

## transcription factor activity, transcription factor binding

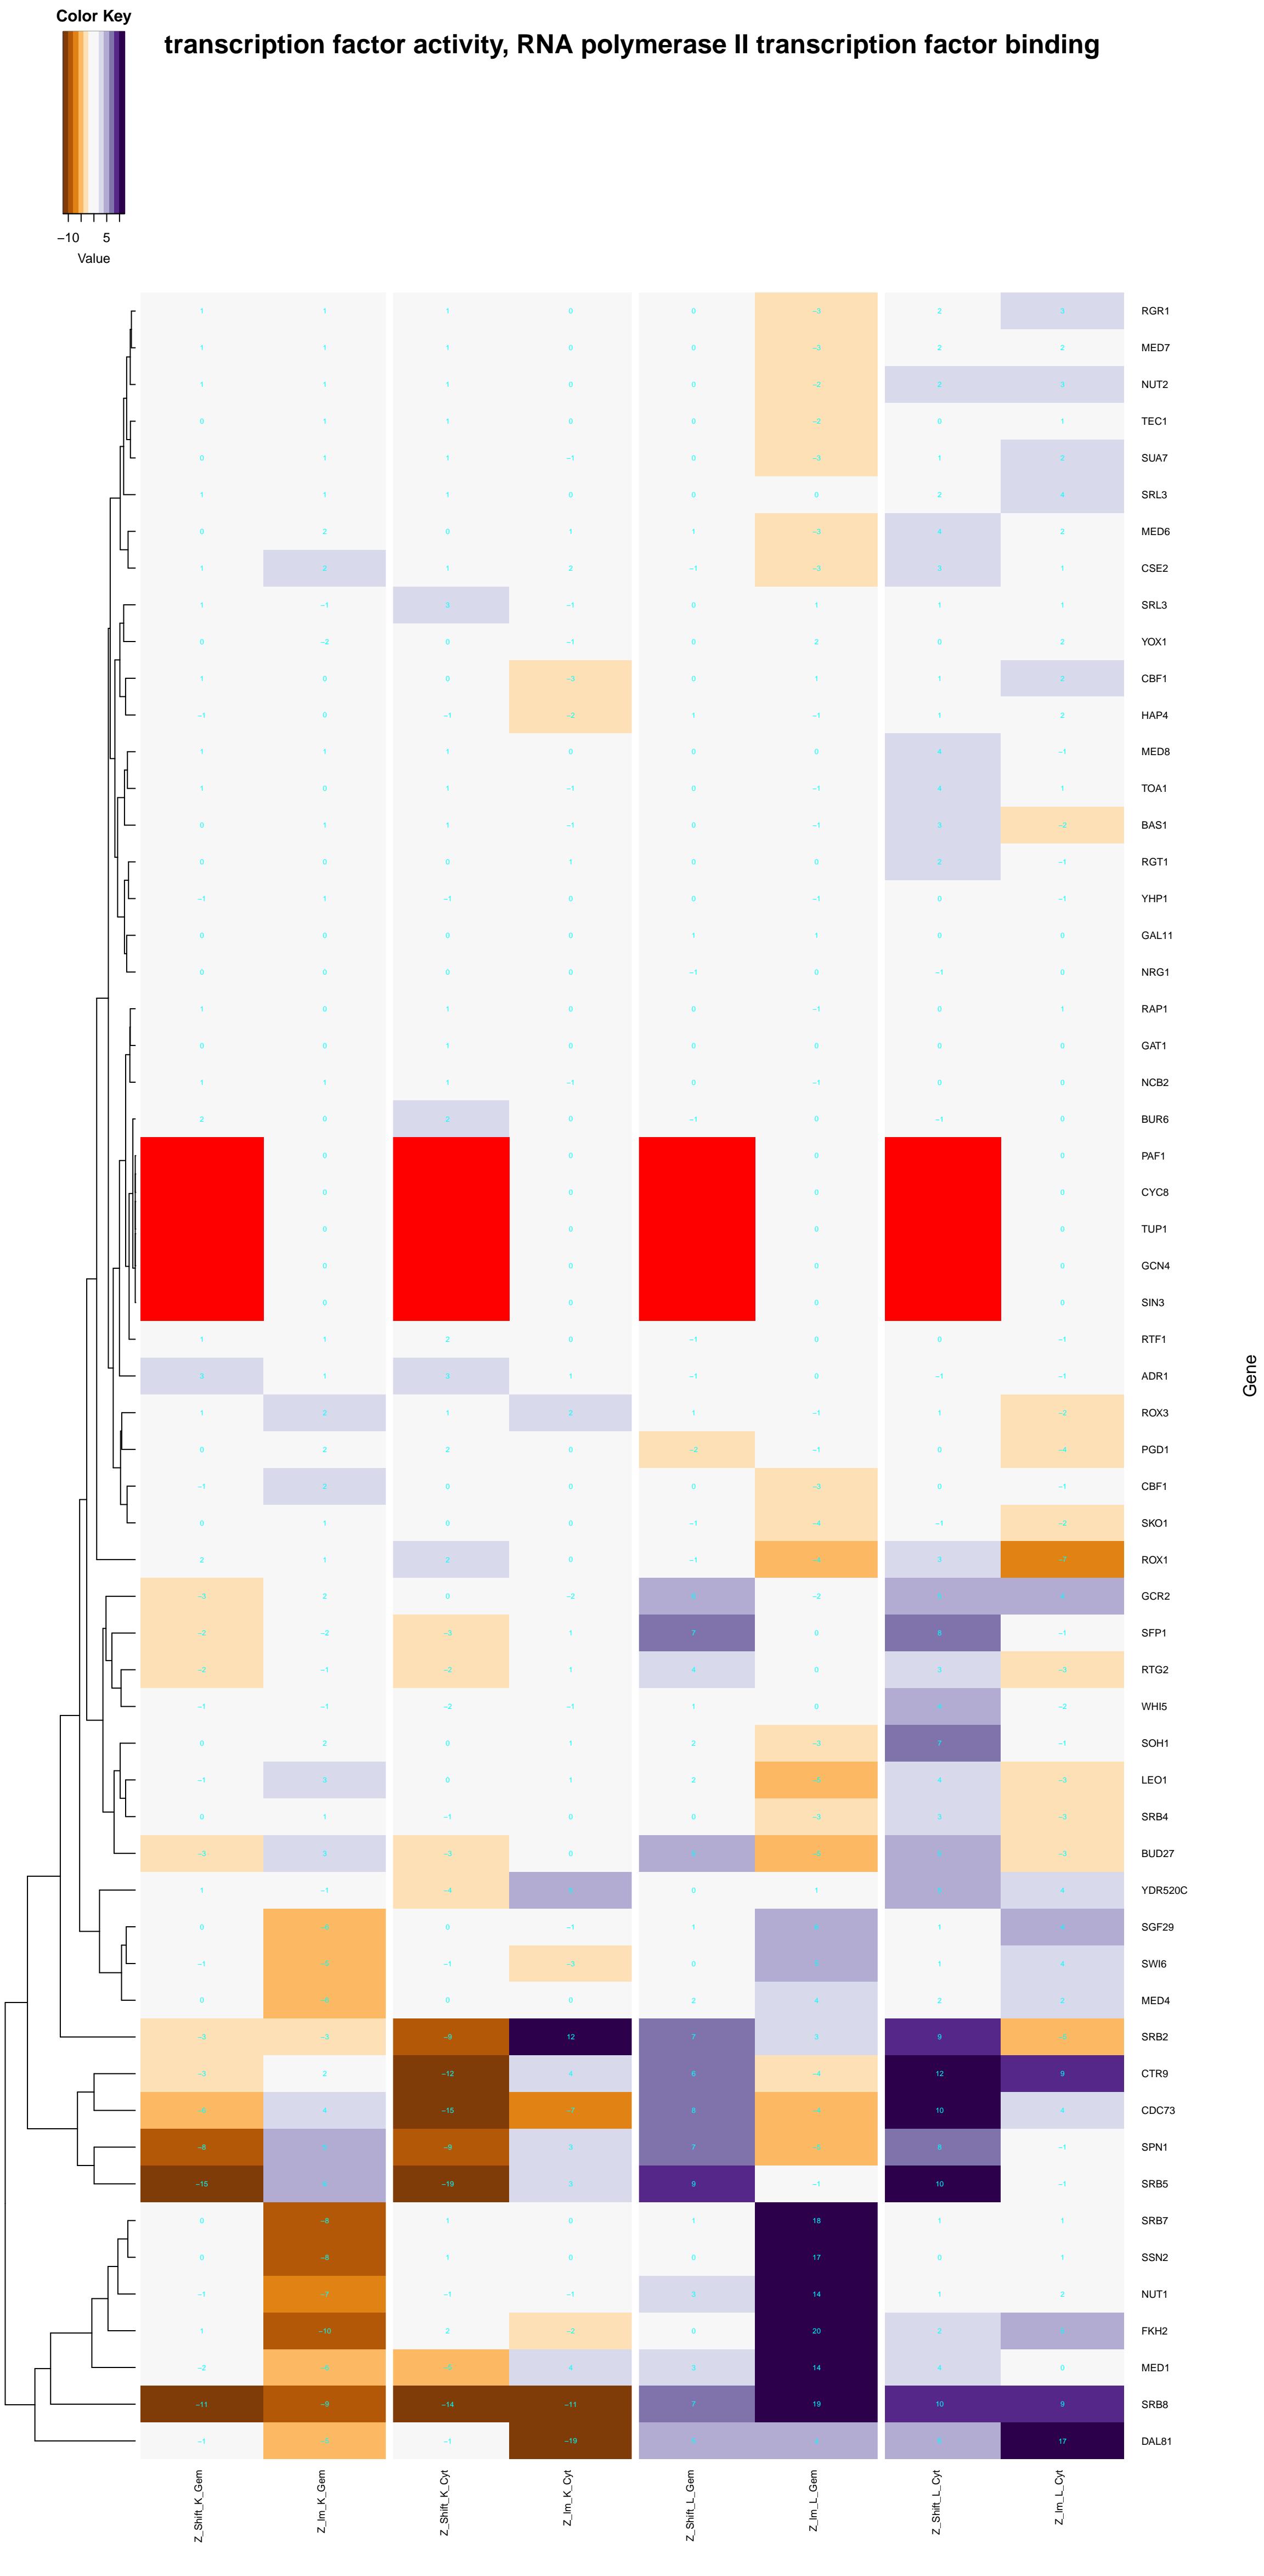

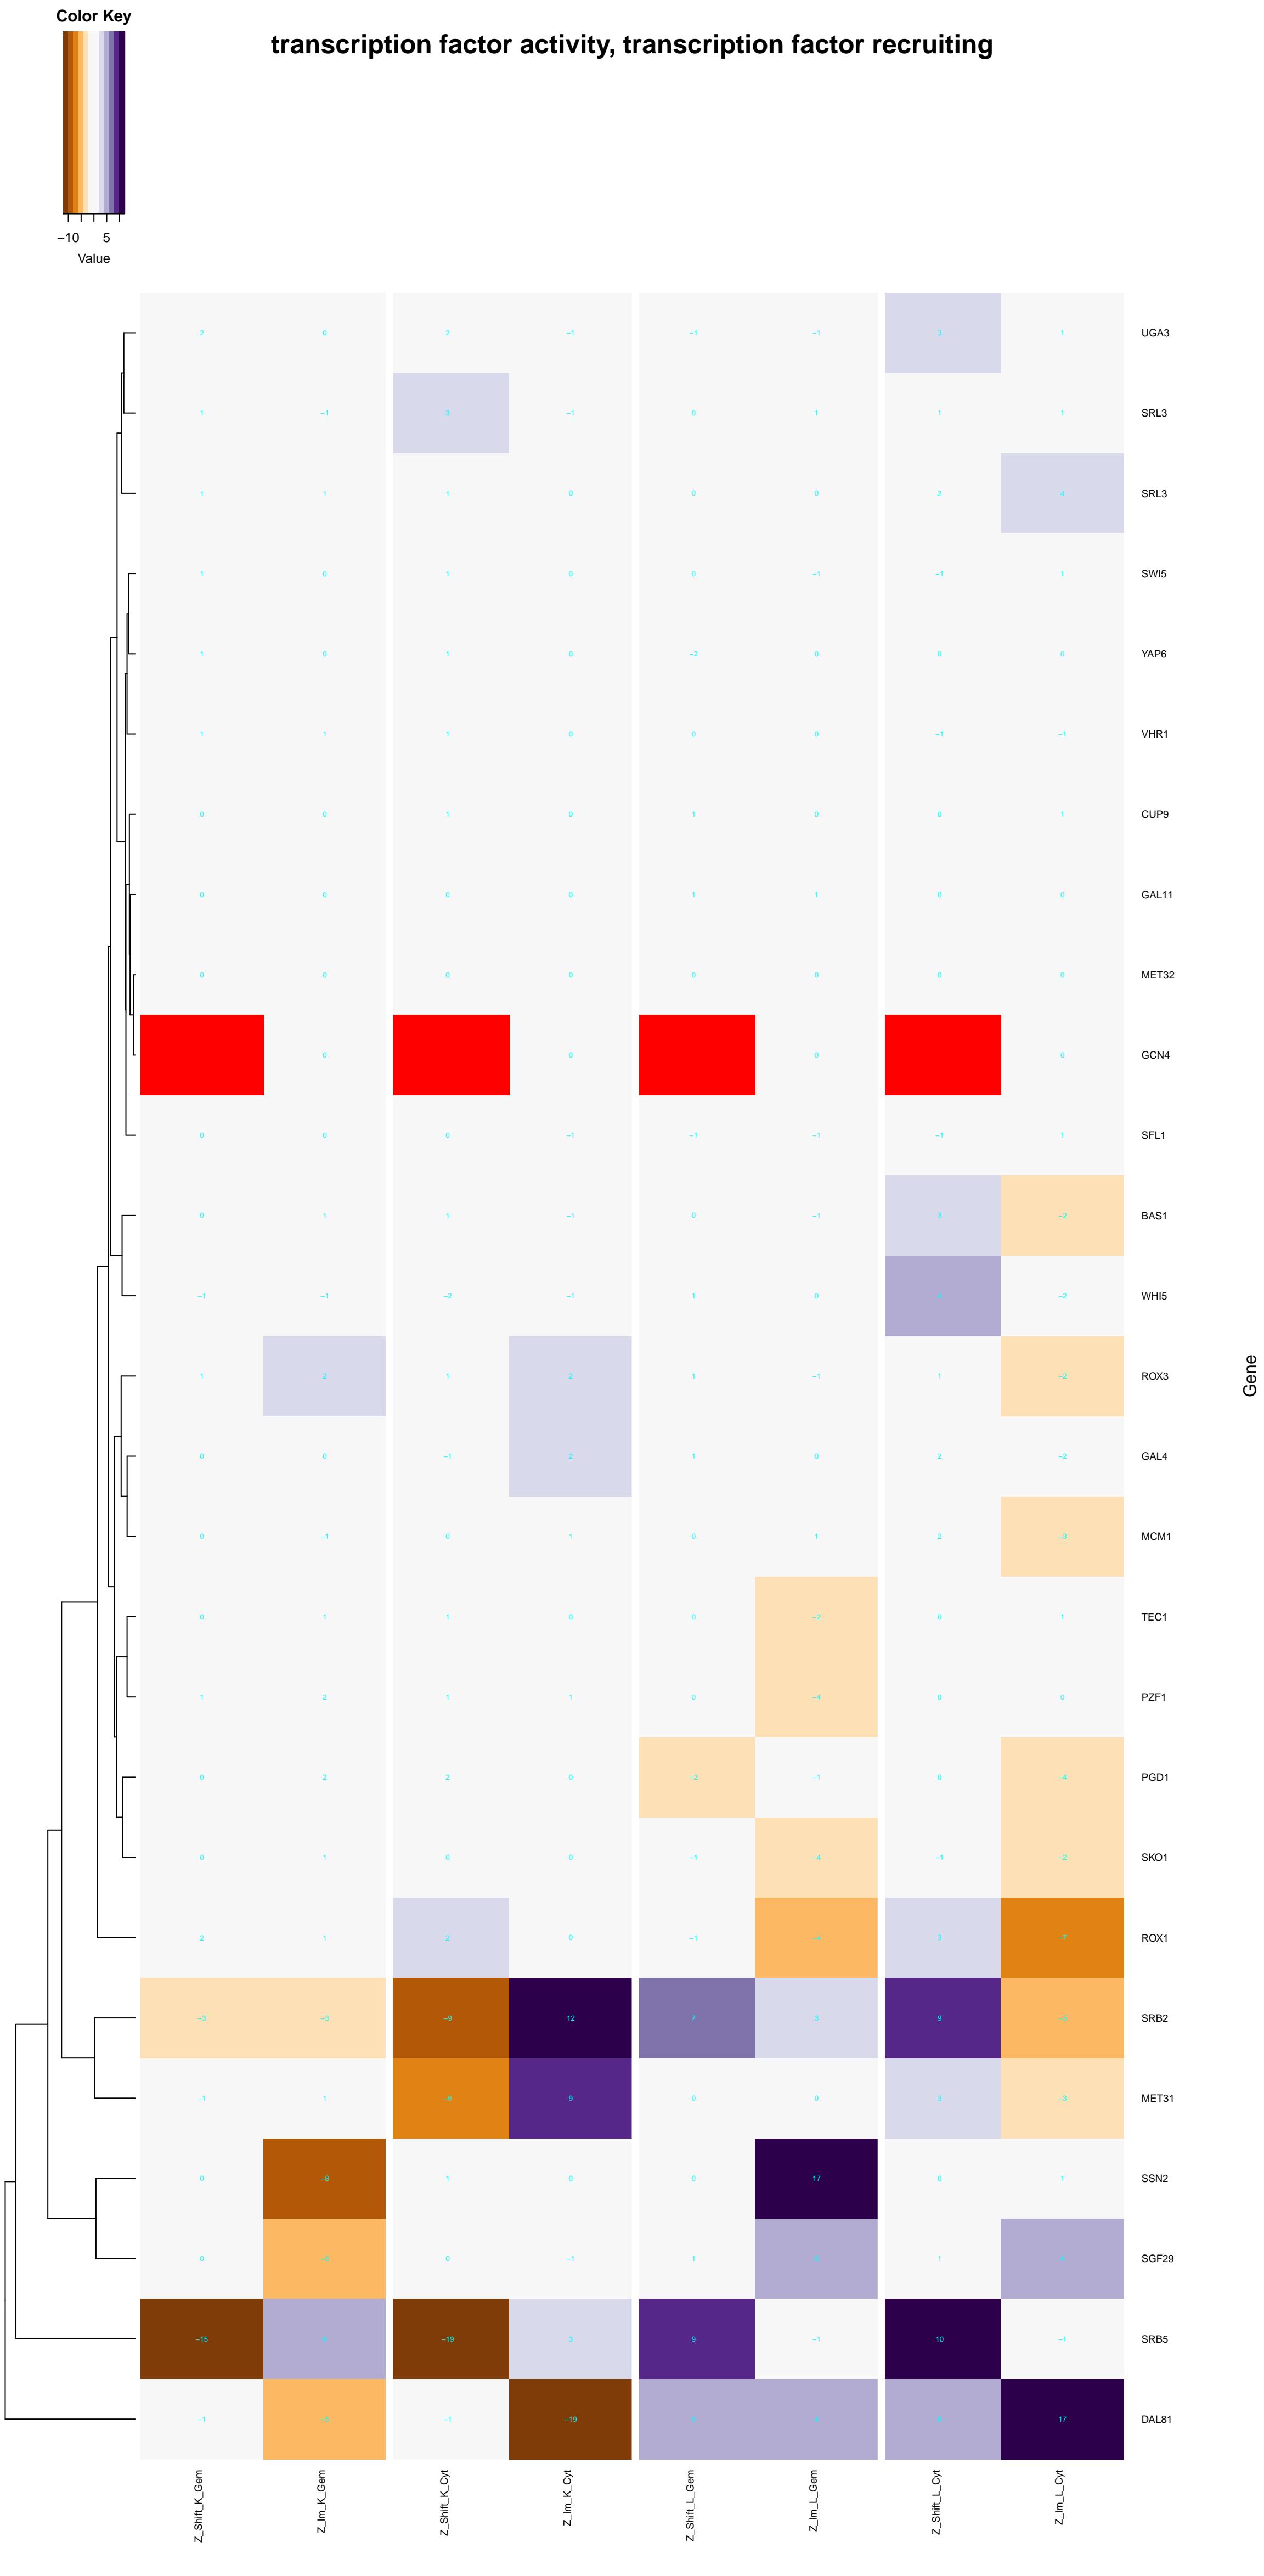

Color Key

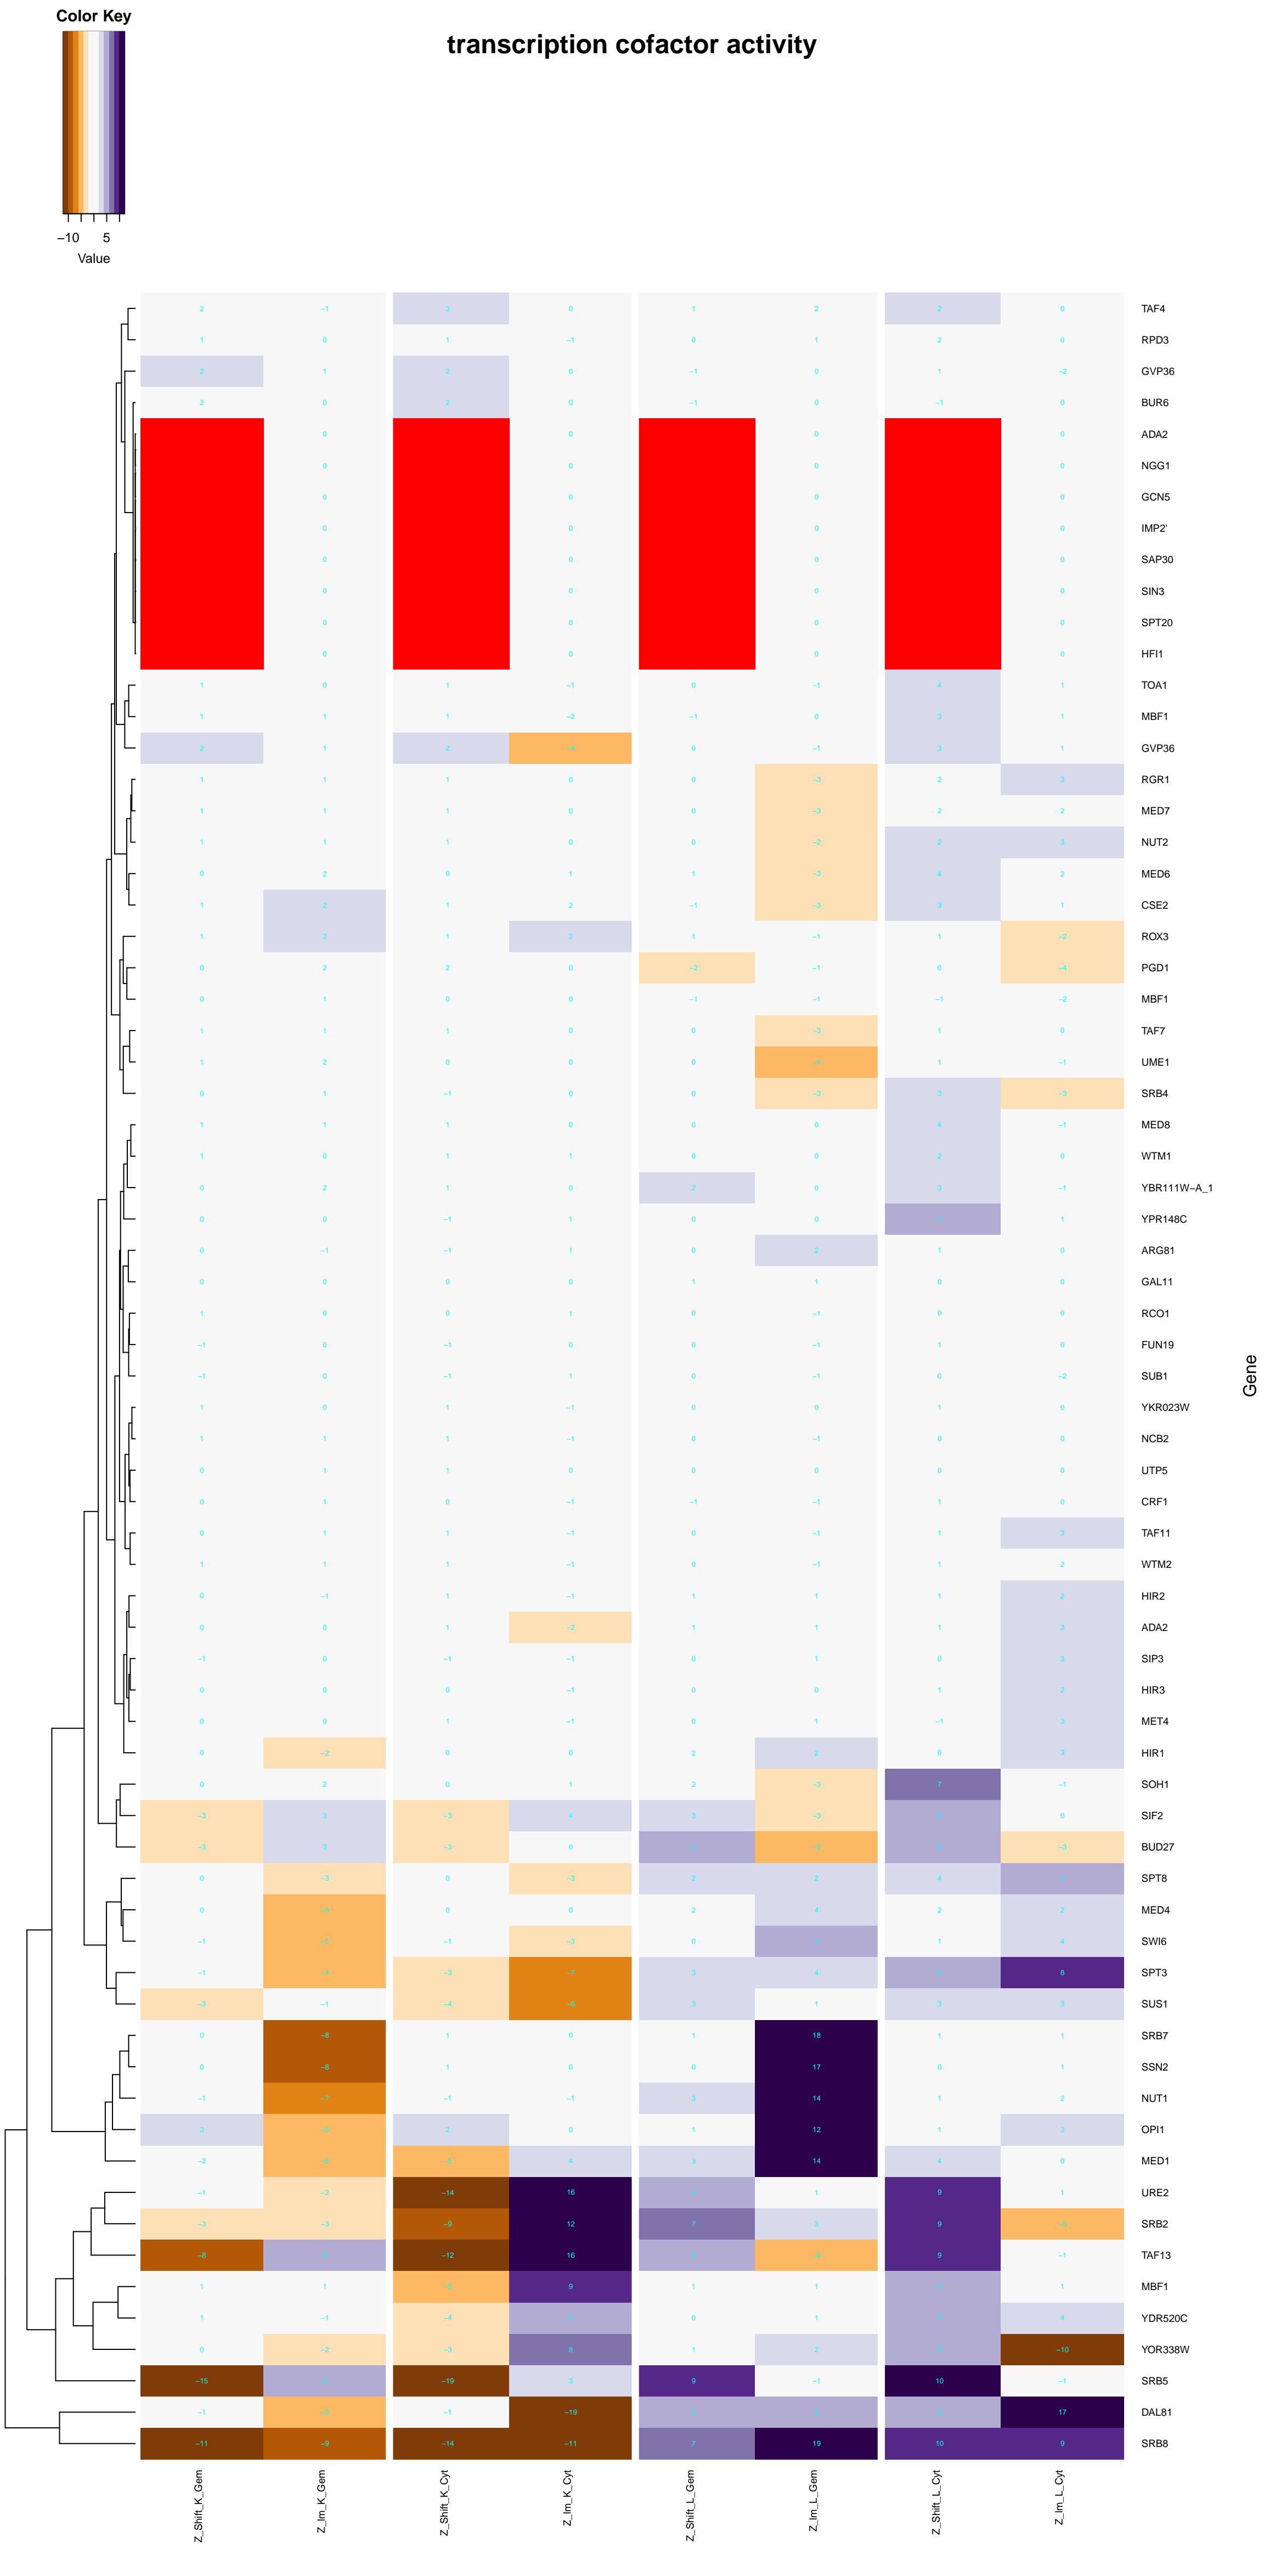

## transcription factor activity, RNA polymerase III transcription factor binding

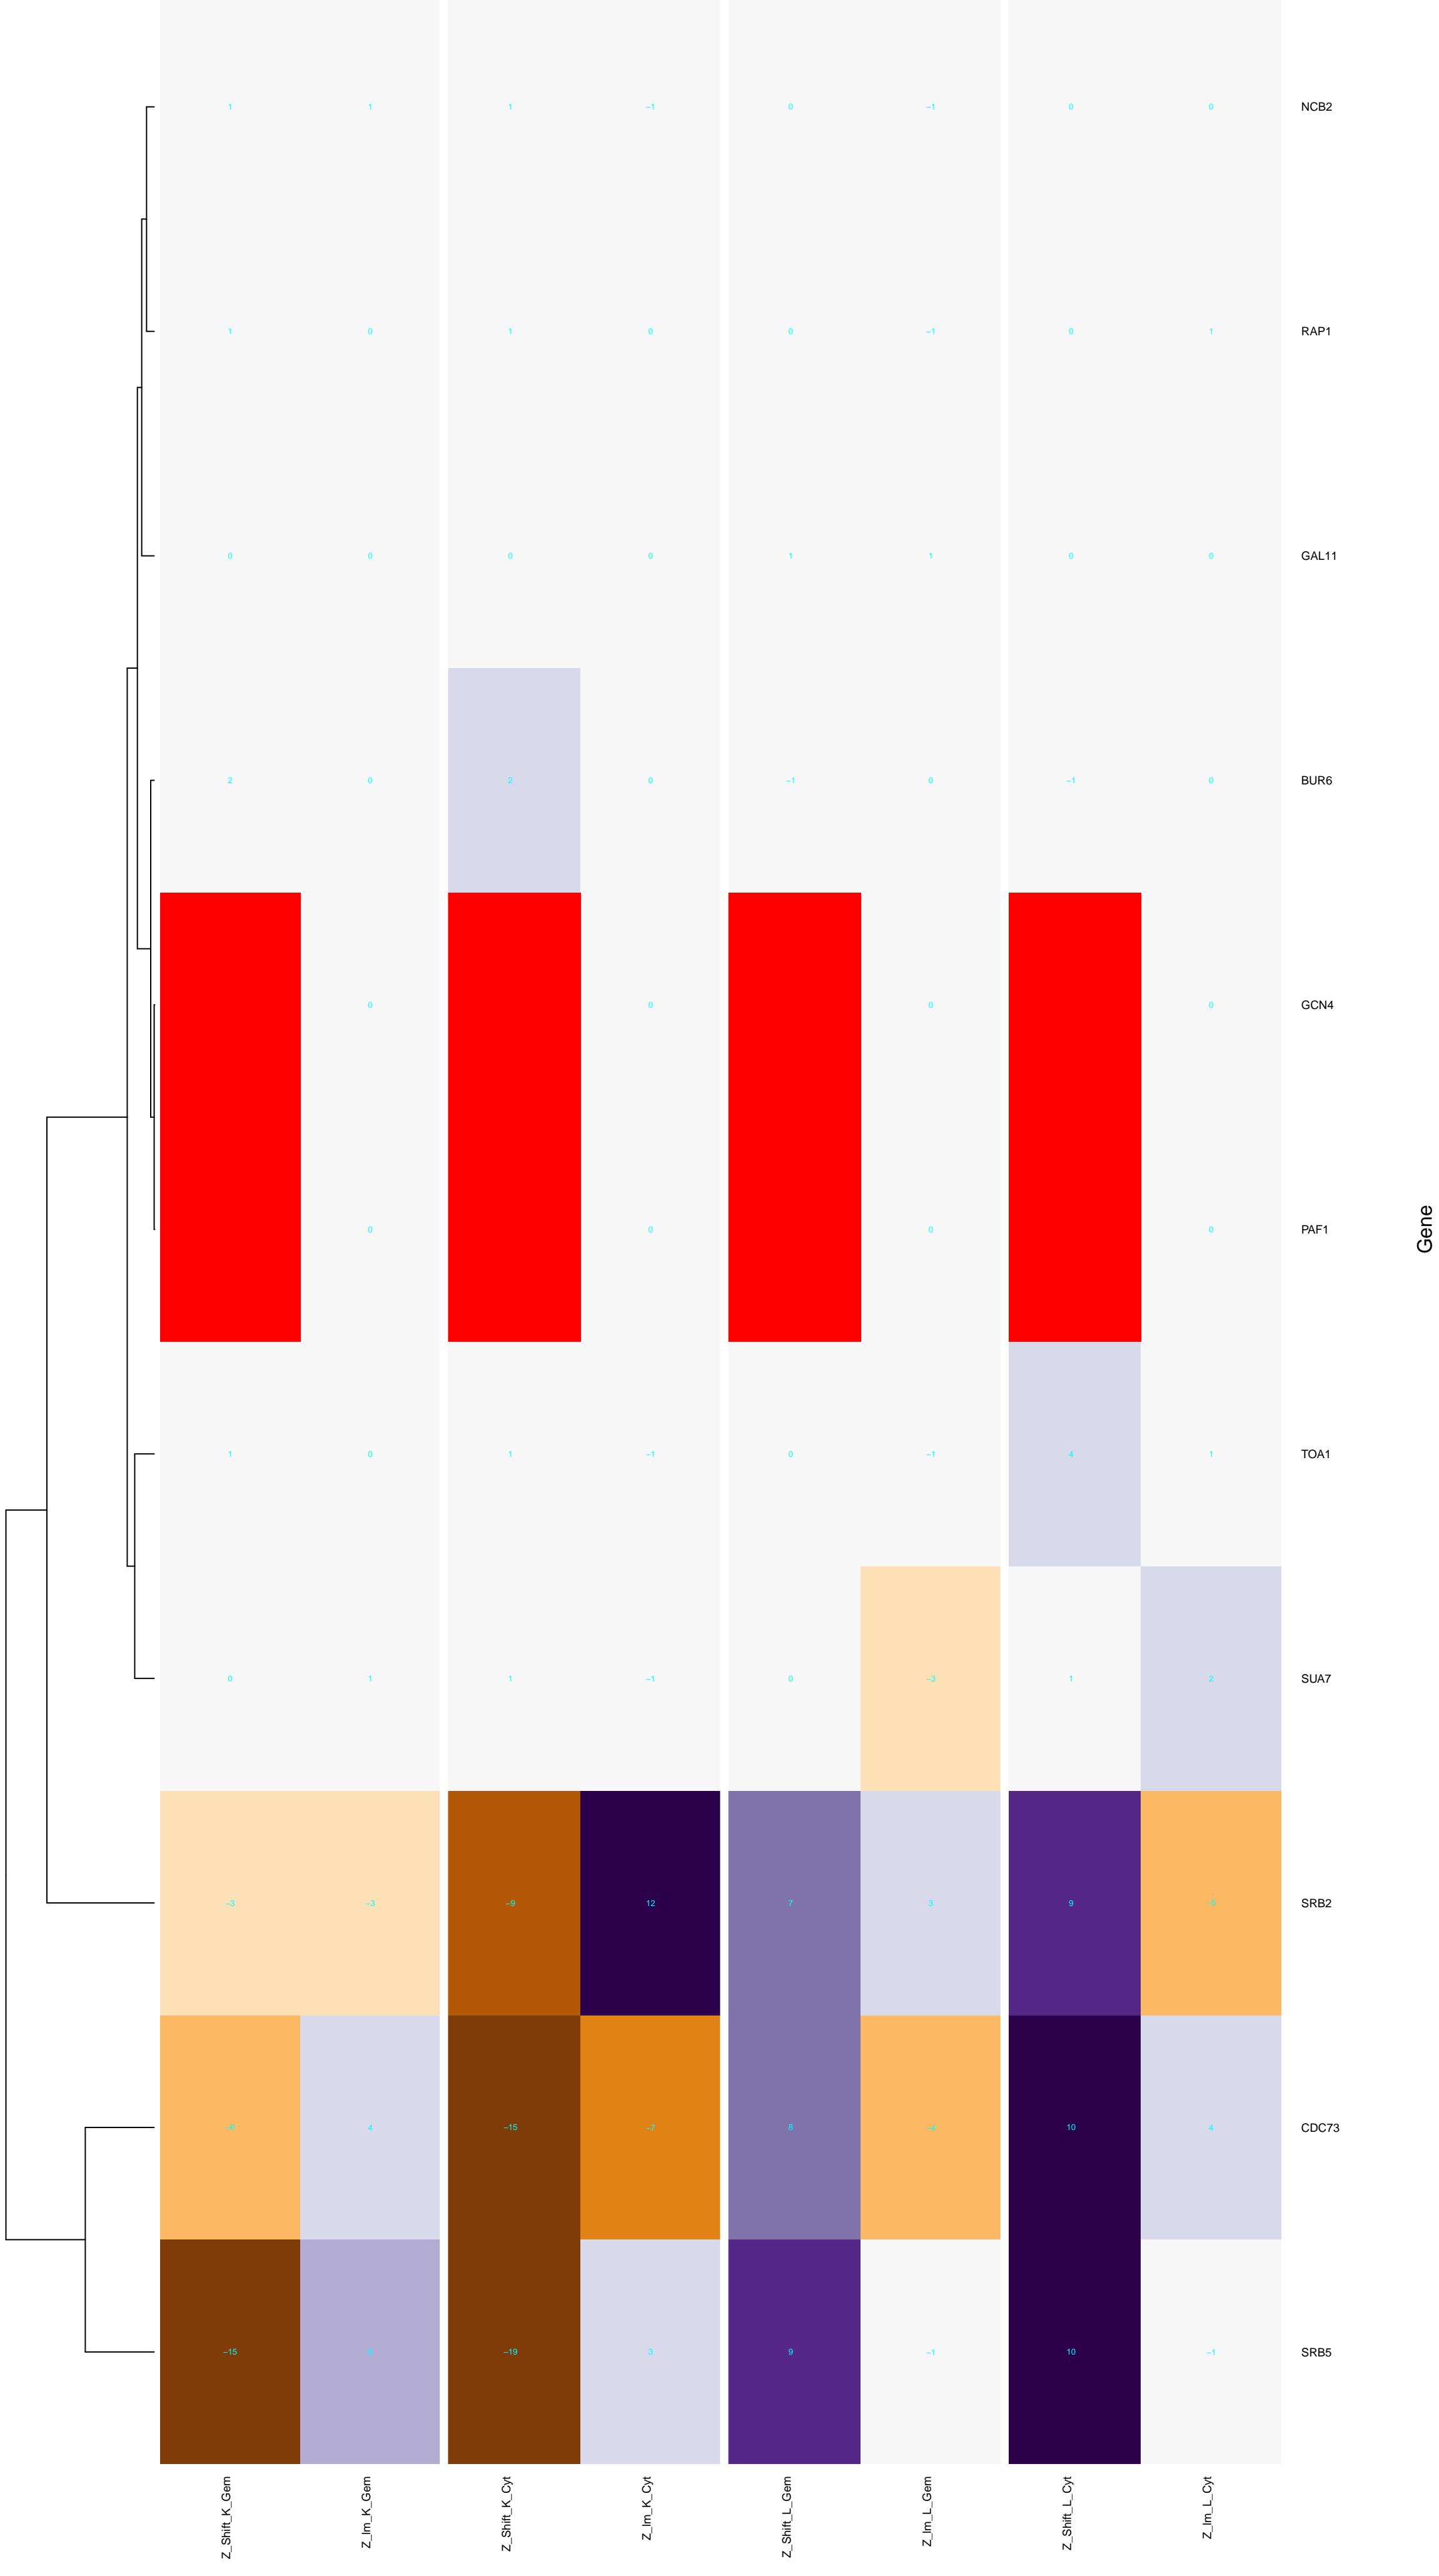

