

Supplemental Material

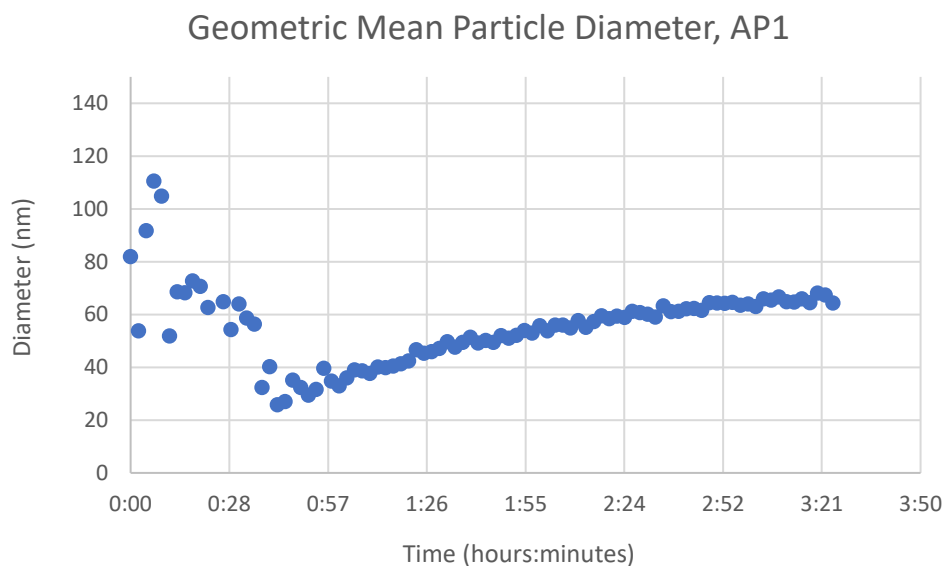

Figure S1. Geometric mean particle diameter for experiment AP1. Ozone injection occurred at approximately 42 minutes.

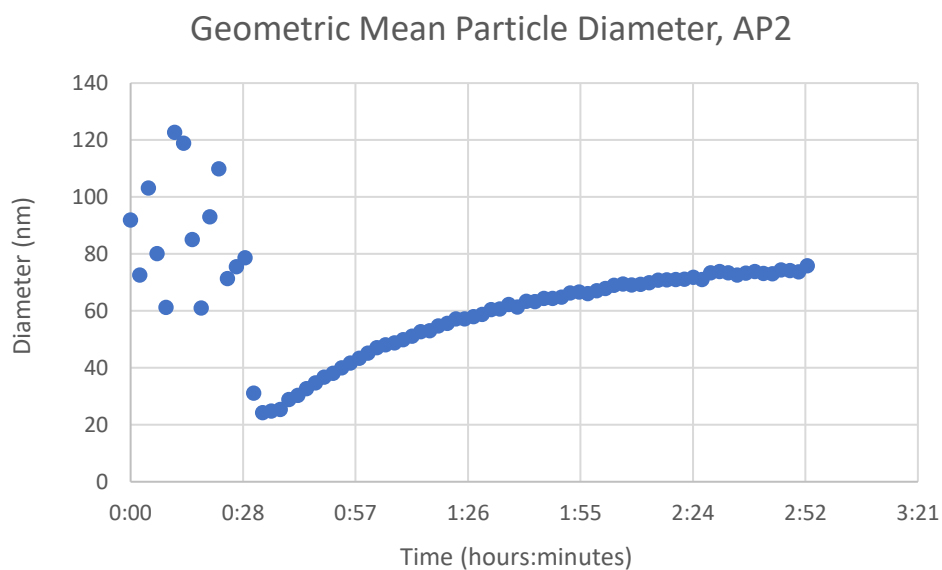

Figure S2. Geometric mean particle diameter for experiment AP2. Ozone injection occurred at approximately 30 minutes.

