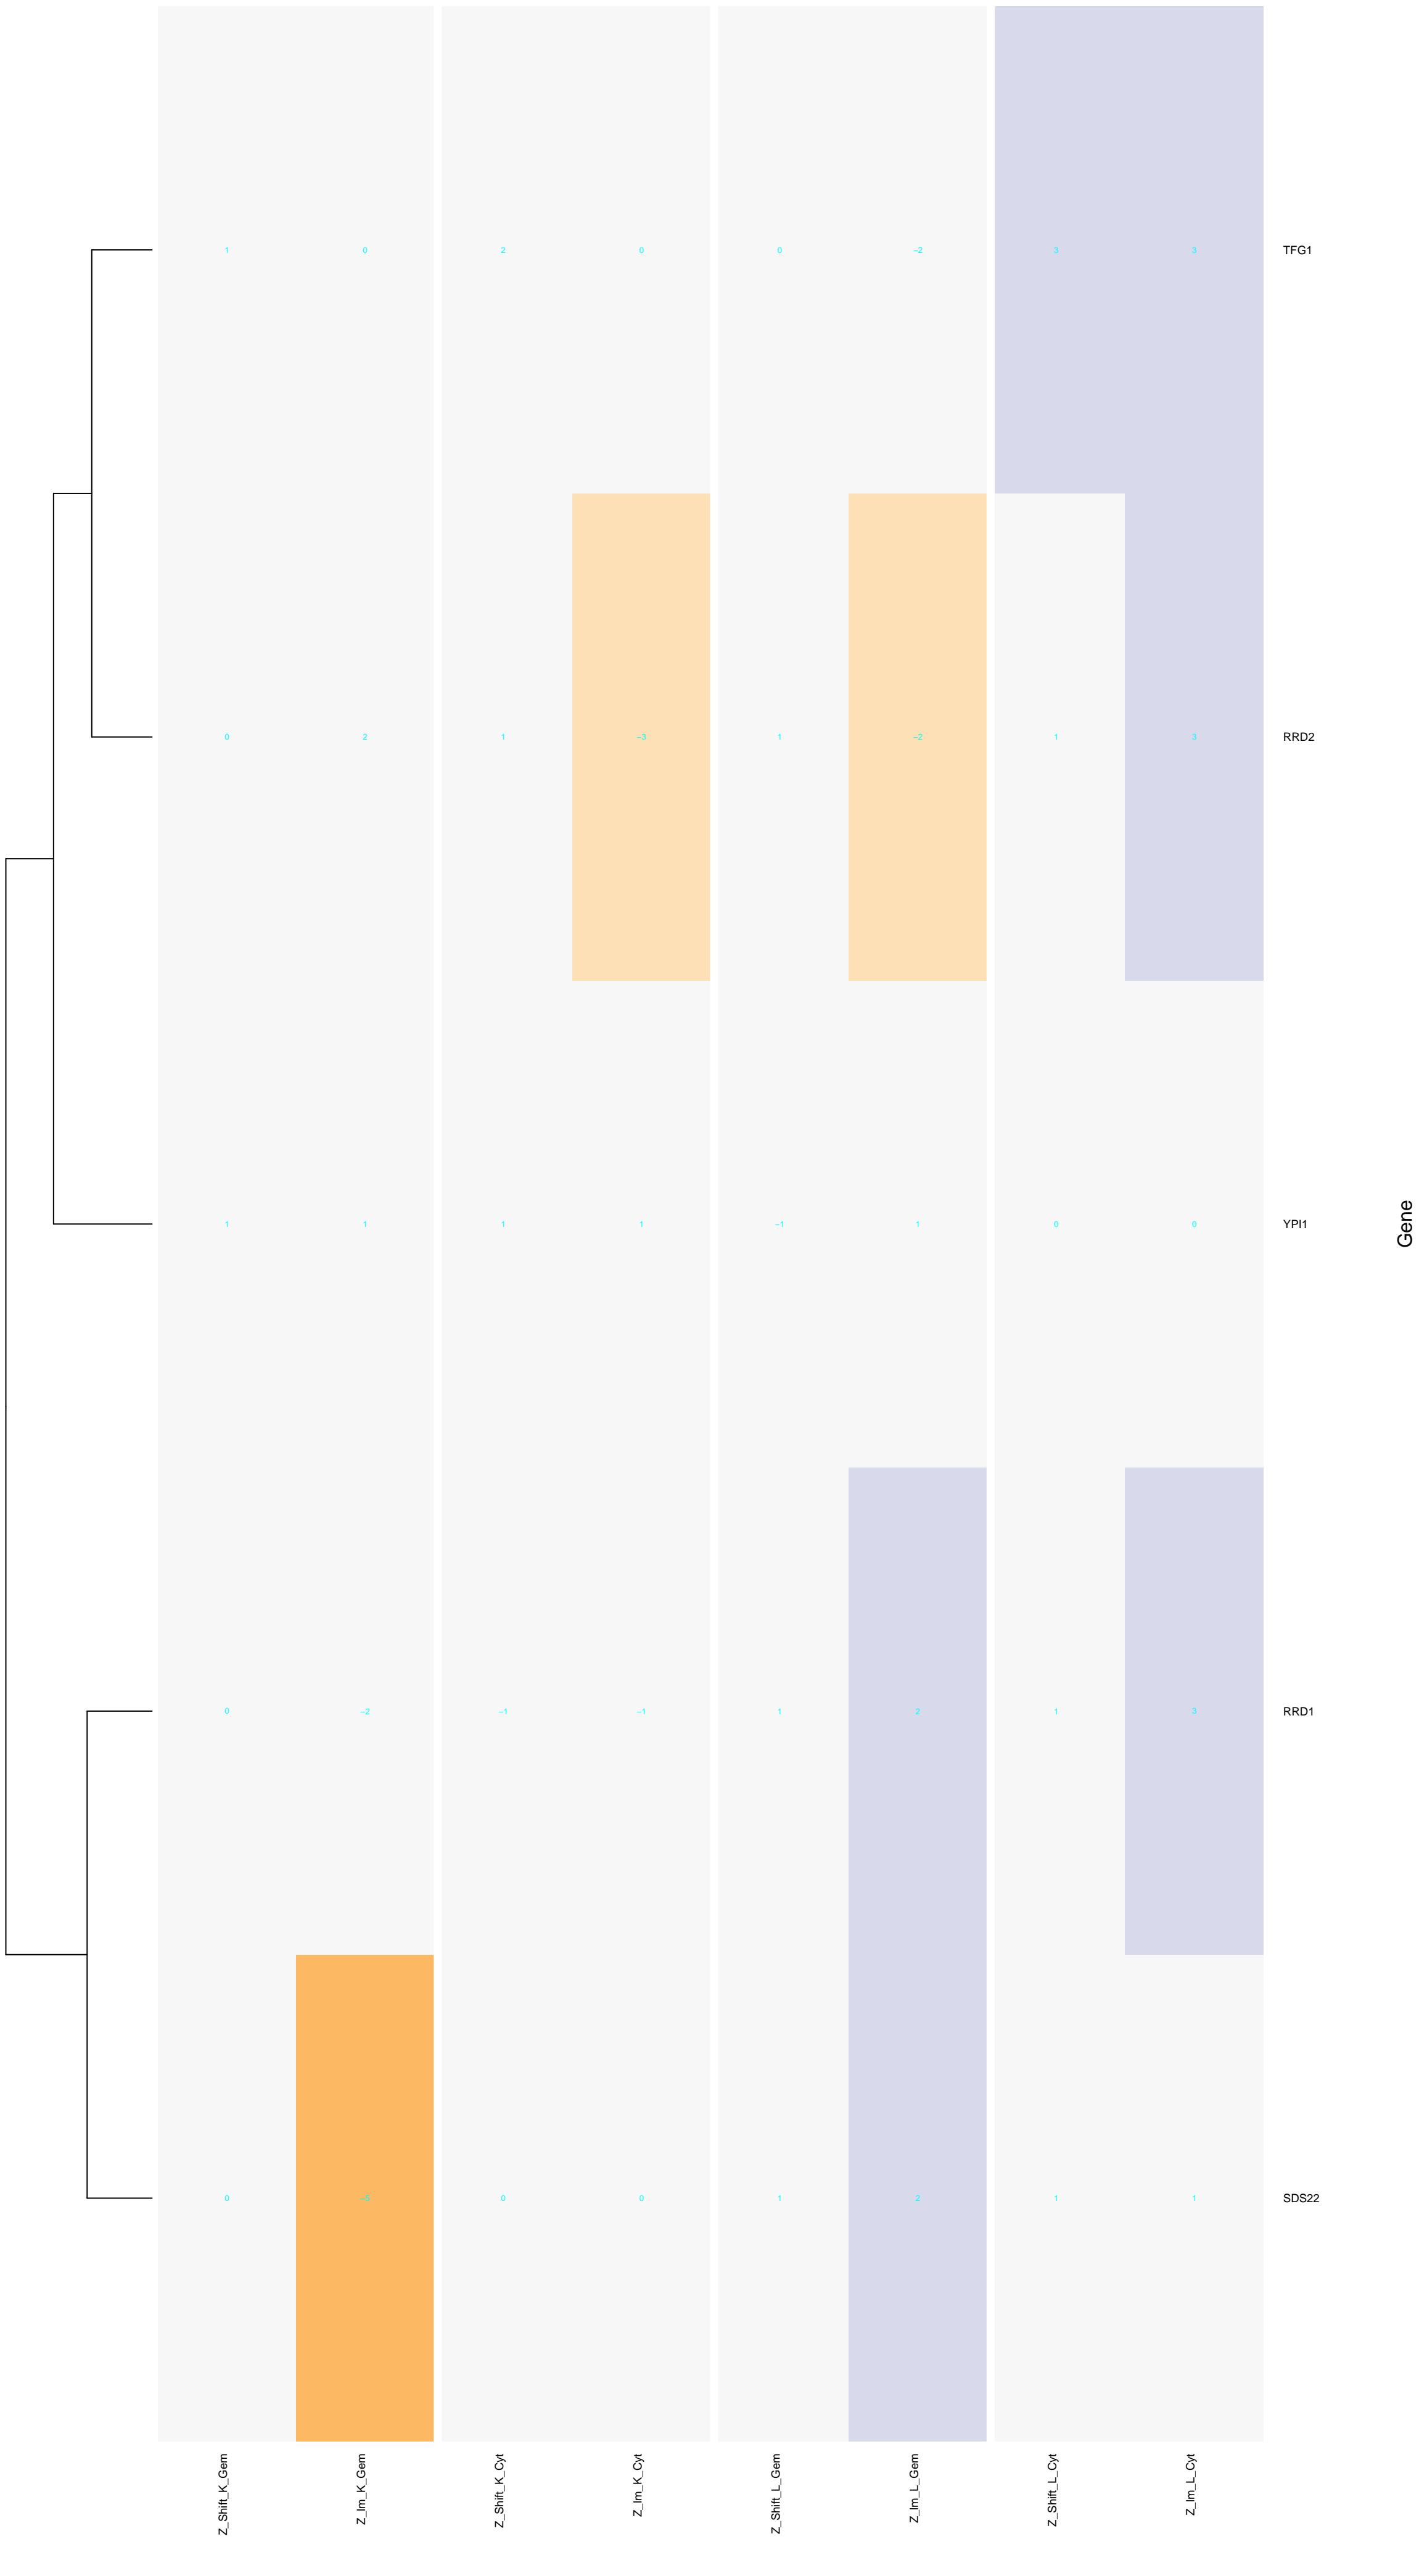

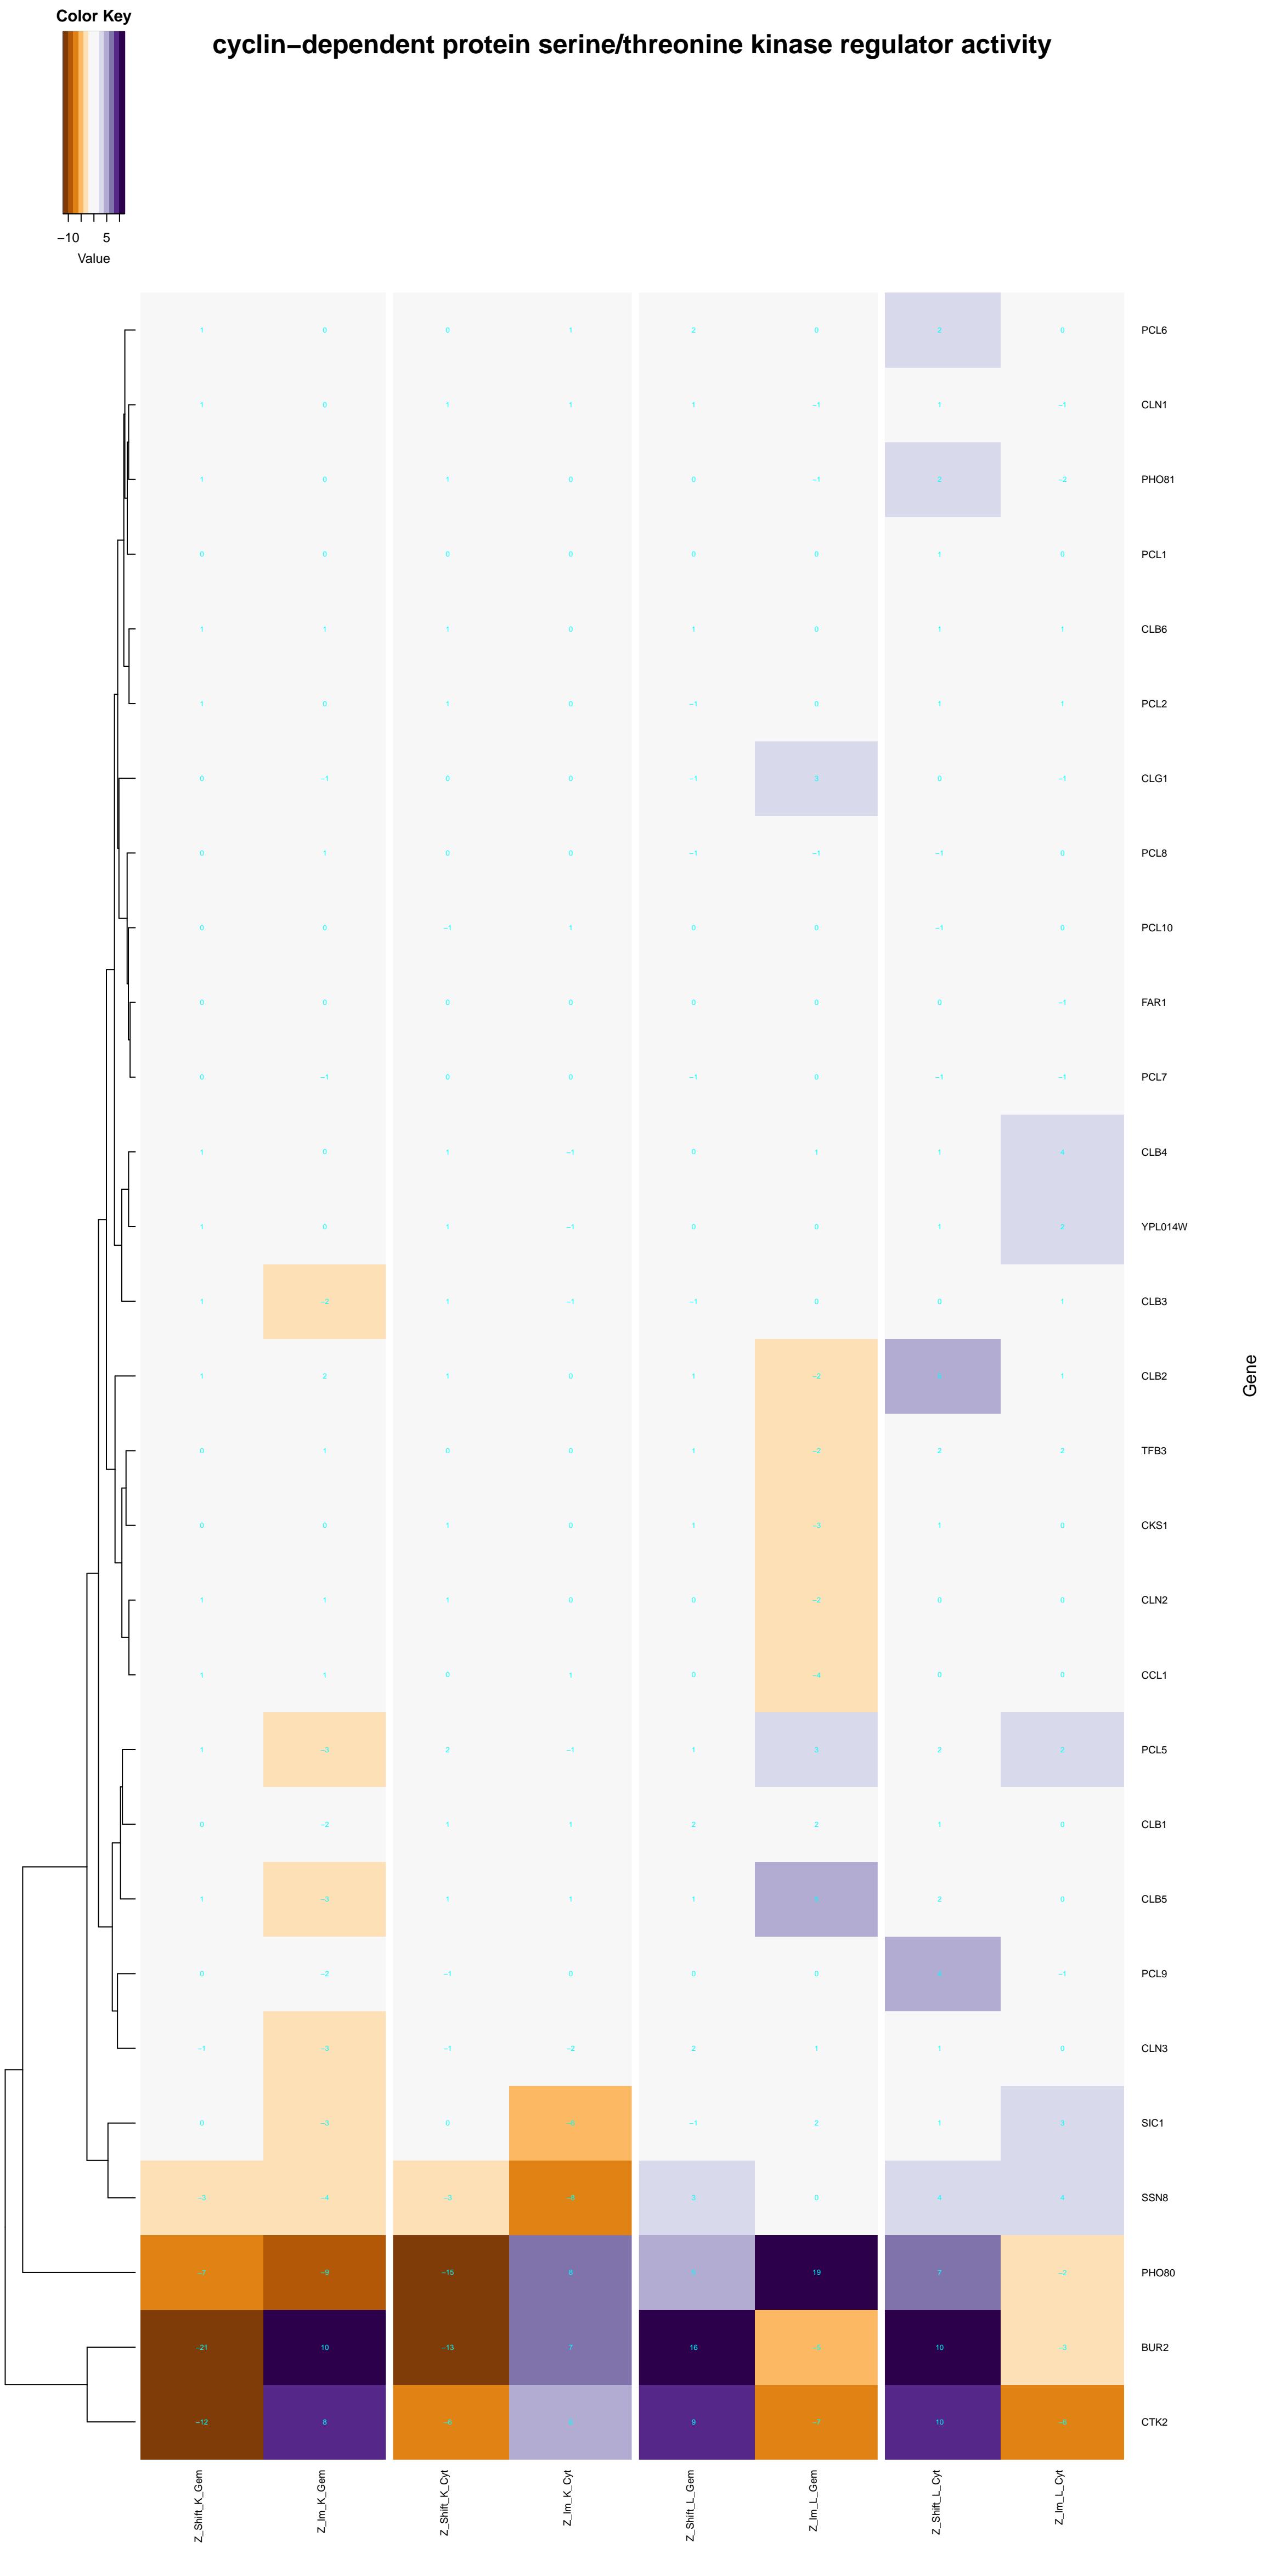

