Deadline for manuscript  
submissions:

**30 June 2024**

### Message from the Guest Editor

Integrated Pest Management (IPM) plays a pivotal role in sustainable agriculture, particularly in the cultivation of irrigated crops. This Special Issue aims to gather innovative research and advancements in the development and implementation of IPM strategies tailored specifically to irrigation-based agricultural systems. It seeks to address the growing challenges posed by pests and diseases in such environments. We invite contributions that cover various aspects of IPM, including novel pest control methods, ecological approaches, technological innovations, and interdisciplinary studies.

The topics of interest include, but are not limited to, the following:

Novel pest and disease management techniques in irrigation agriculture;

Biocontrol agents and their applications in integrated pest management;

Sustainable approaches for minimizing pesticide usage and environmental impact;

Precision agriculture and technology-driven pest management solutions;

Economic and social implications of implementing IPM in irrigation crop production;

Case studies, reviews, and experimental findings advancing IPM practices.

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Agriculture* (ISSN 2077-0472) is an international, crossdisciplinary and scholarly open access journal on the science and technology of crop and animal production, and management of the natural resource base for agricultural production. *Agriculture* is published in an open access format – research articles, reviews and other contents are released on the internet immediately after acceptance. The scientific community and the public have unlimited and free access to the content as soon as it is published.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubAg, AGRIS, RePEc, and other databases.

**Journal Rank:** JCR - Q1 (*Agronomy*) / CiteScore - Q2 (*Plant Science*)