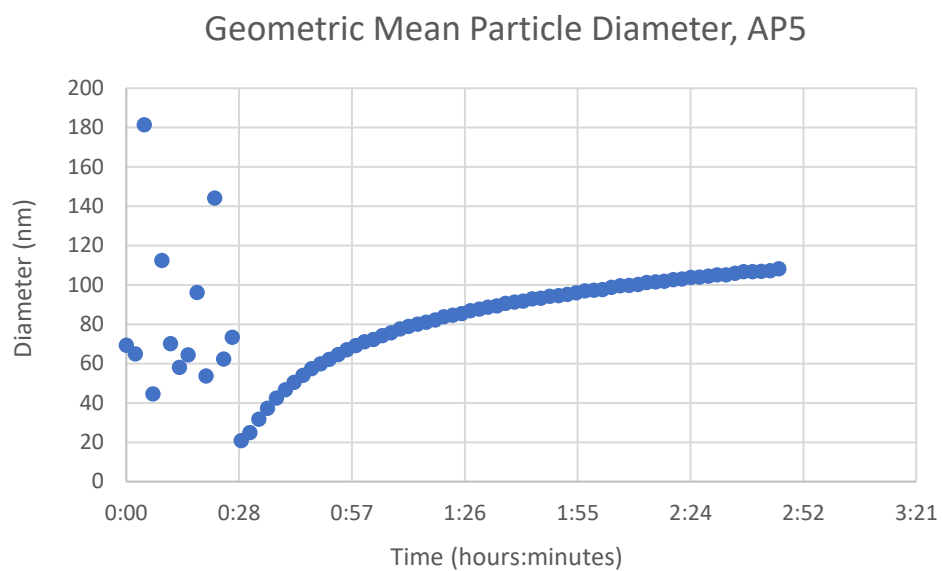

Figure S3. Geometric mean particle diameter for experiment AP5. Ozone injection occurred at approximately 27 minutes.

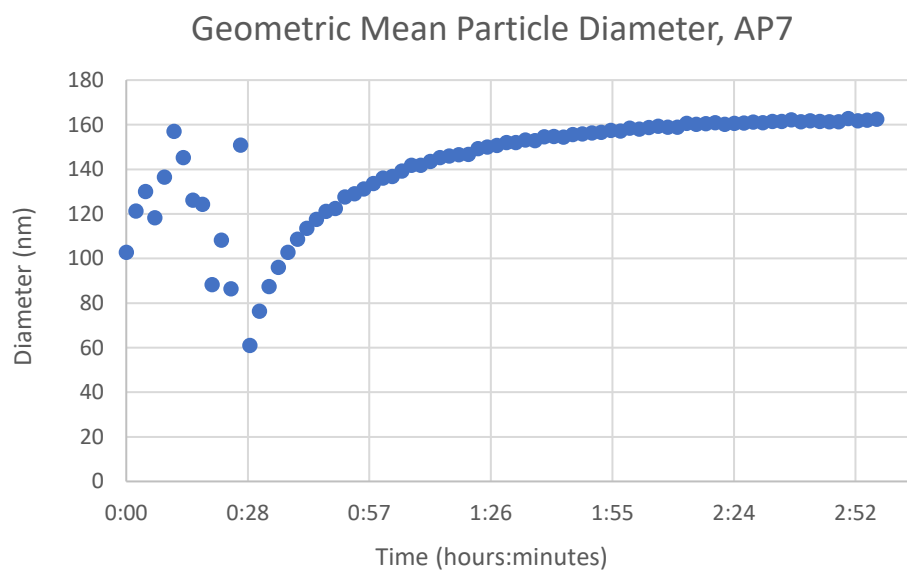

Figure S4. Geometric mean particle diameter for experiment AP7. Ozone injection occurred at approximately 26 minutes.

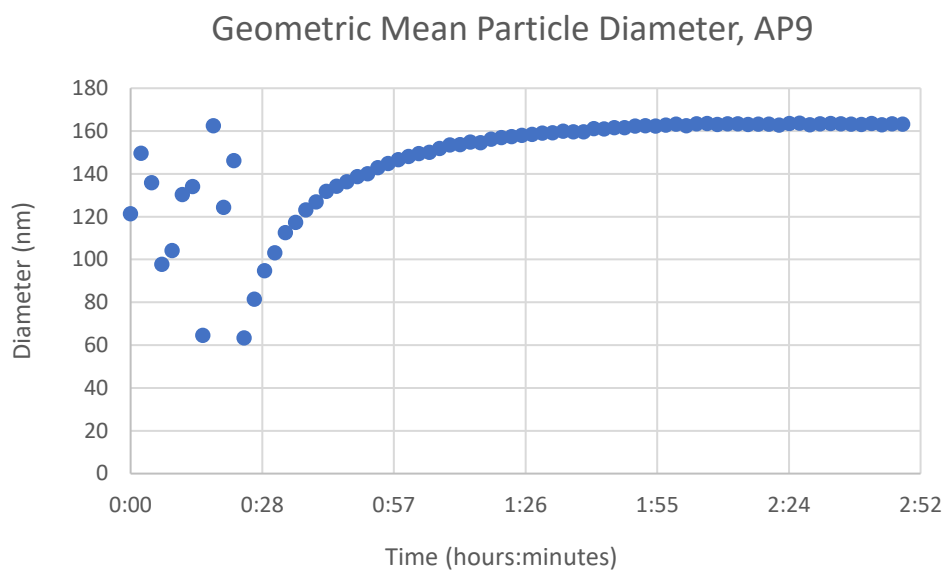

Figure S5. Geometric mean particle diameter for experiment AP9. Ozone injection occurred at approximately 23 minutes.

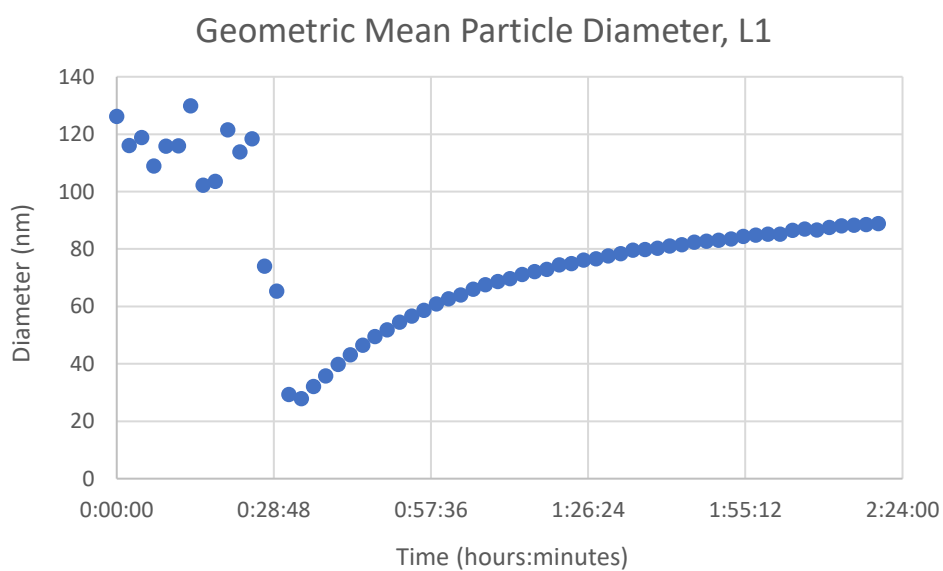

Figure S6. Geometric mean particle diameter for experiment L1. Ozone injection occurred at approximately 28 minutes.