protein kinase activator activity

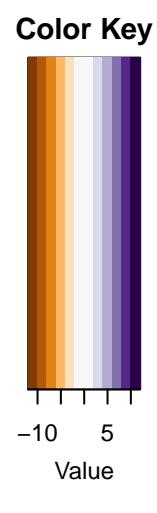

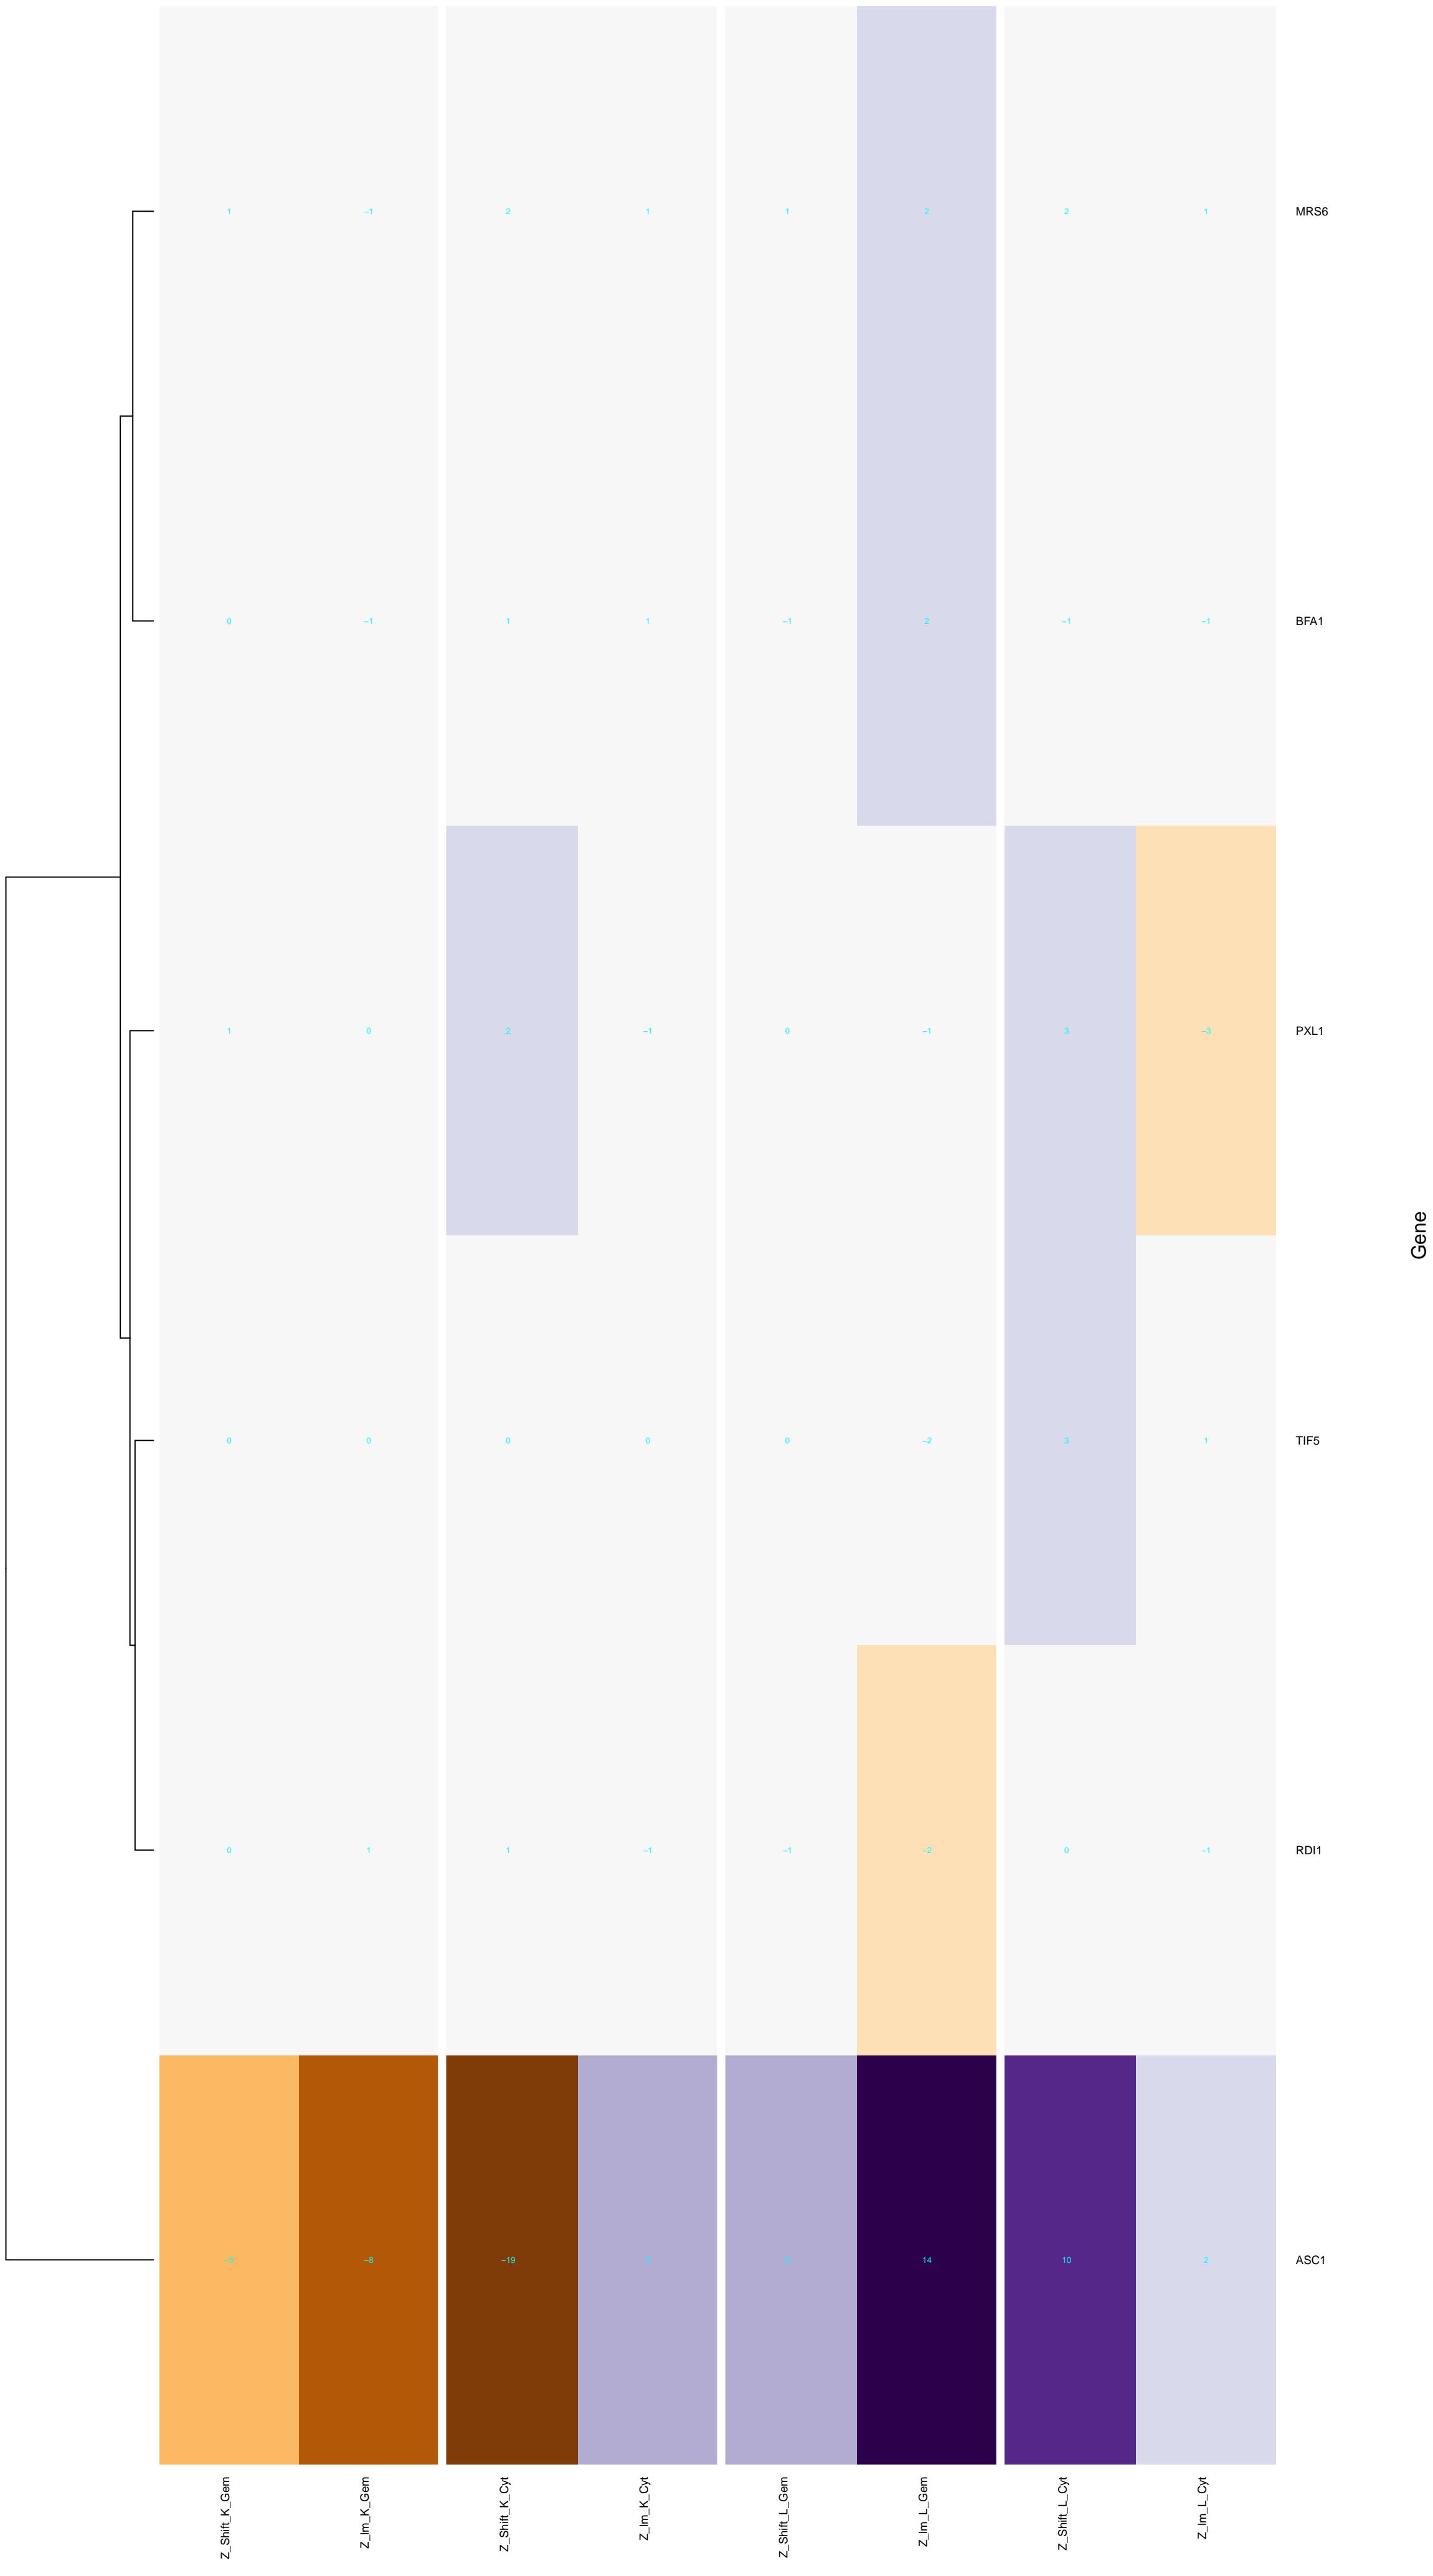

