Rigorous peer reviews are the basis of high-quality academic publishing. Due to the great efforts of our reviewers, *Forecasting* was able to maintain its standards for the high quality of its published papers. Due to the contributions of our reviewers, in 2021 the median time to a first decision was 16 days, and the median time to publication was 42.5 days. The Editors wish to extend their gratitude and recognition to the following reviewers for their precious time and dedication, regardless of whether the papers they reviewed were finally published:
