To date, much progress has been achieved in the field of Otorhinolaryngology—Head and Neck surgery, as well as hearing and balance science and medicine. A large number of new techniques and methods have also recently been established. In the basic research field of sensorineural hearing loss, significant advances include: the discovery of numerous inherited deafness-associated genes [1], progress in cochlear cell development and regeneration [2], new insights on acquired hearing loss and its prevention [3], as well as auditory central physiological and pathological mechanisms [4]. The pathogenesis of otogenic vertigo, and comprehensive individualized and procedural treatment programs are becoming well-established [5]. The diagnosis and retraining therapy for tinnitus have also seen breakthroughs [6]. Advances have been made in assessment of otitis media, and its classification and treatment [7]. A groundbreaking discovery in the pathogenesis of allergic rhinitis—allergic rhinitis and its impact on asthma (ARIA)—has redefined the classification of rhinitis and allergic rhinitis [8], and the mechanism and treatment of sinusitis [9]. In addition, there have been fruitful results in research related to the pathogenesis and treatment of obstructive sleep apnea-hypopnea syndrome (OSAHS) [10], the pathogenesis of head and neck neoplasms, and molecular epidemiology [11], as well as their comprehensive treatment.

In order to provide a forum for this broad clinical and scientific field, we have established a multidisciplinary publication, the Journal of Otorhinolaryngology, Hearing and Balance Medicine (OHBM). We aim to publish original research articles (including basic research, translational research as well as clinical studies), review articles and case reports in all areas of Otorhinolaryngology—Head and Neck medicine including hearing and balance science, otology, neurotology, rhinology, laryngology, head and neck surgery, bronchoesophagology, maxillofacial and plastic surgery, audiology and speech science and medicine, oncologic medicine and pediatric otorhinolaryngology, but also the quickly developing fields of allergology, skull base surgery, and sleep medicine.

We are very proud to welcome our founding Editorial Board Members, a group of more than 50 established academics and clinicians from all over the world. On behalf of the Editorial Board, we invite you to submit your manuscripts to and suggestions for OHBM and other interesting ideas for this discipline. Please see the Appendix A for the current Editorial Board leadership of the Journal of Otorhinolaryngology, Hearing and Balance Medicine (OHBM).
Appendix

Editor-in-Chief

Wei-Jia Kong, Department of Otorhinolaryngology, Union Hospital, Tongji Medical College, Huazhong University of Science and Technology, Jiefang Avenue1277, Wuhan 430022, China

Associate Editors

Richard Salvi, 137 Cary Hall, Center for Hearing & Deafness, University at Buffalo, Buffalo, NY 14214, USA

Jochen Schacht, Department of Otolaryngology, Kresge Hearing Research Institute, University of Michigan, Ann Arbor, MI 48109-5616, USA

Editorial Board of OHRBM

Friedrich Bootz, Department of Otorhinolaryngology/Head and Neck Surgery, University Hospital of Bonn, Bonn, Germany

Itzhak Brook, Department of Pediatrics, School of Medicine, Georgetown University, 4431 Albemarle Street, NW, Washington, DC, 20016, USA

Renjie Chai, Institute of Life Sciences, Southeast University, Nanjing 210096, China

Zheng-Yi Chen, Department of Otolaryngology, Harvard Medical School, 243 Charles St, Boston, MA 02114, USA

Ping Helen Chen, Department of Cell Biology, Emory University, 615 Michael St, 1941/001/1AF, Atlanta, GA 30322, USA

Fangyi Chen, Department of Biomedical Engineering, South University of Science and Technology of China, Shenzhen 518055, China

Lin Chen, Auditory Research Laboratory, School of Life Sciences, University of Science and Technology of China, Hefei 230027, China

Seong Ho Cho, Division of Allergy, Department of Internal Medicine, Morsani College of Medicine, University of South Florida, Tampa, FL 33620, USA

Jacquelynne P. Corey, Department of Surgery, Section of Otolaryngology–Head and Neck Surgery, University of Chicago Medical Center, Chicago, IL 60637, USA

Vincent Cousins, ENT-Otoneurology Unit, The Alfred Hospital, Melbourne, Australia Department of Surgery, Monash University, Melbourne 3800, Australia

Pu Dai, Department of Otolaryngology, PLA General Hospital, Beijing 100853, China

Dalian Ding, Center for Hearing and Deafness, Department of Communicative Disorders and Sciences, State University of New York at Buffalo, 137 Cary Hall, 3435 Main Street, Buffalo, NY 14214, USA

Maoli Duan, Department of Clinical Science, Technology and Intervention, Karolinska Hospital, Karolinska Institutet, Stockholm 14183, Sweden

Ana Belén Elgoyhen, Departamento de Farmacología Facultad de Medicina, Universidad de Buenos Aires and Instituto de Investigaciones en Ingeniería Genética y Biología Molecular, Dr. Héctor N. Torres (INGEBI), Consejo Nacional de Investigaciones Científicas y Técnicas (CONICET) Buenos Aires 1417, Argentina
Michael Setzen, Department of Otolaryngology, School of Medicine, New York University, New York, NY 10276, USA
Su-hua Sha, Department of Pathology & Laboratory Medicine, Medical University of South Carolina, 39 Sabin Street, Charleston, SC 29414, USA
Frank Wallner, Department of Otolaryngology, University Heidelberg, Heidelberg 69120, Germany
Lei Wang, Institutes of Biomedical Science, Fudan University, 138 Yixueyuan Road, Shanghai 200032, China
Qiuju Wang, Chinese PLA Institute of Otolaryngology, Chinese PLA General Hospital, Medical School of Chinese PLA, 28 Fuxing Road, Beijing 100853, China
Hao Wu, Department of Otolaryngology Head and Neck Surgery, 9th People’s Hospital, School of Medicine, Shanghai Jiao Tong University, Shanghai 200092, China
Zhigang Xu, School of Life Science, Shandong University, Jinan, Shandong 250100, China
Jingying Ye, Department of otolaryngology-head neck surgery, Beijing Tsinghua Changgung Hospital, Tsinghua University, No.168 Litang Road, Dongxiaokou Town, Changping District, Beijing, China
Shankai Yin, Department of Otorhinolaryngology, Shanghai Jiao Tong University Affiliated Sixth People’s Hospital, Shanghai 201306, China
Huijun Yuan, Medical Genetics Center, Southwest Hospital, Third Military Medical University, Chongqing 400038, China
Nan Zhang, Ghent University Hospital, ENT Department, Upper Airways Research Laboratory, Medical Research Building (MRB, groundfloor) De Pintelaan 185, 9000 Ghent, Belgium
Luo Zhang, Beijing Institute of Otolaryngology, Beijing 100005, China
Xiaowen Zhang, State Key Laboratory of Respiratory Disease, Department of Otolaryngology-Head and Neck Surgery, Laboratory of ENT-HNS Disease, First Affiliated Hospital, Guangzhou Medical University, Guangzhou, China
Hongliang Zheng, Department of Otorhinolaryngology-Head and Neck Surgery, Shanghai Jiaotong University, Shanghai 200433, China
Qingyin Zheng, Department of Otolaryngology—Head and Neck Surgery, School of Medicine, Case Western Reserve University, Cleveland, OH 44106, USA
Xiaoming Zhou, Key Laboratory of Brain Functional Genomics of Ministry of Education, East China Normal University, Shanghai 200062, China
Jing Zou, Department of Otolaryngology-Head & Neck Surgery, Shanghai Jiaotong University, Shanghai 200433, China
