

Figure S6a

Correlation between total repeat content and genome size

w/ locust

w/o locust

Correlation between major TEs contents and genome size in crickets (w/o locust)

Figure S6b

Correlation between total repeat content and median length of intron

w/ locust

w/o locust

Correlation between major TEs contents and median length of intron (w/o locust)

Figure S6c

Correlation between genome size and median length of intron

w/ locust

w/o locust