protein phosphatase activator activity

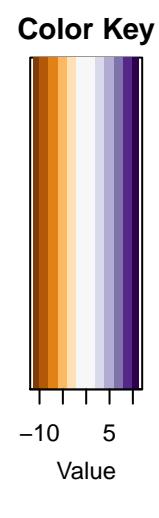

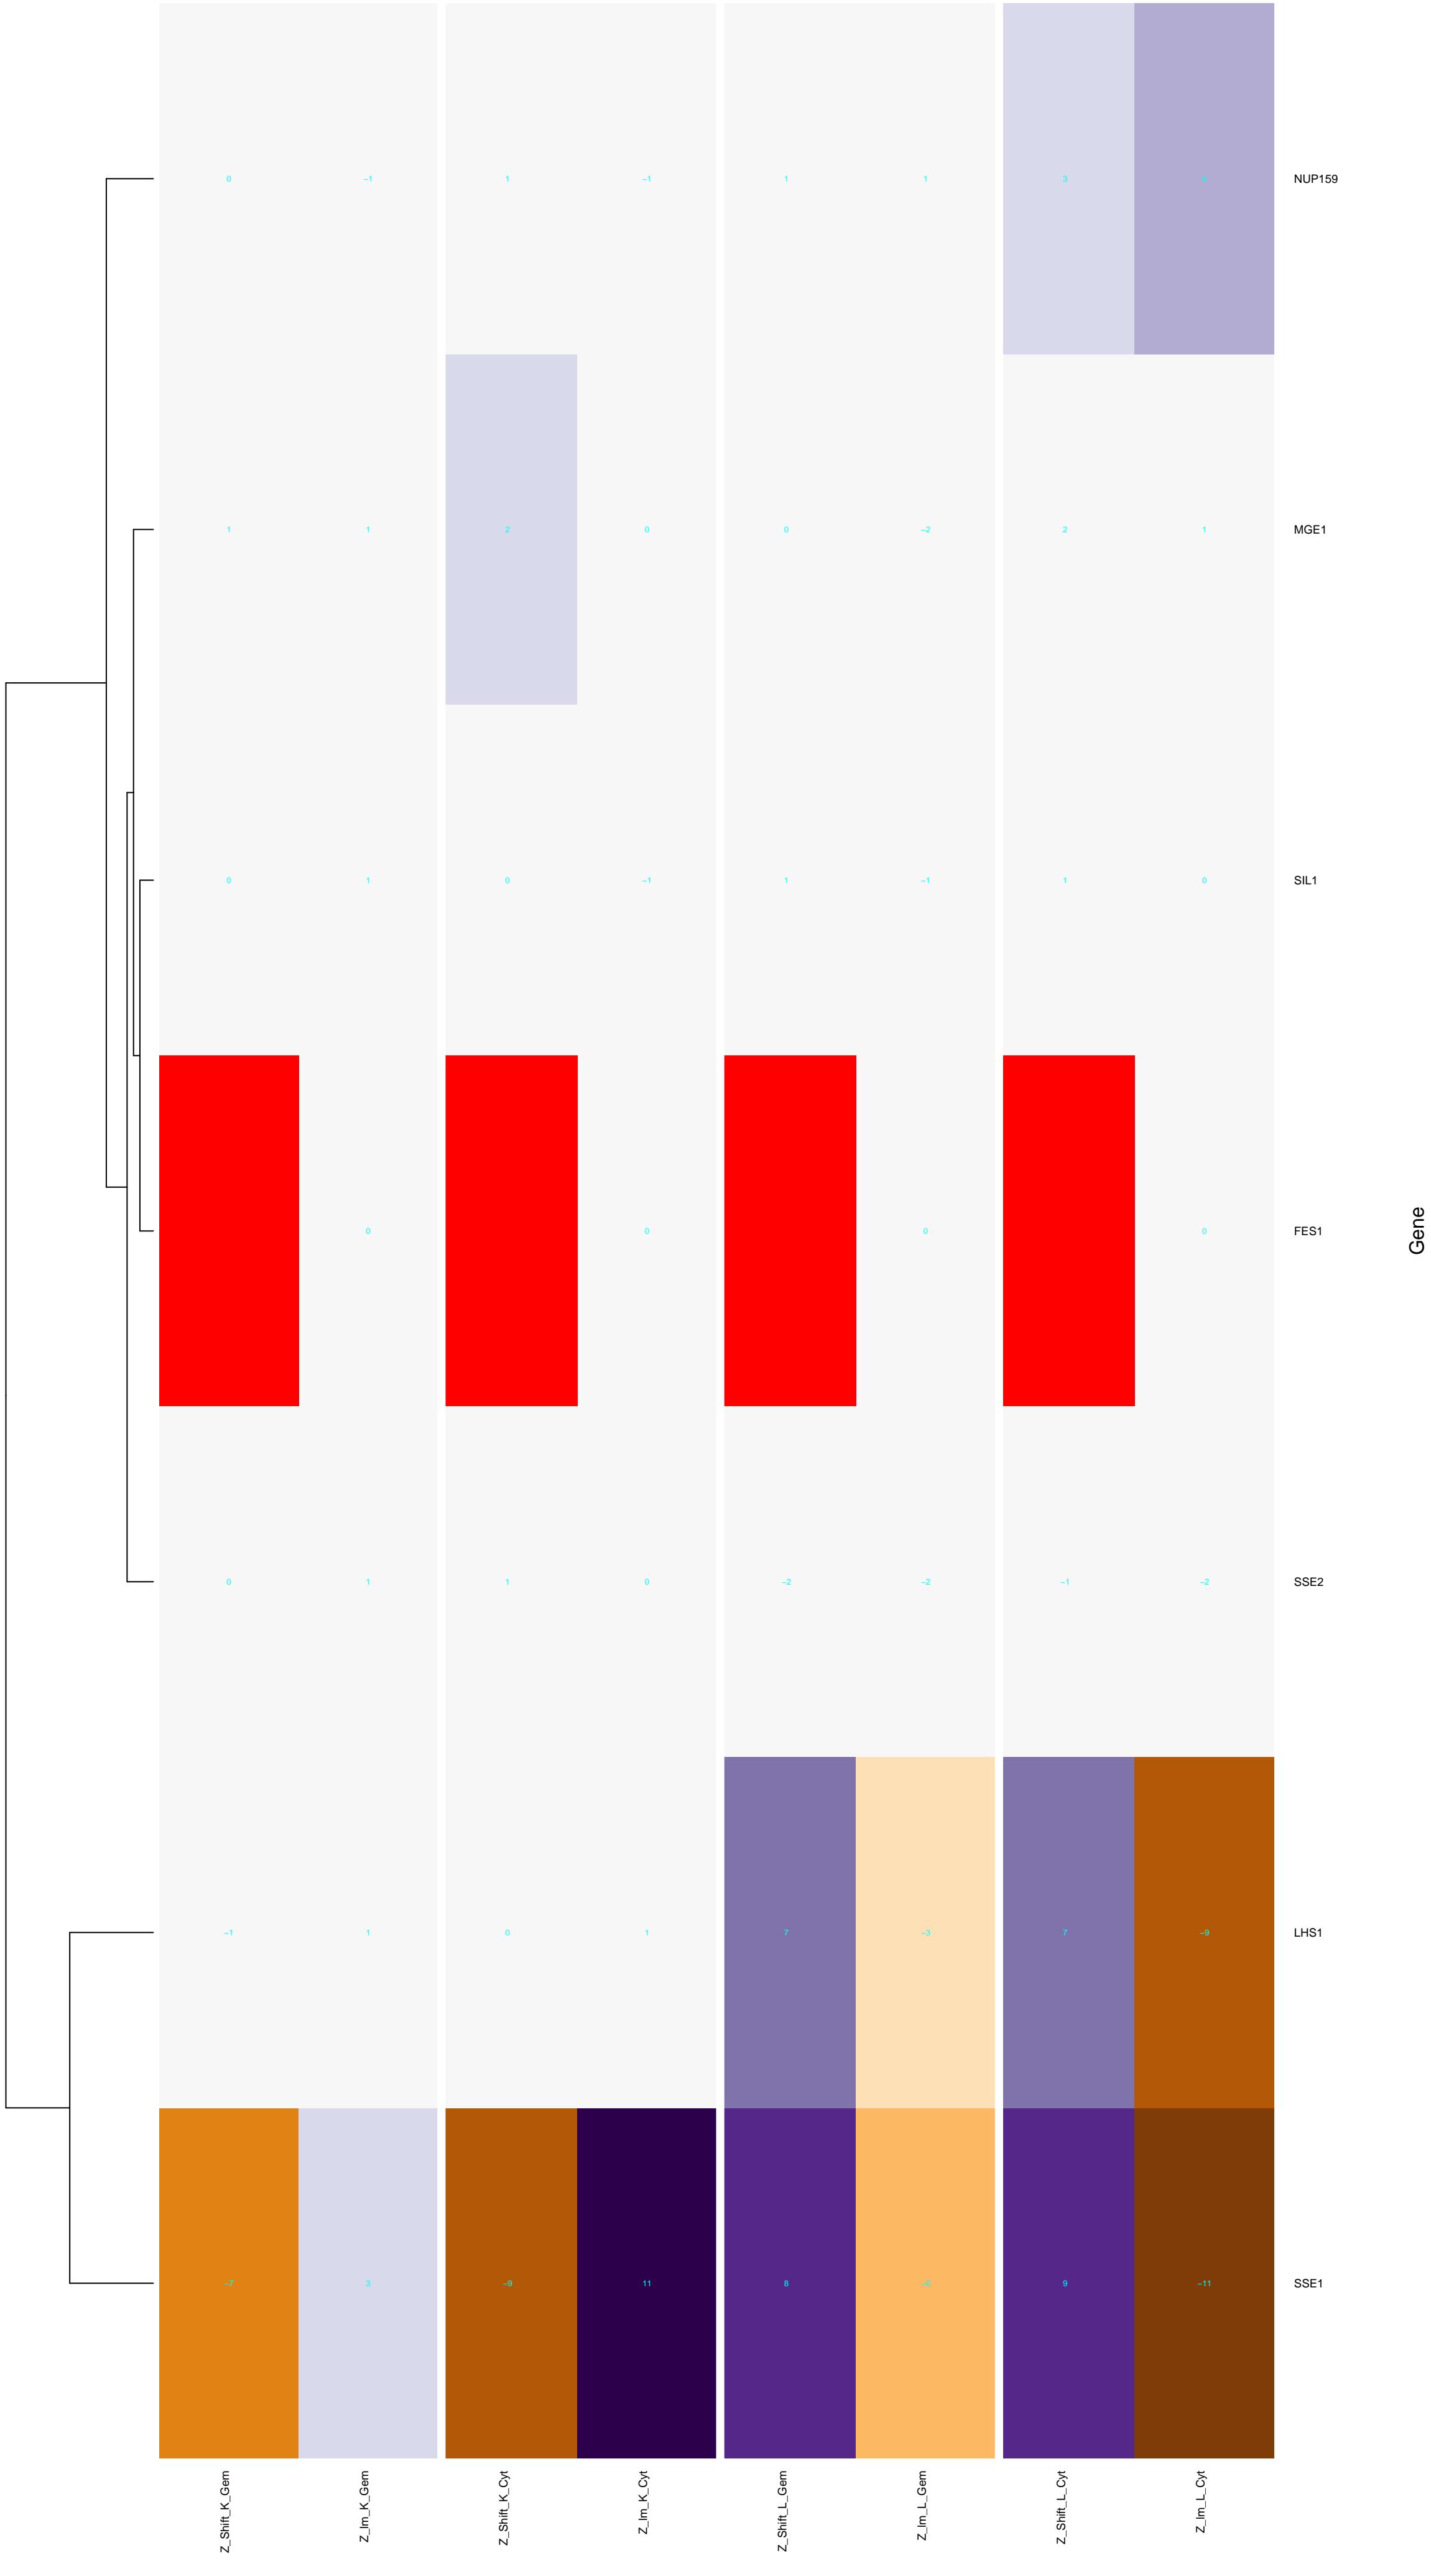

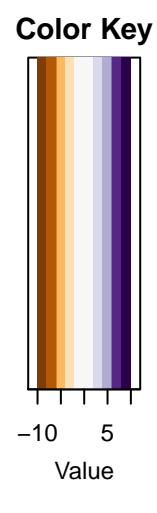

GDP-dissociation inhibitor activity