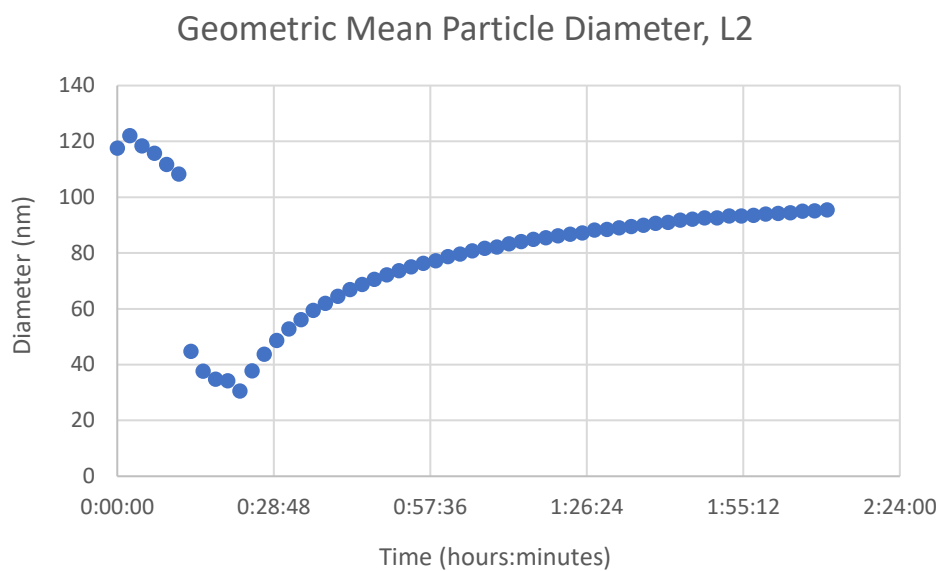

Figure S7. Geometric mean particle diameter for experiment L2. Ozone injection occurred at approximately 21 minutes.

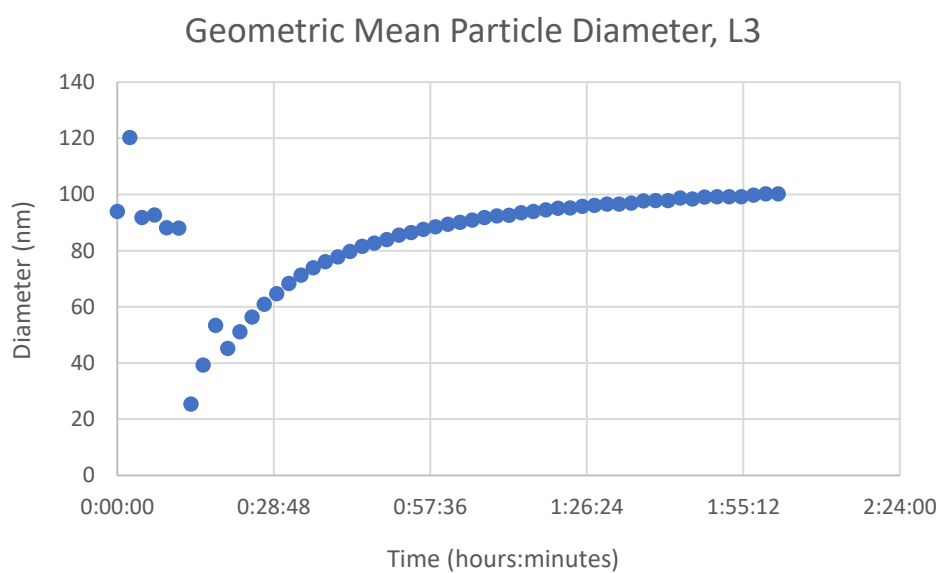

Figure S8. Geometric mean particle diameter for experiment L3. Ozone injection occurred at approximately 12 minutes.

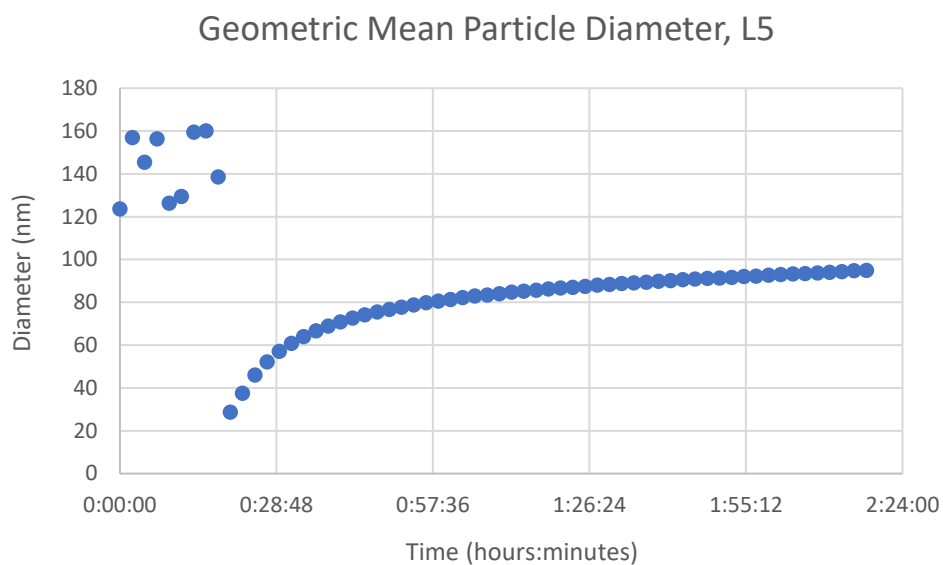

Figure S9. Geometric mean particle diameter for experiment L5. Ozone injection occurred at approximately 19 minutes.

