RT, reduced tillage; CT, conventional tillage; NT, zero or no-tillage. <sup>#</sup> obtained through Imputation. <sup>§</sup> received through personal contact. <sup>\*</sup> from meta-analysis "Shan and Yan [39]". <sup>¶</sup> from study "Huang et al. [40]" estimated C/N value.

**Figure S1.** Flow chart for the selection process of the meta-analysis.

**Figure S2.** Funnel plot of effect size distribution around the overall mean effect size.

\*excluding three observations from three studies [1,21,22] with extremely high standard errors by setting limits (x-axis: -3–+3; y-axis: 0–1.2).