Color Key

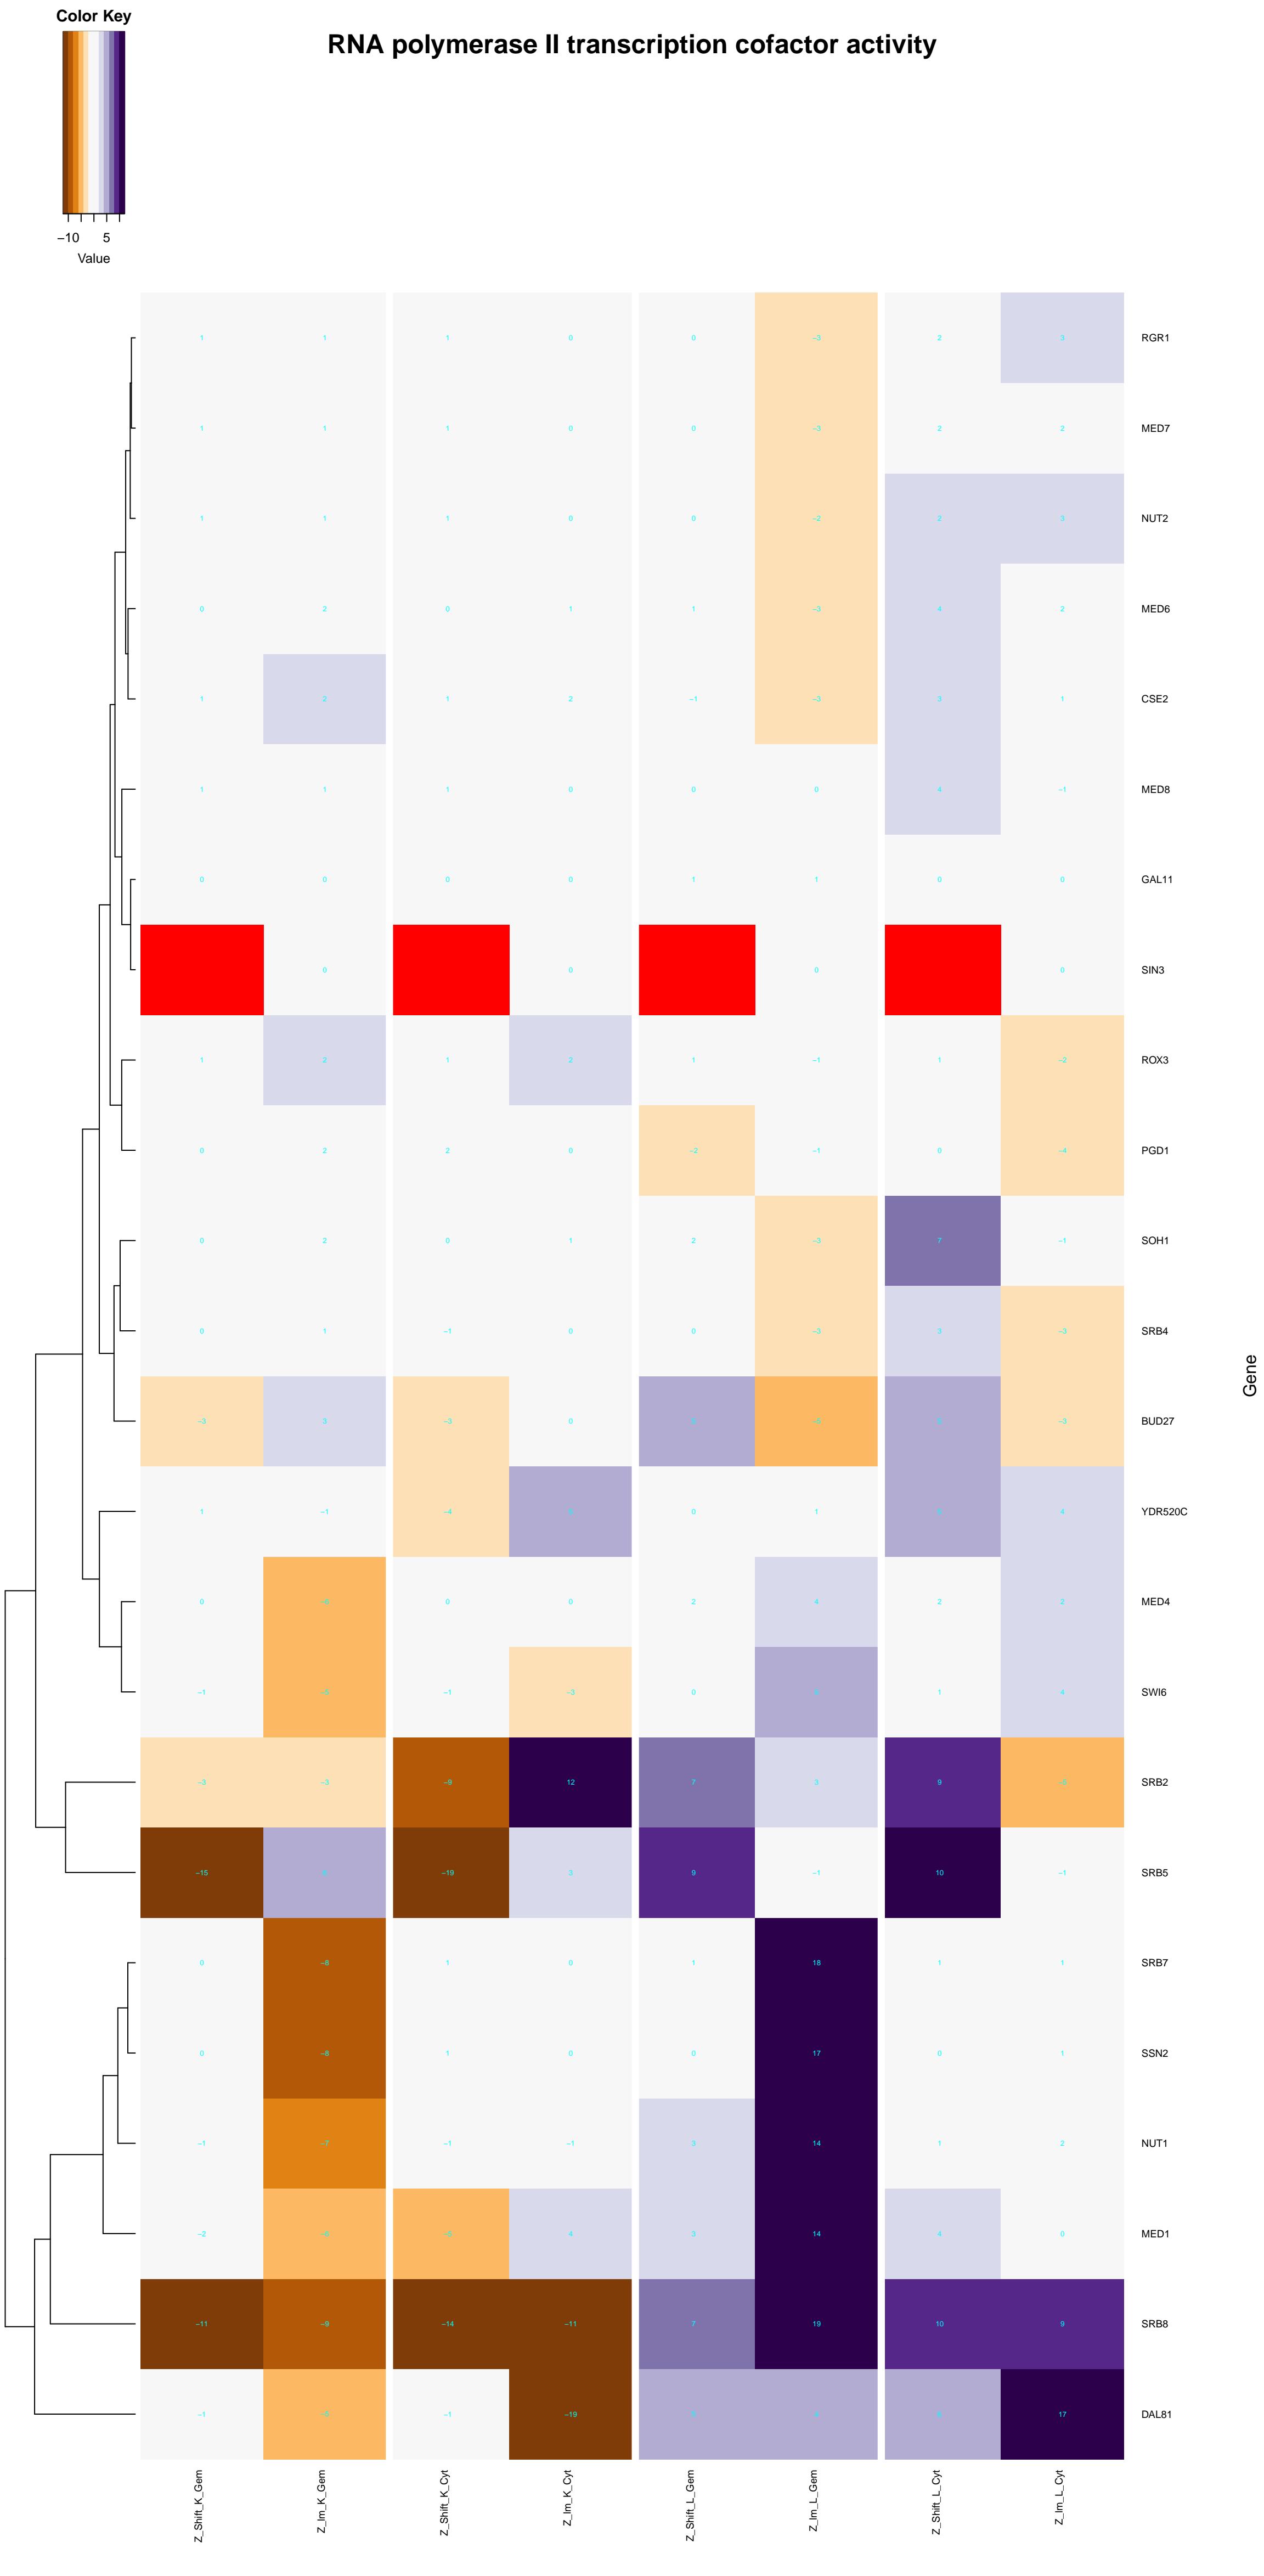

## transcription factor activity, RNA polymerase II basal transcription factor binding

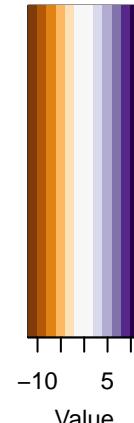

Value

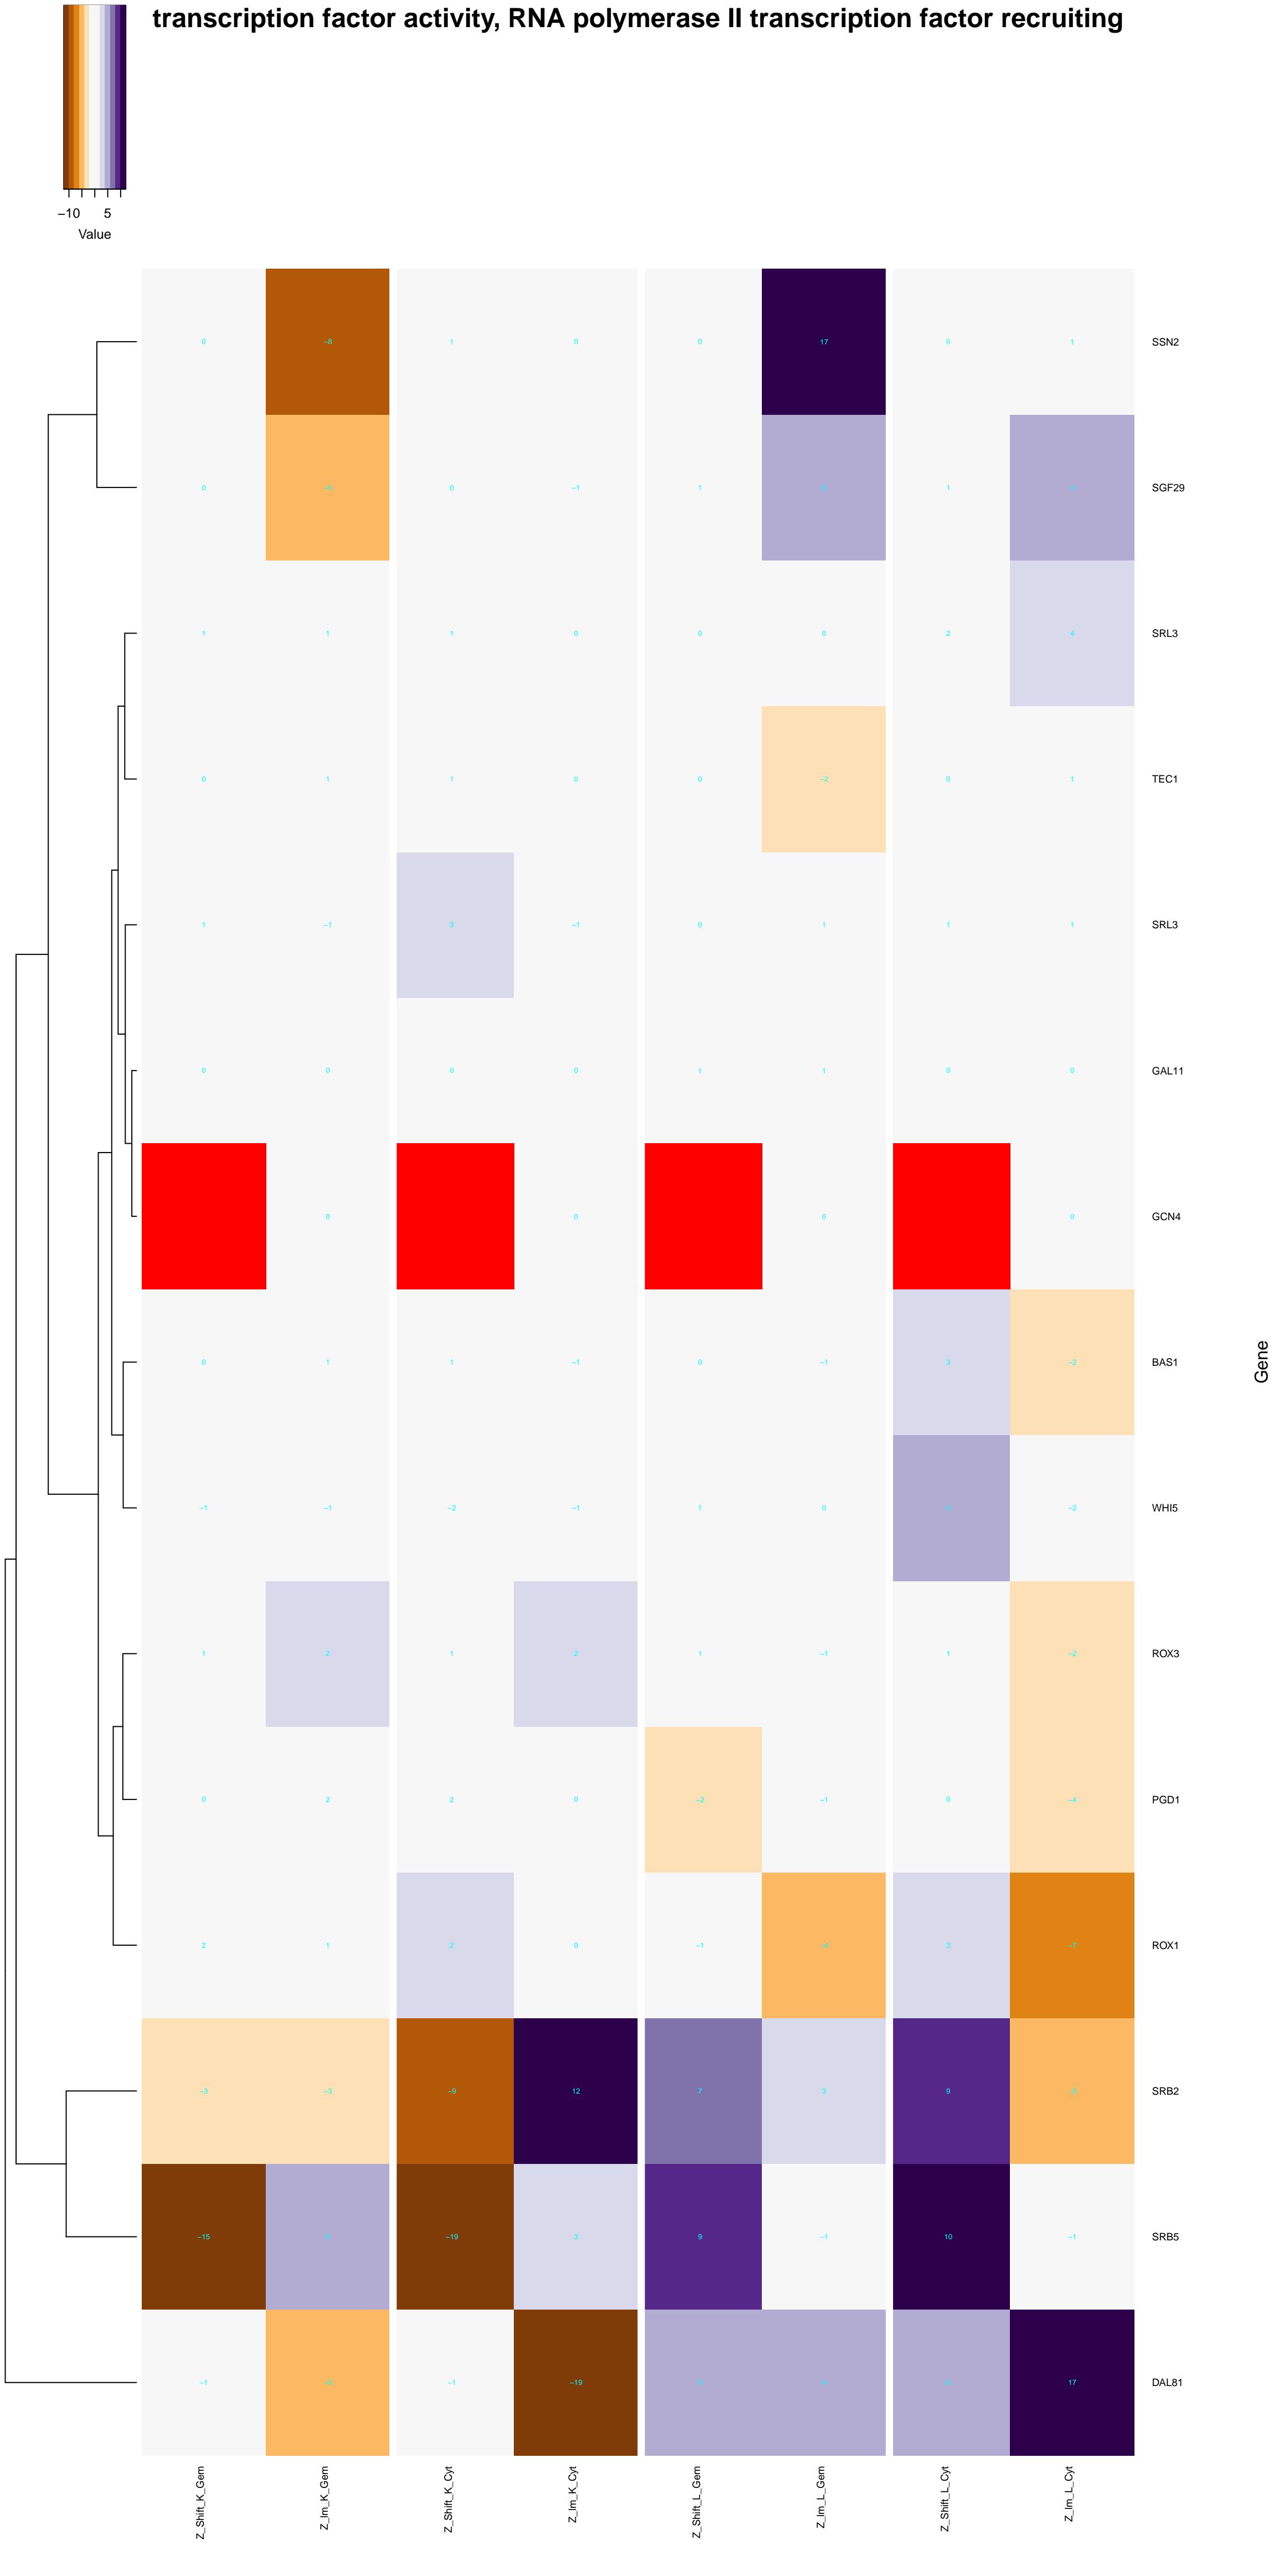

Gene

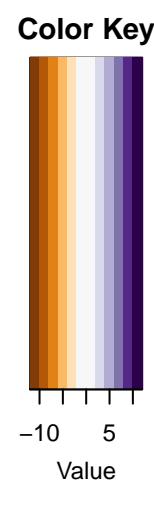

