***Symmetry* Best Paper Award 2015**

Sergei D. Odintsov

Institució Catalana de Recerca i Estudis Avançats (ICREA) and Institut de Ciències de l'Espai (IEEC-CSIC), Campus UAB, Carrer de Can Magrans, s/n 08193 Cerdanyola del Valles, Barcelona, Spain; E-Mail: odintsov@ieec.uab.es

Received: 5 June 2015 / Accepted: 5 June 2015 / Published: 8 June 2015

In order to recognize outstanding papers that have been published in *Symmetry*, the Editorial Board established an annual “*Symmetry* Best Paper Award”. We are pleased to announce the first “*Symmetry* Best Paper Award” for 2015. Nominations were selected by the Editorial Board Office, with all research articles published in 2013 and 2014 eligible for consideration. Following review and voting by the *Symmetry* Best Paper Award Committee, the following three papers have won *Symmetry* Best Paper Awards for 2015:

First Prize

Mohamed Azzouz

Fermi Surface Reconstruction due to Hidden Rotating Antiferromagnetism in N and P-Type High-TC Cuprates

Symmetry **2013**, *5*(2), 215–232; doi:10.3390/sym5020215

Available online: <http://www.mdpi.com/2073-8994/5/2/215>

Second Prize

Jeong-Yup Lee * and Robert V. Moody

Taylor–Socolar Hexagonal Tilings as Model Sets

Symmetry **2013**, *5*(1), 1–46; doi:10.3390/sym5010001

Available online: <http://www.mdpi.com/2073-8994/5/1/1>

Third Prize

Young S. Kim * and Marilyn E. Noz

Symmetries Shared by the Poincaré Group and the Poincaré Sphere

Symmetry **2013**, *5*(3), 233–252; doi:10.3390/sym5030233

Available online: <http://www.mdpi.com/2073-8994/5/3/233>

The first paper executes the occurrence of Fermi surface in rotating antiferromagnetism theory. The second paper describes the Taylor-Socolar tilings as model sets. The third paper discusses the fundamental role of symmetries in Poincare group.

These three papers are valuable contributions to *Symmetry*. On behalf of the *Symmetry* Best Paper Award Committee and the Editorial Board of *Symmetry*, I congratulate the winners for their significant contributions and thank them for choosing to publish their best work in *Symmetry*. In recognition of their accomplishments, Dr. Mohamed Azzouz, Dr. Jeong-Yup Lee and Dr. Young S. Kim will be awarded the privilege of publishing an additional research paper, with all publication fees waived, in Open Access format in *Symmetry*, after the standard peer-review procedure.

The Editorial Board and Editorial Staff at *Symmetry* is committed to meeting the needs of the symmetry research community by providing useful and timely reviews of all manuscripts submitted, and providing an Open Access journal for your results. Please consider submitting your work to *Symmetry*, and I look forward to announcing your paper as a *Symmetry* Best Paper in the future.