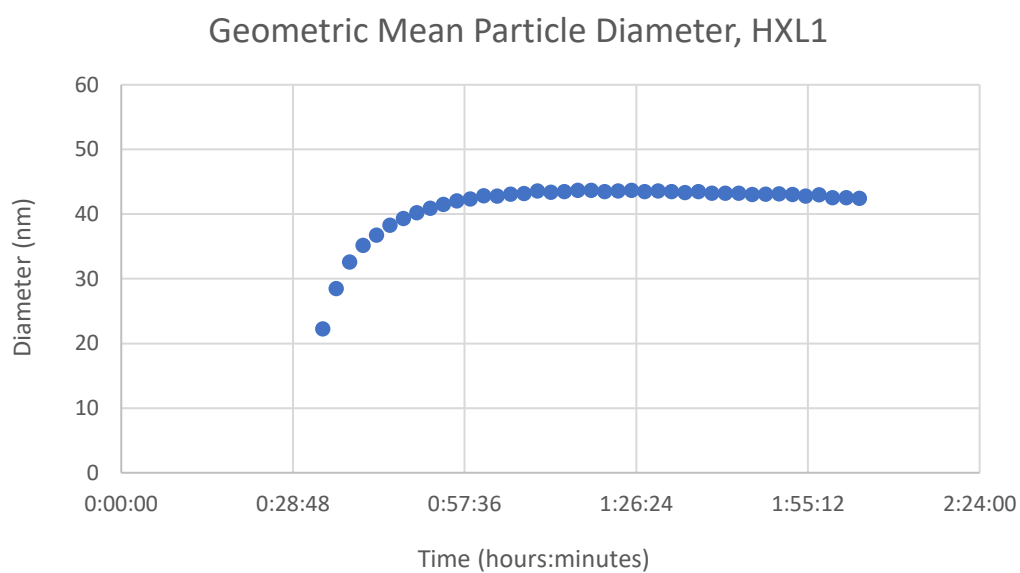

Figure S10. Geometric mean particle diameter for experiment HXL1. Ozone injection occurred at approximately 31 minutes.

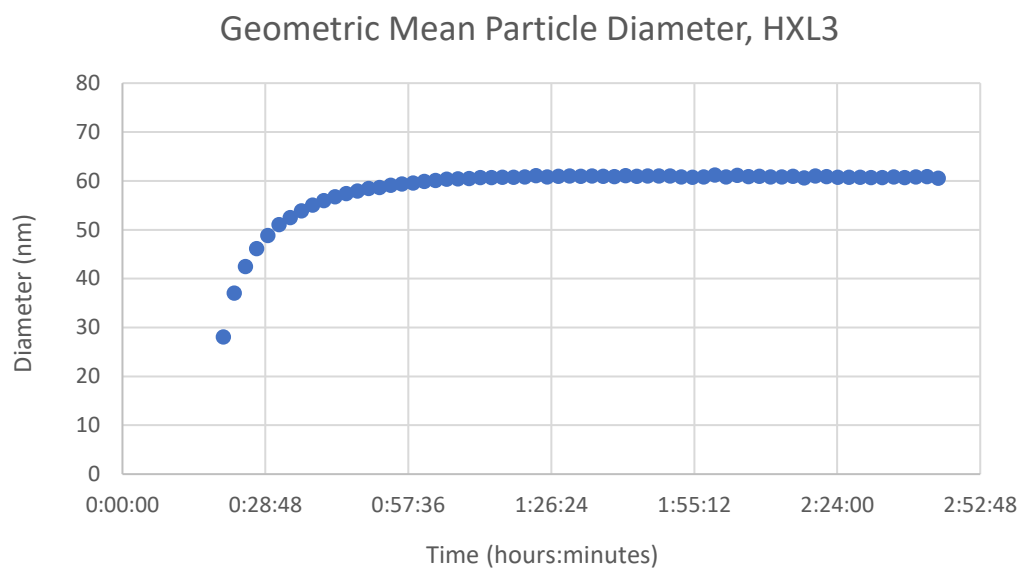

Figure S11. Geometric mean particle diameter for experiment HXL3. Ozone injection occurred at approximately 19 minutes.