Color Key

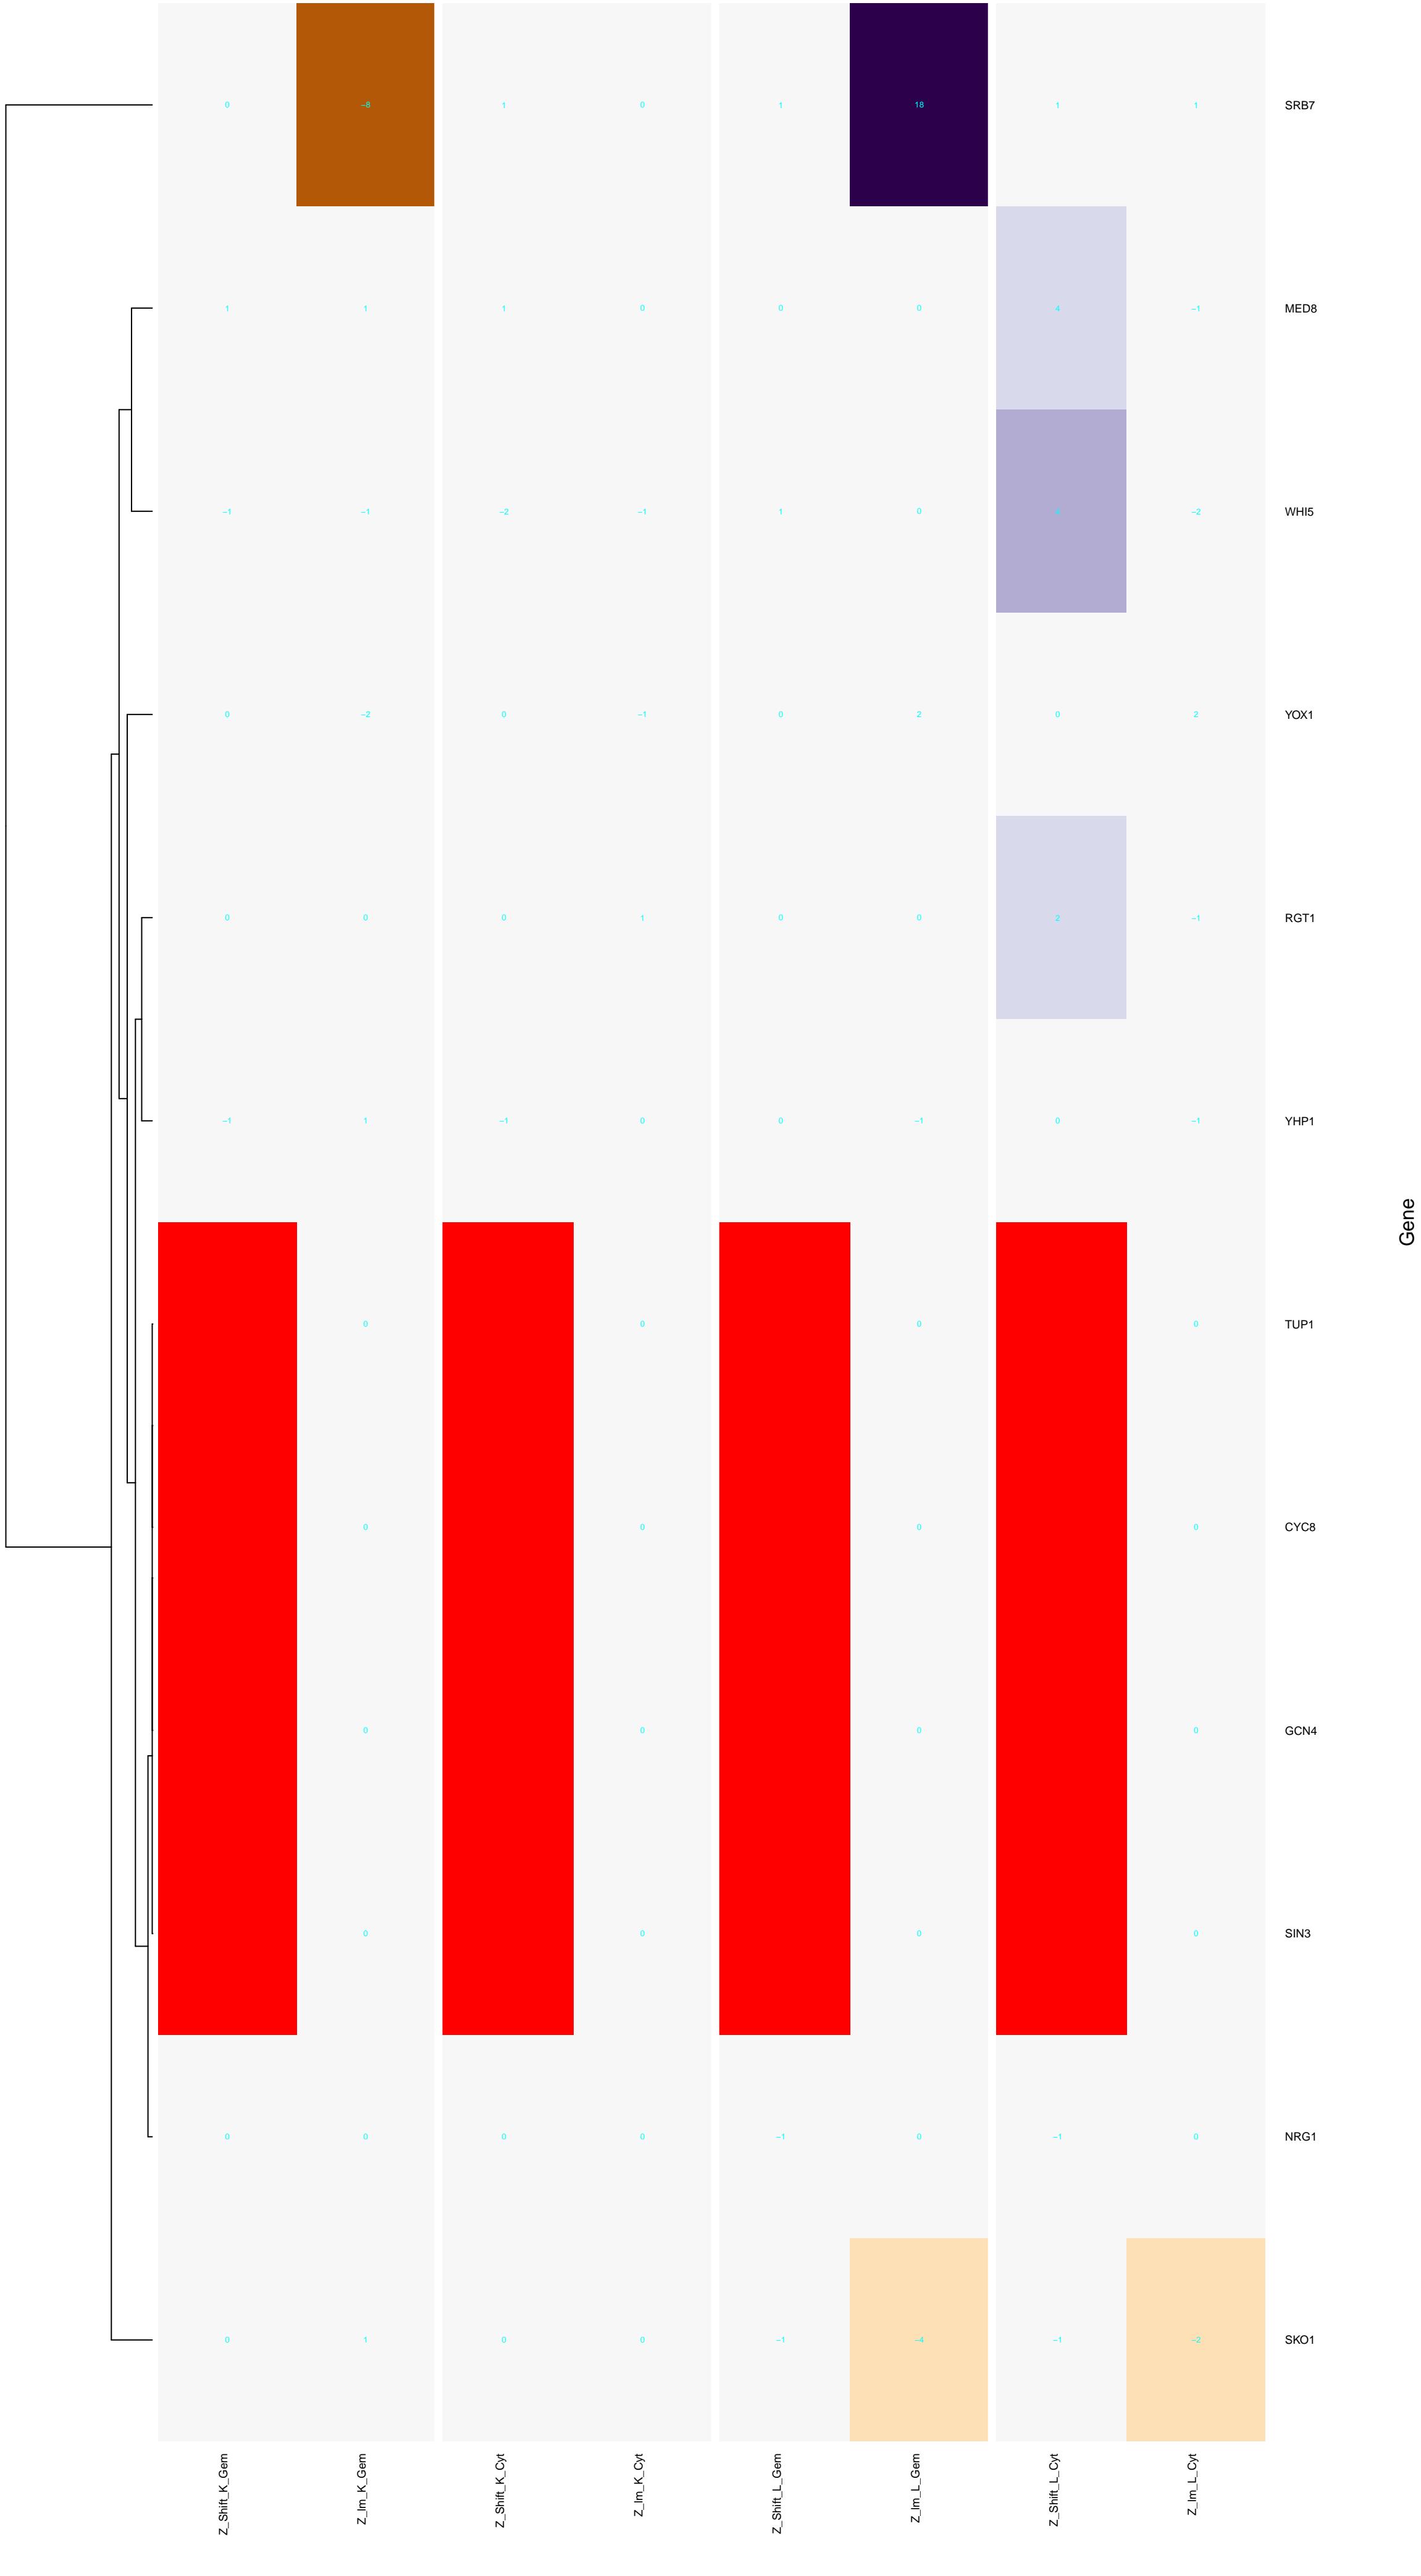

## transcription factor activity, RNA polymerase II transcription factor recruiting

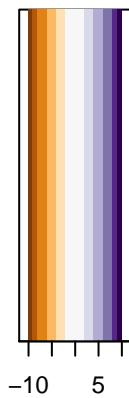

## transcriptional repressor activity, RNA polymerase II transcription factor binding

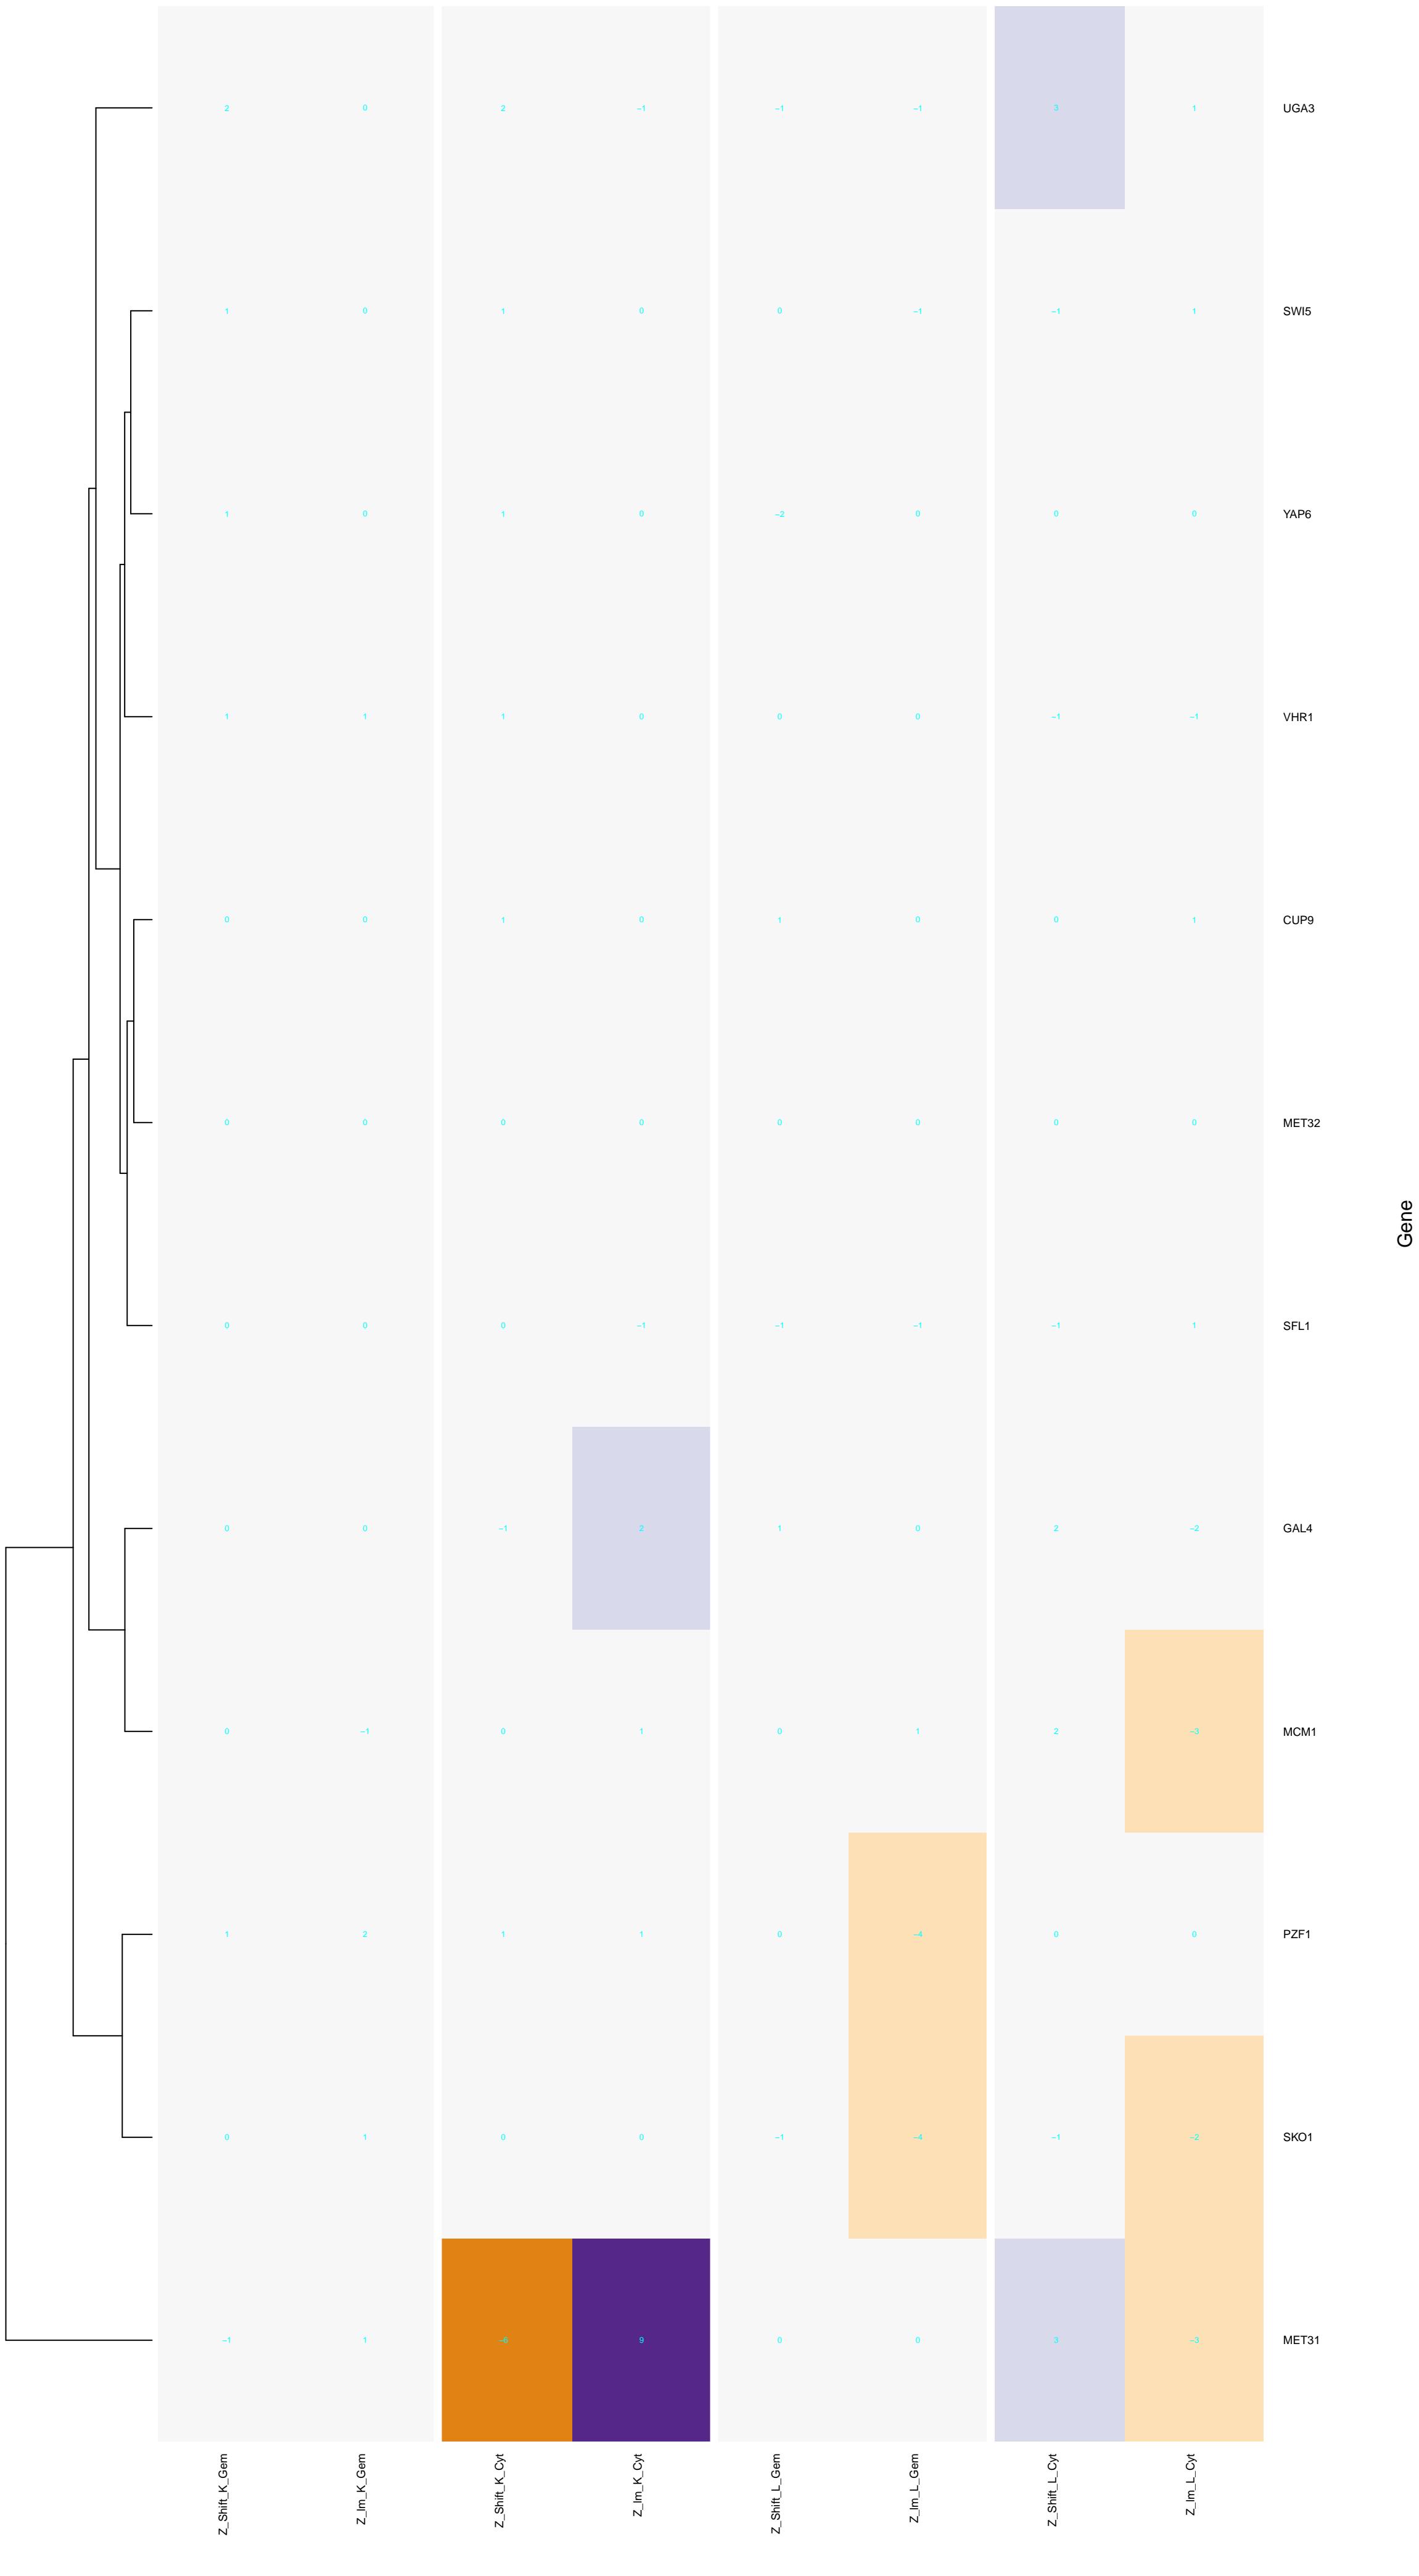

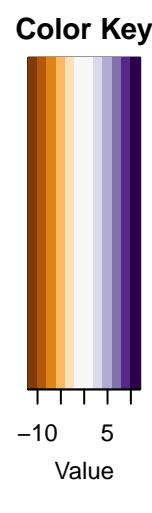

Color Key

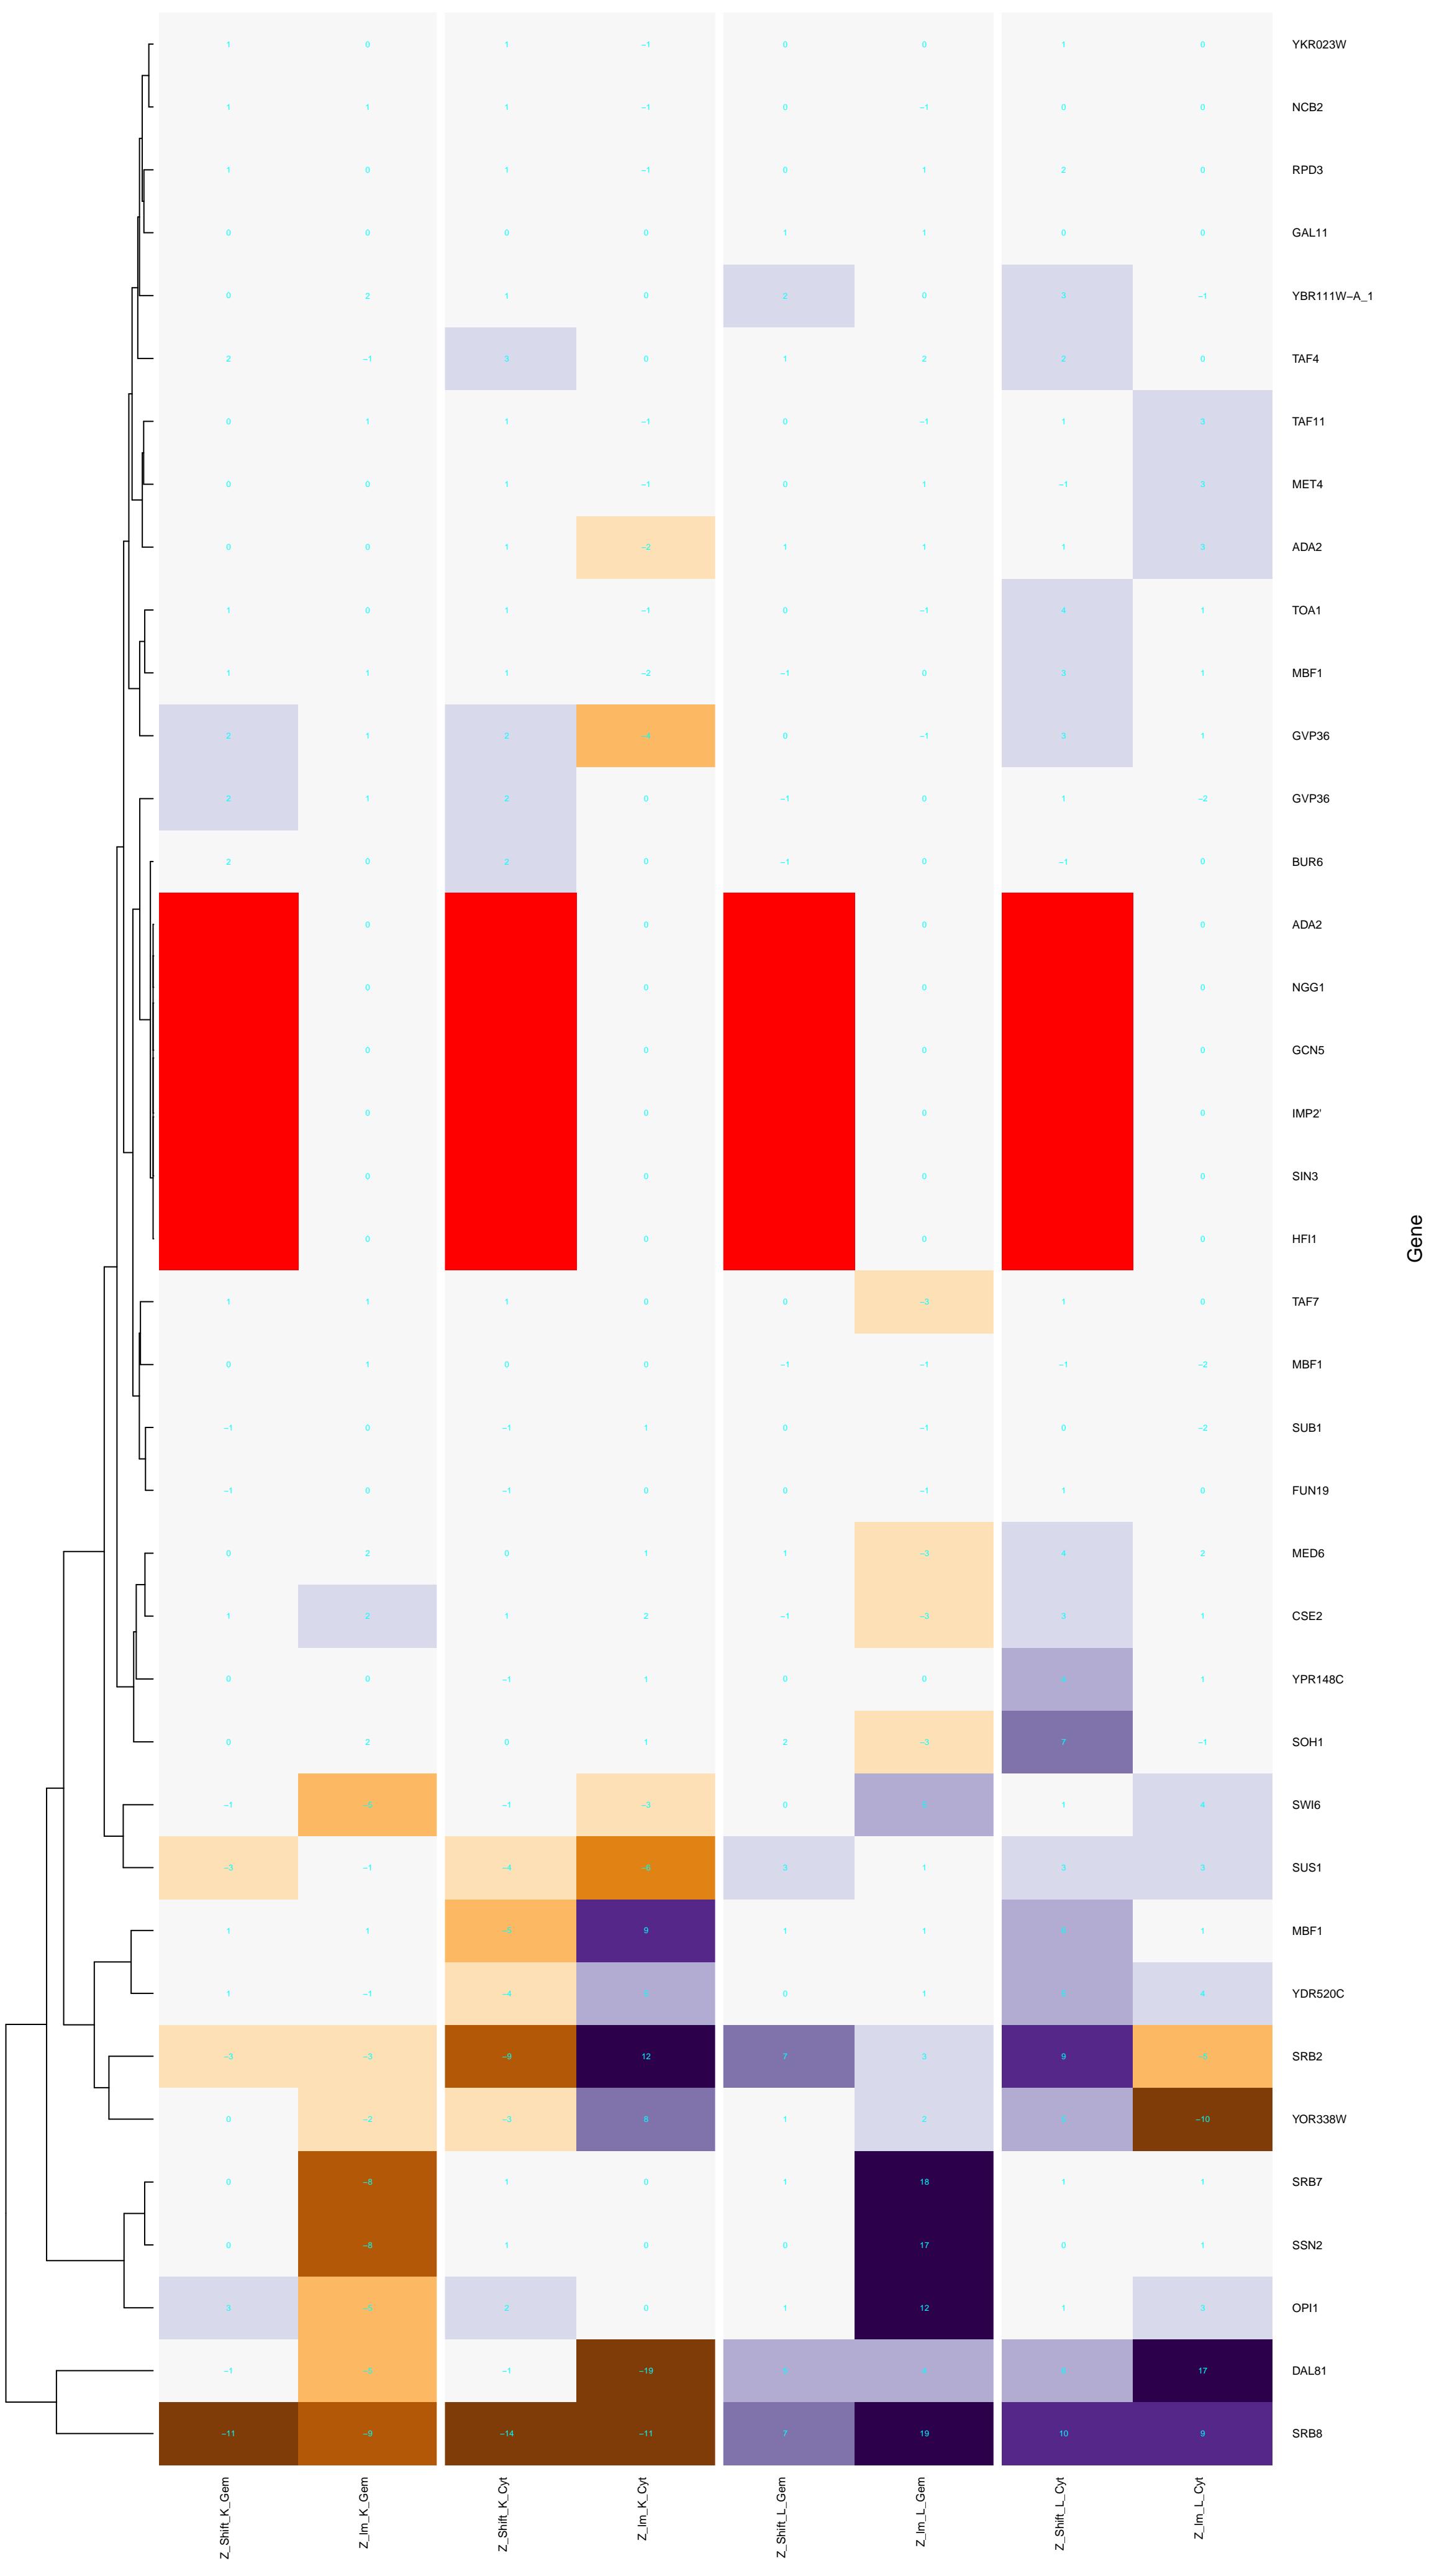

Value

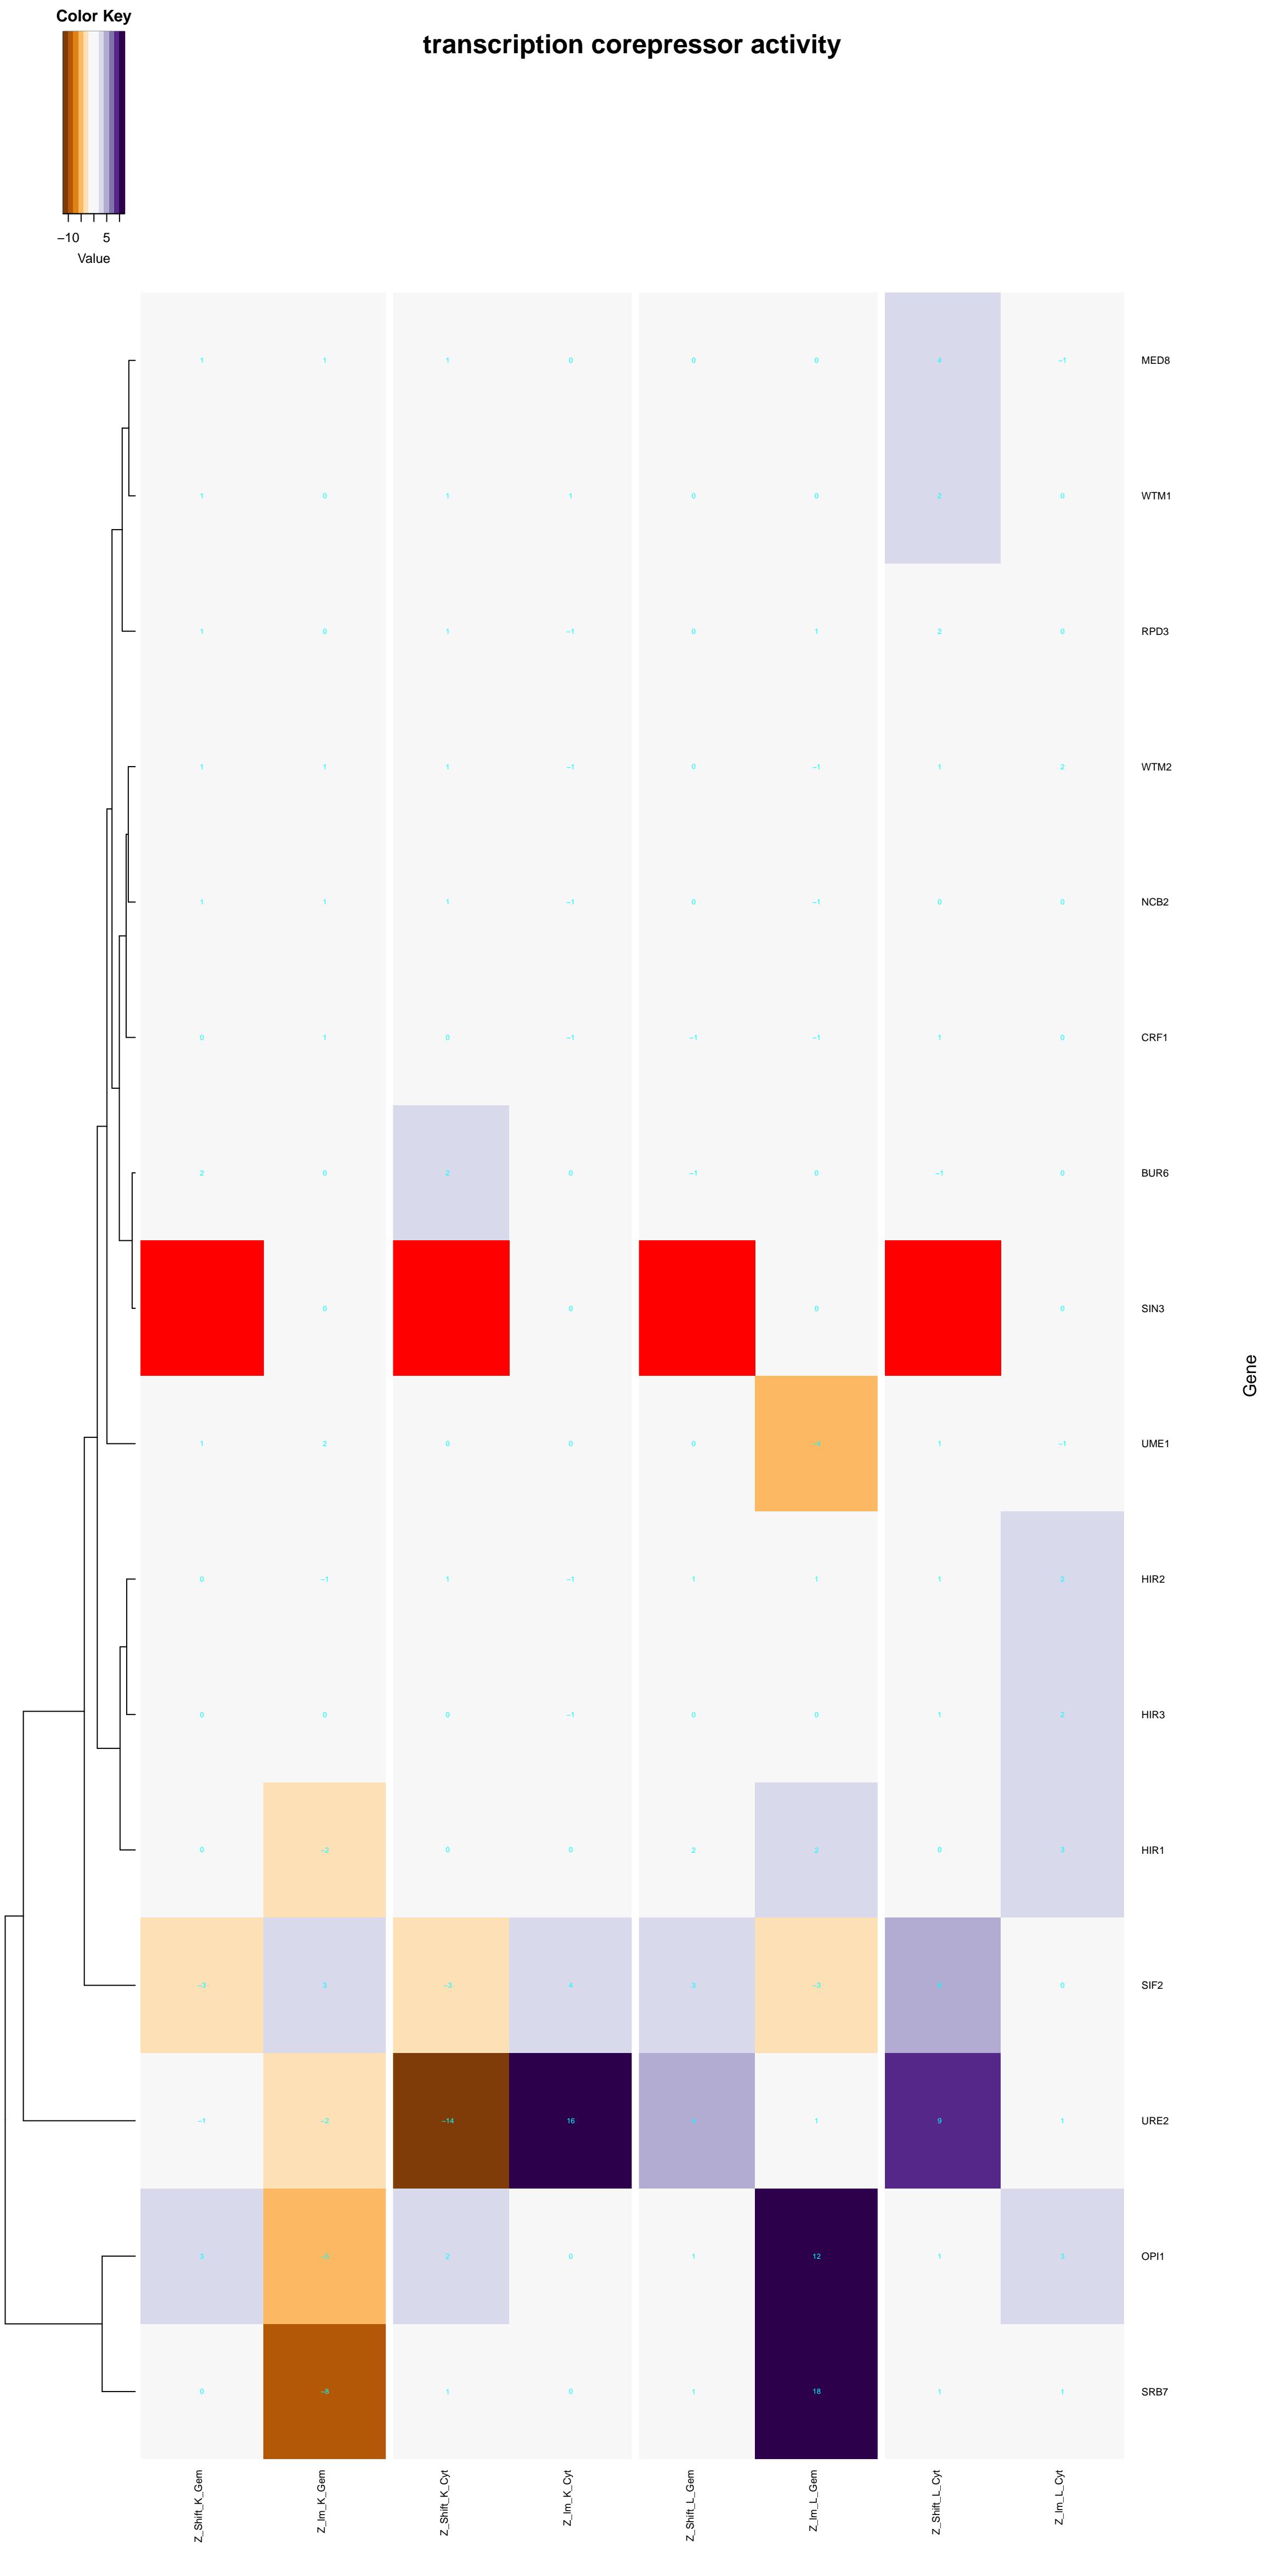

## Transcription factor activity, sequence-specific DNA binding transcription factor recruiting

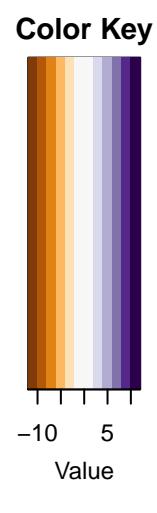