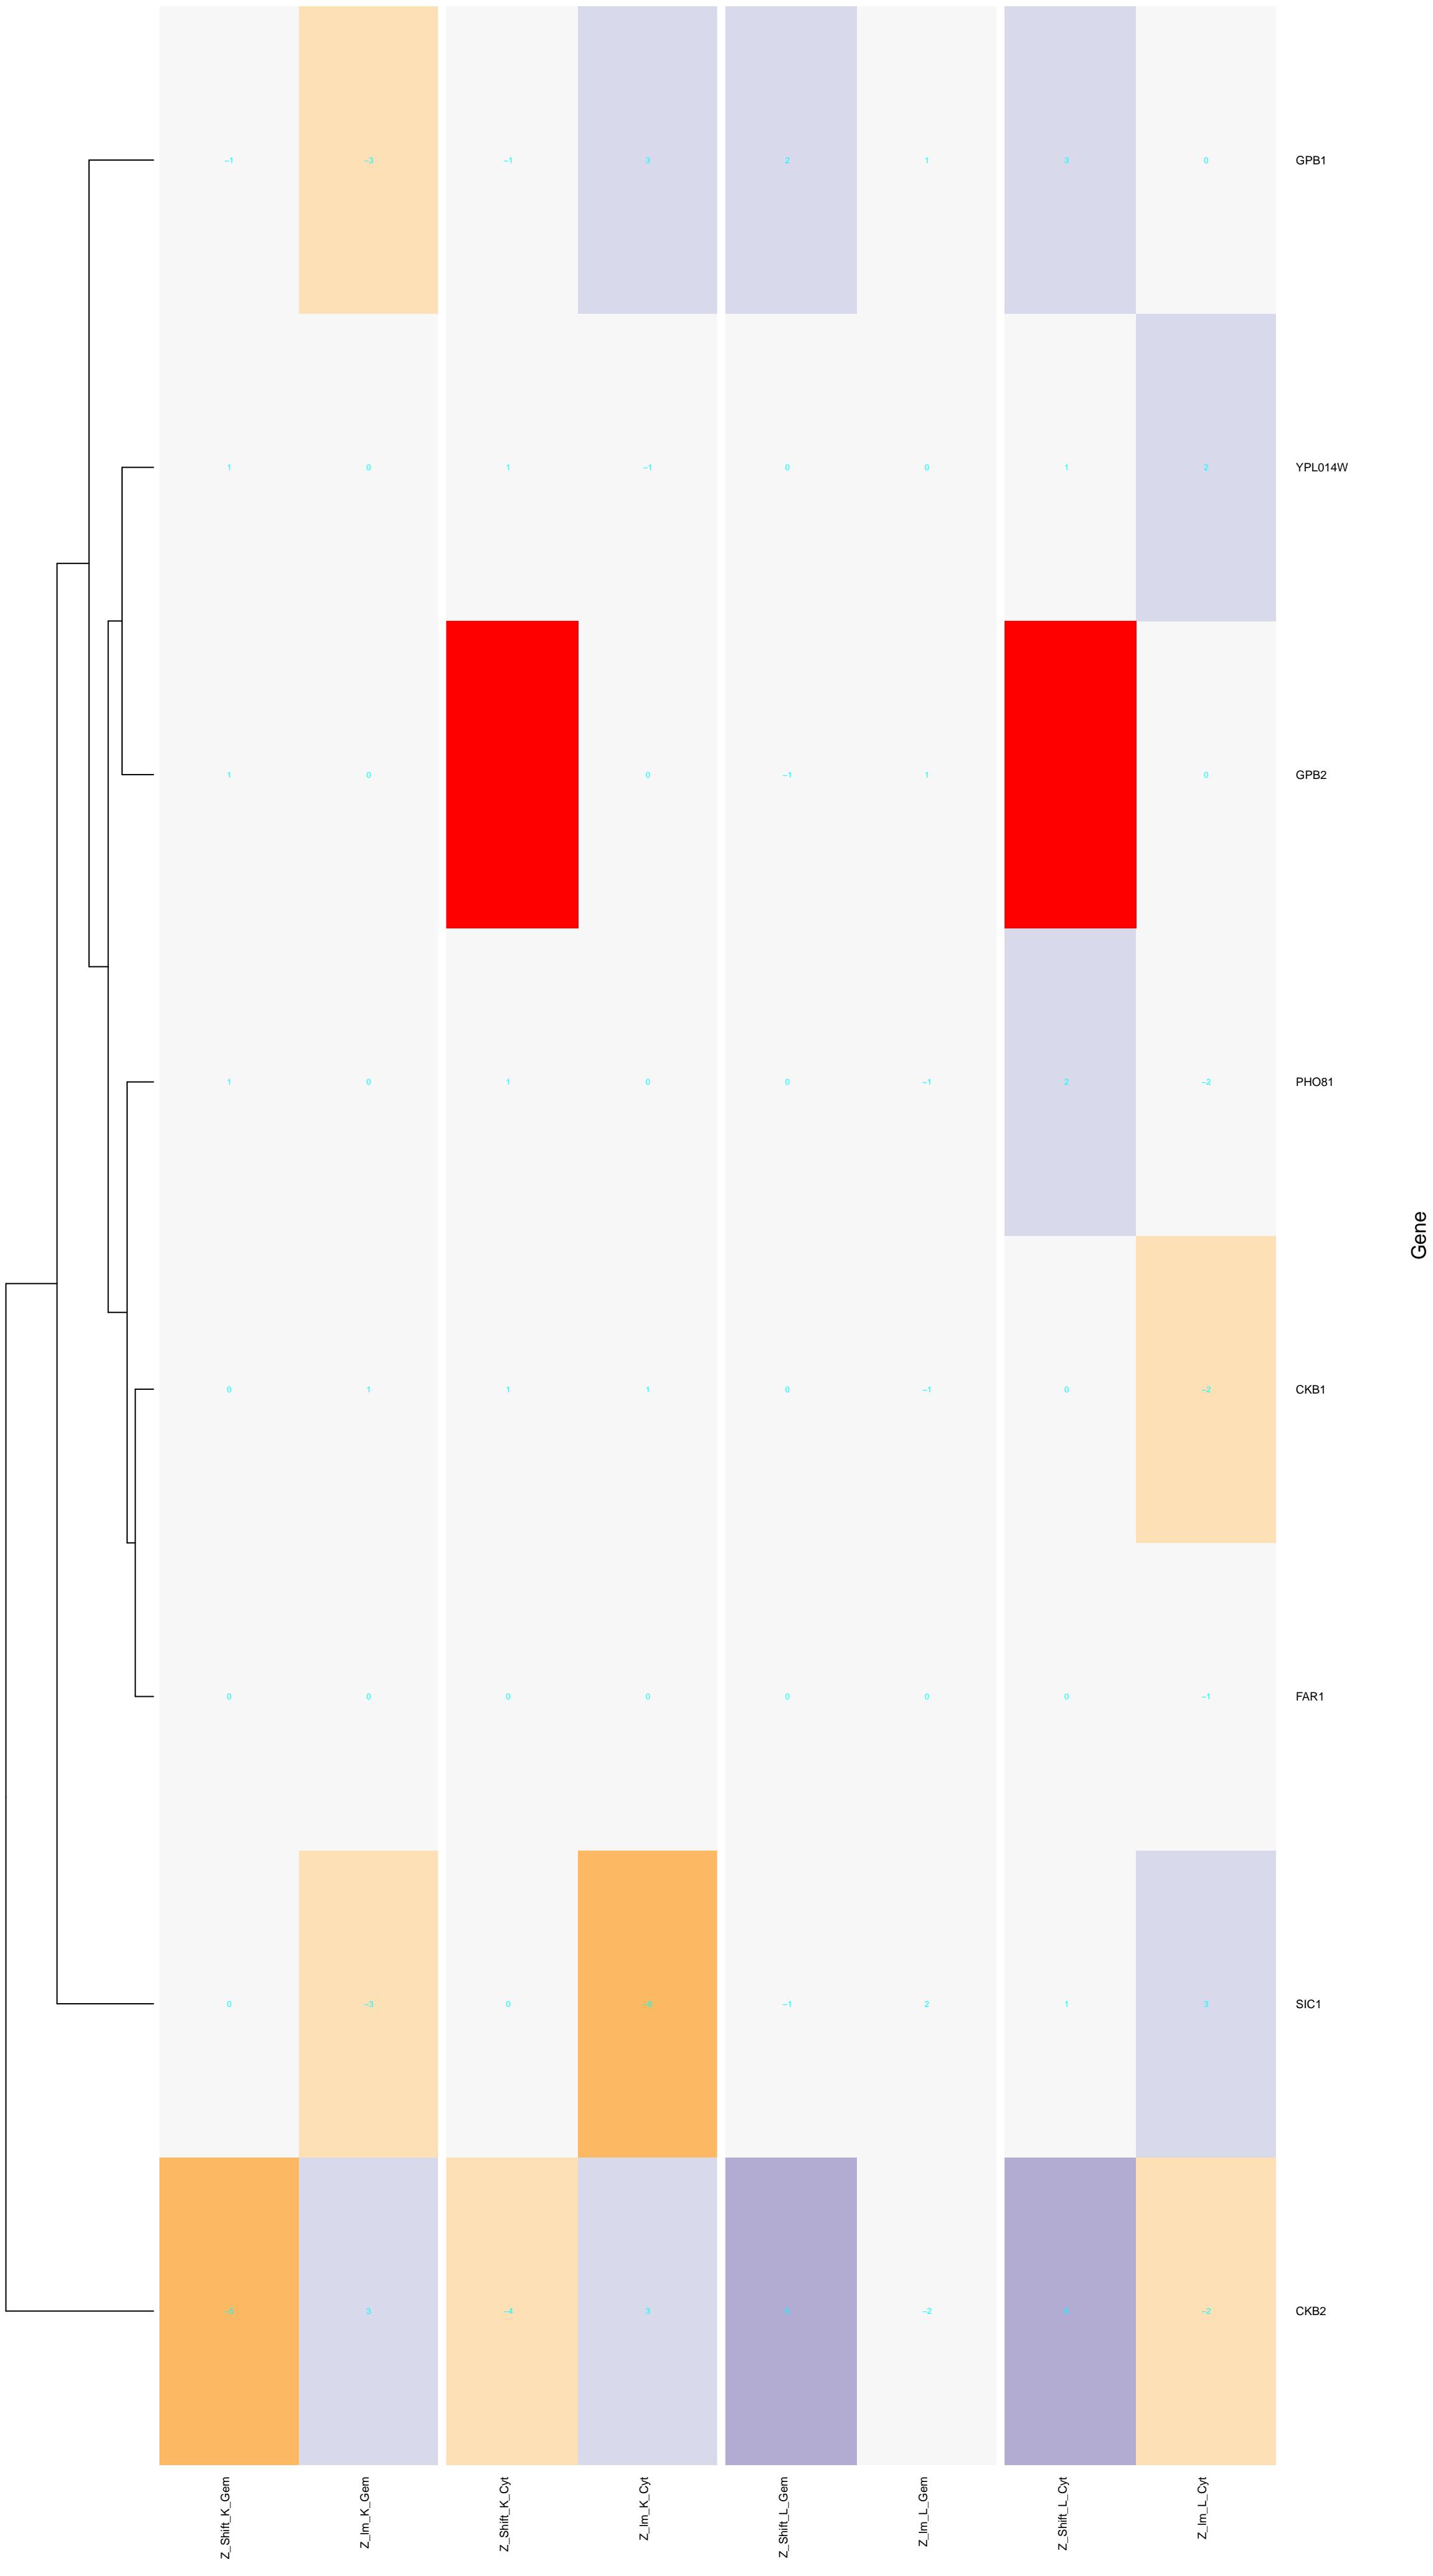

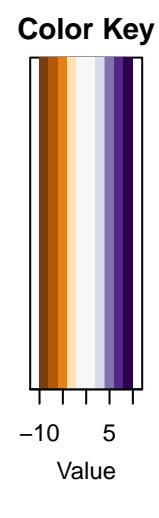

