

## Supplemental Figure. Propensity-score density before and after the matching

After PSM, 4,697 patients in the SGLT2is group were matched with 4,697 patients in the non-SGLT2is group. Propensity score density showed concordance in the SGLT2is (purple line) and non-SGLT2is (green line) groups.

PSM, propensity score matching; SGLT2is, sodium-glucose transporter 2 inhibitors