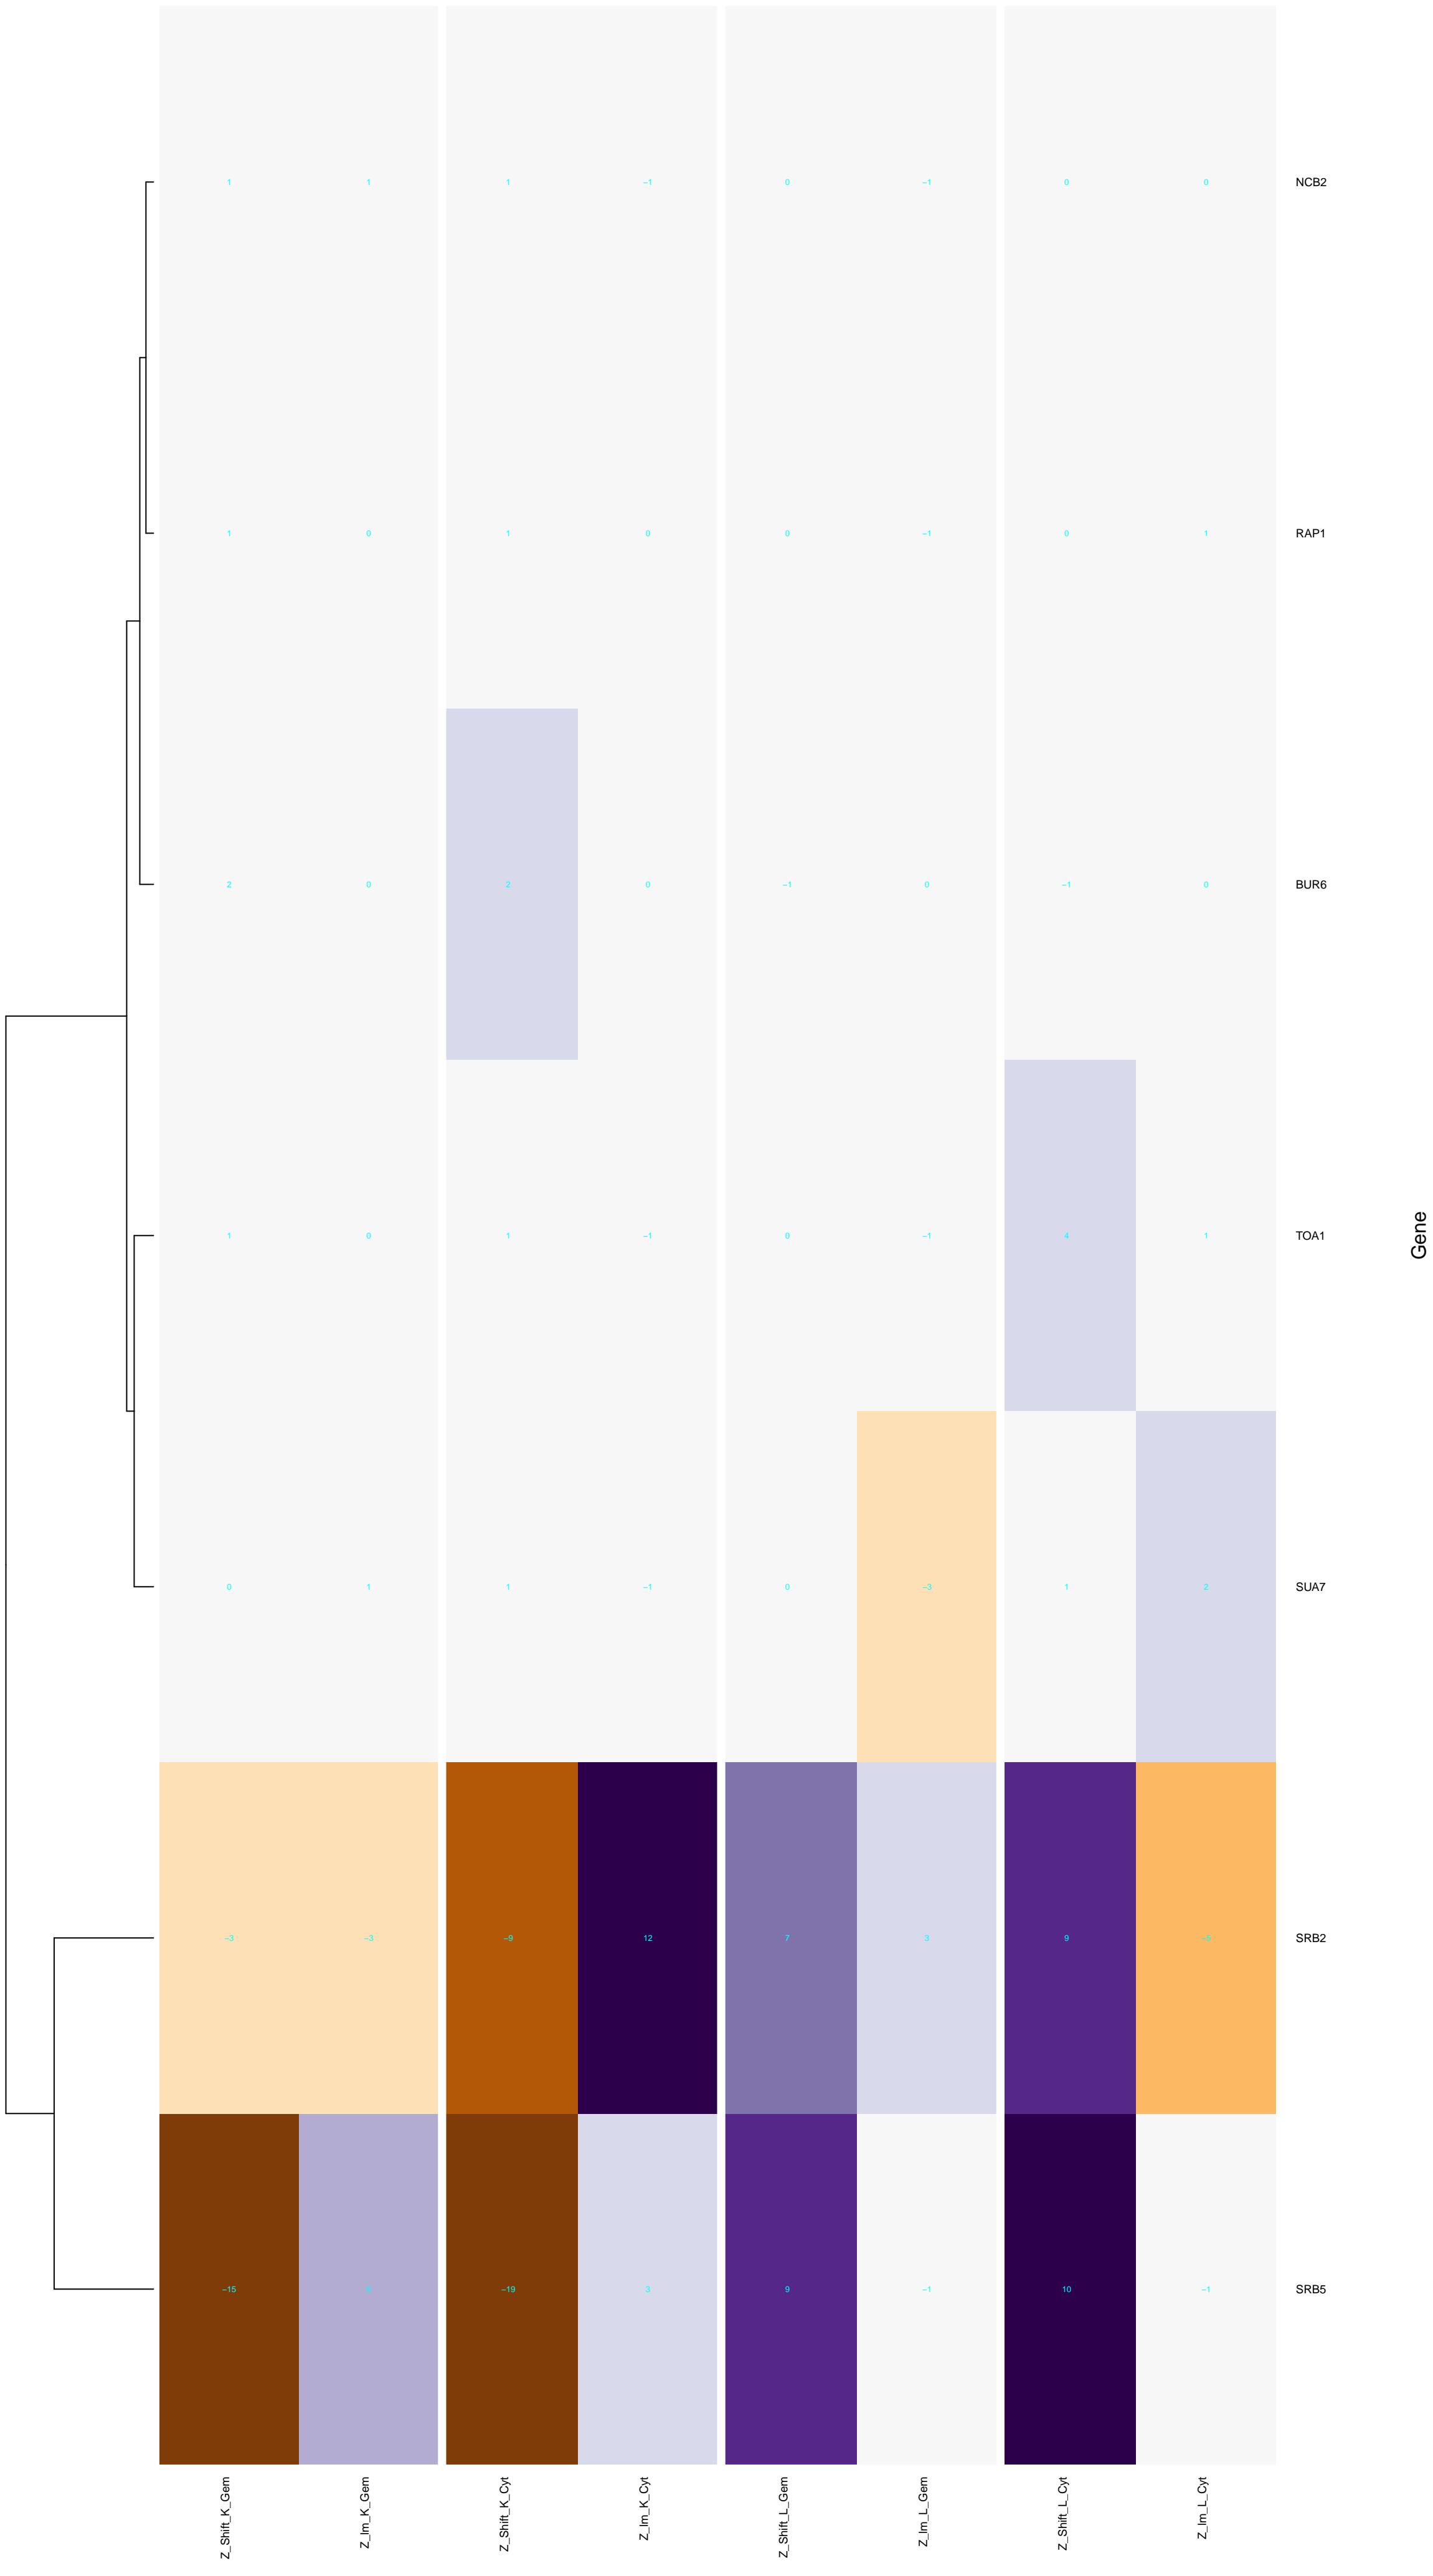

# transcription coactivator activity

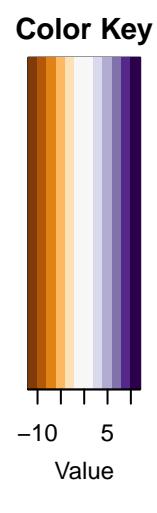

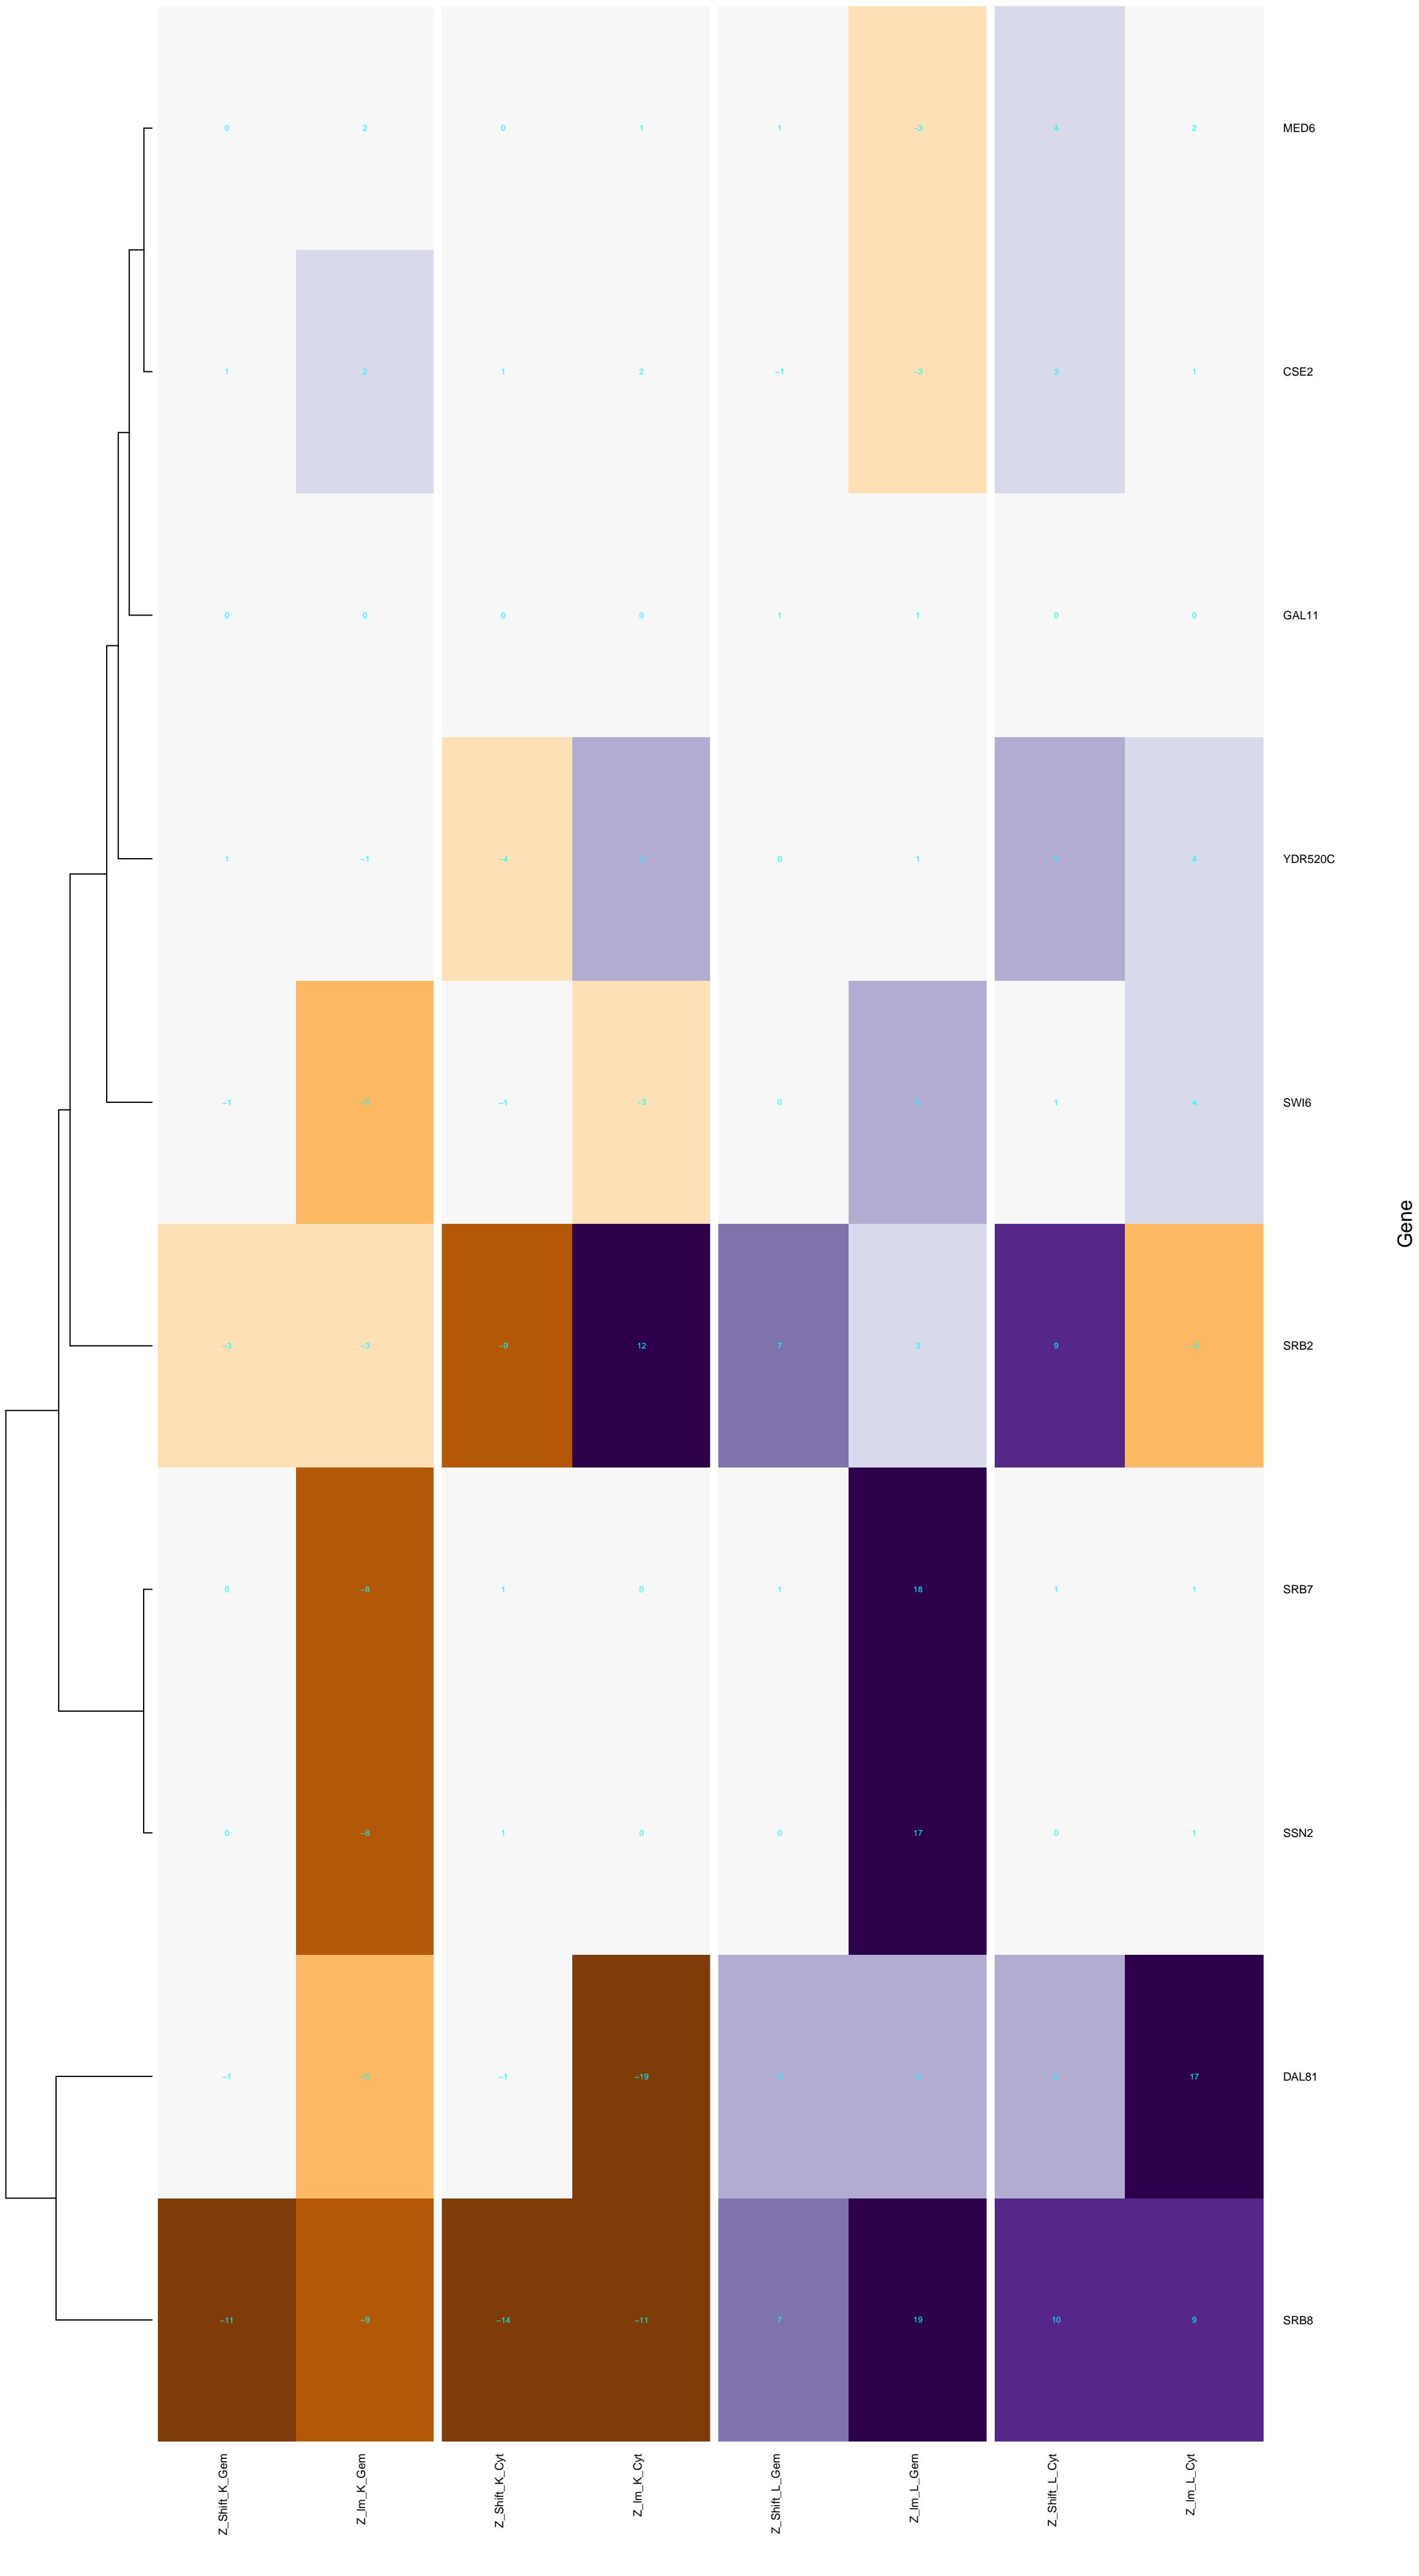

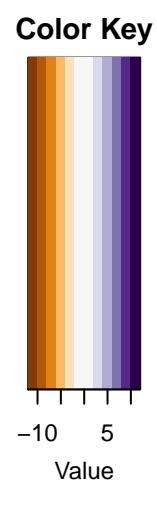

## RNA polymerase II transcription factor activity, TBP–class protein binding

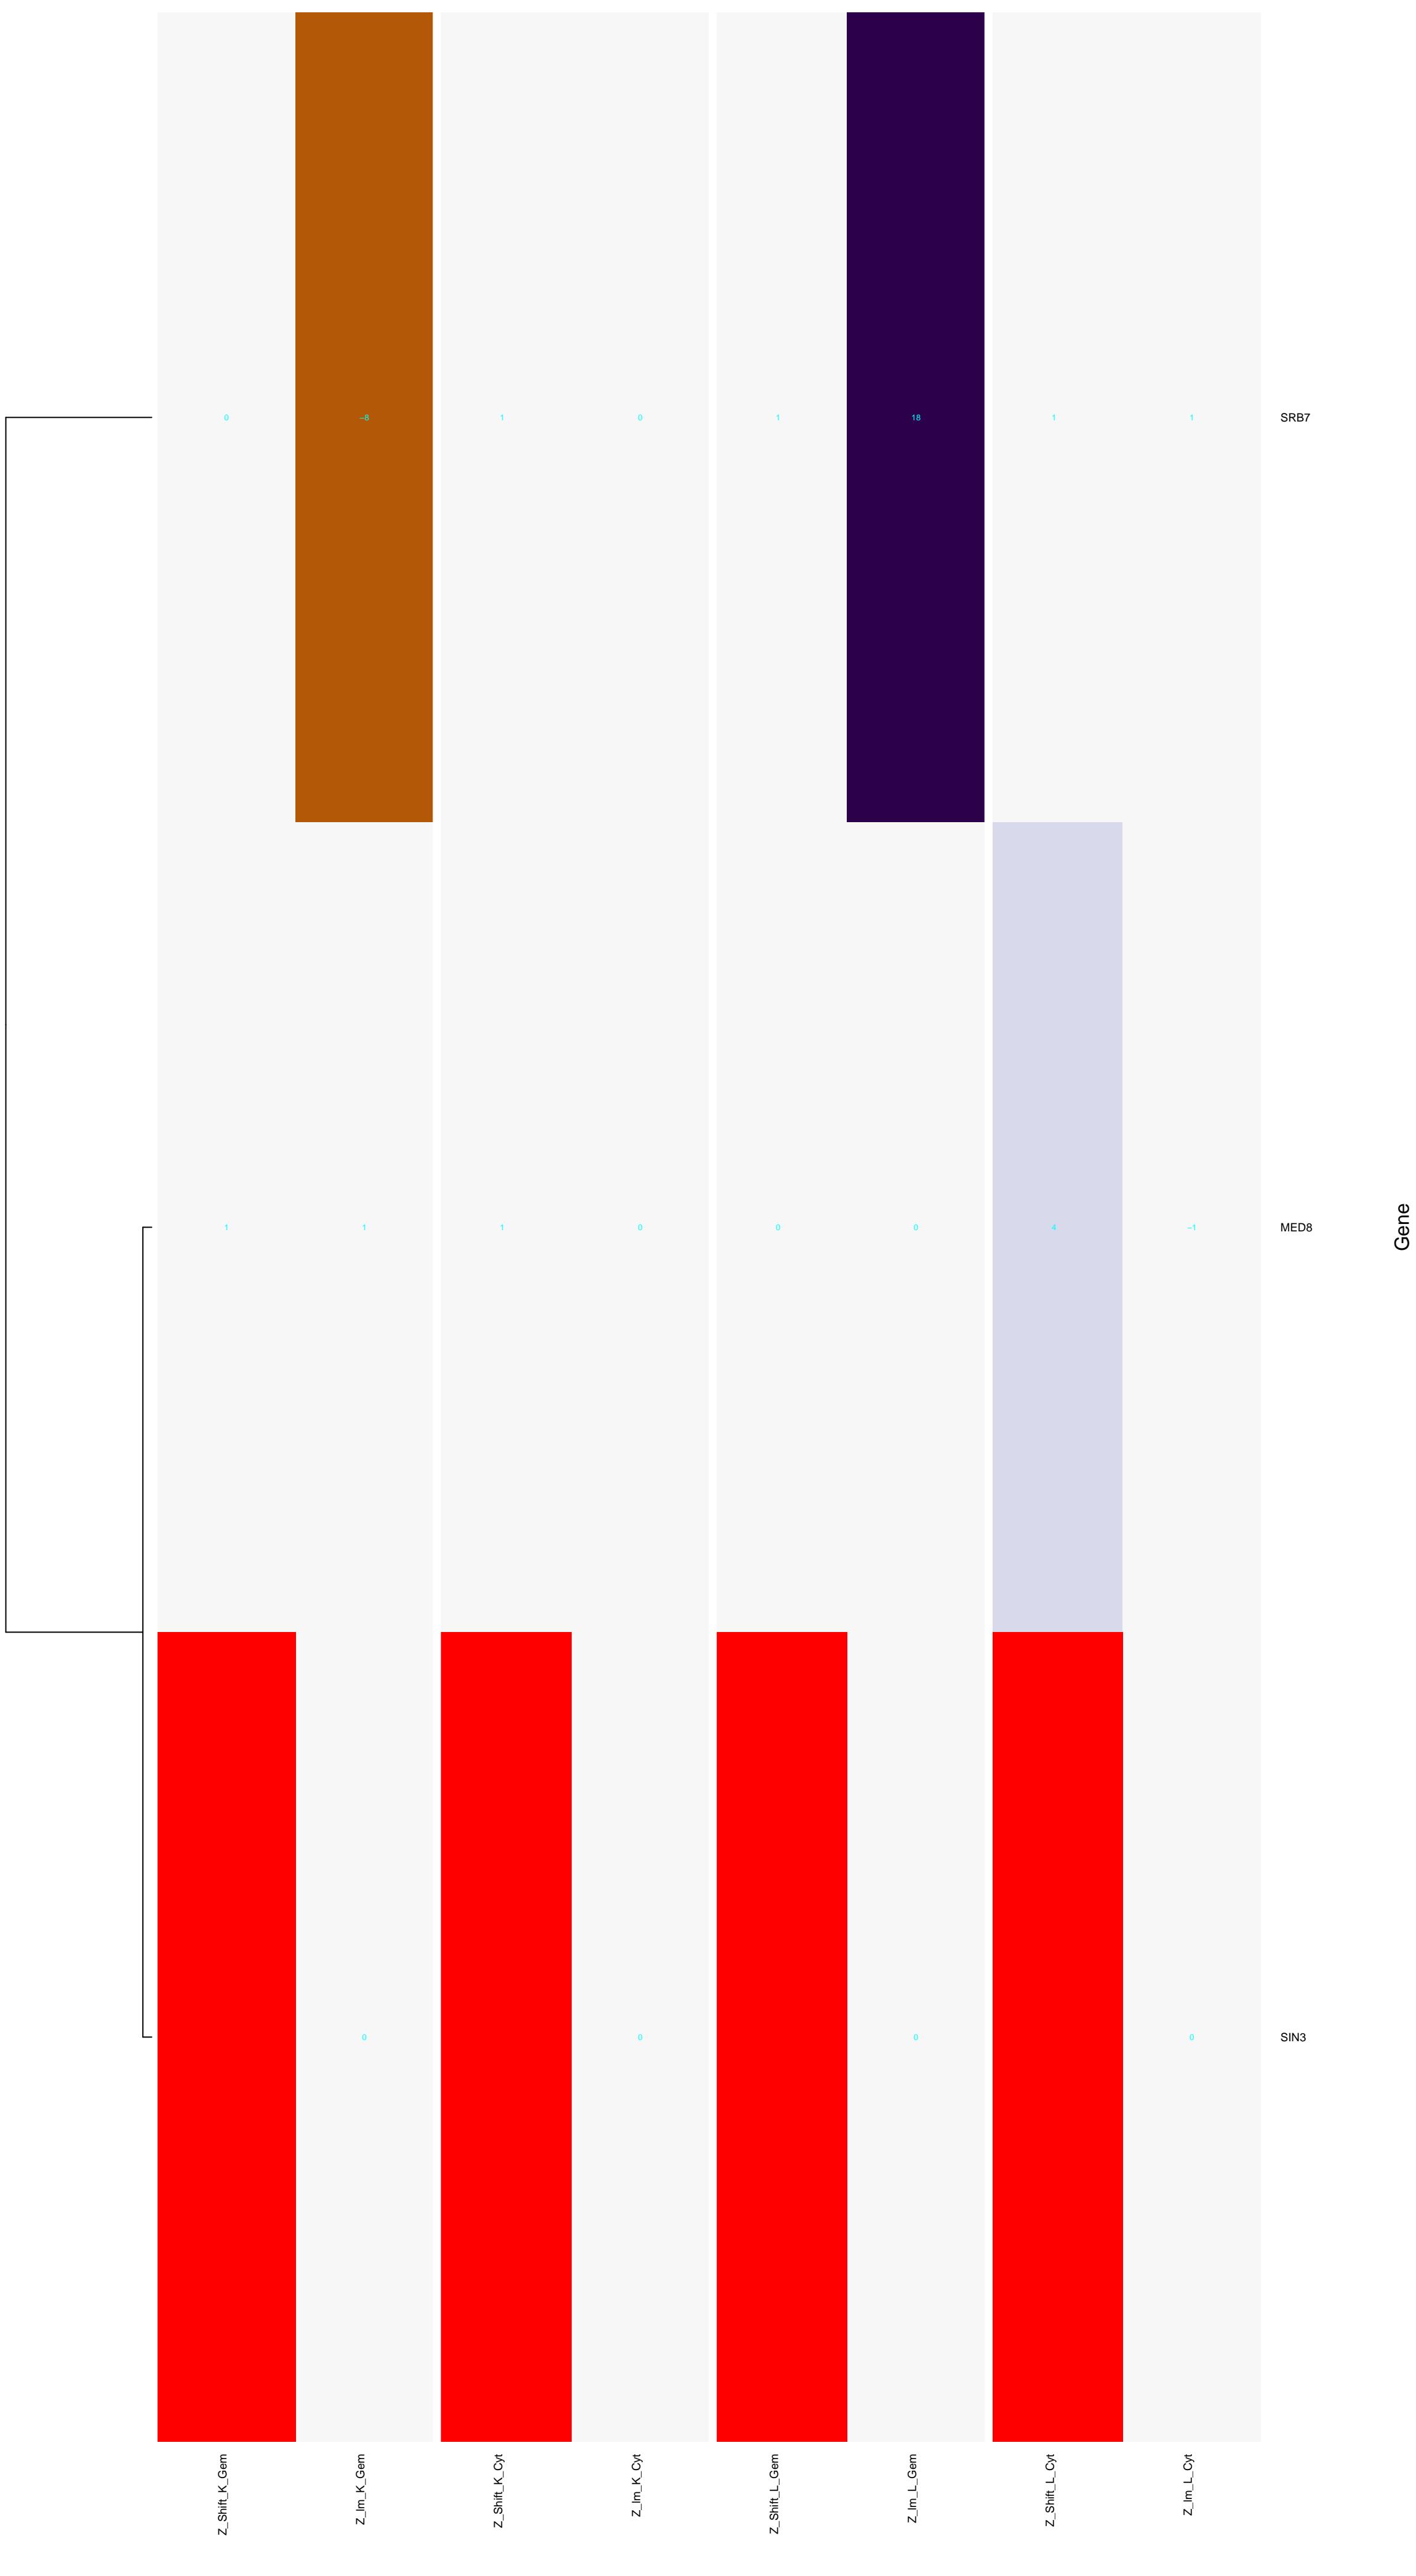

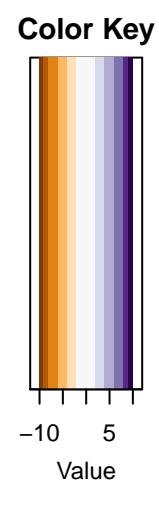

## RNA polymerase II transcription coactivator activity

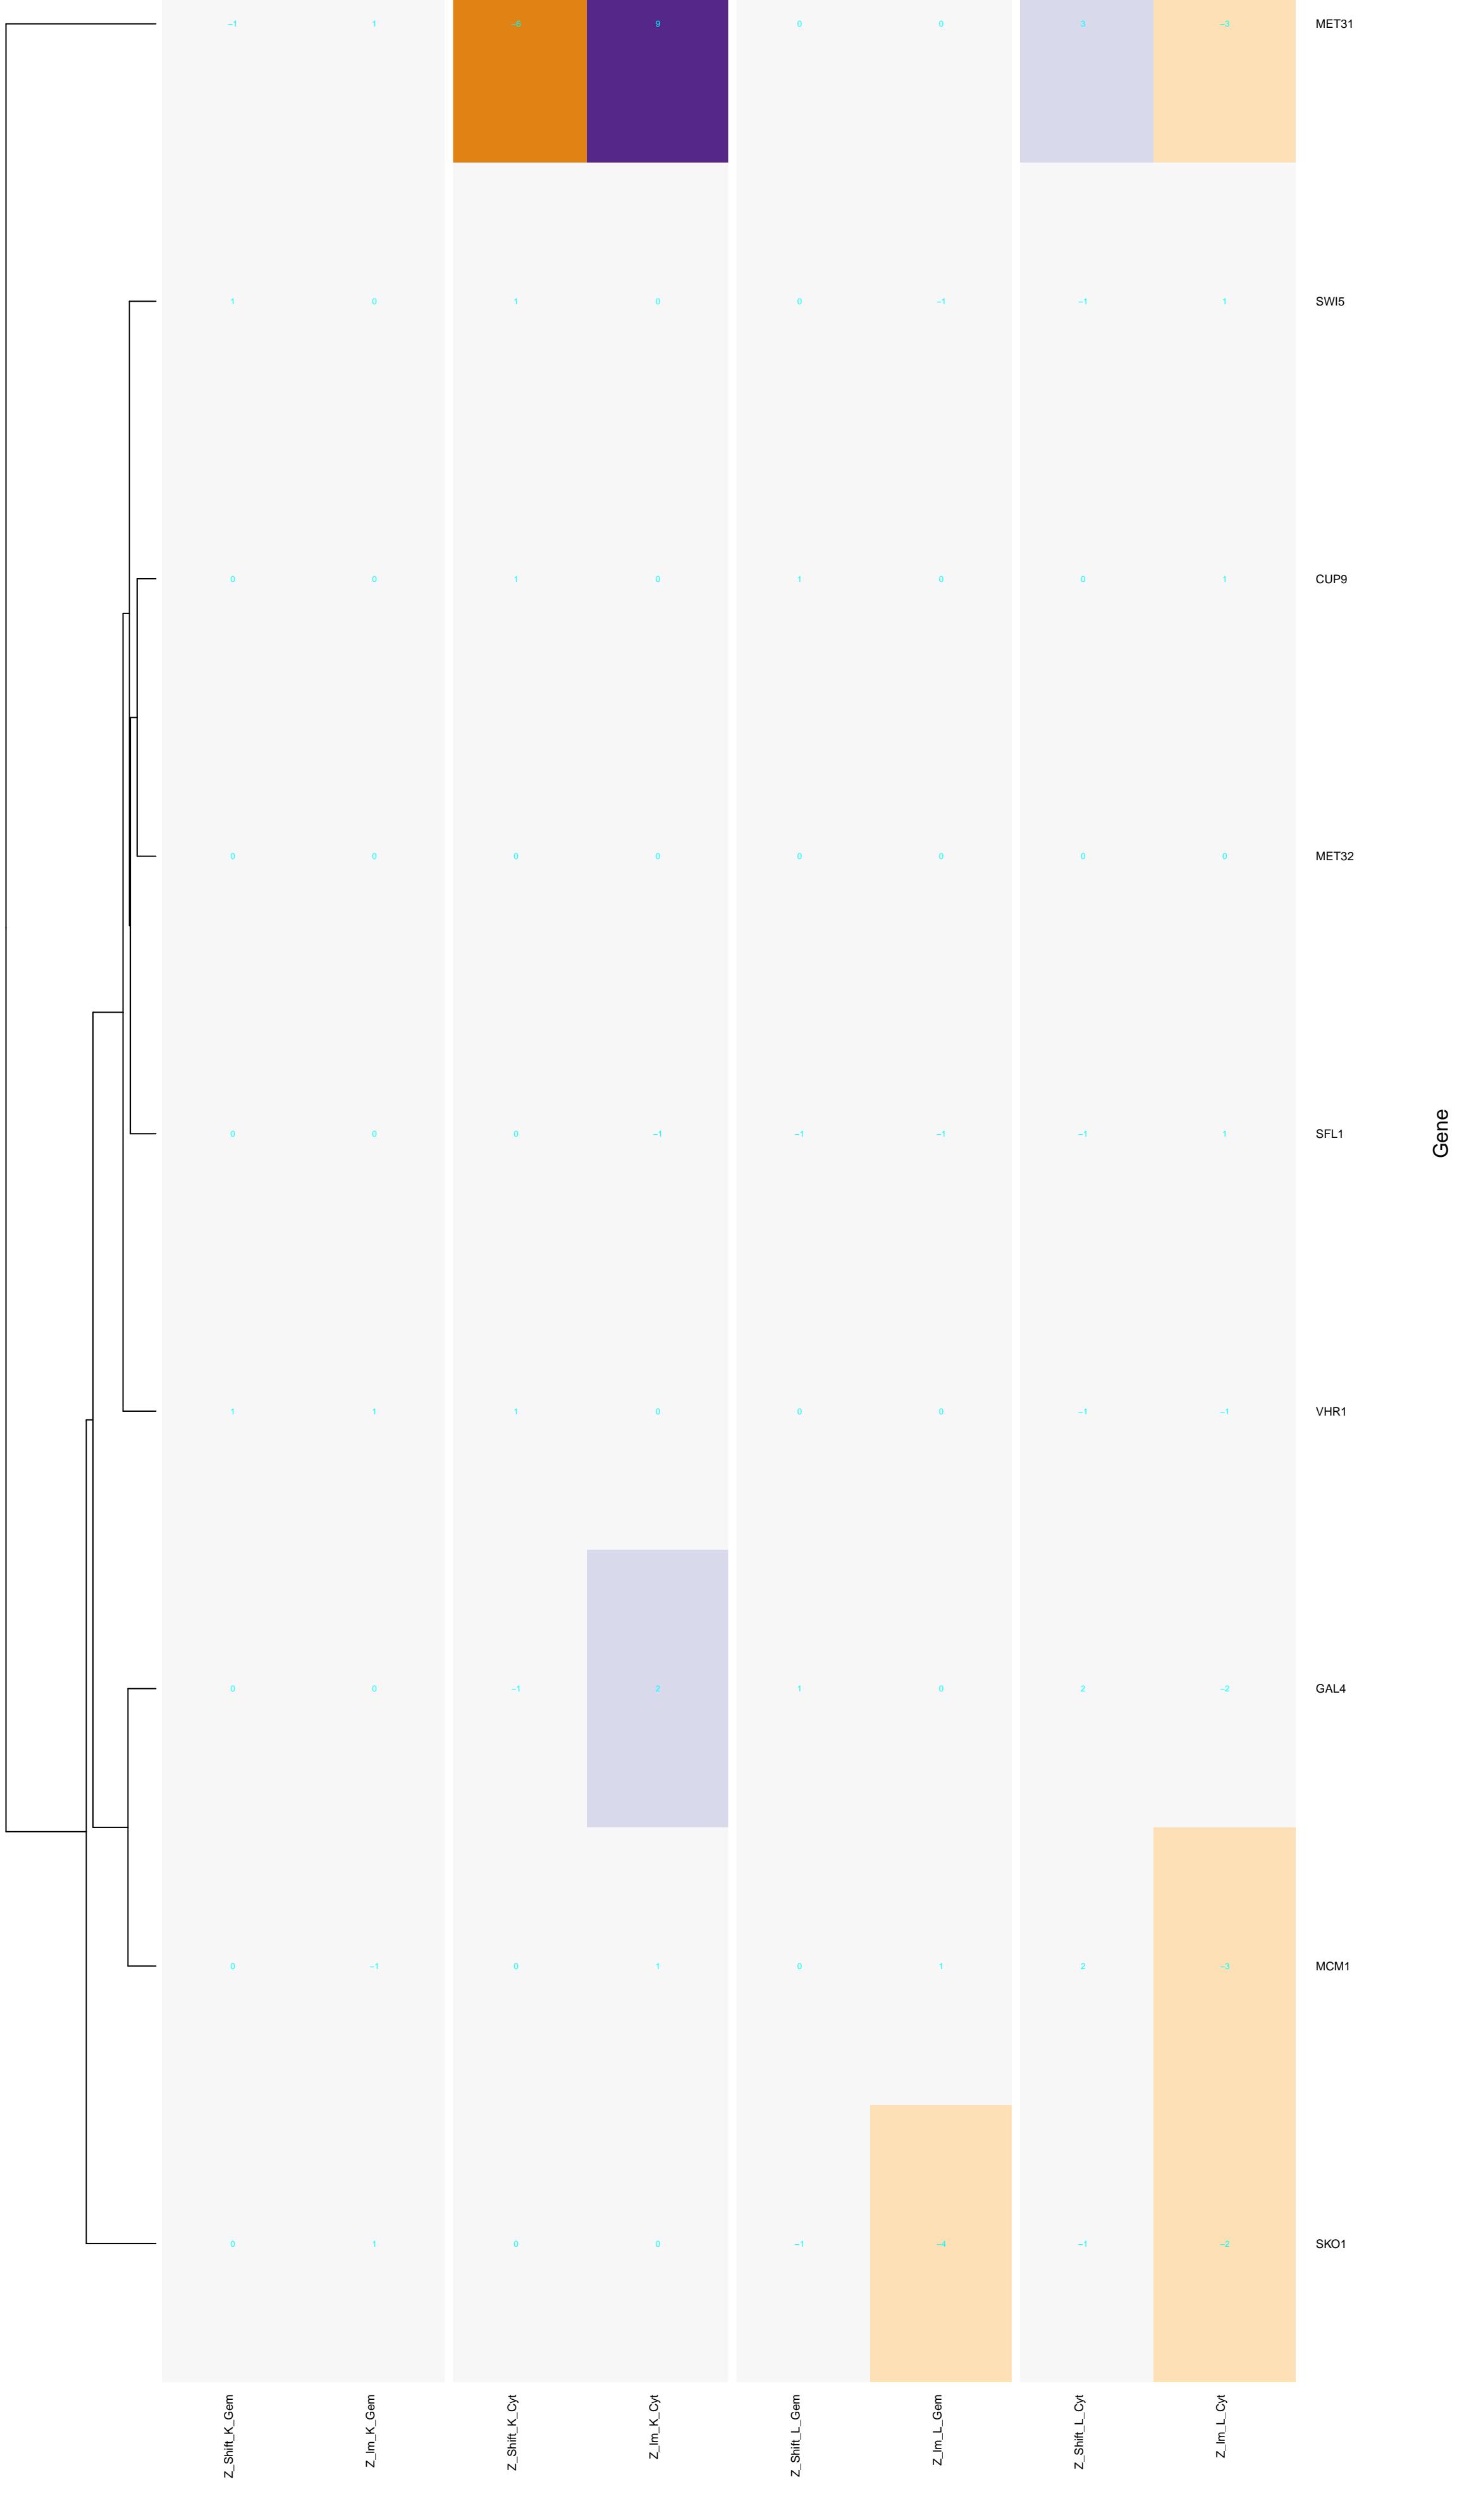

## RNA polymerase II transcription corepressor activity

## $\sigma$ II transcription factor