adenyl-nucleotide exchange factor activity

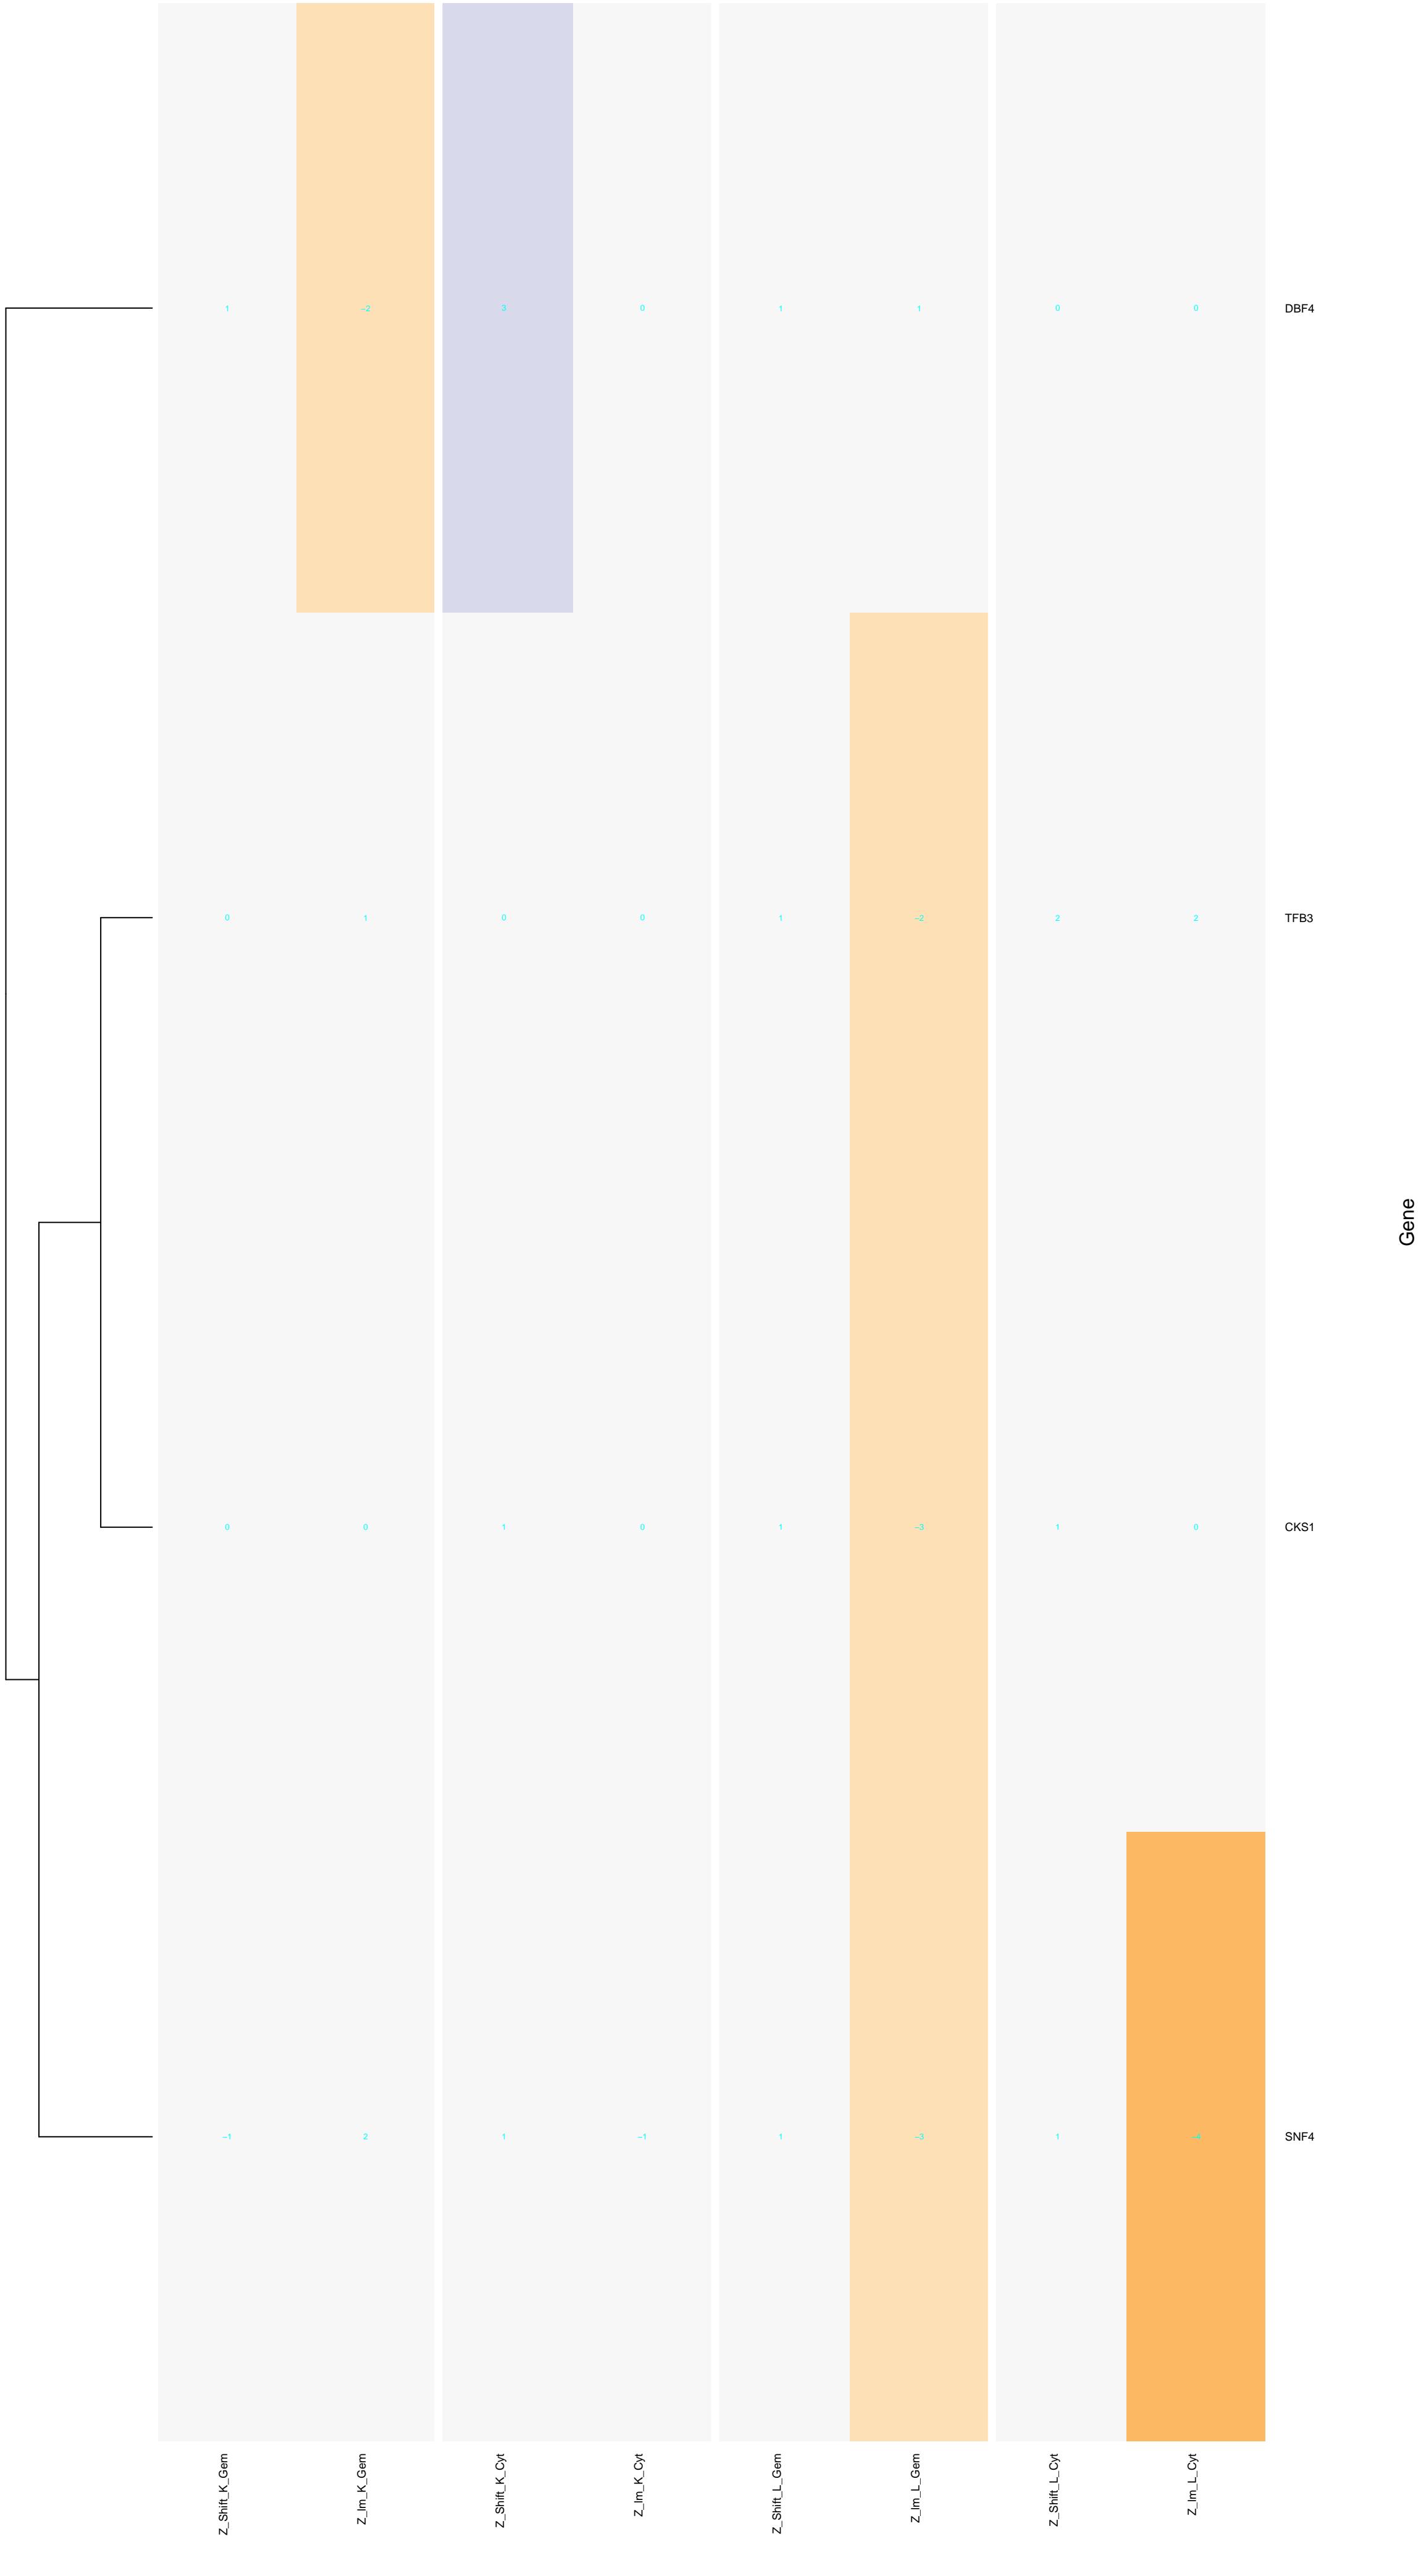

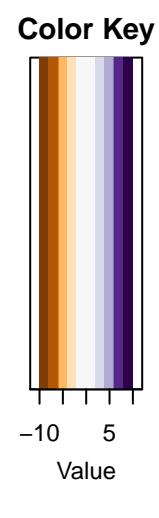

protein serine/threonine kinase inhibitor activity

protein serine/threonine kinase activator activity

cyclin-dependent protein serine/threonine kinase inhibitor activity
