

## Supporting Information Figure S2:

**Figure S2.** Two-dimensional plots including position of neutral or anionic (blue) and cationic (red) preservatives in chemical space: (a) plot of number of hydrogen-bonding donors (HBD) vs. MW; (b) plot of number of hydrogen-bonding acceptors (HBA) vs. MW; (c) plot of relative flexibility (nrotb/MW \*10) vs. molecular weight (MW).