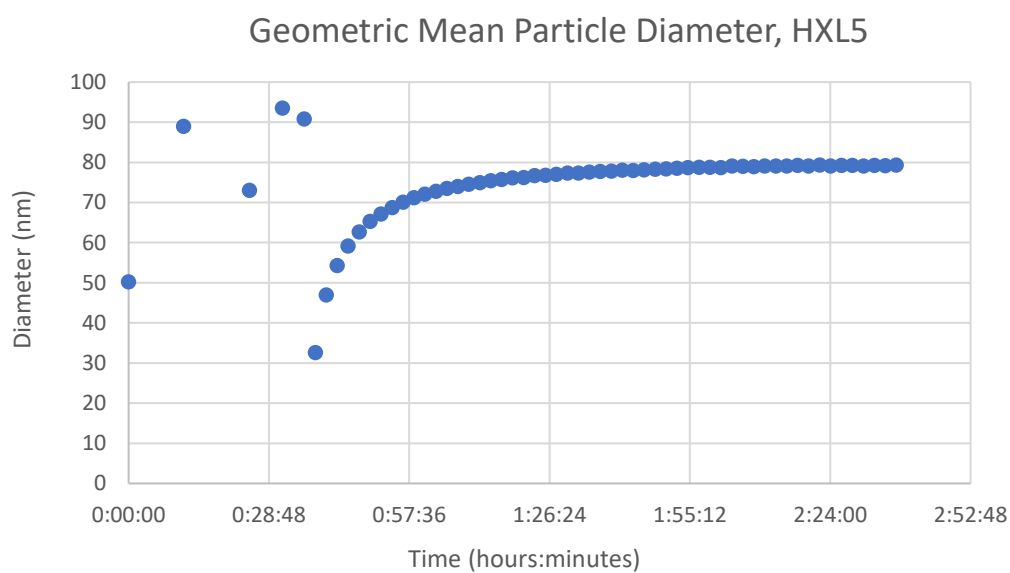

Figure S12. Geometric mean particle diameter for experiment HXL5. Ozone injection occurred at approximately 31 minutes.

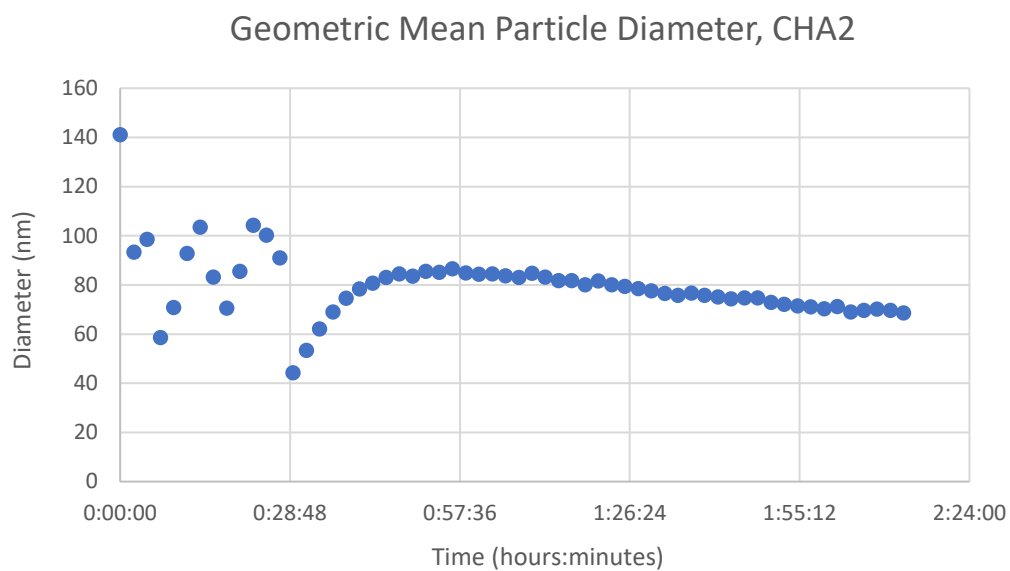

Figure S13. Geometric mean particle diameter for experiment CHA2. Ozone injection occurred at approximately 28 minutes.

