

Supplementary Materials:

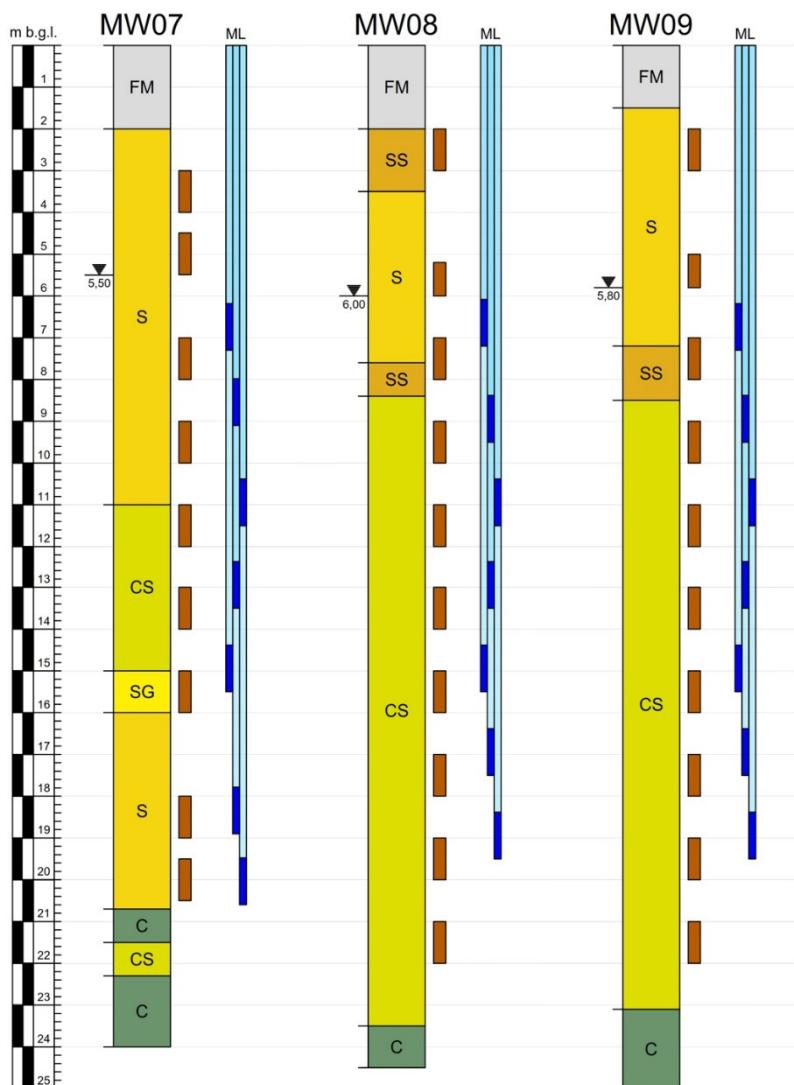

Figure S1. Simplified stratigraphic logs of the three monitoring wells drilled in 2018. **FM:** fill material; **SS:** fine sand with silt; **S:** sand; **CS:** coarse sand; **SG:** sand with gravel; **C:** clay. Brown boxes represent sediments core samples; light blues columns represent simplified construction schemes of Continuous Multichannel Tubing system (named ML).

Table S1. Sediments sampling elevation collected in 2018 sampling survey, CMT elevation levels and groundwater sampling elevation and As content in sediment and groundwater.