activity, sequence-specific transcription regulatory region DNA binding

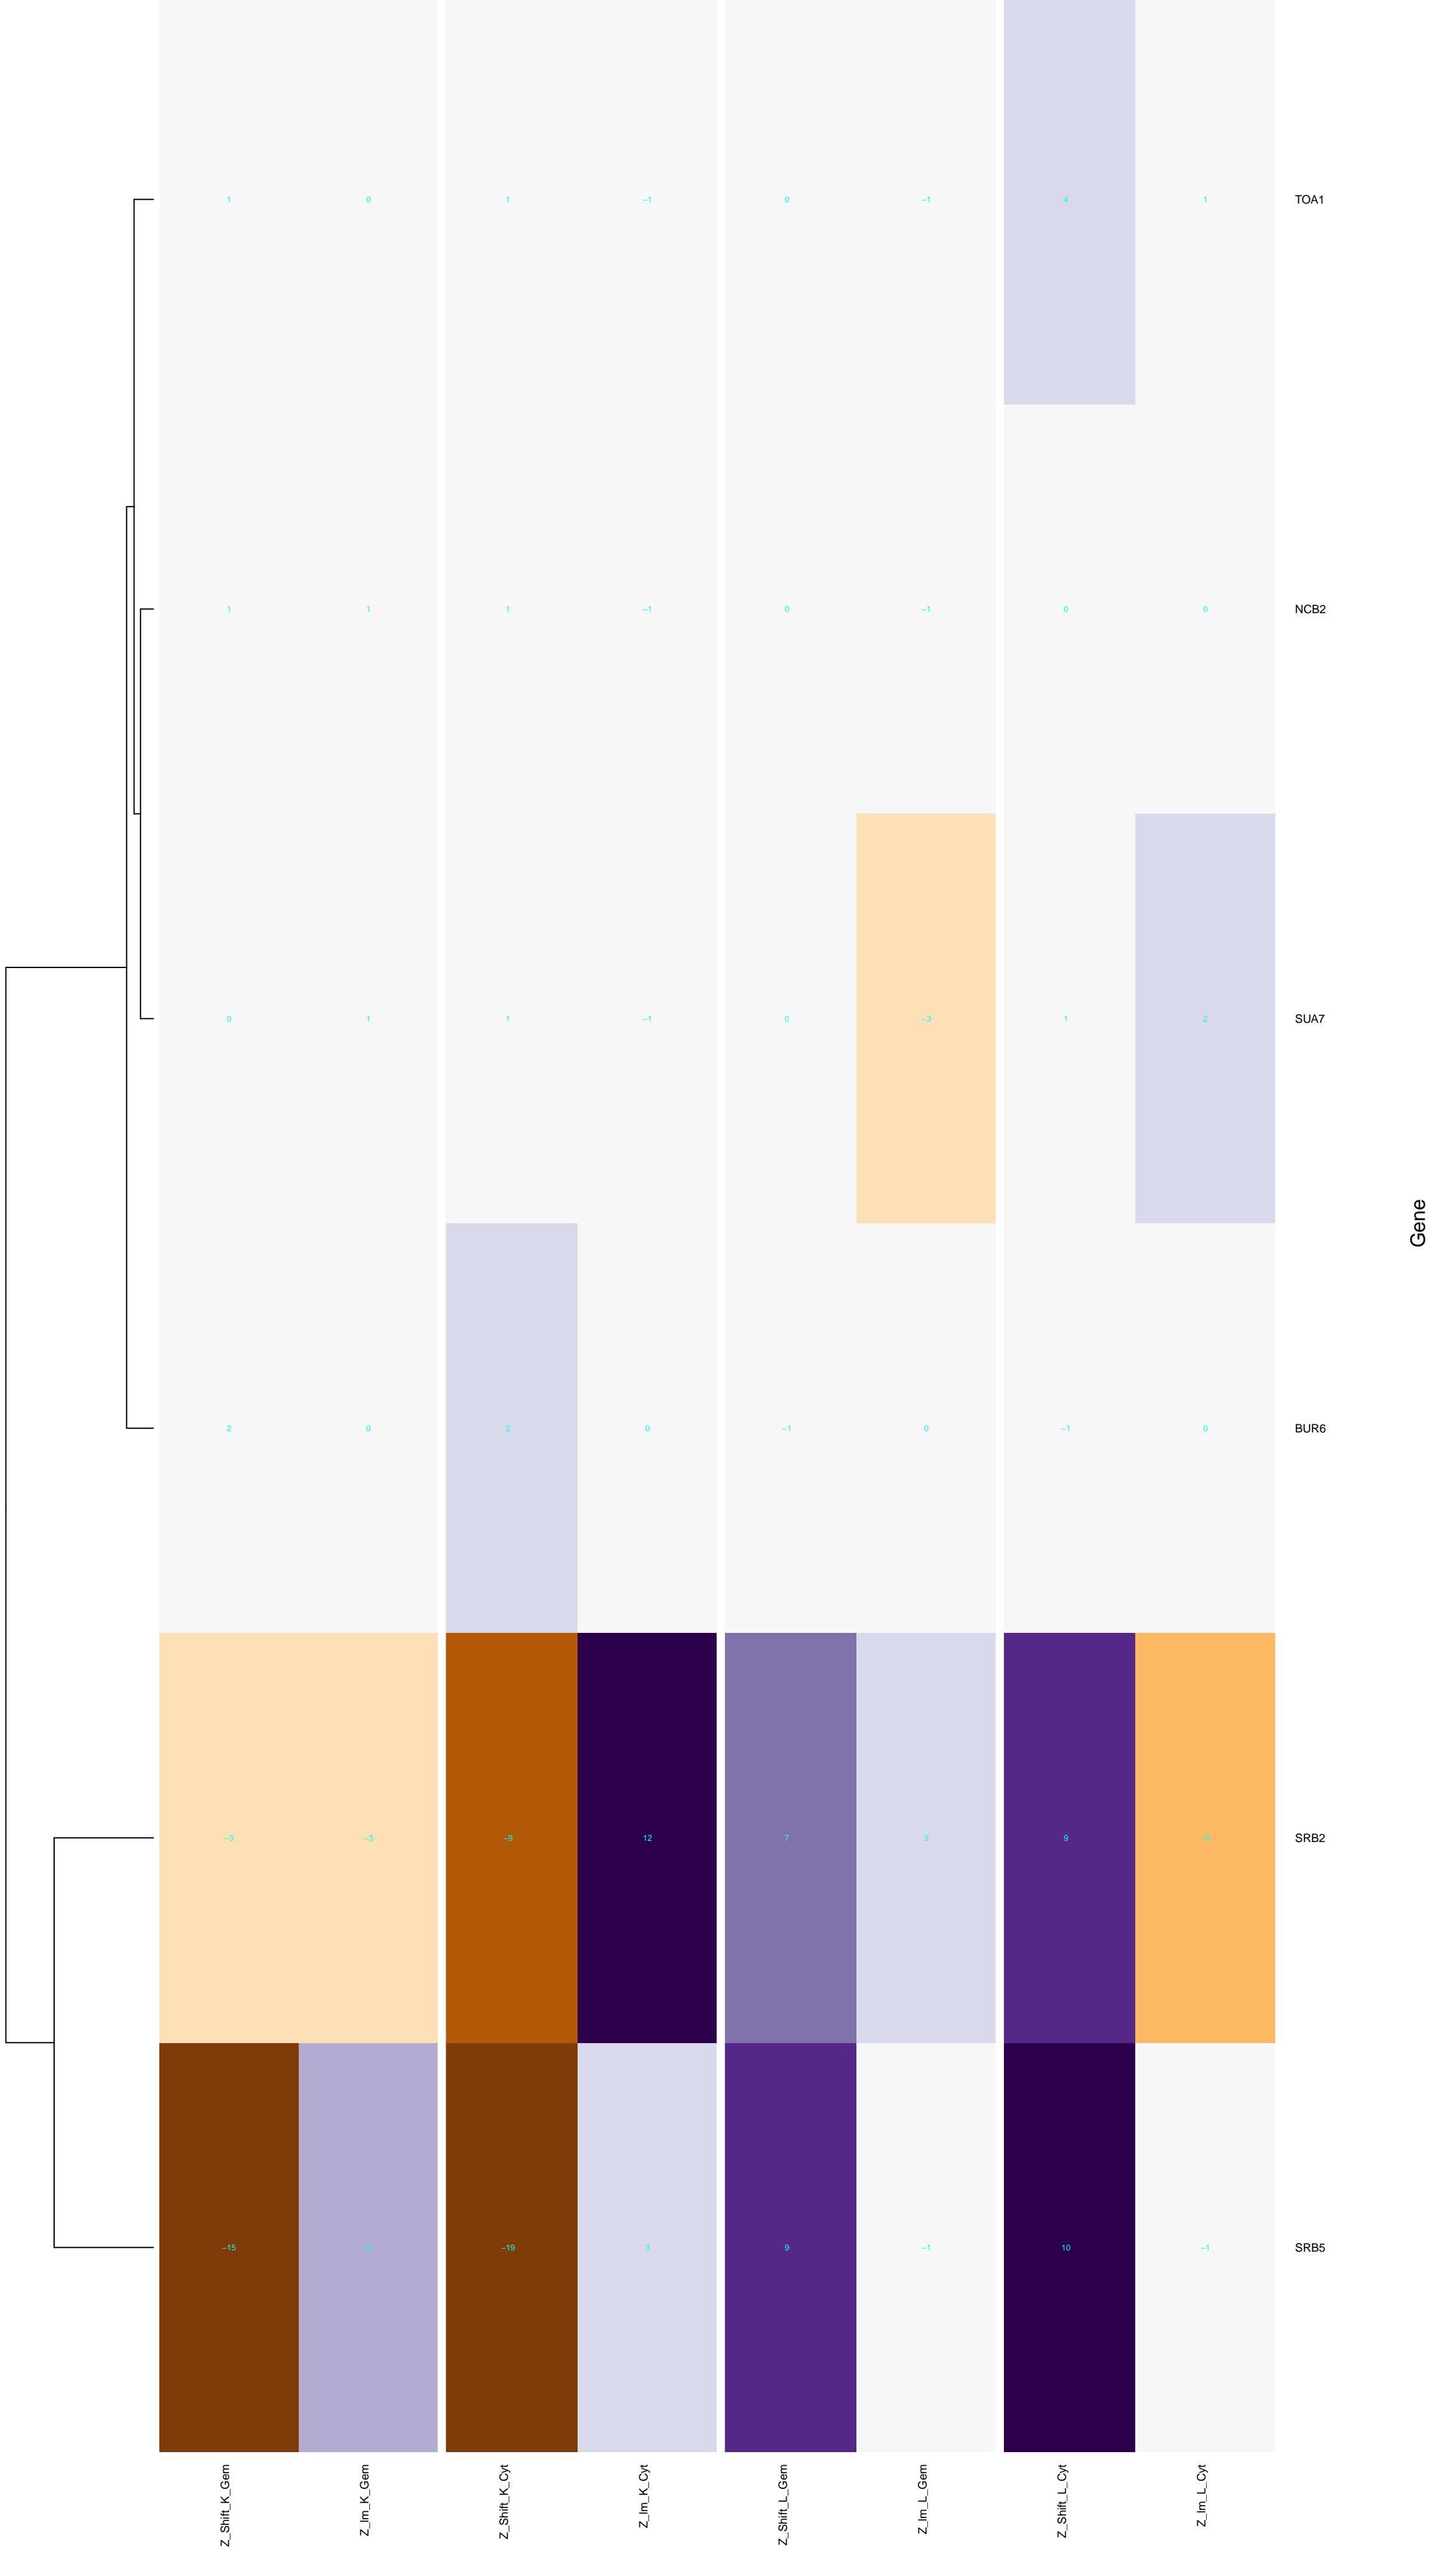

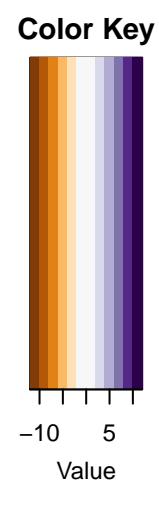

Color Key

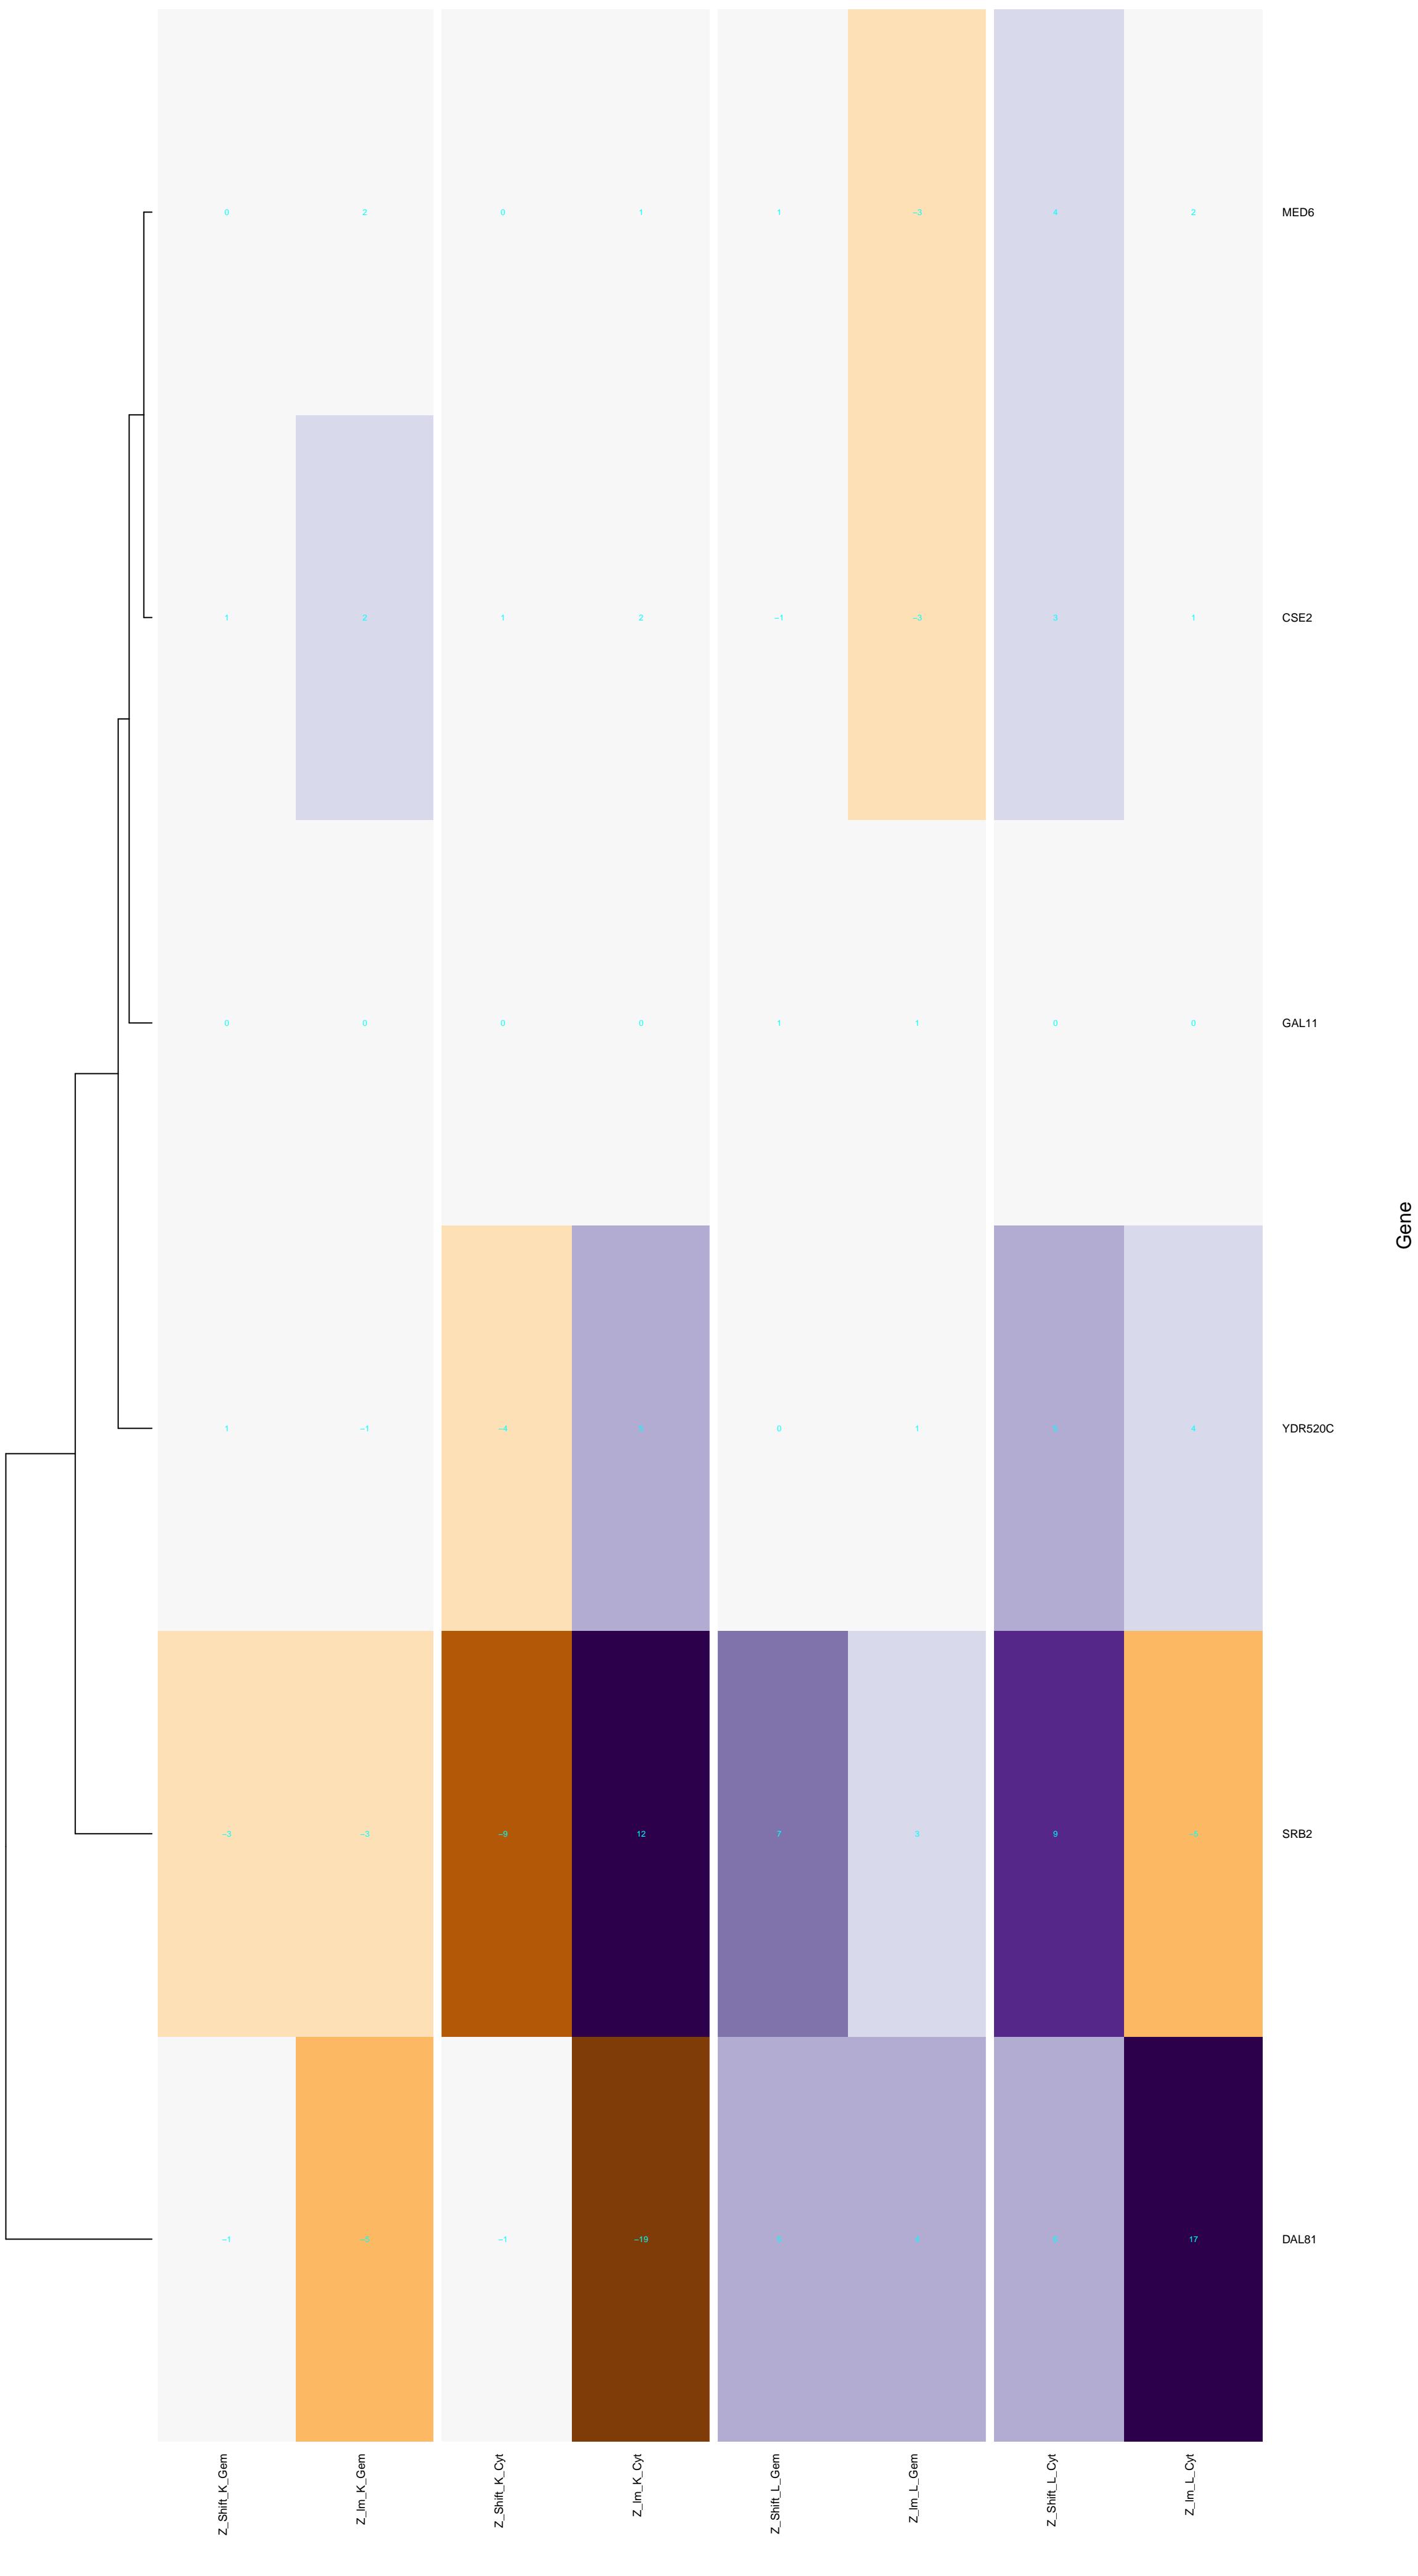

transcription factor activity, TBP–class protein binding, involved in preinitiation complex a