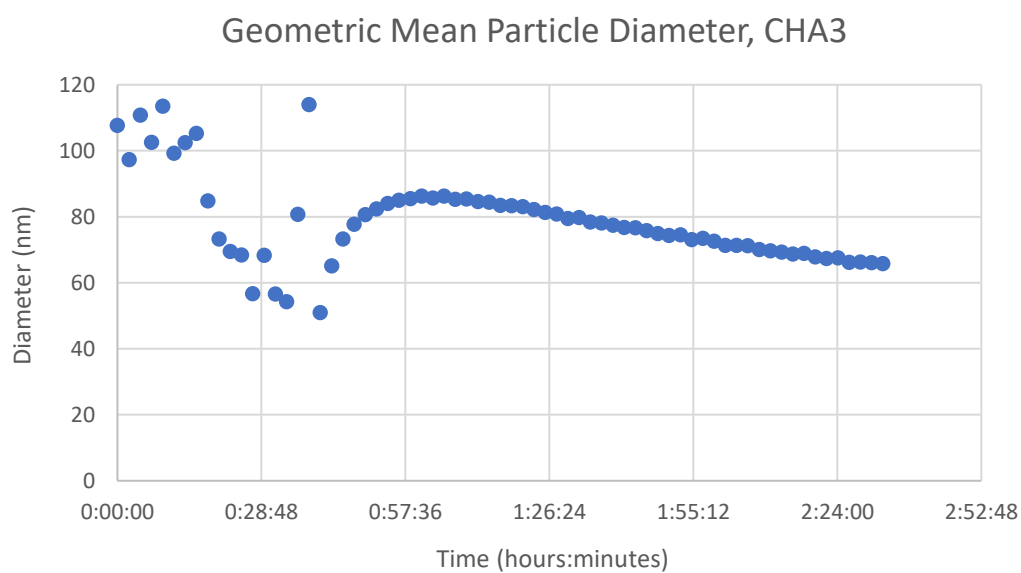

Figure S14. Geometric mean particle diameter for experiment CHA3. Ozone injection occurred at approximately 37 minutes.

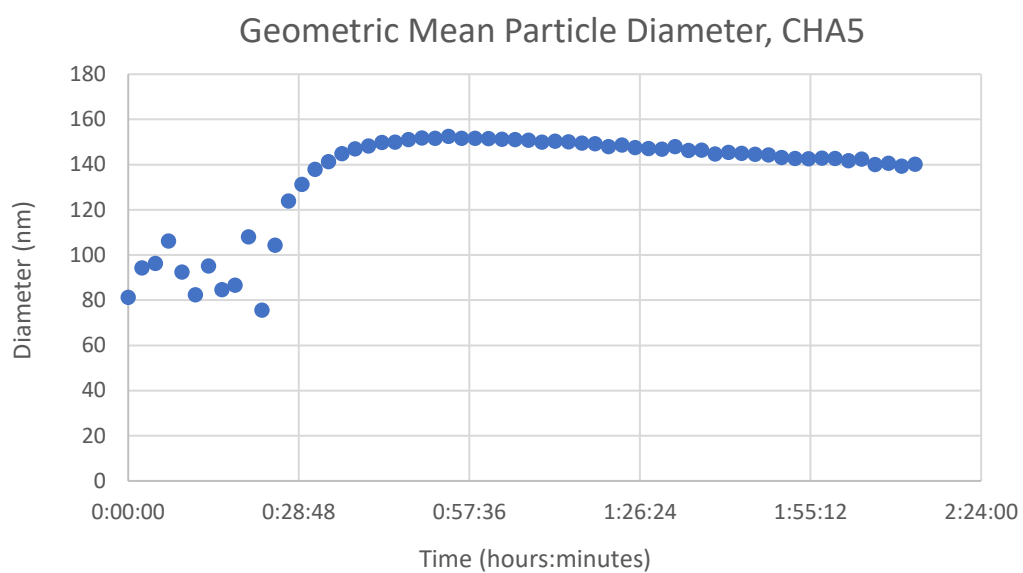

Figure S15. Geometric mean particle diameter for experiment CHA5. Ozone injection occurred at approximately 23 minutes.
