AC – air conditioner; EDC – electrostatic dust collector; BAL – bronchoalveolar lavage; BL – bronchial lavage; H1 to H10 –hospitals' ID (from where the isolates were collected); N.A. – non applicable; R – resistant to azoles.

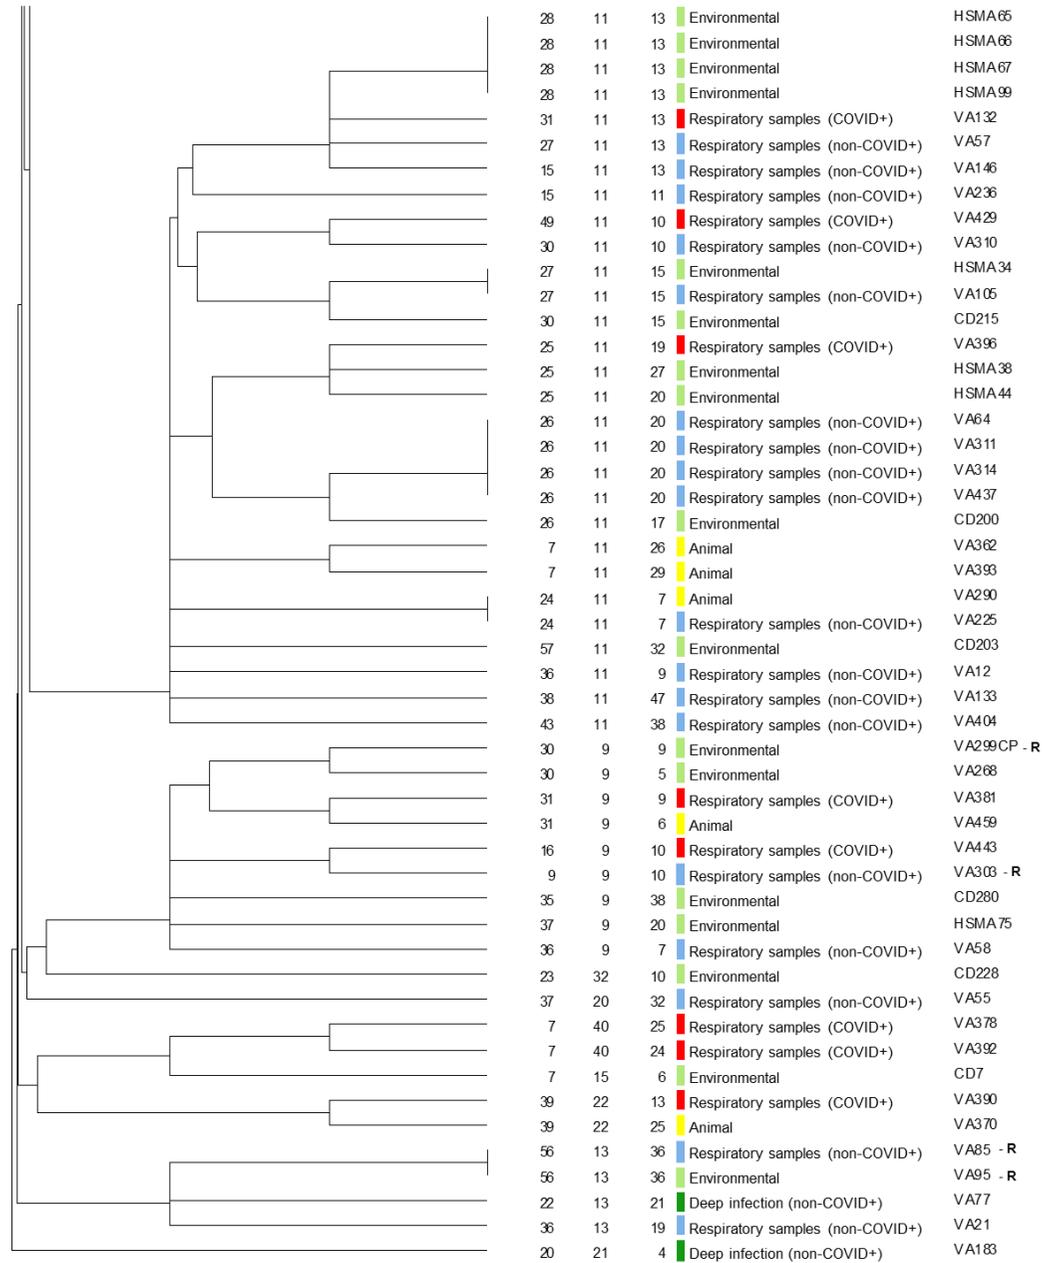

Figure S1. Dendrogram obtained in the Bionumerics 6.6 software (Applied Maths) using a categorical similarity coefficient and an unweighted paired group method with arithmetic mean (UPGMA) for the cluster analysis. R – resistant to azoles.