Value

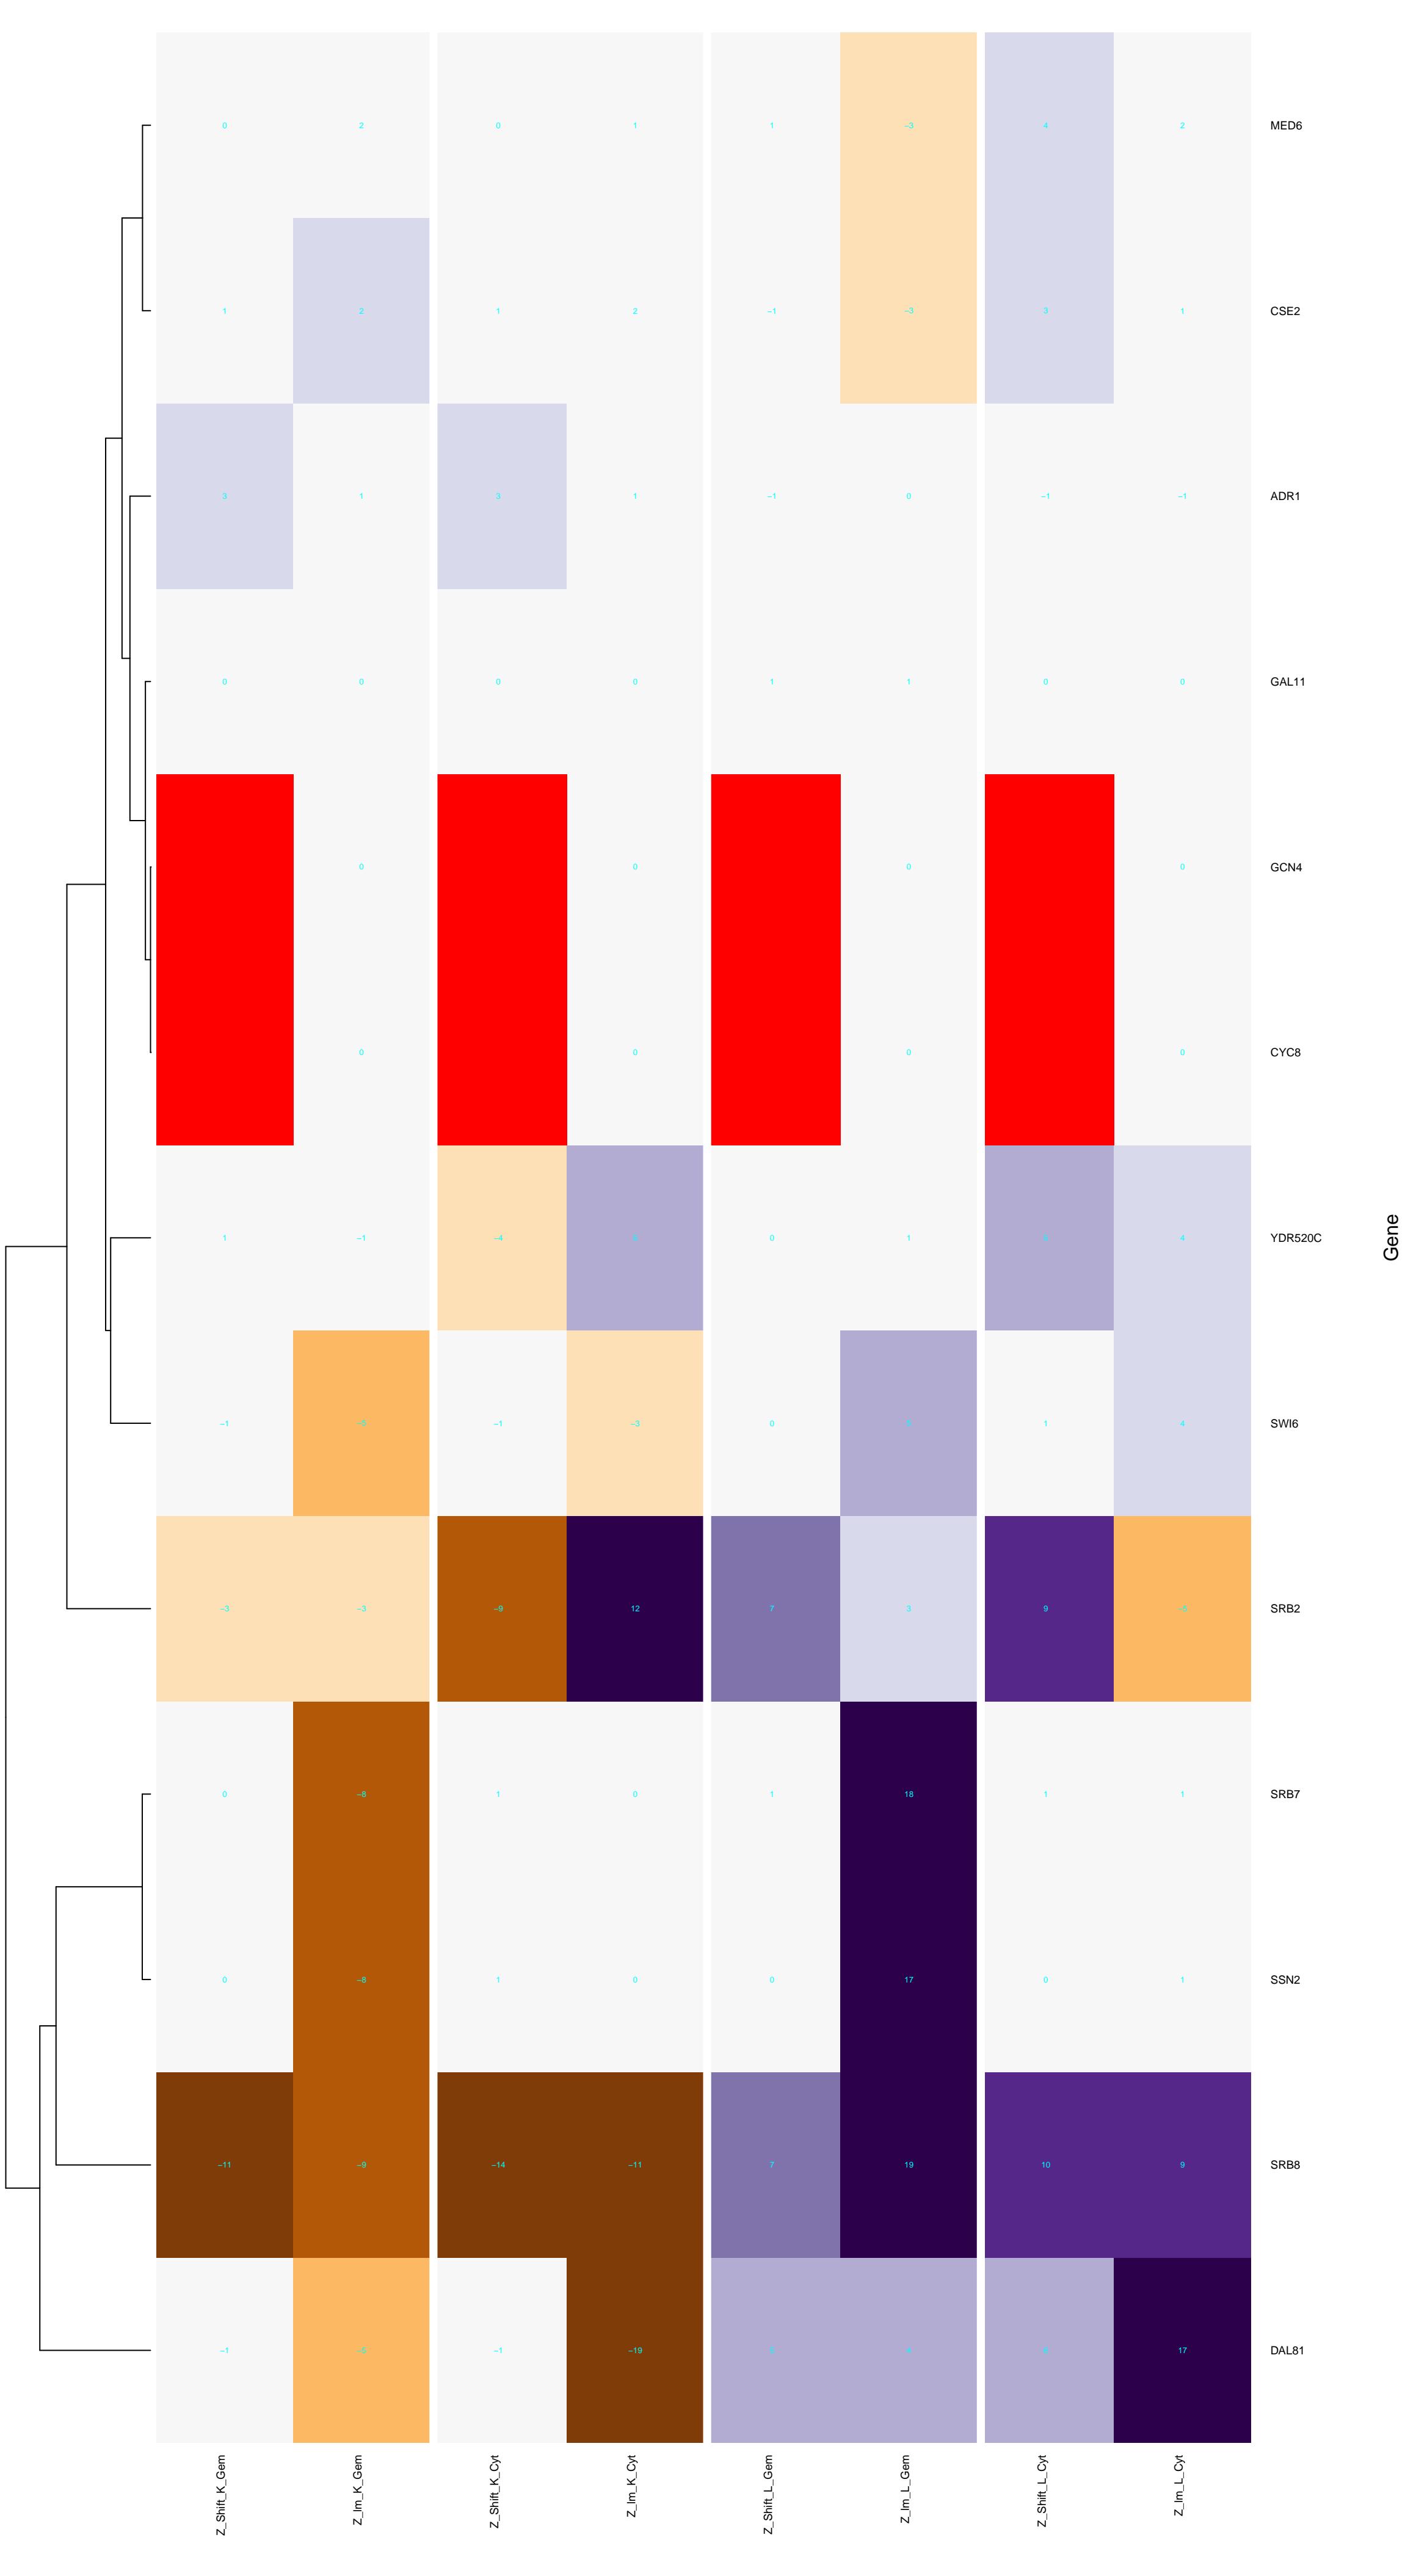

# Symerase II transcription coactivator activity involved in preinitiation complex assembly

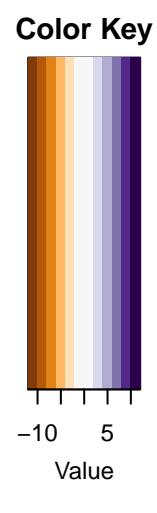

Color Key

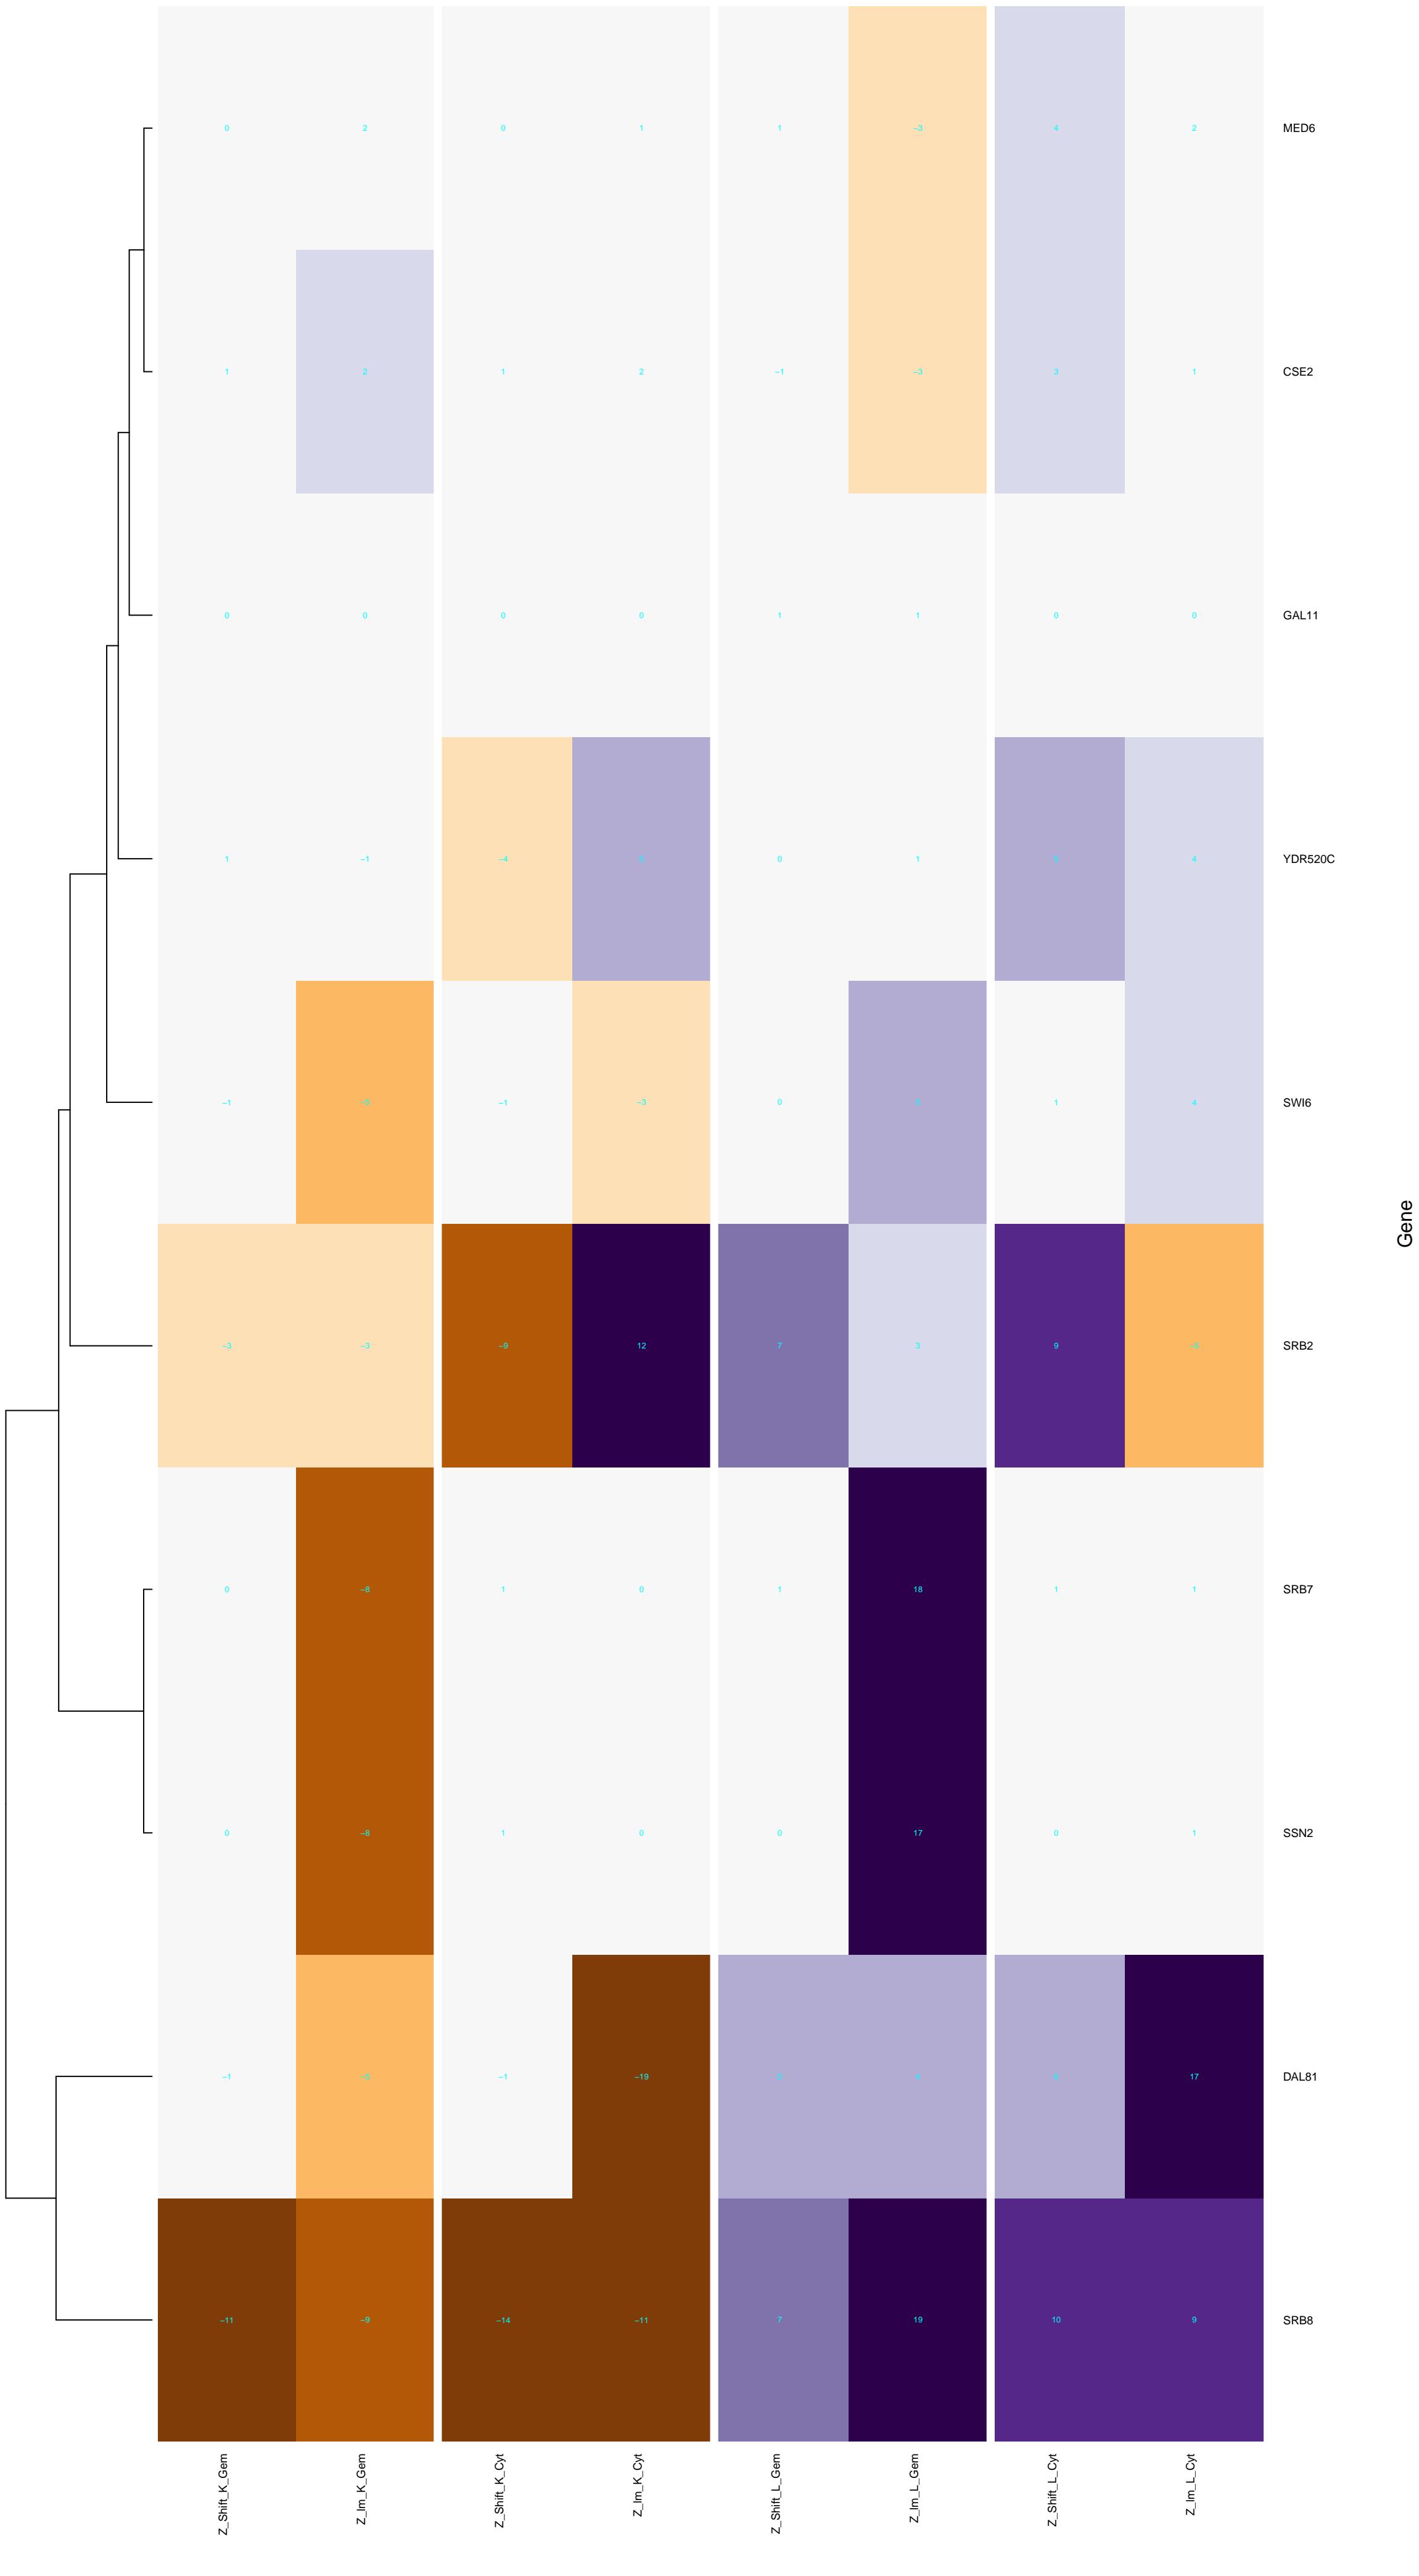

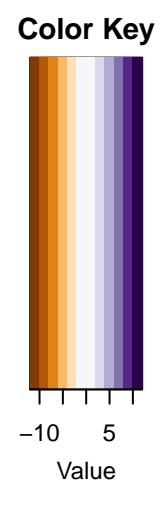

## transcriptional activator activity, RNA polymerase II transcription factor binding

## RNA polymerase II transcription coactivator activity

# Symerase II transcription coactivator activity involved in preinitiation complex assembly
