Figure Legend

In the original publication [1], there was a mistake in the legend for **Figure 1–4**. **Using a two-sample t-test and two-tailed distribution**. The correct legend appears below.

Using one-way ANOVA

i. Figure 1: Change “(** $p < 0.001$ using a two-sample *t*-test and two-tailed distribution).” to “(** $p < 0.001$ using one way ANOVA).”

ii. Figure 2: Change “(** $p < 0.001$, * $p < 0.05$ using a two-sample *t*-test and two-tailed distribution).” to “(** $p < 0.001$, * $p < 0.05$ using one way ANOVA).”

iii. Figure 3: change “(** $p < 0.001$, * $p < 0.05$ using a two-sample *t*-test and two-tailed distribution).” to “(** $p < 0.001$, * $p < 0.05$ using one way ANOVA).”

iv. Figure 4: change “(** $p < 0.001$, * $p < 0.05$ using a two-sample *t*-test and two-tailed distribution).” to “(** $p < 0.001$, * $p < 0.05$ using one way ANOVA).”

Text Correction

There was an error in the original publication. **Full name of PHMB missing in Introduction**. A correction has been made to **Introduction**, **Paragraph Number—3**:

Polyhexamethylene biguanide

i. Change “PHMB or chlorhexidine are widely used to treat this infection as monotherapies or in combination” to “Polyhexamethylene biguanide or chlorhexidine are widely used to treat this infection as monotherapies or in combination”.

The authors state that the scientific conclusions are unaffected. This correction was approved by the Academic Editor. The original publication has also been updated.
