

**N-Glycosylation profile reveals alteration in extracellular matrix organization pathway
in non-type bladder carcinoma**

Barnali Deb, Krishna Patel, Gajanan Sathe* and Prashant Kumar*

Supplementary figure S1: Identification of dysregulated N-glycosylation in bladder carcinoma cell lines.

Supplementary figure S2: Interaction of 32 proteins identified to be a part of integral part of the membrane or/and cell surface protein or/and a part of the extracellular region.
